Re: Application of Avant Operating, LLC for administrative approval of a 640-acre, more or less, non-standard spacing unit in the Wolfcamp Formation comprised of Section 32, Township 19 South, Range 35 East, Lea County, New Mexico.

Dear Director Fuge/OCD Engineering Bureau:

Avant Operating, LLC ("Avant"), OGRID Number 330396, respectfully requests administrative approval of a 640-acre, more or less, non-standard unit ("NSU") comprised of Section 32, Township 19 South, Range 35 East, Lea County, New Mexico. The Wells will be completed within the Klein Ranch; Wolfcamp pool; (Pool ID: 96989). This pool is an oil pool and it follows the statewide spacing rules.

The NSU would be dedicated to the following wells (the "Wells"):

- Angry Angus 32 State Com 701H well (30-025-51567)
- Angry Angus 32 State Com 702H well (30-025-51568)
- Angry Angus 32 State Com 703H well (30-025-51622)
- Angry Angus 32 State Com 704H well (30-025-51623)
- Angry Angus 32 State Com 705H well (30-025-51624)

C-102s for each well are attached hereto as **Exhibit A**. Each well will comply with the statewide setback requirements for the non-standard spacing unit.

In this NSU application, Avant seeks approval of a single 640-acre unit. Without the NSU approval, Avant would have two 320-acre units by virtue of proximity tract wells. More specifically, the Angry Angus 32 State Com 704H well's completed interval is proposed to be 1485' from the east line, meaning it is closer than 330' to the quarter quarter section line, which allows for a standard 320-acre E/2 unit. Similarly, the Angry Angus 32 State Com 702H well's completed interval is proposed to be 1485' from the west line, meaning it is closer than 330' to the quarter quarter section line, which allows for a standard 320-acre W/2 unit.¹

¹ Avant applied for and received non-standard location approval for the Angry Angus 32 State Com 703H well, which is proposed to be located at 2592' from the east line of Section 32. If

Page 2

Avant's drilling program for this area will develop the Wolfcamp formation underlying each of the 40-acre tracts comprising the proposed non-standard spacing unit area. Avant seeks administrative approval of this non-standard spacing unit to match the pending Communitization Agreement to provide for efficient development and to minimize surface disturbance by consolidating facilities and commingling production from existing and future wells in the proposed non-standard spacing unit. Approval of this administrative application will allow for full development of the communitized acreage, promote efficiently located surface facilities, reduce surface disturbance, consolidate roads, tanks and pipelines; and promote effective well spacing.

A tract map is attached hereto as **Exhibit B**. Also included in Exhibit B is a map comparing and contrasting the standard versus non-standard unit scenario, a tract map showing the approximate Well locations, and a list of the Wells.

Exhibit C is a letter from reservoir engineer explaining the need for a non-standard unit and the benefits associated with a non-standard, as opposed to standard, unit. Exhibit C includes three attachments that compare and contrast the standard versus non-standard unit scenario.

Avant is providing notice to all affected parties in the tracts that adjoin the proposed non-standard spacing unit, and the New Mexico State Land Office and the Bureau of Land Management. A chart identifying the offset affected parties, as well as proof of mailing notice of the application (including a copy of the application) to affected persons entitled to notice is attached hereto as **Exhibit D**. Also included in Exhibit D is a map identifying the affected tracts and ownership for notice purposes.

Your attention to this matter is appreciated.

Sincerely,

Deana M. Bennett
Attorneys for Avant Operating, LLC

Avant's non-standard unit application is approved, the location of the Angry Angus 32 State Com 703H well will be standard.

Santa Fe, New Mexico 87505

Re: Application of Avant Operating, LLC for administrative approval of a 640-acre, more or less, non-standard spacing unit in the Wolfcamp Formation comprised of Section 32, Township 19 South, Range 35 East, Lea County, New Mexico.

Dear Director Fuge/OCD Engineering Bureau:

Avant Operating, LLC ("Avant"), OGRID Number 330396, respectfully requests administrative approval of a 640-acre, more or less, non-standard unit ("NSU") comprised of Section 32, Township 19 South, Range 35 East, Lea County, New Mexico. The NSU would be dedicated to the following wells (the "Wells"):

- Angry Angus 32 State Com 701H well (30-025-51567)
- Angry Angus 32 State Com 702H well (30-025-51568)
- Angry Angus 32 State Com 703H well (30-025-51622)
- Angry Angus 32 State Com 704H well (30-025-51623)
- Angry Angus 32 State Com 705H well (30-025-51624)

The Wells will be completed within the Klein Ranch; Wolfcamp pool; (Pool ID: 96989). This pool is an oil pool and it follows the statewide spacing rules.

