**RE: Administrative Order SWD-2522- Extension of Injection Authority**

Well: Javelina 26-25-37 No.1,  
Surface location: 165 feet FNL 195 feet FWL Section 26, Township 25 South, Range 37  
East, NMPM, Lea County, New Mexico (Lat: 32.10810 N, Long: -103.14160 W;  
NAD83) Order Date: December 3, 2024  
Injection formations: San Andres Formation; 3665 feet to 4838feet

Dear Mr. Stone,

Reference is made to your November 22, 2024, request on behalf of BC&D Operating, Inc. (the "operator") to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection under said order is one year after the issuance of the order: December 04, 2024.

It is the Division's understanding from your correspondence that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval were drilled in the one-mile Area of Review (AOR). Additionally, no new affected parties have been identified in the AOR. Therefore, the extension request could be reviewed administratively for approval.

The Division finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is hereby extended until December 04, 2025.

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the

SWD-2522: Extension of Injection Authority
