FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Permit for this well was granted April 27, 1936, as a rotary drilled well. It is now our intention to drill this well with cable tools and as a consequence the casing record will be as follows:

12 1/2"	50#	SH	15' in red bed	landed	
10"	40#	SH	700'	landed	
8-5/8"	32#	SH	1275' 9 1/2'	Cemented	75 sax
Note: In Lieu of 12 1/2" Casing cemented 2500' into Red Beds, it is necessary to cement around 10" Casing from 170' (or 20' in Red Beds) to surface, thus confining surface water to its original stratum.					200 sax

300 sax of cement will be sufficient to fill the hole on outside of 10" from 170' to surface.