In this NSU application, Avant seeks approval of a single 640-acre unit. Without the NSU approval, Avant would have two 320-acre units by virtue of proximity tract wells. More specifically, the Angry Angus 32 State Com 704H well's completed interval is proposed to be 1485' from the east line, meaning it is closer than 330' to the quarter quarter section line, which allows for a standard 320-acre E/2 unit. Similarly, the Angry Angus 32 State Com 702H well's completed interval is proposed to be 1485' from the west line, meaning it is closer than 330' to the quarter quarter section line, which allows for a standard 320-acre W/2 unit.¹

¹ Avant applied for and received non-standard location approval for the Angry Angus 32 State Com 703H well, which is proposed to be located at 2592' from the east line of Section 32. If Avant's non-standard unit application is approved, the location of the Angry Angus 32 State Com 703H well will be standard.

1515 Wynkoop Street | Suite 700 | Denver, CO 80202
www.avantnr.com

Avant has determined that a single 640-acre unit is preferable to two 320- acre units for the following reasons. Approval will allow Avant to reduce surface disturbance by consolidating roads, tank batteries, and pipelines. In addition, approval of Avant's application promotes effective well spacing and will allow Avant to commingle production. Also, Avant seeks the NSU to match the corresponding proposed Communitization Agreement.

Conversely, if Avant's NSU application is not approved, Avant will need to construct additional flowlines and an additional CTB. I have included as Exhibits C-1 and C-2 slides comparing the facilities needed for a non-standard unit (C-1) and the additional required infrastructure needed if Avant has to develop the Wells using standard spacing (C-2).

Exhibit C-3 compares and contrasts, in table format, the reduced surface acreage and the cost savings that will occur if the NSU is approved. Developing the acreage as a single, non-standard unit will result in 1.5 acres less surface disturbance than if Avant has to develop the acreage using standard units. If Avant's NSU application is approved, that would eliminate the need to build an additional central tank battery, which reduces permitted fugitive VOC emissions, spill risk, and flares. In addition, total capital costs would be significantly reduced.

In my opinion, approval of the NSU is in the best interest of conservation, prevention of waste, and protection of correlative rights.

Thank you for your consideration. Should you have any questions please contact me at shane@avantnr.com or (817) 915-9336.

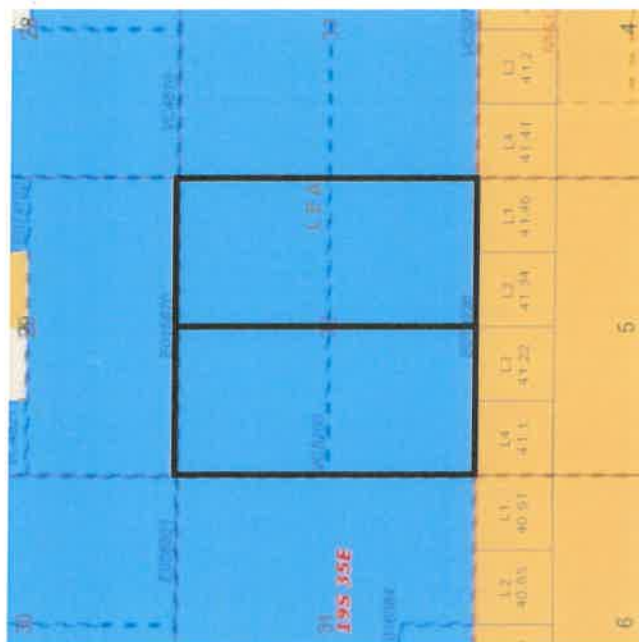

Sincerely,

A handwritten signature in blue ink, appearing to read "Shane Kelly", written over a light blue horizontal line.

Re: Application of Avant Operating, LLC for administrative approval of a 640-acre, more or less, non-standard spacing unit in the Wolfcamp Formation comprised of Section 32, Township 19 South, Range 35 East, Lea County, New Mexico.

Dear Sir or Madam:

Enclosed is a copy of the above referenced application filed with the New Mexico Conservation Division on this date. Any objections that you have to this application must be filed in writing with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, within twenty (20) days from the date the Division receives the above referenced application. If no objection is received within this twenty-day period, the application may be approved administratively by the Division.

If you have any questions concerning this application, please contact:

Shane Kelly
Reservoir Engineer
Avant Operating, LLC
shane@avantnr.com

TO AFFECTED PARTIES

Re: Application of Avant Operating, LLC for administrative approval of a 640-acre, more or less, non-standard spacing unit in the Wolfcamp Formation comprised of Section 32, Township 19 South, Range 35 East, Lea County, New Mexico.

Dear Sir or Madam:

Enclosed is a copy of the above referenced application filed with the New Mexico Conservation Division on this date. Any objections that you have to this application must be filed in writing with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, within twenty (20) days from the date the Division receives the above referenced application. If no objection is received within this twenty-day period, the application may be approved administratively by the Division.

If you have any questions concerning this application, please contact:

Shane Kelly
Reservoir Engineer
Avant Operating, LLC
shane@avantnr.com
(817) 915-9336

Sincerely,

A handwritten signature in blue ink that reads 'Deana M. Bennett'.

Re: Application of Avant Operating, LLC for administrative approval of a 640-acre, more or less, non-standard spacing unit in the Wolfcamp Formation comprised of Section 32, Township 19 South, Range 35 East, Lea County, New Mexico.

