### STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO., FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

### **APPLICATION**

Cimarex Energy Co. ("Cimarex"), OGRID No. 215099, through its undersigned attorneys, hereby files this Application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, Section 70-2-17, seeking an order (1) establishing a standard 320-acre, more or less, spacing and proration unit comprised of the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, and (2) pooling all uncommitted mineral interests from 10,290 feet to the bottom of the Quail Ridge; Bone Spring Pool [Code 50460] Bone Spring formation, designated as an oil pool, underlying said unit.

In support of its Application, Cimarex states the following:

- 1. Cimarex is a working interest owner in the proposed horizontal spacing and proration unit ("HSU") and has a right to drill a well thereon.
- 2. Cimarex proposes and dedicates to the HSU the Mescalero Ridge 21-28 Federal Com 2H Well, as the initial well, to be drilled to a depth sufficient to test the Bone Spring formation.
- 3. Cimarex proposes the **Mescalero Ridge 21-28 Federal Com 2H Well**, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28.

Released to Imaging: 7/6/2022 8:14:19 AM

- 4. The proposed well is orthodox in its location, and the take points and completed interval comply with setback requirements under the statewide rules.
- 5. A depth severance exists in the Bone Spring formation within the proposed HSU. Accordingly, Cimarex seeks to pool a portion of the Quail Ridge; Bone Spring pool [Code 50460], to include the 3rd Bone Spring formation, from a stratigraphic equivalent of 10,290 feet measured depth, as defined by the Triple Combo Log in the Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099), that being the base of the 2<sup>nd</sup> Bone Spring, to a depth of 10,768 feet, that being the base of the of the 3<sup>rd</sup> Bone Spring. Cimarex will provide notice of this hearing to the vertical offset parties within the pool who are not subject to the pooling application. Concurrently with this application, Cimarex is also seeking to pool the portion of this pool above the depth severance, the 1<sup>st</sup> and 2<sup>nd</sup> Bone Spring, in a separate application.
- 6. Cimarex has sought in good faith, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the well or in the commitment of their interests to the well for development within the proposed HSU.
- 7. The pooling of all interests in the specified depths of the Bone Spring formation within the proposed HSU will avoid the drilling of unnecessary wells, prevent waste and protect correlative rights.
- 8. In order to provide for its just and fair share of the oil and gas underlying the subject lands, Cimarex requests that all uncommitted interests in this HSU be pooled and that Cimarex be designated the operator of the proposed horizontal well and HSU.

WHEREFORE, Cimarex requests that this Application be set for hearing on July 7, 2022, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

Establishing a standard 320-acre, more or less, spacing and proration unit A. comprised of the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM,

Lea County, New Mexico;

В. Pooling all uncommitted mineral interests in the specified depths of the Bone

Spring formation underlying the proposed HSU;

C. Approving the Mescalero Ridge 21-28 Federal Com 2H Well as the well for the

HSU;

D. Designating Cimarex as operator of this HSU and the horizontal well to be drilled

thereon;

E. Authorizing Cimarex to recover its costs of drilling, equipping, and completing the

well;

F. Approving actual operating charges and costs of supervision, to the maximum

extent allowable, while drilling and after completion, together with a provision adjusting the rates

pursuant to the COPAS accounting procedures; and

G. Setting a 200% charge for the risk assumed by Cimarex in drilling and completing

the well in the event a working interest owner elects not to participate in the well.

Respectfully submitted,

ABADIE & SCHILL, PC

**Attorneys for Cimarex Energy Co.** 

Application of Cimarex Energy Co. for a Horizontal Spacing Unit and Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order from the Division: (1) establishing a standard 320-acre, more or less, spacing and proration unit comprised of the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, and (2) pooling all mineral interests from the top of the 3<sup>rd</sup> Bone Spring formation of the Quail Ridge; Bone Spring Pool [Code 50460], measured by Cimarex at 10,290 feet, to the bottom of the Quail Ridge; Bone Spring Pool [Code 50460] Bone Spring formation (that being the base of the 3<sup>rd</sup> Bone Spring) designated as an oil pool, underlying the unit. The proposed oil well to be dedicated to the horizontal spacing unit is the **Mescalero** Ridge 21-28 Federal Com 2H Well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28. The well will be orthodox, and the take points and completed interval will comply with the setback requirements under the statewide Rules; also to be considered will be the cost of drilling and completing the well and the allocation of the costs thereof; actual operating costs and charges for supervision; the designation of the Applicant as Operator of the well and unit; and a 200% charge for the risk involved in drilling and completing the well. The well and lands are located approximately 24 miles southwest from Hobbs, NM.

### STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO., FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

Case No. 22891

### AFFIDAVIT OF JOHN COFFMAN

STATE OF TEXAS	)
	) ss.
COUNTY OF MIDLAND	)

- I, being duly sworn on oath, state the following:
- 1. I am over the age of eighteen years and have the capacity to execute this Affidavit, which is based on my personal knowledge.
- 2. I am employed as a Landman with Cimarex Energy Co. ("Cimarex"), and I am familiar with the subject application and the lands involved.
- 3. I graduated in 2018 from Texas Tech University with a bachelor's degree in Business Administration with an emphasis on Energy Commerce. I have worked at Cimarex for approximately 4 years, and I have been working in New Mexico for 4 years. My credentials as an expert witness in petroleum land matters have been accepted by the New Mexico Oil Conservation Division ("Division") and made a matter of record.
- 4. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced spacing and compulsory pooling application pursuant to 19.15.4.12.A(1).
- 5. Cimarex seeks an order pooling all uncommitted mineral interests from 10,290 feet to the bottom of the Quail Ridge; Bone Spring Pool [Code 50460] Bone Spring formation,

EXHIBIT •

Α

designated as an oil pool, underlying a standard 320-acre, more or less, spacing and proration unit comprised of the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico.

- 6. Under <u>Case No. 22891</u>, Cimarex seeks to dedicate to the unit the **Mescalero Ridge 21-28 Fed Com 2H Well** (API 30-015-pending) as an initial oil well, horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28; approximate TVD of 10,750°, as defined by the Triple Combo Log in the Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099); approximate TMD of 20,510°; FTP in Section 21: approx. 544° FNL, 1,980° FEL; LTP in Section 28: approx. 100° FSL, 1,980° FEL.
  - 7. The proposed C-102s for the wells are attached as **Exhibit A-1**.
- 8. A general location plat and a plat outlining the unit being pooled is attached hereto as **Exhibit A-2**, which shows the location of the proposed wells within the unit. The location of the wells are orthodox, and meet the Division's offset requirements for horizontal wells under statewide rules.
- 9. The parties being pooled, the nature of their interests, and their last known addresses are listed on **Exhibit A-2** attached hereto. **Exhibit A-2** includes information regarding working interest owners and overriding royalty interest owners.
- 10. A depth severance exists in the Bone Spring formation within the proposed unit. Accordingly, Cimarex seeks to pool a portion of the Quail Ridge; Bone Spring pool [Code 50460], to include the 3rd Bone Spring formation, from a stratigraphic equivalent of 10,290 feet measured depth, as defined by the Triple Combo Log in the Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099), that being the base of the 2<sup>nd</sup> Bone Spring, to a depth of 10,768 feet, that being the

Received by OCD: 7/5/2022 5:58:20 PM

Page 15 of 285

base of the 3rd Bone Spring. Cimarex has provided notice of this hearing to the vertical offset

parties within the pool who are not subject to the pooling application.

