Good afternoon Ms. Houston,

Your extension request has been received. Your submission was timely and maintains the injection authority while the OCD completes an extension order for Director's approval.

Thank you,

Stacy Sandoval

Re: Administrative Order SWD-1997
Poker Lake Unit 32 Platy State SWD 001 - Permit Extension
API 30-015-46256

XTO Permian Operating LLC. respectfully requests a twelve (12) month extension of Administrative Order SWD-1997 associated with the Poker Lake Unit 32 Platy State SWD 001, (API 30-015-46256).

The referenced Administrative Order was approved on August 28, 2019, and includes a one-year cessation clause. The well was shut-in on October 21, 2025, after we performed a witnessed NMOCD yearly MIT on October 17, 2025, and this MIT failed. Under the terms of the Order, SWD-1997 is scheduled to expire ipso facto on October 20, 2026, unless the well is returned to service or an extension is granted.

XTO has been diligently working to restore the well to active status. A Notice of Intent to workover was submitted to the NMOCD on January 5, 2026, and approval was granted January 9, 2026. However, due to long lead times on equipment procurement and delays in the specialized workover rig that is currently on the Poker Lake Unit 17 Pierce Canyon SWD 001; has caused considerable delays.

For these reasons, XTO respectfully requests an additional twelve (12) months to complete the necessary work and return the well to injection status.

If you have any questions or require additional information, please feel free to contact me at (432) 999-3010.

Sincerely,

Lindsay Davis
