ADMINISTRATIVE NON-STANDARD LOCATION

Administrative Order NSL – 8855

**Devon Energy Production Company, L.P. [OGRID 6137]
Bent Tree 9 11 State Com Well No. 626H
API No. 30-015-55724**

Reference is made to your application received on January 7th, 2025.

Proposed Location

	Footages	Unit/Lot	Sec.	Twsp	Range	County
Surface	848 FSL & 343 FEL	P	08	21S	27E	Eddy
First Take Point	340 FSL & 100 FWL	M	09	21S	27E	Eddy
Last Take Point	340 FSL & 2563 FWL	N	11	21S	27E	Eddy
Terminus	340 FSL & 2643 FWL	N	11	21S	27E	Eddy

Proposed Horizontal Units

Description	Acres	Pool	Pool Code
S/2 of Section 09	800	Alacran Hills; Wolfcamp (Gas)	70070
S/2 of Section 10			
SW/4 of Section 11			

This application was protested on January 15th, 2025. The protest was resolved, the application commenced without any modifications.

You have requested to drill this horizontal well at an unorthodox well location described above in the referenced pool or formation. 19.15.16.15(B)(3)(a) NMAC governs this proposed well and provides that the operator shall dedicate to each horizontal **gas** well a standard horizontal spacing unit that comprises of one or more contiguous tracts that the horizontal well's completed interval penetrates, each of which consists of a governmental quarter section or equivalent. 19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the

Administrative Order NSL – 8855
Devon Energy Production Company, L.P.
Page 2 of 2

completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 660 feet for a **gas** well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 330 feet for a **gas** in the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of First and/or Last Take Points referenced above within the described Horizontal Spacing Unit.

This well's completed interval is as close as 100 feet to the western and 77 feet to the eastern edge of the proposed horizontal spacing unit. Encroachment will impact the following tract(s).

Section 08, encroachment to the SE/4
Section 11, encroachment to the SE/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in Paragraph (8) Subsection A of 19.15.2.7 NMAC, in all adjoining units towards which the proposed location encroaches.

Division understands you are seeking this unorthodox location to avoid causing wasted resources and reducing production from current and future development within the Wolfcamp formation underlying S/2 of Section 09, S/2 of Section 10 and the SW/4 of Section 11. Thereby preventing waste within the formation all while protecting the correlative rights of affected persons in the encroached tracts.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per Subsection B of 19.15.15.13 NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as Division deems necessary.

Gerasimos Razatos
Division Director (Acting)
GR/lrl

1220 South Saint Francis Drive
Santa Fe, New Mexico 87505

Re: Devon Energy Production Company, L.P.
Request for Administrative Approval of an Unorthodox Well Location

Bent Tree 9-11 State Com #626H well
S/2 of Sections 9 and 10 and the SW/4 of Section 11, Township 21 South, Range 27 East,
Eddy County, New Mexico
Alacran Hills; Wolfcamp Gas Pool [70070]
API No. 30-015-55724

Dear Mr. Razatos:

Devon Energy Production Company, L.P. ("Devon") (OGRID No. 6137), pursuant to Division Rules 19.15.16.15.C(6) and 19.15.15.13 NMAC and applicable rules governing acreage and well location requirements for the Alacran Hills; Wolfcamp Gas Pool [70070], seeks administrative approval of an unorthodox well location for its Bent Tree 9-11 State Com #626H well (API No. 30-015-55724), in an 800-acre, more or less, spacing unit underlying the S/2 of Sections 9 and 10 and the SW/4 of Section 11, Township 21 South, Range 27 East, Eddy County, New Mexico.

The location for the proposed **Bent Tree 9-11 State Com #626H well** is as follows:

- Surface location: 848' FSL and 343' FEL (Unit P) of Section 8
- First take point: 340' FSL and 100' FWL (Unit M) of Section 9
- Last take point: 340' FSL and 2,563' FWL (Unit N) of Section 11
- Bottom location: 340' FSL and 2,643' FWL (Unit N) of Section 11

Since this acreage is governed by the Division's statewide rules, the proposed first and last take points for this well will be unorthodox because they are closer than the standard offsets to the eastern and western boundaries of the spacing unit—thus, encroaching on Mewbourne Oil Company's Cholula spacing unit to the east and their Screaming Eagle spacing units to the west. Additionally, Devon has planned their Bent Tree Upper Wolfcamp development with a spacing

T 505.988.4421 F 505.983.6043

pattern that causes the Bent Tree 9-11 State Com #626H well to be drilled less than 660 feet from the southern boundary—thus, encroaching on Mewbourne Oil Company’s Utah spacing unit, Devon’s Lone Tree Draw 14-13 spacing unit, and undeveloped tracts in the Wolfcamp formation to the south.