11. I provided the law firm of Abadie & Schill P.C. a list of names and addresses for the

uncommitted interest owners shown on Exhibit A-2. In compiling these addresses, I conducted a

diligent search of the public records in Lea County, New Mexico, where the wells are located, and

of phone directories and did computer searches to locate the contact information for parties entitled

to notification. There was one overriding royalty interest owner notice letter returned

undeliverable: the letter to Atlas Investment Corporation. Eight of the mailings are still listed in-

transit, only one of which is to a working interest owner, Matador Resources Company. The rest

of the in-transit mailings are to either record title or overriding royalty interest owners: Celia

Stivason, Balog Family Trust, Richard H. Coats, Shanon Titzel, Steven R. Garrity, Van P. Welch,

Jr., and Wing Resources III, LLC. Cimarex published notice in the Hobbs News-Sun, a newspaper

of general circulation in Lea County, New Mexico, to account for any unlocatable parties and

cover any contingencies regarding notice.

12. Cimarex has made a good faith effort to negotiate with the interest owners but has been

unable to obtain voluntary agreement from all interest owners to participate in the drilling of the

well or in the commitment of their interests to the well for its development within the proposed

horizontal spacing unit. Exhibit A-4 provides a chronology and history of contacts with the

owners.

13. The interest owners being pooled have been contacted regarding the proposed wells but

have failed or refused to voluntarily commit their interest in the wells. However, Cimarex has

been in ongoing discussions with some of the interest owners to voluntarily enter into a Joint

Operating Agreement. If a mutually agreeable Joint Operating Agreement is reached between

Cimarex and another interest owner or owners, Cimarex requests that the voluntary agreement become operative and supersede the Division's order for said parties, except to the extent the Division deems it necessary to maintain spacing criteria for the purpose of conservation, the

prevention of waste, and protection of correlative rights.

- 14. **Exhibit A-3** is a sample proposal letter and the AFE for the proposed wells. The estimated cost of the wells set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells of similar depths and lengths drilled in this area of New Mexico.
- 15. Cimarex requests overhead and administrative rates of \$8,000/month for drilling the wells and \$800/month for producing the wells, as listed in the JOA sent to the owners. These rates are fair and comparable to the rates charged by other operators for wells of this type in this area of southeastern New Mexico. Cimarex requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.
- 16. Cimarex requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners.
  - 17. Cimarex requests that it be designated operator of the unit and wells.
- 18. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.
- 19. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.
  - 20. The foregoing is correct and complete to the best of my knowledge and belief.

**Re:** Proposal to Drill

Mescalero Ridge 21-28 Federal Com 2H-6H

Sections 21 & 28, Township 19 South, Range 34 East

Lea County, NM

Dear Working Interest Owner,

Cimarex Energy Co. hereby proposes to drill the Mescalero Ridge 21-28 Fed Com 2H, 3H, 4H, 5H, 6H wells at a legal location in Section 21, Township 19 South, Range 34 East, NMPM, Lea County, NM.

Mescalero Ridge 21-28 Fed Com 2H - The intended surface hole location for the well is 544' FNL and 2020' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 1980' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 3<sup>rd</sup> Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 10,750'.

Mescalero Ridge 21-28 Fed Com 3H - The intended surface hole location for the well is 484' FNL and 2100' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 1980' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 1st Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 9,696'.

Mescalero Ridge 21-28 Fed Com 4H - The intended surface hole location for the well is 484' FNL and 2080' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 660' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 1st Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 9,696'.

Mescalero Ridge 21-28 Fed Com 5H - The intended surface hole location for the well is 424' FNL and 1980' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 1980' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 2nd Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 10,300'.

**EXHIBIT** 

**A-**3

Mescalero Ridge 21-28 Fed Com 6H - The intended surface hole location for the well is 424' FNL and 2000' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 660' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 2nd Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 10,300'.

It should be understood that compliance with topography or cultural or environmental concerns, among others, might require modification of Cimarex's intended procedure. Cimarex will advise you of any such modifications.

Enclosed, in duplicate, is (i) our detailed AFE reflecting estimated costs associated with this proposal, and; (ii) our proposed form of Operating Agreement to govern operations of the Mescalero Ridge 21-28 Fed Com wells. If you intend to participate, please approve and return one (1) original of the enclosed AFE, one (1) original of the signature page to the Operating Agreement, along with the contact information to receive your well data, to the undersigned within thirty (30) days of receipt of this proposal. If you elect to purchase your own well control insurance, you must provide a certificate of such insurance to Cimarex prior to commencement of drilling operations; otherwise, you will be covered by insurance procured by Cimarex and will be responsible for your share of the cost.

Cimarex will file for force pooling for the Mescalero Ridge 21-28 Fed Com 2H-6H Wells thirty (30) days after the receipt of this proposal.

If you elect not to participate, please so indicate on the attached election form and return it to the attention of the undersigned at the letterhead address. Failure to elect whether or not to participate within 30 days of your receipt of this proposal will, as provided in the Operating Agreement, will be considered an election not to participate.

Please call the undersigned at (432) 571-7883 with any questions or comments.

Respectfully,

John Coffman Landman John.coffman@coterra.com

### ELECTION TO PARTICIPATE Mescalero Ridge 21-28 Federal Com 2H

Ridge 21-28 Fed Com 2H well.
Alpha Energy Partners LLC elects <b>NOT</b> to participate in the proposed Mescalero Ridge 21-28 Fed Com 2H well.

