Hello Stacy,

I have reviewed the wells within the AOR around the C-108 wells.

There are no new wells in the area.

Of the existing wells that fall within the ½ mile radius, there has been no change and the notified parties are the same.

The affected persons appear to be the same as well.

Best regards,

Jessica LaMarro | Geologist

Good morning Jessica,

The OCD has received your extension request for WFX 1061 and your request was submitted in a timely manner. A review of the original AOR needs to be completed looking for any new well penetrations and new “affected persons”. If any new “affected persons” are found, they must be noticed. Once the review is complete, please share the results with the UIC team. If you have any questions please let me know.

Thank you,