Dear Sir or Madam:

Enclosed is a copy of the above referenced application filed with the New Mexico Conservation Division on this date. Any objections that you have to this application must be filed in writing with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, within twenty (20) days from the date the Division receives the above referenced application. If no objection is received within this twenty-day period, the application may be approved administratively by the Division.

If you have any questions concerning this application, please contact:

Shane Kelly

Re: Application of Avant Operating, LLC for administrative approval of a 640-acre, more or less, non-standard spacing unit in the Wolfcamp Formation comprised of Section 32, Township 19 South, Range 35 East, Lea County, New Mexico.

Dear Director Fuge/OCD Engineering Bureau:

Avant Operating, LLC ("Avant"), OGRID Number 330396, respectfully requests administrative approval of a 640-acre, more or less, non-standard unit ("NSU") comprised of Section 32, Township 19 South, Range 35 East, Lea County, New Mexico. The NSU would be dedicated to the following wells (the "Wells"):

- Angry Angus 32 State Com 701H well (30-025-51567)
- Angry Angus 32 State Com 702H well (30-025-51568)
- Angry Angus 32 State Com 703H well (30-025-51622)
- Angry Angus 32 State Com 704H well (30-025-51623)
- Angry Angus 32 State Com 705H well (30-025-51624)

The Wells will be completed within the Klein Ranch; Wolfcamp pool; (Pool ID: 96989). This pool is an oil pool and it follows the statewide spacing rules.

In this NSU application, Avant seeks approval of a single 640-acre unit. Without the NSU approval, Avant would have two 320-acre units by virtue of proximity tract wells. More specifically, the Angry Angus 32 State Com 704H well's completed interval is proposed to be 1485' from the east line, meaning it is closer than 330' to the quarter quarter section line, which allows for a standard 320-acre E/2 unit. Similarly, the Angry Angus 32 State Com 702H well's completed interval is proposed to be 1485' from the west line, meaning it is closer than 330' to the quarter quarter section line, which allows for a standard 320-acre W/2 unit.¹

¹ Avant applied for and received non-standard location approval for the Angry Angus 32 State Com 703H well, which is proposed to be located at 2592' from the east line of Section 32. If Avant's non-standard unit application is approved, the location of the Angry Angus 32 State Com 703H well will be standard.

1515 Wynkoop Street | Suite 700 | Denver, CO 80202
www.avantnr.com

Avant has determined that a single 640-acre unit is preferable to two 320- acre units for the following reasons. Approval will allow Avant to reduce surface disturbance by consolidating roads, tank batteries, and pipelines. In addition, approval of Avant's application promotes effective well spacing and will allow Avant to commingle production. Also, Avant seeks the NSU to match the corresponding proposed Communitization Agreement.

Conversely, if Avant's NSU application is not approved, Avant will need to construct additional flowlines and an additional CTB. I have included as Exhibits C-1 and C-2 slides comparing the facilities needed for a non-standard unit (C-1) and the additional required infrastructure needed if Avant has to develop the Wells using standard spacing (C-2).

Exhibit C-3 compares and contrasts, in table format, the reduced surface acreage and the cost savings that will occur if the NSU is approved. Developing the acreage as a single, non-standard unit will result in 1.5 acres less surface disturbance than if Avant has to develop the acreage using standard units. If Avant's NSU application is approved, that would eliminate the need to build an additional central tank battery, which reduces permitted fugitive VOC emissions, spill risk, and flares. In addition, total capital costs would be significantly reduced.

In my opinion, approval of the NSU is in the best interest of conservation, prevention of waste, and protection of correlative rights.

Thank you for your consideration. Should you have any questions please contact me at shane@avantnr.com or (817) 915-9336.

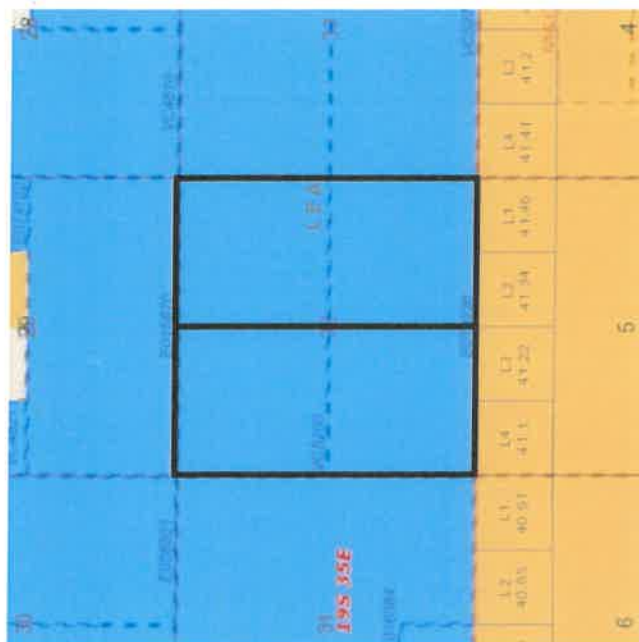

Sincerely,

A handwritten signature in blue ink, appearing to read "Shane Kelly", written over a horizontal line.