Total Intangible Cost	\$2,197,000	\$5,113,912	\$7,310,912
Completion Costs		\$5,113,912	\$5,113,912
Drilling Costs	\$2,197,000		\$2,197,000
Intangible	Dry Hole	After Casing Point	Completed Well Cost

#### Comments On Well Costs

1. All tubulars, well or lease equipment is priced by COPAS and CEPS guidelines using the Historic Price Multiplier.

#### Well Control Insurance

Unless otherwise indicated below, you, as a non-operating working interest owner, agree to be covered by Operator's well control insurance procured by Operator so long as Operator conducts operations hereunder and to pay your prorated share of the premiums therefore. If you elect to purchase your own well control insurance, you must provide a certificate of such insurance acceptable to Operator, as to form and limits, at the time this AFE is returned, if available, but in no event later than commencement of drilling operations. You agree that failure to provide the certificate of insurance, as provided herein, will result in your being covered by insurance procured by Operator.

I elect to purchase my own well control insurance policy.

### Marketing Election

Cimarex sells its gas under arm's-length contracts with third party purchasers. Such contracts may include fees. In addition, penalties may be incurred for insufficient volumes delivered over time. Should you choose to market your share of gas with Cimarex, you will be subject to all of the terms of such contracts. Upon written request to Cimarex's Marketing Department, we will share with you the terms and conditions pursuant to which gas will be sold. Failure to make an election below shall be deemed an election to market your gas with Cimarex under the terms and conditions set forth above.

I elect to take my gas in kind.

I elect to market my gas with Cimarex pursuant to the terms and conditions of its contract.

#### Comments on AFE

The above costs are estimates only and anticipate trouble free operations without any foreseeable change in plans. The actual costs may exceed the estimated costs without affecting the authorization for expenditure herein granted. By approval of this AFE, the working interest owner agrees to pay its proportionate share of actual legal, curative, regulatory and well costs under term of the joint operating agreement, regulatory order or other applicable agreement covering this well.

Approved By (Print Name)	Approved By (Signature)	Date
	Approved By (Print Name)	Approved By (Print Name) Approved By (Signature)

NOTICE TO NONOPERATOR: Costs shown on this form are estimates only. By executing this AFE, the consenting party agrees to pay its proportionate share of actual costs incurred. Overhead will be charged in accordance with the Joint Operating Agreement.

4/27/2022

A.A.P.L. NO. 610 - 1989

COPAS 2005 Accounting Procedure Recommended by COPAS

# Exhibit " C " ACCOUNTING PROCEDURE JOINT OPERATIONS

Attached to and made part of that certain Operating Agreement dated February 11, 2022, between Cimarex Energy Co, of Colorado, as Operator on behalf of Magnum Hunter Production, Inc., a wholly owned subsidiary of Cimarex Energy Co, and Chevron U.S.A. Inc., et al, as Non-Operators

#### I. GENERAL PROVISIONS

IF THE PARTIES FAIL TO SELECT EITHER ONE OF COMPETING "ALTERNATIVE" PROVISIONS, OR SELECT ALL THE COMPETING "ALTERNATIVE" PROVISIONS, ALTERNATIVE 1 IN EACH SUCH INSTANCE SHALL BE DEEMED TO HAVE BEEN ADOPTED BY THE PARTIES AS A RESULT OF ANY SUCH OMISSION OR DUPLICATE NOTATION.

IN THE EVENT THAT ANY "OPTIONAL" PROVISION OF THIS ACCOUNTING PROCEDURE IS NOT ADOPTED BY THE PARTIES TO THE AGREEMENT BY A TYPED, PRINTED OR HANDWRITTEN INDICATION, SUCH PROVISION SHALL NOT FORM A PART OF THIS ACCOUNTING PROCEDURE, AND NO INFERENCE SHALL BE MADE CONCERNING THE INTENT OF THE PARTIES IN SUCH EVENT.

#### 1. **DEFINITIONS**

All terms used in this Accounting Procedure shall have the following meaning, unless otherwise expressly defined in the Agreement:

- "Affiliate" means for a person, another person that controls, is controlled by, or is under common control with that person. In this definition, (a) control means the ownership by one person, directly or indirectly, of more than fifty percent (50%) of the voting securities of a corporation or, for other persons, the equivalent ownership interest (such as partnership interests), and (b) "person" means an individual, corporation, partnership, trust, estate, unincorporated organization, association, or other legal entity.
- "Agreement" means the operating agreement, farmout agreement, or other contract between the Parties to which this Accounting Procedure is attached.
- "Controllable Material" means Material that, at the time of acquisition or disposition by the Joint Account, as applicable, is so classified in the Material Classification Manual most recently recommended by the Council of Petroleum Accountants Societies (COPAS).
- "Equalized Freight" means the procedure of charging transportation cost to the Joint Account based upon the distance from the nearest Railway Receiving Point to the property.
- "Excluded Amount" means a specified excluded trucking amount most recently recommended by COPAS.
- "Field Office" means a structure, or portion of a structure, whether a temporary or permanent installation, the primary function of which is to directly serve daily operation and maintenance activities of the Joint Property and which serves as a staging area for directly chargeable field personnel.
- "First Level Supervision" means those employees whose primary function in Joint Operations is the direct oversight of the Operator's field employees and/or contract labor directly employed On-site in a field operating capacity. First Level Supervision functions may include, but are not limited to:
  - Responsibility for field employees and contract labor engaged in activities that can include field operations, maintenance, construction, well remedial work, equipment movement and drilling
  - Responsibility for day-to-day direct oversight of rig operations
  - · Responsibility for day-to-day direct oversight of construction operations
  - · Coordination of job priorities and approval of work procedures
  - Responsibility for optimal resource utilization (equipment, Materials, personnel)
  - Responsibility for meeting production and field operating expense targets
  - Representation of the Parties in local matters involving community, vendors, regulatory agents and landowners, as an incidental
    part of the supervisor's operating responsibilities
  - · Responsibility for all emergency responses with field staff
  - · Responsibility for implementing safety and environmental practices
  - · Responsibility for field adherence to company policy
  - Responsibility for employment decisions and performance appraisals for field personnel
  - Oversight of sub-groups for field functions such as electrical, safety, environmental, telecommunications, which may have group
    or team leaders.
- "Joint Account" means the account showing the charges paid and credits received in the conduct of the Joint Operations that are to be shared by the Parties, but does not include proceeds attributable to hydrocarbons and by-products produced under the Agreement.
- "Joint Operations" means all operations necessary or proper for the exploration, appraisal, development, production, protection, maintenance, repair, abandonment, and restoration of the Joint Property.

COPAS 2005 Accounting Procedure Recommended by COPAS, Inc.

- · human resources
- management

A.

- supervision not directly charged under Section II.2 (Labor)
- legal services not directly chargeable under Section II.9 (Legal Expense)
- taxation, other than those costs identified as directly chargeable under Section II.10 (Taxes and Permits)
- preparation and monitoring of permits and certifications; preparing regulatory reports; appearances before or meetings with
  governmental agencies or other authorities having jurisdiction over the Joint Property, other than On-site inspections; reviewing,
  interpreting, or submitting comments on or lobbying with respect to Laws or proposed Laws.

