Re: Reclassification of Well  
Eumont Pool  
W.A. Ramsay NCT-A #27  
Unit B, Sec. 34, T21S, R36E

Gentlemen:

Due to the recently submitted scheduled gas/oil ratio test the above-referenced well will be reclassified from gas to oil effective July 1, 1992, and the gas allowable cancelled that date.

If for some reason you feel this test does not reflect the proper classification of this well, please submit another test for our consideration by April 20, 1992.

If the well is to be reclassified from gas to oil you will need to file revised Form C-102, acreage dedication plat, outlining 40 acres for this oil well completion. This well shares a 480-ac gas proration unit so you will need to have the 480-ac NSP reduced by the deletion of this 40 acres. Also, if the gas transporter changes due to reclassification, you will need to file C-104 so indicating.

Very truly yours,

OIL CONSERVATION DIVISION
