Re: DHC-694
Parks A #4-I 14-22-37
Drinkard and Tubb Pools

Gentlemen:

The C-103 submitted August 2, 1988, indicates the Drinkard and Tubb zones have been downhole commingled in the above-referenced well as authorized by DHC-694.

The Tubb zone is a prorated gas zone and it is your responsibility to advise El Paso Natural Gas of this downhole commingle authority and make certain they report the gas takes on their C-111 according to the percentage allocations established by DHC-694.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