Overhead charges shall include the salaries or wages plus applicable payroll burdens, benefits, and Personal Expenses of personnel performing overhead functions, as well as office and other related expenses of overhead functions.

#### 1. OVERHEAD—DRILLING AND PRODUCING OPERATIONS

As compensation for costs incurred but not chargeable under Section II (*Direct Charges*) and not covered by other provisions of this Section III, the Operator shall charge on either:

tion II	I, the Operator shall charge on either:
	(Alternative 1) Fixed Rate Basis, Section III.1.B. (Alternative 2) Percentage Basis, Section III.1.C.
TEC	CHNICAL SERVICES
(i)	Except as otherwise provided in Section II.13 (Ecological Environmental, and Safety) and Section III.2 (Overhead - Major Construction and Catastrophe), or by approval of the Parties pursuant to Section L6.A (General Matters), the salaries, wages related payroll burdens and benefits, and Personal Expenses for On-site Technical Services, including third party Technical Services:
	☑ (Alternative 1 – Direct) shall be charged direct to the Joint Account.
	☐ (Alternative 2 – Overhead) shall be covered by the <u>overhead</u> rates.
(ii)	Except as otherwise provided in Section II.13 (Ecological, Environmental, and Safety) and Section III.2 (Overhead – Major Construction and Catastrophe), or by approval of the Parties pursuant to Section I.6.A (General Matters), the salaries, wages related payroll burdens and benefits, and Personal Expenses for Off-site Technical Services, including third party Technical Services:

□ (Alternative 1 – All Overhead) shall be covered by the <u>overhead</u> rates.
 ☑ (Alternative 2 – All Direct) shall be charged <u>direct</u> to the Joint Account.
 □ (Alternative 3 – Drilling Direct) shall be charged <u>direct</u> to the Joint Account, <u>only</u> to the extent such Technical Services

are directly attributable to drilling, redrilling, deepening, or sidetracking operations, through completion, temporary abandonment, or abandonment if a dry hole. Off-site Technical Services for all other operations, including workover, recompletion, abandonment of producing wells, and the construction or expansion of fixed assets not covered by Section III.2 (Overhead - Major Construction and Catastrophe) shall be covered by the overhead rates.

Notwithstanding anything to the contrary in this Section III, Technical Services provided by Operator's Affiliates are subject to limitations set forth in Section II.7 (Affiliates). Charges for Technical personnel performing non-technical work shall not be governed by this Section III.1.A, but instead governed by other provisions of this Accounting Procedure relating to the type of work being performed.

#### B. OVERHEAD—FIXED RATE BASIS

(1) The Operator shall charge the Joint Account at the following rates per well per month:

Drilling Well Rate per month \$ 8,000.00 (prorated for less than a full month)

Producing Well Rate per month \$ 800.00

- (2) Application of Overhead—Drilling Well Rate shall be as follows:
  - (a) Charges for onshore drilling wells shall begin on the spud date and terminate on the date the drilling and/or completion equipment used on the well is released, whichever occurs later. Charges for offshore and inland waters drilling wells shall begin on the date the drilling or completion equipment arrives on location and terminate on the date the drilling or completion equipment moves off location, or is released, whichever occurs first. No charge shall be made during suspension of drilling and/or completion operations for fifteen (15) or more consecutive calendar days.

# STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO., FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

Case Nos. 22891-93

### AFFIDAVIT OF STACI MUELLER

- I, STACI MUELLER, being duly sworn on oath, state the following:
  - 1. I am over the age of 18, and I have personal knowledge of the matters stated herein.
- 2. I am employed as a petroleum geologist for Cimarex Energy Co. ("Cimarex"), and I am familiar with the subject application and the geology involved.
- 3. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.
- 4. I have testified previously by affidavit before the Oil Conservation Division ("Division") as an expert petroleum geologist; my credentials have been made a matter of record, and I have been qualified as an expert by the Division.
  - a. I have a Bachelor of Science Degree in Geophysical Engineering from Colorado School of Mines, and a Master of Science Degree in Geophysics from Colorado School of Mines.
  - b. I have worked on New Mexico Oil and Gas matters since July 2018.
- 5. **Exhibit B-1** is a structure map of the top of the 3rd Bone Spring Sand formation with contour interval of 20°. The unit being pooled is outlined by a white rectangle. The

**EXHIBIT** 

В

structure map shows that there is a regional down-dip to the south. I do not observe any faulting, pinchouts, or other geologic impediments to developing this targeted interval.

- 6. **Exhibit B-2** is a stratigraphic cross-section flattened on the top of the 3<sup>rd</sup> Bone Spring Carbonate formation. The first and third well in the cross section contains a Gamma Ray and Porosity log, and the middle well contains Gamma Ray, Resistivity, and Neutron/Density Porosity logs. The well logs are oriented north to south, and are meant to illustrate the continuity of the targeted formation. The well logs on the cross-section are representative of this formation in this area. The landing zone is highlighted by arrows.
- 7. Additional exhibits for the benefit of the Division's review include **Exhibit B-3**, a gross isopach of the 3rd Bone Spring Sand formation, illustrating in the subject unit the thickness of the formation is between ~270-300ft. **Exhibit B-4** is a gun barrel representation of the unit. It illustrates what Cimarex has concluded to be optimal spacing and configuration for the development of the Bone Spring formation in this area. **Exhibit B-5** is a trajectory cross section-oriented N-S and highlights the reservoir being targeted as being correlative & continuous.
  - 8. I conclude from the attached exhibits that:
    - a. The horizontal spacing and proration unit is justified from a geologic standpoint.
    - b. There are no structural impediments or faulting that will interfere with horizontal development.
    - Each quarter-quarter section in the unit will contribute more or less equally to production.

- 9. The preferred well orientation in this area is North-South so that the wells run subperpendicular to the inferred orientation of the maximum horizontal stress.
- 10. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.
- 11. The granting of this Application is in the interests of conservation, the prevention of waste and the drilling of unnecessary wells, and the protection of correlative rights.
  - 12. The foregoing is correct and complete to the best of my knowledge and belief.

