

**SPILL  
NOTIFICATION  
& REMEDIAL  
WORK**

ENVIRONMENTAL DIVISION  
RECEIVED

85 DEC 4 AM 8 52

STATE OF NEW MEXICO  
NMOCD District I

INTER-OFFICE MEMO

To file: Arco Pipeline

Date: Dec. 04, 1995

Time:

Telephone call:   X   Meeting:        Other:       

Person called or attending:

Larry Graves-Arco  
Midland Tx. Tele. # 915-685-9510  
Fax. # 915-685-9531

REFERENCE: Recent Crude Oil Spill at the Hobbs Pipeline Crude  
Oil St.in Oct. 1995.

Subject: Notification of additional remedial work.

Comments:

Arco notified us that due to the test results of the bottom hole samples, they would like to excavate additional materials in order to ensure they have a clean closure. Previous excavated materials have been tested and deemed non-hazardous and placed on plastic for on-site bioremediation.

Granted Arco permission to proceed. Arco will notify NMOCD District office when excavation begins.

Arco will submit C-103 for approval of work plan which will include the following:

1. All test results as of to date.
2. Remediation work plan to include clean-up levels and a time schedule for all excavated soils.

Graves and Price discussed RCRA TCLP 20:1 extraction procedures TCLP vs Totals per SW-846, for benzene.
