Re: Proposed NSP _____

Proposed NSL _____

Proposed NFC _____

Proposed DC _____

Gentlemen:

Triple X

I have examined the application dated 4/26/62

for the Texaco, Inc. C. H. Hair "A" #8 12-20-37
Operator Lease and Well No. S-T-R

and my recommendations are as follows:

O.K.---E.F.E.

Geologically O.K.---J.W.R.

Yours very truly,

OIL CONSERVATION COMMISSION

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes the need for transparency and accountability in financial reporting.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It includes a detailed description of the experimental procedures and the tools used for data collection.

3. The third part of the document presents the results of the study, including a comparison of the different methods and techniques used. It discusses the strengths and weaknesses of each method and provides a summary of the findings.

4. The fourth part of the document discusses the implications of the study and provides recommendations for future research. It highlights the need for further investigation into the effectiveness of the different methods and techniques used.

5. The fifth part of the document provides a detailed description of the experimental procedures and the tools used for data collection. It includes a list of the equipment and materials used, as well as a description of the experimental setup and the procedures used to collect and analyze the data.

6. The sixth part of the document presents the results of the study, including a comparison of the different methods and techniques used. It discusses the strengths and weaknesses of each method and provides a summary of the findings.

7. The seventh part of the document discusses the implications of the study and provides recommendations for future research. It highlights the need for further investigation into the effectiveness of the different methods and techniques used.

8. The eighth part of the document provides a detailed description of the experimental procedures and the tools used for data collection. It includes a list of the equipment and materials used, as well as a description of the experimental setup and the procedures used to collect and analyze the data.

9. The ninth part of the document presents the results of the study, including a comparison of the different methods and techniques used. It discusses the strengths and weaknesses of each method and provides a summary of the findings.

10. The tenth part of the document discusses the implications of the study and provides recommendations for future research. It highlights the need for further investigation into the effectiveness of the different methods and techniques used.

11. The eleventh part of the document provides a detailed description of the experimental procedures and the tools used for data collection. It includes a list of the equipment and materials used, as well as a description of the experimental setup and the procedures used to collect and analyze the data.

12. The twelfth part of the document presents the results of the study, including a comparison of the different methods and techniques used. It discusses the strengths and weaknesses of each method and provides a summary of the findings.

13. The thirteenth part of the document discusses the implications of the study and provides recommendations for future research. It highlights the need for further investigation into the effectiveness of the different methods and techniques used.