### **AFFIDAVIT OF NOTICE**

STATE OF NEW MEXICO	)	
	)	SS
COUNTY OF SANTA FE	)	

- I, Darin C. Savage, attorney and authorized representative of Cimarex Energy Co. ("Cimarex"), the Applicant herein, being first duly sworn, upon oath, states the following:
- 1. Well proposals were timely sent to all working interest owners. See Exhibit A-3, herein.
- 2. Notice of the application and hearing in the above-reference case was timely sent by certified mail, return receipt requested, through the United States Postal Service on June 16, 2022, to all uncommitted interest owners sought to be pooled in this proceeding. See Exhibit C-2, attached hereto. Copies of notice letters and evidence of mailing to parties are attached hereto as Exhibits C-1 and C-2. Notice was also timely served by publication in the Hobbs News-Sun, a newspaper of general circulation in Lea County, New Mexico, on June 19, 2022, as reflected in the Affidavit of Publication attached hereto as Exhibit C-3.
- 3. It is my understanding that Cimarex has conducted a good faith, diligent effort to find the names and correct addresses for the interest owners entitled to receive notice of the application filed herein.

Case Nos. 22891, 22892 & 22893:

#### Dear Interest Owners:

This letter is to advise you that Cimarex Energy Co. ("Cimarex") has filed the enclosed applications, Case Nos. 22891, 22892 & 22893, with the New Mexico Oil Conservation Division ("Division") for the compulsory pooling of units in the Bone Spring formation.

In Case No. 22891, Cimarex seeks to pool the 3<sup>rd</sup> Bone Spring (10,290 ft to the base of the Bone Spring) covering the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 2H Well. Please note the depth severance in Paragraph 5 of the attached application.

In Case No. 22892, Cimarex seeks to pool the 1<sup>st</sup> and 2<sup>nd</sup> Bone Spring (from top of the Bone Spring to 10,290 ft) covering the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 3H and 5H Wells. Please note the depth severance in Paragraph 6 of the attached application.

EXHIBIT C-1

In Case No. 22893, Cimarex seeks to pool the 1<sup>st</sup> and 2<sup>nd</sup> Bone Spring (from top of the Bone Spring to 10,290 ft) covering the E/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 4H and 6H Wells. Please note the depth severance in Paragraph 7 and overlapping units in Paragraph 8 of the attached application.

A hearing has been requested before a Division Examiner on July 7, 2022, and the status of the hearing can be monitored through the Division's website. Division hearings will commence at 8:15 a.m., traditionally in Porter Hall at the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. However, under the COVID-19 Public Health policies, the hearing will be conducted remotely online. For information about remote access and status of the case, you can visit the Division's website at: <a href="https://www.emnrd.nm.gov/ocd/hearing-info/">https://www.emnrd.nm.gov/ocd/hearing-info/</a> or call (505) 476-3441.

You are being notified as an interest owner and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B NMAC to file a Prehearing Statement at least four business days in advance of a scheduled hearing, but in no event later than 5 p.m. mountain time on the Thursday preceding the scheduled hearing date. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: The names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact John Coffman at (432) 571-7883 or at john.coffman@coterra.com.

Sincerely,

Darin C. Savage

Attorney for Cimarex Energy Co.

For information about remote access and the status of the case, you can visit the Division's website at: https://www.emnrd.nm.gov/ocd/hearing-info/ or call (505) 476-3441. Cimarex Energy Co., whose operational office is at 600 N. Marienfeld St. Suite 600, Midland, Texas, 3700, Denver, Colorado 80203), seeks an order from the Division: (1) establishing a standard 320-acre, more or less, horizontal spacing and proration unit comprised of the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, and (2) pooling all uncommitted mineral interests in the 3rd Bone Spring formation, from the base of the 2nd Bone Spring at 10,290 feet to the bottom of the Quail Ridge; Bone Spring Pool [Pool Code 50460] Bone Spring formation, that being the base of the 3rd Bone Spring, designated as an oil pool, underlying said unit. Said horizontal spacing unit is to be dedicated to the Mescalero Ridge 21-28 Fed Com 2H Well, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28. The location is standard; the completed interval and first take and last take points for the well proposed in the unit meet the Division's statewide setback requirements for horizontal oil wells. Also to be considered will be the cost of drilling and completing the well and the allocation of the costs thereof; actual operating costs and charges for supervision; the designation of the Applicant as Operator of the well and unit; a depth severance in the Bone Spring formation; Operator of the well and unit; a depth severance in the Bone Spring formation; and a 200% charge for the risk involved in drilling and completing the well. The well and lands are located 24 miles southwest from Hobbs, New Mexico. #37772

# STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO., FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

## **APPLICATION**

Cimarex Energy Co. ("Cimarex"), OGRID No. 215099, through its undersigned attorneys, hereby files this Application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, Section 70-2-17, seeking an order (1) establishing a standard 320-acre, more or less, spacing and proration unit comprised of the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, and (2) pooling all uncommitted mineral interests from the top of the Quail Ridge; Bone Spring Pool [Code 50460] to a depth of 10,290 feet, designated as an oil pool, underlying said unit.

In support of its Application, Cimarex states the following:

- 1. Cimarex is a working interest owner in the proposed horizontal spacing and proration unit ("HSU") and has a right to drill a well thereon.
- 2. Cimarex proposes and dedicates to the HSU the Mescalero Ridge 21-28 Fed Com 3H Well and Mescalero Ridge 21-28 Fed Com 5H Well as initial wells, to be drilled to a depth sufficient to test the Bone Spring formation.
- 3. Cimarex proposes the **Mescalero Ridge 21-28 Fed Com 3H Well**, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28.

- 4. Cimarex proposes the **Mescalero Ridge 21-28 Fed Com 5H Well**, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28.
- 5. The proposed wells are orthodox in their locations, and the take points and completed intervals comply with setback requirements under the statewide rules.
- 6. A depth severance exists in the Bone Spring formation within the proposed HSU. Accordingly, Cimarex seeks to pool a portion of the Quail Ridge; Bone Spring pool [Code 50460], to include the 1<sup>st</sup> and 2<sup>nd</sup> Bone Spring formations of said pool, from the top of the pool at a stratigraphic equivalent of 8,085 feet measured depth, as defined in the Triple Combo Log in the Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099), to a depth of 10,290 feet, that being the base of the 2<sup>nd</sup> Bone Spring. Cimarex will provide notice of this hearing to the vertical offset parties within the pool who are not subject to the pooling application. Concurrently with this application, Cimarex is also seeking to pool the portion of this pool below the depth severance, to include the 3<sup>rd</sup> Bone Spring, in a separate application.
- 7. Cimarex has sought in good faith, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the wells or in the commitment of their interests to the wells for development within the proposed HSU.
- 8. The pooling of all interests in the specified depths of the Bone Spring formation within the proposed HSU will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
- 9. In order to provide for its just and fair share of the oil and gas underlying the subject lands, Cimarex requests that all uncommitted interests in this HSU be pooled and that Cimarex be designated the operator of the proposed horizontal wells and HSU.

