RE: Administrative Order SWD-2512 – Second Extension of Injection Authority

Well: Javelina 34 25 37 No. 1
Surface location: 2425 feet FNL, 2422 feet FEL, Unit G, Section 34, Township 25 South,
Range 37 East, NMPM, Lea County, New Mexico
(Latitude: 32.087375, Longitude: -103.150075; NAD83)
Order Date: December 21, 2023
Injection formations: San Andres formation, 3,737 feet – 5,184 feet

Greetings Mr. Stone:

Reference is made to your October 31, 2025, request on behalf of BC&D Operating, Inc. (the current “operator”) to extend the deadline stipulated in the above titled order to commence injection for the above referenced well for reasons outlined in your correspondence. The current deadline date to commence injection due to a previous Extension of Injection Authority approval is: December 21, 2025.

The Oil Conservation Division (“OCD”) has reviewed your correspondence which states that since the date of issuance of this permit, no additional wells that penetrate the approved injection interval were drilled in the one-half mile Area of Review (“AOR”). Additionally, no new Affected Parties have been identified within the one-half mile AOR. Therefore, the extension request could be reviewed administratively for approval.

The OCD finds that for reasons you have stated, the granting of this request to extend this administrative order is in the interest of conservation, will prevent waste, and will protect the environment. Therefore, the deadline to commence injection for the existing order is **hereby**

SWD-2512: Second Extension of Injection Authority
BC&D Operating Inc.
Page 2 of 2

extended until June 21, 2026. This extension is solely for the extension to injection authority and does not extend the APD for the referenced well.

All requirements of the above-mentioned administrative order and agreements in the application remain in full force and effect. Any additional extension of the deadline to commence injection for this administrative order will not be considered unless the operator has already commenced drilling of the referenced well. Otherwise, the injection authority shall expire under the terms of the extended administrative order, and the operator shall be required to submit a new application to obtain injection authority for the referenced well.

ALBERT C.S. CHANG
Division Director
