Re: Lease Las Cruces 031695(b)

Gentlemen:

Receipt is acknowledged of "Notice of Intention to Drill" dated November 6, 1956, covering your well No. 21 Warren Unit Elinebry on the subject leasehold in the NW 1/4 sec. 33, T. 20 S., R. 34 E., N.M.P.M., Terry-Elinebry and Tubb Pools, Lea County, New Mexico.

Your proposed work is approved subject to compliance with the provisions of the "Oil and Gas Operating Regulations" revised May 25, 1942, copy of which will be furnished you on request, and subject to the following conditions:

1. Drilling operations so authorized are subject to the attached sheet (revised February 1955) for general conditions of approval.

Very truly yours,

H. A. DuPont
District Engineer

(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is our intention to drill a well at the above location to a total depth of approximately 6700' with rotary tools in order to develop the Blinbery oil and Tubb gas reserves and to meet demands of the U. S. Geological Survey for further development of Federal leases comprising the Warren Unit. All casing points will be cemented in accordance with approved methods of the U. S. Geological Survey and any other special requirements will be complied with.

It is planned to use the following casing patterns: 13 3/8" to be set at 275' and cemented with approximately 265 sacks, cement to be circulated. 9 5/8" to be set at 3050' and cemented with approximately 900 sacks. 7" to be set at 6700' and cemented with approximately 220 sacks, and to be perforated opposite the pay zones.

Approval to produce this well upon completion is also requested.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

ILLEGIBLE

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the data is as accurate and reliable as possible.

The third part of the document provides a detailed breakdown of the results. It shows that there has been a significant increase in sales over the period covered. This is attributed to several factors, including improved marketing strategies and better customer service.

Finally, the document concludes with a series of recommendations for future actions. These include continuing to invest in marketing, improving operational efficiency, and maintaining the high standards of data accuracy.

The data indicates a steady growth in revenue, with a notable spike in the third quarter. This suggests that the current business model is effective and sustainable. However, there are still areas for improvement, particularly in the areas of cost management and customer retention.

It is important to note that the data is preliminary and subject to change. Further analysis and reporting will be provided as more information becomes available.

In conclusion, the document provides a comprehensive overview of the company's performance. It highlights the strengths and identifies the areas for improvement. The author believes that by following the recommendations, the company can continue to grow and succeed in the long term.

Thank you for your attention and support.
