penetrates, each of which consists of a governmental quarter section or equivalent. 19.15.16.15(C)(1)(a) NMAC governs the distance in the horizontal plane from any point in the completed interval to any outer boundary of the horizontal spacing unit, measured along a line perpendicular to the completed interval or to the tangent thereof, shall be a minimum of 660 feet for a **gas** well. 19.15.16.15(C)(1)(b) NMAC governs the first and last take point of a horizontal well shall be no closer than 330 feet for a **gas** in the horizontal plane, to any outer boundary of the horizontal spacing unit.

The request to deviate from an orthodox location has met all requirements of 19.15.16.15 (C)(5)(a) NMAC. It is understood that you are seeking this exception in order to create a non-standard location, comprised of First and Last Take Points referenced above within the described Horizontal Spacing Unit.

This well's completed interval is as close as 110 feet to the northern edge of the horizontal spacing unit. Encroachment will impact the following tracts.

Section 34, T21S, R 32E, encroachment to the SE/4

The Division understands you have given notice of this application to all operators or owners who are "affected persons," as defined in 19.15.2.7(A)(8) NMAC, in all adjoining units towards which the proposed location encroaches.

Division understands you are seeking this unorthodox location in order to allow for the most efficient development of acreage, thus preventing waste and protecting correlative rights within the Wolfcamp formation underlying E/2 Section 10 and E/2 (equivalent) Section 03.

Your application has been filed under 19.15.16.15(C)(6) NMAC, 19.15.15.13 NMAC and 19.15.4.12 (A)(2) NMAC.

Per 19.15.15.13 (B) NMAC, **Division approves this unorthodox location.**

Reference this NSL order number on the As Drilled C-102 submitted with the Authorization to Transport, to place this well into production.

The above approvals are subject to your following all other applicable Division rules.

Jurisdiction of this case is retained for the entry of further orders as Division deems necessary.

API No. 30-025-55634

Dear Mr. Chang:

Matador Production Company (OGRID No. 228937), pursuant to Division Rules 19.15.16.15(C)(6) and 19.15.15.13 NMAC and applicable rules governing acreage and well location requirements for the WC-025 S223203A; LWR Wolfcamp (Gas) [98258], seeks administrative approval of an unorthodox well location for its Nina Cortell Fed Com 243H well (API No. 30-025-55634), in a 639.84-acre, more or less, spacing unit underlying Lots 2 and 3, SW/2 NE/4, and SE/4 (E/2 equivalent) of irregular Section 3 and E/2 of Section 10, Township 22 South, Range 32 East, Lea County, New Mexico.

The **Nina Cortell Fed Com 243H** is an infill well. The Nina Cortell Fed Com 244H well is the defining well of this spacing unit.

The location of the **Nina Cortell Fed Com 243H** well is as follows:

- Surface location: 279' FSL and 1,039 FEL (Unit P) of Section 10
- First take point: 330' FSL and 1,976' FEL (Unit O) of Section 10
- Last take point: 110' FNL and 1,977' FEL (Lot 2) of Irregular Section 3

- Bottom hole location: 110' FNL and 1,977' FEL (Lot 2) of Irregular Section 3

Since this acreage is governed by state rules for gas wells, the proposed first last take point for this well is unorthodox because the take point is closer than the standard offsets to the northern boundary of the spacing unit—thus, encroaching on the spacing unit to the north comprising the E/2 of Sections 27 and 34.

Matador respectfully requests administrative approval of a non-standard location for the **Nina Cortell Fed Com 243H**. Matador requests this non-standard location because it will allow for the most efficient development of this acreage, thereby preventing waste. Based on the expected gas-oil-ratio for the Nina Cortell Fed Com 243H (API No. 30-025-55634), Matador believes this well could have been placed in an oil pool, in which case the last take point would have been at a standard location. However, the Division has placed the well in a gas pool; therefore, Matador's last take point is at a non-standard location.

Exhibit A is a Form C-102 showing that the lateral of Nina Cortell Fed Com 243H well encroaches on the spacing unit to the north, specifically the tracts in the E/2 of Sections 27 and 34. Also included is the Form C-102 for the Nina Cortell Fed Com 244H, the defining well for the spacing unit.

Exhibit B is a plat for the subject area that shows the Nina Cortell Fed Com 243H well in relation to the offsetting adjoining spacing units to the north, which include federal lands and fee lands, as explained by the landman statement attached. Accordingly, the "affected persons" are the Bureau of Land Management ("BLM") and the Mewbourne Oil Company ("Mewbourne").

Exhibit C is a spreadsheet listing all affected persons and includes tracking information demonstrating that each of the affected persons was sent a copy of this application with all attachments by certified mail advising that any objections must be filed in writing with the Division within 20 days from the date the Division receives the application.

Type	Affected Party	Location
