## ADMINISTRATIVE NON-STANDARD LOCATION

## Administrative Order NSL – 8894

### Chevron U.S.A. Inc. [OGRID 4323] CO 4 33 Federal Well No. 601H API No. 30-025-53524

Reference is made to your application received on March 3<sup>rd</sup>, 2025.

### **Proposed Location**

	Footages	Unit/Lot	Sec.	Twsp	Range	County
Surface	1206 FSL & 1020 FEL	Р	04	25S	32E	Lea
First Take Point	2615 FNL & 2310 FEL	G	04	25S	32E	Lea
Last Take Point	100 FNL & 2310 FEL	В	33	24S	32E	Lea
Terminus	25 FNL & 2310 FEL	В	33	24S	32E	Lea

### **Proposed Horizontal Units**

Description	Acres	Pool	Pool Code
NE/4 Section 04 (T25S, R32E)	479.52	Wildcat; Upper Wolfcamp	98270
E/2 Section 33 (T24S, R32E)			

You have requested to drill this horizontal well at an unorthodox well location described above in the referenced pool or formation. 19.15.16.15(B)(1)(a) NMAC governs this proposed well and provides that the operator shall dedicate to each horizontal **oil** well a standard horizontal spacing unit that comprises of one or more contiguous tracts that the horizontal well's completed interval penetrates, each of which consists of a governmental quarter - quarter section or equivalent. 19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 330 feet for an **oil** well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal

Administrative Order NSL – 8894 Chevron U.S.A., Inc. Page 2 of 2

well shall be no closer than 100 feet in the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of Take Points referenced above, within the described Horizontal Spacing Unit.

This well's completed interval is as close as 25 feet to the southern edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 04, encroachment to the NW/4 SE/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

The Division understands you are seeking this unorthodox location for the greatest recovery of reserves from the unit and to protect the correlative rights within the Wolfcamp formation underlying the NE/4 of Section 04 (T25S, R32E) and the E/2 of Section 33 (T24S, R32E).

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, Division approves this unorthodox location.

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as the Division deems necessary.

Date: \_4/16/2025

VIA E-FILING

Deana M. Bennett 505.848.1834 dmb@modrall.com

Acting Director Gerasimos Razatos And OCD Engineering Bureau Oil Conservation Division New Mexico Department of Energy, Minerals and Natural Resources 1220 South Saint Francis Drive Santa Fe, New Mexico 87505

**RE:** Application of Chevron U.S.A. Inc. for administrative approval of unorthodox well location for its CO 4 33 Federal 601H well located in a horizontal spacing unit comprised of the E/2 of Section 33, Township 24 South, Range 32 East and the NE/4 of Section 4, Township 25 South, Range 32 East, Lea County, New Mexico

Dear Acting Director Razatos /OCD Engineering Bureau:

Pursuant to Division rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC, Chevron U.S.A. Inc. ("Chevron") (OGRID No. 4323) seeks administrative approval of an unorthodox well location ("NSL") for its CO 4 33 Federal Com 601H well (API No. 30-025-53524) (the "Well").<sup>1</sup> The Well will be located in a standard 480-acre, more or less, spacing unit comprised of the E/2 of Section 33, Township 24 South, Range 32 East, and the NE/4 of Section 4, Township 25 South, Range 32 East, Lea County, New Mexico, and will be in the WC-025 G-08 S253216D; Upper Wolfcamp pool (Pool Code 98270). A C-102 for the Well is attached as Exhibit A.

The 480-acre horizontal spacing unit in which the Well will be located is standard because Chevron is proposing a proximity tract well within the unit,

Modrall Sperling Roehl Harris & Sisk P.A.

500 Fourth Street NW Suite 1000 Albuquerque, New Mexico 87102

PO Box 2168 Albuquerque, New Mexico 87103-2168

Tel: 505.848.1800 www.modrall.com

<sup>&</sup>lt;sup>1</sup> Chevron has submitted a sundry notice to the Bureau of Land Management to change the name of the Well from the CO Cobra 4 33 Federal P601 #601H to the CO 4 33 Federal 601H well. Once the BLM has approved the sundry, Chevron will submit a sundry to OCD for the name change.

which is the CO 4 33 Federal 602H well (API No. 30-025-53533). The CO 4 33 Federal 602H well's completed lateral is closer than 330' from the quarter quarter section lines in the E/2 of Section 33 and the NE/4 of Section 4, specifically the completed interval of the CO 4 33 Federal 602H well is located 1430' from the East line of Sections 4 and 33. A copy of the CO 4 33 Federal 602H well's C-102 is included as Exhibit B for your convenience.

