ADMINISTRATIVE NON-STANDARD LOCATION

Administrative Order NSL – 9144

**Chevron U.S.A., Inc. [OGRID 4323]
ZN 34 27 Federal State Com Well No. 608H
API No. 30-025-55028**

Reference is made to your application received on October 7th, 2025.

Proposed Location

	Footages	Unit/Lot	Sec.	Twsp	Range	County
Surface	2117 FNL & 1906 FWL	F	34	23S	34E	Lea
First Take Point	2615 FNL & 1430 FWL	F	34	23S	34E	Lea
Last Take Point	100 FNL & 1430 FWL	C	27	23S	34E	Lea
Terminus	25 FNL & 1430 FWL	C	27	23S	34E	Lea

Proposed NSL Horizontal Unit

Description	Acres	Pool	Pool Code
NW/4 Section 34 W/2 Section 27	480	Antelope Ridge; Wolfcamp	2220

You have requested to drill this horizontal well at an unorthodox well location described above in the referenced pool or formation. 19.15.16.15(B)(1)(a) NMAC governs this proposed well and provides that the operator dedicate a horizontal well at a standard horizontal spacing unit that comprises of one or more contiguous tracts that the horizontal well's completed interval penetrates, each of which consists of a governmental quarter - quarter section or equivalent. 19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the

Administrative Order NSL – 9144

Chevron U.S.A., Inc.

Page 2 of 2

completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 330 feet for an oil well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 100 feet for a well within the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of Take Points referenced above, within the described Horizontal Spacing Unit.

This well's completed interval is as close as 25 feet to the southern edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 34, encroachment to the NE/4 SW/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

The Division understands you are seeking this unorthodox location in order to recovery the greatest amount of reserves within the Wolfcamp formation underlying the NW/4 section 34 and the W/2 Section 27, thereby preventing waste.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as the Division deems necessary.

Albert C.S. Chang
Division Director

RE: Application of Chevron U.S.A. Inc. for administrative approval of unorthodox well location for its ZN 34 27 Fed State Com 608H well located in a 480-acre, more or less, horizontal spacing unit comprised of the W/2 of Section 27 and the NW/4 of Section 34, Township 23 South, Range 34 East, Lea County, New Mexico

Dear Director Chang /OCD Engineering Bureau:

Pursuant to Division rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC, Chevron U.S.A. Inc. ("Chevron") (OGRID No. 4323) seeks administrative approval of an unorthodox well location ("NSL") for its ZN 34 27 Fed State Com 608H well (API No. 30-025-55028) (the "Well") located in the W/2 of Section 27 and the NW/4 of Section 34, Township 23 South, Range 34 East, Lea County, New Mexico, and will be in the Antelope Ridge; Wolfcamp pool (Pool Code 2220). A C-102 for the Well is attached as Exhibit A.

The horizontal spacing unit to which the Well will be dedicated is described as:

<u>Description</u>	<u>Acres</u>	<u>Pool</u>	<u>Pool Code</u>
W/2 Section 27 & NW/4 Section 34	480	Antelope Ridge; Wolfcamp	2220

The Antelope Ridge; Wolfcamp Pool is an oil pool subject to the state-wide rules, which establish a 100' setback requirement for the first and last take points of a well to the outer boundary of the spacing unit. The Well's **first take point** will be closer than 100' from the outer boundary of the spacing unit, which requires an NSL approval. As shown on Exhibit A, this is a horizontal well that will be drilled as follows:

- Surface Hole Location: 2117' FNL & 1906' FWL (Unit F) of Section 34-T23S-R34E;
- Bottom Hole Location: 25' FNL & 1430' FWL (Unit C) of Section 27-T23S-R34E;
- First Take Point: 2615' FNL & 1430' FWL (Unit F) of Section 34-T23S-R34E;
- Last Take Point: 100' FNL & 1430' FWL (Unit C) of Section 27-T23S-R34E.

The 480-acre, more or less, horizontal spacing unit in which the Well will be located is standard because the Well is a proximity tract well because its completed lateral is closer than 330' from the quarter quarter section lines in the W/2 of Sections 34 and 27.

Chevron has included as Exhibit B a letter explaining why this application is needed. Chevron also provides a map of the area, attached as Exhibit C, which shows the tracts upon which the unorthodox location will encroach.

As discussed above, the Well's **first take point** will be closer than 100' from the outer boundary of the spacing unit. See Exhibit A (C-102). The unorthodox location will encroach towards the N/2SW/4 of Section 34, Township 23 South, Range 34 East.

Chevron is the operator and owns 100% of the working interest in N/2SW/4 of Section 34, Township 23 South, Range 34 East. Pursuant to Rule 19.15.4.12(A)(2) and Rule 19.15.2.7(A)(3), Chevron is thus only providing notice to the Bureau of Land Management. Proof of mailing along with a copy of the letter sent to the Bureau of Land Management are included in Exhibit D. Chevron's landman has provided a letter confirming the ownership in the N/2SW/4 of Section 34, Township 23 South, Range 34 East, which is included as Exhibit E.

Your attention to this matter is appreciated.

Sincerely,

Deana M. Bennett

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Re: Non-Standard Location Application
ZN 34 27 FED STATE COM 608H
Lea County, New Mexico

Dear Director Chang/OCD Engineering Bureau:

Chevron U.S.A. Inc. ("Chevron"), OGRID No. 4323, respectfully requests administrative approval of a non-standard location ("NSL") for the following wells (the "Well"):

- ZN 34 27 FED STATE COM 608H well (API No. 30-025-55028)

The Well will be completed within the ANTELOPE RIDGE; WOLFCAMP pool (Pool Code: 2220).

Chevron is requesting non-standard location approval for the Well because the first take point of the Well will be less than 100' from the outer boundary of the horizontal spacing unit. The completed interval and last take point for the Wells are standard. Allowing Chevron to complete the well at this non-standard location will result in the greatest recovery of reserves from the unit and will reduce waste.

Thank you for your consideration. Should you have any questions, please contact me at michaelchen@chevron.com or (661) 859-8991.

Feel free to contact me if you have any questions or concerns.

Sincerely,

A handwritten signature in black ink that reads "Michael Chen".

Non-Standard Location Application
ZN 34 27 FED STATE COM 608H
Lea County, New Mexico

Non-Standard Location Application
ZN 34 27 FED STATE COM 609H
Lea County, New Mexico

Dear OCD Engineering Bureau:

I am a landman for Chevron U.S.A. Inc. ("Chevron"). Chevron has requested administrative approval of non-standard locations ("NSL") for the ZN 34 27 FED STATE COM 607H, ZN 34 27 FED STATE COM 608H, and ZN 34 27 FED STATE COM 609H wells (the "Wells"). As noted in the NSL application materials for these Wells, the Wells unorthodox location for the first take point will encroach towards the N/2SW/4 of Section 34, Township 23 South, Range 34 East.

As a landman for Chevron, I have knowledge of the ownership of the N/2SW/4 of Section 34, Township 23 South, Range 34 East. I confirm that Chevron is the operator and owns 100% of the working interest in the N/2SW/4 of Section 34, Township 23 South, Range 34 East, which is the tracts upon which the Wells will encroach.

Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink that reads "N. Angelle".