WHEREFORE, Cimarex requests that this Application be set for hearing on July 7, 2022, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by

law, the Division enter an order:

A. Establishing a standard 320-acre, more or less, spacing and proration unit

comprised of the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM,

Lea County, New Mexico;

B. Pooling all uncommitted mineral interests in the specified depths of the Bone

Spring formation underlying the proposed HSU;

C. Approving the Mescalero Ridge 21-28 Fed Com 3H Well and Mescalero Ridge

21-28 Fed Com 5H Well as wells for the HSU;

D. Designating Cimarex as operator of this HSU and the horizontal wells to be drilled

thereon;

E. Authorizing Cimarex to recover its costs of drilling, equipping, and completing the

wells;

F. Approving actual operating charges and costs of supervision, to the maximum

extent allowable, while drilling and after completion, together with a provision adjusting the rates

pursuant to the COPAS accounting procedures; and

G. Setting a 200% charge for the risk assumed by Cimarex in drilling and completing

the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

ABADIE & SCHILL, PC

**Attorneys for Cimarex Energy Co.** 

Application of Cimarex Energy Co. for a Horizontal Spacing Unit and Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order from the Division: (1) establishing a standard 320-acre, more or less, spacing and proration unit comprised of the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, and (2) pooling all mineral interests from the top of the Quail Ridge; Bone Spring Pool [Code 50460] to the base of the 2<sup>nd</sup> Bone Spring formation of said pool, measured by Cimarex at a depth of 10,290 feet, designated as an oil pool, underlying the unit, the intent being to include the 1st and 2nd Bone Spring of said pool. The proposed oil wells to be dedicated to the horizontal spacing unit are the Mescalero Ridge 21-28 Fed Com 3H Well, and Mescalero Ridge 21-28 Fed Com 5H Well, each to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28. The wells will be orthodox, and the take points and completed intervals will comply with the setback requirements under the statewide Rules; also to be considered will be the cost of drilling and completing the wells and the allocation of the costs thereof; actual operating costs and charges for supervision; the designation of the Applicant as Operator of the wells and unit; and a 200% charge for the risk involved in drilling and completing the wells. The wells and lands are located approximately 24 miles southwest from Hobbs, NM.

## STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO., FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

Case No. 22892

### AFFIDAVIT OF JOHN COFFMAN

STATE OF TEXAS	)
	) ss
COUNTY OF MIDLAND	)

- I, being duly sworn on oath, state the following:
- 1. I am over the age of eighteen years and have the capacity to execute this Affidavit, which is based on my personal knowledge.
- 2. I am employed as a Landman with Cimarex Energy Co. ("Cimarex"), and I am familiar with the subject application and the lands involved.
- 3. I graduated in 2018 from Texas Tech University with a bachelor's degree in Business Administration with an emphasis on Energy Commerce. I have worked at Cimarex for approximately 4 years, and I have been working in New Mexico for 4 years. My credentials as an expert witness in petroleum land matters have been accepted by the New Mexico Oil Conservation Division ("Division") and made a matter of record.
- 4. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced spacing and compulsory pooling application pursuant to 19.15.4.12.A(1).
- 5. Cimarex seeks an order pooling all uncommitted mineral interests from the top of the Quail Ridge; Bone Spring Pool [Code 50460] to a depth of 10,290 feet, designated as an oil

EXHIBIT **A** 

pool, underlying a standard 320-acre, more or less, spacing and proration unit comprised of the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico.

- Under <u>Case No. 22892</u>, Cimarex seeks to dedicate to the unit the <u>Mescalero Ridge 21-28 Fed Com 3H Well</u> and <u>Mescalero Ridge 21-28 Fed Com 5H Well</u> as initial wells.
  - a. The Mescalero Ridge 21-28 Fed Com 3H Well, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28; approximate TVD of 9,510', as defined by the Triple Combo Log in the Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099); approximate TMD of 19,500'; FTP in Section 21: approx. 100' FNL, 1,980' FEL; LTP in Section 28: approx. 100' FSL, 1,980' FEL.
  - b. The **Mescalero Ridge 21-28 Fed Com 5H Well**, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28; approximate TVD of 10,240°, as defined by the Triple Combo Log in the Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099); approximate TMD of 20,100°; FTP in Section 21: approx. 100° FNL, 1,980° FEL; LTP in Section 28: approx. 100° FSL, 1,980° FEL.
  - 7. The proposed C-102s for the wells are attached as **Exhibit A-1**.
- 8. A general location plat and a plat outlining the unit being pooled is attached hereto as **Exhibit A-2**, which shows the location of the proposed wells within the unit. The location of the

Received by OCD: 7/5/2022 5:58:20 PM

Page 105 of 285

wells are orthodox, and meet the Division's offset requirements for horizontal wells under statewide rules.

9. The parties being pooled, the nature of their interests, and their last known addresses are

listed on Exhibit A-2 attached hereto. Exhibit A-2 includes information regarding working

interest owners and overriding royalty interest owners.

10. A depth severance exists in the Bone Spring formation within the proposed unit.

Accordingly, Cimarex seeks to pool a portion of the Quail Ridge; Bone Spring pool [Code 50460],

to include the 1st and 2nd Bone Spring formations of said pool, from the top of the pool at a

stratigraphic equivalent of 8,085 feet measured depth, as defined in the Triple Combo Log in the

Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099), to a depth of 10,290 feet, that being

the base of the 2<sup>nd</sup> Bone Spring. Cimarex has provided notice of this hearing to the vertical offset

parties within the pool who are not subject to the pooling application.

11. I provided the law firm of Abadie & Schill P.C. a list of names and addresses for the

uncommitted interest owners shown on Exhibit A-2. In compiling these addresses, I conducted a

diligent search of the public records in Lea County, New Mexico, where the wells are located, and

of phone directories and did computer searches to locate the contact information for parties entitled

to notification. There was one overriding royalty interest owner notice letter returned

undeliverable: the letter to Atlas Investment Corporation. Eight of the mailings are still listed in-

transit, only one of which is to a working interest owner, Matador Resources Company. The rest

of the in-transit mailings are to either record title or overriding royalty interest owners: Celia

Stivason, Balog Family Trust, Richard H. Coats, Shanon Titzel, Steven R. Garrity, Van P. Welch,

Jr., and Wing Resources III, LLC. Cimarex published notice in the Hobbs News-Sun, a newspaper

of general circulation in Lea County, New Mexico, to account for any unlocatable parties and

Received by OCD: 7/5/2022 5:58:20 PM

Page 106 of 285

cover any contingencies regarding notice. Cimarex published notice in the Hobbs News-Sun, a

newspaper of general circulation in Lea County, New Mexico, to account for any unlocatable

parties and cover any contingencies regarding notice.