Exhibit A is an Engineering Statement explaining why approval of the application is necessary.

Exhibit B is a Form C-102 showing the **Bent Tree 9-11 State Com #626H** well encroaches on the units to the east in the SE/4 of Section 11 and S/2 of Section 12, T21S-R27E (Mewbourne’s Cholula HSU), as well as to the west in the Lots 3-4, E/2 SW/4, and SE/4 (S/2 equivalent) of irregular Section 7 and the S/2 of Section 8, T21S-R27E (Mewbourne’s Screaming Eagles HSUs), and to the south in Lots 1-2, E/2 NW/4, and NE/4 (N/2 equivalent) of irregular Section 18 and the N/2 of Section 17 (Mewbourne’s Utah HSU), Sections 13 and 14, 21S-27E (Devon’s Lone Tree Draw 14-13 HSU), and the tracts comprising the N/2 of Sections 15 and 16, 21S-27E.

Exhibit C is a plat for the subject area, that shows the proposed Bent Tree 9-11 State Com #626H well in relation to the adjoining units to the east, west, and south. Exhibit B also includes an ownership list for the affected units to the east, west, and south, showing that the spacing units to the east and west are both operated by Mewbourne Oil Co. (“Mewbourne”). Mewbourne also operates the Utah spacing unit to the south. Devon is the operator of the Lone Tree Draw 14-13 spacing unit to the south; the other interest owners in the unit are identified in the table below. The tracts to the south include the interest owners identified in the table below. In addition, the exhibit identifies that the offsetting units/tracts include state and federal leases. Accordingly, the “affected persons”¹ are Mewbourne, the other working interest owners in Devon’s Lone Tree Draw 14-13 spacing unit, the working interest owners in the tracts to the south, the New Mexico State Land Office (“SLO”), and the Bureau of Land Management (“BLM”).

Exhibit D is a spreadsheet listing all affected persons Devon provided notice and includes tracking information demonstrating that each of the affected persons was sent a copy of this application with all attachments by certified mail advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application. The following are the affected persons:

¹ See 19.15.2.7.A(8) NMAC [defining “affected persons” as, “in the absence of an operator, or with respect to an application wherein the operator of the spacing unit or identified tract is the applicant, each working interest owner”] and 19.15.4.12.A(2)(a) NMAC.

Type	Affected Party	Offsetting Acreage
Operator	Mewbourne	SE/4 of Section 11 & S/2 of Section 12 (Cholula HSU); and Lots 3-4, E/2 SW/4, & SE/4 (S/2 equivalent) of irregular Section 7 & the S/2 of Section 8 (Screaming Eagles HSUs); and Lots 1-2, E/2 NW/4, and NE/4 (N/2 equivalent) of irregular Section 18 & the N/2 of Section 17 (Utah HSU)

RE: Application for Non-Standard Location
Engineering Statement
Devon Energy Production Company, L.P.
Bent Tree 9-11 State Com 626H
S/2 of Section 9, S/2 of Section 10 & SW/4 of Section 11, T21S-R27E
Eddy County, New Mexico

Dear Mr. Lowe:

Devon Energy Production Company, LP ("Devon") respectfully requests administrative approval of non-standard location for the Bent Tree 9-11 State Com 626H well referenced above. The well is in the Alacran Hills; Wolfcamp (Gas) Pool (Pool Code 70070). Devon has planned their Bent Tree Upper Wolfcamp development with at least 440 feet of spacing between each well to efficiently drain this development area. This spacing pattern causes the 622H well to be drilled less than 660 feet from the southern boundary. Additionally, Devon proposes to decrease the first and last tank points from 330 feet to less than 100 feet, which will increase the completed horizontal lateral and the ultimate recovery of reserves. Therefore, approval of this non-standard location is necessary to avoid causing wasted resources and reducing production from current and future well development in the area.

Respectfully,

Devon Energy Production Company, L.P.

A handwritten signature in black ink, appearing to read "Keevin Barnes", written over a light blue horizontal line.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