WC-025 G-08 S253216D; Upper Wolfcamp Pool is an oil pool subject to the state-wide rules, which establish a 100' setback requirement for the first and last take points of a well to the outer boundary of the spacing unit. The Well's **first take point** will be closer than 100' from the outer boundary of the spacing unit, which requires an NSL approval. As shown on Exhibit A, this is a horizontal well that will be drilled as follows:

- <u>Surface Hole Location</u>: 1206' FSL & 1020' FEL of Section 4-T25S-R32E;
- First Take Point: 2615' FNL & 2310' FEL of Section 4-T25S-R32E;
- Bottom Hole Location: 25'FNL & 2310' FEL of Section 33-T24S-R32E;
- Last Take Point: 100' FNL & 2310' FEL of Section 33-T24S-R32E.

Chevron has included as Exhibit C a letter explaining why this application is needed. Chevron also provides a map of the area, attached as Exhibit D, which shows the tracts upon which the unorthodox location will encroach.

As discussed above, the Well's **first take point** will be closer than 100' from the outer boundary of the spacing unit. *See* Exhibit A (C-102). The unorthodox location will encroach towards the N/2 SE/4 of Section 4, Township 25 South, Range 32 East.

Chevron is the operator and owns 100% of the working interest in the N/2 SE/4 of Section 4, Township 25 South, Range 32 East. Pursuant to Rule 19.15.4.12(A)(2) and Rule 19.15.2.7(A)(3), Chevron is thus only providing notice to the Bureau of Land Management. Proof of mailing along with a copy of the letter sent to the Bureau of Land Management are included in Exhibit E.

Your attention to this matter is appreciated.

Sincerely.

Deana M. Bennett Attorney for Chevron U.S.A. Inc.

#### ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

#### ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

#### VIA E-FILING

Acting Director Gerasimos Razatos and OCD Engineering Bureau Oil Conservation Division Energy, Minerals and Natural Resource Department 1220 South Saint Francis Drive Santa Fe, New Mexico 87505

Re: Non-Standard Location Application CO 4 33 Federal 601H Lea County, New Mexico

Dear Director Razatos/OCD Engineering Bureau:

Chevron U.S.A. Inc. ("Chevron"), OGRID No. 4323, respectfully requests administrative approval of a non-standard location ("NSL") for the following wells (the "Well"):

• CO 4 33 Federal 601H well (API No. 30-025-53524)

The Well will be completed within the WC-025 G-08 S253216D; UPPER WOLFCAMP pool (Pool Code: 98270).

Chevron is requesting non-standard location approval for the Well because the first take point of the Well will be less than 100' from the outer boundary of the horizontal spacing unit. The completed interval and last take point for the Wells are standard. Allowing Chevron to complete the well at this non-standard location will result in the greatest recovery of reserves from the unit and will reduce waste.

Thank you for your consideration. Should you have any questions. please contact me at mark.behl@chevron.com or (432) 664-9575.

Feel free to contact me if you have any questions or concerns.

Sincerely,

Mark Behl Reservoir Engineer

#### TO AFFECTED PARTIES

RE: Application of Chevron U.S.A. Inc. for administrative approval of unorthodox well location for its CO 4 33 Federal 601H well located in a horizontal spacing unit comprised of the E/2 of Section 33, Township 24 South, Range 32 East and the NE/4 of Section 4, Township 25 South, Range 32 East, Lea County, New Mexico

Dear Sir or Madam:

Enclosed is a copy of the above referenced application filed with the New Mexico Conservation Division on this date. Any objections that you have to these applications must be filed in writing with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, within twenty (20) days from the date the Division receives the above-referenced applications. If no objection is received within this twenty-day period, the applications may be approved administratively by the Division.

If you have any questions concerning this application, please contact:

Mark Behl Reservoir Engineer Chevron U.S.A. Inc. mark.behl@chevron.com

Sincerely,

an UBernt
