Dear Sir:

Gulf Oil Corporation requests your administrative approval for an unorthodox location for C. E. LaMunyon No. 10, located 1650' FSL and 990' FWL of Section 22-23S-37E, Lea County, New Mexico. This well was recently recompleted in the North Teague Devonian Gas Pool. In support of this application, the following facts are submitted:

1. The Statewide Rules, which govern the North Teague Devonian Gas Pool, require that the well be located not closer than 660' from the nearest side boundary nor 1980' from the nearest end boundary nor closer than 330' from any quarter-quarter section or subdivision inner boundary of the 320 acre proration unit, necessitating this request.

2. The recompletion of this well in the North Teague Devonian Gas Pool represents reasonable development of this pool.

3. Well No. 10 is located on the same 320 acre proration unit as C. E. LaMunyon Well No. 8, as indicated on the attached plat.

4. This application is in the interest of conservation and the prevention of waste.

5. Copies of this application were mailed to offset operators June 13, 1977.

6. Thank you for your consideration in this matter and if additional information is needed, please advise.

Yours very truly,

  
C. D. BORLAND
