Mr. F. J. Vesely,
Box 522
Carlsbad, N. M.

Dear Sir:

We are enclosing copies of "Notice of Intention to Drill" on our Hughes #1 in Section 4-23-37, U. S. Permit Las Cruces 032452.

These are copies of report filed with U. S. G. S. on this location. As we understand it, in connection with the drilling of wells on Federal lands copies of reports to the Federal Government are sufficient for the State. The above location was approved by the U. S. G. S. on July 2nd.

If it will not be sufficient to furnish you with copies of notice and reports to the U. S. G. S., please advise us what will be necessary to comply with your requirements.

Yours very truly,

SAMEDAN OIL CORPORATION

It is not necessary to file notice of intention to drill, we would however, like to have the well passed filed.
