Re: Johnson & French Oil Company
Woolworth #1-H
Section 26, T24S, R36E

The above-referenced well has been plugged; however, the surface location still has a tank, tie downs, flow line and fence still on location.

The people that owned the company have all died and there is no one to contact for cleanup of the surface. It has been 14 years since the well was plugged and we will not pursue any further cleanup of the location.
