13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Based on verbal discussion w/Gary Gourley (BLM, Roswell Office), Matador Operating Company proposes to make the following changes to the approved drilling permit:

- (1) Change the required BOPE to 2000 psi rating down to intermediate casing point at 4850' (maximum possible surface pressure < 2000 psi).
- (2) Change the required annular cement fill behind the 5-1/2" production casing to 500' above the uppermost productive horizon (most likely the 1st Bone Spring Sand at $\pm$ 9400' which would result in proposed top of cement at $\pm$ 8900').
