13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Lanexco, Inc. respectfully requests approval to continue this well as TA'd. The casing will be pressure tested to insure the integrity of such. Last previous test was done 9-29-95 and was a successful integrity test. We are considering converting this well to a salt water disposal, for this lease due to the increasing high prices for salt water disposal, and the continuing decrease in prices we are paid for Oil and Gas. If this well is plugged this lease may not be economical to operate, and could be lost.