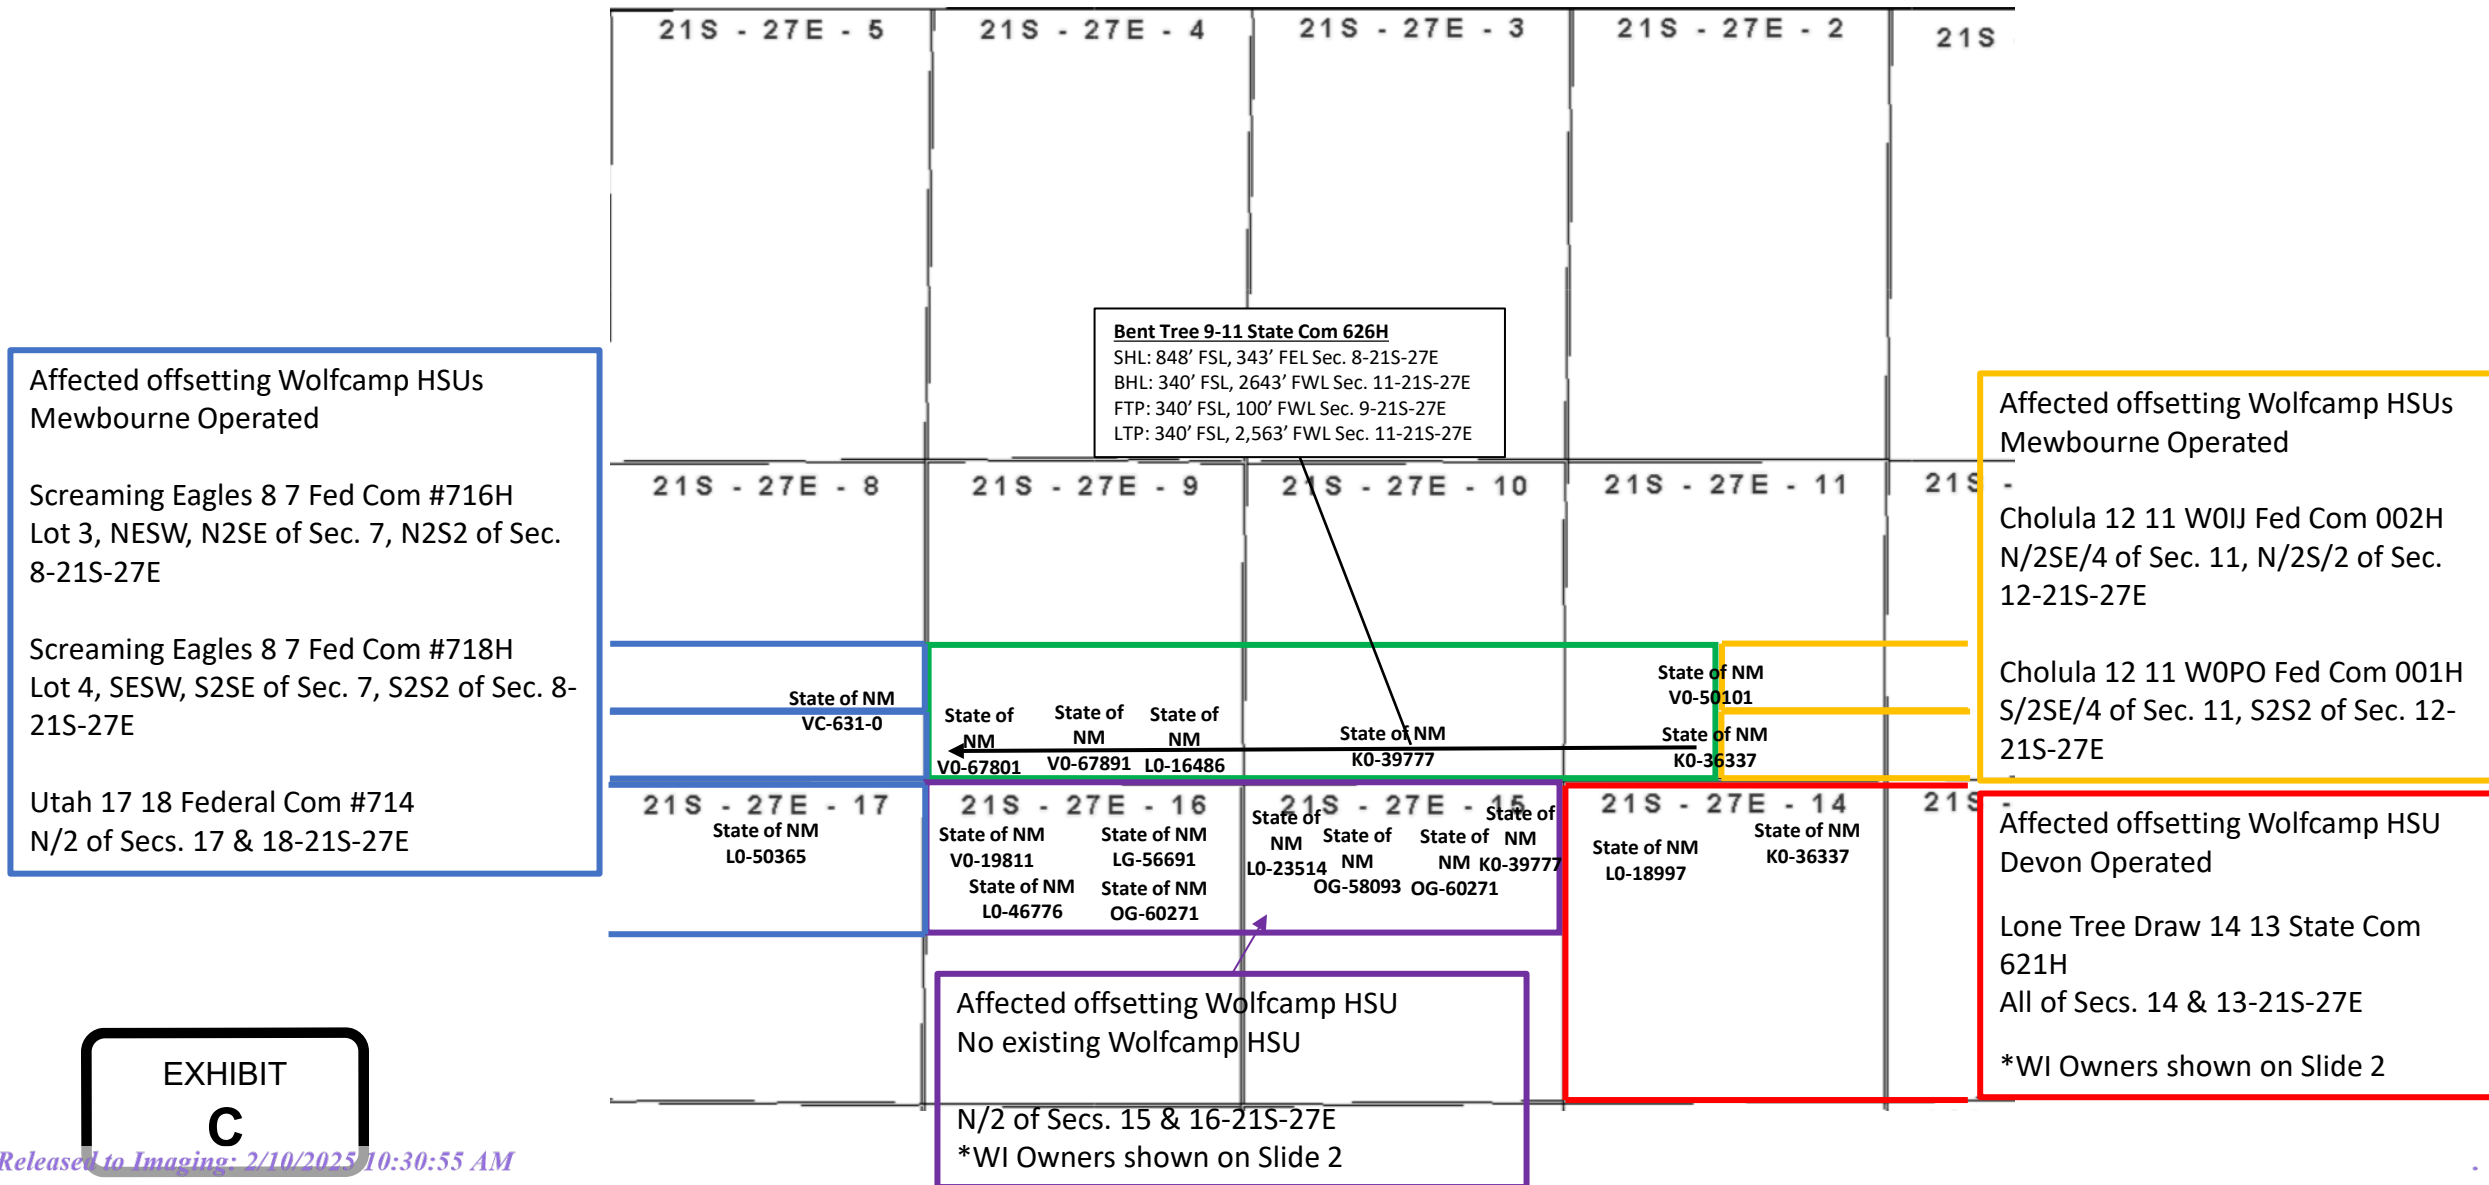

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Paula Vance,

Re: **Bent Tree 9 11 State Com Well No. 626H**
Non Standard Location Administrative Application

The OCD was notified that **Broughton Petroleum Inc.** has protested your NSL application for an Unorthodox location of the above subject well. This party has been identified as an affected person for their specific location.

Therefore, you are being notified that if **Devon Energy Production Company L.P.** wishes for this application to be considered, it must either go to hearing or may be reviewed administratively if the protest is withdrawn as a result of a negotiated resolution within the parties involved.

The NSL application will be retained by OCD, but suspended from further administrative review.

Please contact the OCD once a decision regarding this application is determined within the next 30