12. Cimarex has made a good faith effort to negotiate with the interest owners, but has been

unable to obtain voluntary agreement from all interest owners to participate in the drilling of the

well or in the commitment of their interests to the well for its development within the proposed

horizontal spacing unit. Exhibit A-4 provides a chronology and history of contacts with the

owners.

13. The interest owners being pooled have been contacted regarding the proposed wells but

have failed or refused to voluntarily commit their interest in the wells. However, Cimarex has

been in ongoing discussions with some of the interest owners to voluntarily enter into a Joint

Operating Agreement. If a mutually agreeable Joint Operating Agreement is reached between

Cimarex and another interest owner or owners, Cimarex requests that the voluntary agreement

become operative and supersede the Division's order for said parties, except to the extent the

Division deems it necessary to maintain spacing criteria for the purpose of conservation, the

prevention of waste, and protection of correlative rights.

14. Exhibit A-3 is a sample proposal letter and the AFE for the proposed wells. The estimated

cost of the wells set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells

of similar depths and lengths drilled in this area of New Mexico.

15. Cimarex requests overhead and administrative rates of \$8,000/month for drilling the wells

and \$800/month for producing the wells, as listed in the JOA sent to the owners. These rates are

fair and comparable to the rates charged by other operators for wells of this type in this area of

southeastern New Mexico. Cimarex requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

- 16. Cimarex requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners.
  - 17. Cimarex requests that it be designated operator of the unit and wells.
- 18. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.
- 19. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.
  - 20. The foregoing is correct and complete to the best of my knowledge and belief.

[Signature page follows]

**Re:** Proposal to Drill

Mescalero Ridge 21-28 Federal Com 2H-6H

Sections 21 & 28, Township 19 South, Range 34 East

Lea County, NM

Dear Working Interest Owner,

Cimarex Energy Co. hereby proposes to drill the Mescalero Ridge 21-28 Fed Com 2H, 3H, 4H, 5H, 6H wells at a legal location in Section 21, Township 19 South, Range 34 East, NMPM, Lea County, NM.

Mescalero Ridge 21-28 Fed Com 2H - The intended surface hole location for the well is 544' FNL and 2020' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 1980' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 3<sup>rd</sup> Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 10,750'.

Mescalero Ridge 21-28 Fed Com 3H - The intended surface hole location for the well is 484' FNL and 2100' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 1980' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 1st Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 9,696'.

Mescalero Ridge 21-28 Fed Com 4H - The intended surface hole location for the well is 484' FNL and 2080' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 660' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 1st Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 9,696'.

Mescalero Ridge 21-28 Fed Com 5H - The intended surface hole location for the well is 424' FNL and 1980' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 1980' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 2nd Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 10,300'.

**EXHIBIT** 

**A-3** 

Mescalero Ridge 21-28 Fed Com 6H - The intended surface hole location for the well is 424' FNL and 2000' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 660' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 2nd Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 10,300'.

It should be understood that compliance with topography or cultural or environmental concerns, among others, might require modification of Cimarex's intended procedure. Cimarex will advise you of any such modifications.

Enclosed, in duplicate, is (i) our detailed AFE reflecting estimated costs associated with this proposal, and; (ii) our proposed form of Operating Agreement to govern operations of the Mescalero Ridge 21-28 Fed Com wells. If you intend to participate, please approve and return one (1) original of the enclosed AFE, one (1) original of the signature page to the Operating Agreement, along with the contact information to receive your well data, to the undersigned within thirty (30) days of receipt of this proposal. If you elect to purchase your own well control insurance, you must provide a certificate of such insurance to Cimarex prior to commencement of drilling operations; otherwise, you will be covered by insurance procured by Cimarex and will be responsible for your share of the cost.

Cimarex will file for force pooling for the Mescalero Ridge 21-28 Fed Com 2H-6H Wells thirty (30) days after the receipt of this proposal.

If you elect not to participate, please so indicate on the attached election form and return it to the attention of the undersigned at the letterhead address. Failure to elect whether or not to participate within 30 days of your receipt of this proposal will, as provided in the Operating Agreement, will be considered an election not to participate.

Please call the undersigned at (432) 571-7883 with any questions or comments.

Respectfully,

John Coffman Landman John.coffman@coterra.com

#### ELECTION TO PARTICIPATE Mescalero Ridge 21-28 Federal Com 2H

	Ridge 21-28 Fed Com 2H well.

Completion Costs		\$5,289,348	\$5,289,348
Drilling Costs	\$2,154,000		\$2,154,000
Intangible	Dry Hole	After Casing Point	Completed Well Cost

#### Comments On Well Costs

1. All tubulars, well or lease equipment is priced by COPAS and CEPS guidelines using the Historic Price Multiplier.

#### Well Control Insurance

Unless otherwise indicated below, you, as a non-operating working interest owner, agree to be covered by Operator's well control insurance procured by Operator so long as Operator conducts operations hereunder and to pay your prorated share of the premiums therefore. If you elect to purchase your own well control insurance, you must provide a certificate of such insurance acceptable to Operator, as to form and limits, at the time this AFE is returned, if available, but in no event later than commencement of drilling operations. You agree that failure to provide the certificate of insurance, as provided herein, will result in your being covered by insurance procured by Operator.

I elect to purchase my own well control insurance policy.

#### Marketing Election

Cimarex sells its gas under arm's-length contracts with third party purchasers. Such contracts may include fees. In addition, penalties may be incurred for insufficient volumes delivered over time. Should you choose to market your share of gas with Cimarex, you will be subject to all of the terms of such contracts. Upon written request to Cimarex's Marketing Department, we will share with you the terms and conditions pursuant to which gas will be sold. Failure to make an election below shall be deemed an election to market your gas with Cimarex under the terms and conditions set forth above.

I elect to take my gas in kind.

I elect to market my gas with Cimarex pursuant to the terms and conditions of its contract.

#### Comments on AFE

The above costs are estimates only and anticipate trouble free operations without any foreseeable change in plans. The actual costs may exceed the estimated costs without affecting the authorization for expenditure herein granted. By approval of this AFE, the working interest owner agrees to pay its proportionate share of actual legal, curative, regulatory and well costs under term of the joint operating agreement, regulatory order or other applicable agreement covering this well.

Approved By (Print Name)	Approved By (Signature)	Date
	Approved By (Print Name)	Approved By (Print Name)  Approved By (Signature)

NOTICE TO NONOPERATOR: Costs shown on this form are estimates only. By executing this AFE, the consenting party agrees to pay its proportionate share of actual costs incurred. Overhead will be charged in accordance with the Joint Operating Agreement.

