Re: Well Reclassification
Mark #5-A
Sec. 3, T22S, R37E
Tubb Oil and Gas Pool

Gentlemen:

Due to the recently submitted gas-oil ratio test for the above-referenced well, it will be reclassified as a gas well in the Tubb Oil and Gas Pool effective January 1, 1987, and the oil allowable cancelled that date.

If for some reason you feel this test does not reflect the proper classification of the well, please submit a new test for our consideration by November 24, 1986.

Please submit Form C-102, acreage dedication plat, outlining acreage dedicated to this gas well classification, along with NSP number if applicable. Also, in the event there is a transporter change due to the reclassification, please submit Form C-104 so indicating. Please advise this office if gas well gas is separately metered.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

ed

P.S. In the past when this well has been classified as a gas well it has shared a proration unit with well #4, and if it will be sharing that proration unit you will need to submit a revised plat for well #4.

Submitted new test reclassification
