Dear Sir:

Gulf Oil Corporation requests your administrative approval for an amendment to NSP-129, for a 240-acre non-standard proration unit in the Eumont Gas Pool, consisting of the NE $\frac{1}{2}$ and the E $\frac{1}{2}$ of the NW $\frac{1}{4}$ of Section 17-T20S-R37E, Lea County, New Mexico to be dedicated simultaneously to our Theodore Anderson Well #7, located 1980' FNL and 660' FEL, Section 17-T20S-R37E and the Theodore Anderson Well #4, located 1980' FEL and 660' FNL, Section 17-T20S-R37E, which had been previously dedicated to the aforementioned 240-acre non-standard proration unit.

Theodore Anderson #7 had previously been producing from the Eunice-Monument Pool.

In support of this application the following facts are submitted:

- (1) There are no other wells producing from the Eumont Gas Pool in this non-standard proration unit.
- (2) The attached plat shows the 240-acre unit and the well outlined.
- (3) All offset operators have been furnished a copy of this application.

Your early consideration will be appreciated.

Yours very truly,

R. C. Anderson