### COTERRA Authorization For Expenditure Drilling

AFE # 26725003

Date Prepared Company Entity Cimarex Energy Co (001) 4/27/2022 Well Name AFE **Exploration Region** Prospect Property Number MESCALERO RIDGE 21-28 FED COM Quail Ridge Prospect 309617-241.01 Permian Basin 26725003 County, State Location **Estimated Spud Estimated Completion** Lea, NM E/2 of Sections 21 and 28, Township 19 South, Range 34 East 2/9/2025 X New Formation Well Type Ttl Measured Depth Ttl Vetical Depth Supplement Bone Spring 2 /Sd/ DEV 20,100 10,300 Revision

Drill and complete well Purpose

#### Description

Drilling Drill and complete a horizontal test. Drill to 1790 Set Surface casing. Drill to Drill to 5327', set surface casing. Drill to 9790' (KOP). Drill curve at 12°/100' initial build rate to +/- 75 degrees and set casing at +/- 10415' MD. Finish curve at +/- 4°/100' to +/- 10300' TVD and drill a +/- 9910' long lateral in the 2nd BSS. Run and cement production liner. Stage frac. Drill out plugs. Run production packer, tubing and GLVs.

Total Well Cost	\$2,972,000	\$6,542,377	\$9,514,377
Total Tangible Cost	\$771,000	\$1,253,029	\$2,024,029
Lease Equipment		\$686,029	\$686,029
Well Equipment	\$771,000	\$567,000	\$1,338,000
Tangible	Dry Hole	After Casing Point	Completed Well Cost
Total Intangible Cost	\$2,201,000	\$5,289,348	\$7,490,348
Completion Costs		\$5,289,348	\$5,289,348
Drilling Costs	\$2,201,000		\$2,201,000
Intangible	Dry Hole	After Casing Point	Completed Well Cost

#### Comments On Well Costs

1. All tubulars, well or lease equipment is priced by COPAS and CEPS guidelines using the Historic Price Multiplier.

#### Well Control Insurance

Unless otherwise indicated below, you, as a non-operating working interest owner, agree to be covered by Operator's well control insurance procured by Operator so long as Operator conducts operations hereunder and to pay your prorated share of the premiums therefore. If you elect to purchase your own well control insurance, you must provide a certificate of such insurance acceptable to Operator, as to form and limits, at the time this AFE is returned, if available, but in no event later than commencement of drilling operations. You agree that failure to provide the certificate of insurance, as provided herein, will result in your being covered by insurance procured by Operator.

I elect to purchase my own well control insurance policy.

#### Marketing Election

Cimarex sells its gas under arm's-length contracts with third party purchasers. Such contracts may include fees. In addition, penalties may be incurred for insufficient volumes delivered over time. Should you choose to market your share of gas with Cimarex, you will be subject to all of the terms of such contracts. Upon written request to Cimarex's Marketing Department, we will share with you the terms and conditions pursuant to which gas will be sold. Failure to make an election below shall be deemed an election to market your gas with Cimarex under the terms and conditions set forth above.

I elect to take my gas in kind.

I elect to market my gas with Cimarex pursuant to the terms and conditions of its contract.

#### Comments on AFE

The above costs are estimates only and anticipate trouble free operations without any foreseeable change in plans. The actual costs may exceed the estimated costs without affecting the authorization for expenditure herein granted. By approval of this AFE, the working interest owner agrees to pay its proportionate share of actual legal, curative, regulatory and well costs under term of the joint operating agreement, regulatory order or other applicable agreement covering this well.

Nonoperator Approval			
Company	Approved By (Print Name)	Approved By (Signature)	Date

NOTICE TO NONOPERATOR: Costs shown on this form are estimates only. By executing this AFE, the consenting party agrees to pay its proportionate share of actual costs incurred. Overhead will be charged in accordance with the Joint Operating Agreement.

4/27/2022

COPYRIGHT 1989 - ALL RIGHTS RESERVED AMERICAN ASSOCIATION OF PETROLEUM LANDMEN, 4100 FOSSIL CREEK BLVD. FORT WORTH, TEXAS, 76137, APPROVED FORM.

A.A.P.L. NO. 610 - 1989

COPAS 2005 Accounting Procedure Recommended by COPAS

# Exhibit " C " ACCOUNTING PROCEDURE JOINT OPERATIONS

Attached to and made part of that certain Operating Agreement dated February 11, 2022, between Cimarex Energy Co, of Colorado, as Operator on behalf of Magnum Hunter Production, Inc., a wholly owned subsidiary of Cimarex Energy Co, and Chevron U.S.A. Inc., et al, as Non-Operators

#### I. GENERAL PROVISIONS

IF THE PARTIES FAIL TO SELECT EITHER ONE OF COMPETING "ALTERNATIVE" PROVISIONS, OR SELECT ALL THE COMPETING "ALTERNATIVE" PROVISIONS, ALTERNATIVE 1 IN EACH SUCH INSTANCE SHALL BE DEEMED TO HAVE BEEN ADOPTED BY THE PARTIES AS A RESULT OF ANY SUCH OMISSION OR DUPLICATE NOTATION.

IN THE EVENT THAT ANY "OPTIONAL" PROVISION OF THIS ACCOUNTING PROCEDURE IS NOT ADOPTED BY THE PARTIES TO THE AGREEMENT BY A TYPED, PRINTED OR HANDWRITTEN INDICATION, SUCH PROVISION SHALL NOT FORM A PART OF THIS ACCOUNTING PROCEDURE, AND NO INFERENCE SHALL BE MADE CONCERNING THE INTENT OF THE PARTIES IN SUCH EVENT.

#### 1. **DEFINITIONS**

All terms used in this Accounting Procedure shall have the following meaning, unless otherwise expressly defined in the Agreement:

- "Affiliate" means for a person, another person that controls, is controlled by, or is under common control with that person. In this definition, (a) control means the ownership by one person, directly or indirectly, of more than fifty percent (50%) of the voting securities of a corporation or, for other persons, the equivalent ownership interest (such as partnership interests), and (b) "person" means an individual, corporation, partnership, trust, estate, unincorporated organization, association, or other legal entity.
- "Agreement" means the operating agreement, farmout agreement, or other contract between the Parties to which this Accounting Procedure is attached.
- "Controllable Material" means Material that, at the time of acquisition or disposition by the Joint Account, as applicable, is so classified in the Material Classification Manual most recently recommended by the Council of Petroleum Accountants Societies (COPAS).
- "Equalized Freight" means the procedure of charging transportation cost to the Joint Account based upon the distance from the nearest Railway Receiving Point to the property.
- "Excluded Amount" means a specified excluded trucking amount most recently recommended by COPAS.
- "Field Office" means a structure, or portion of a structure, whether a temporary or permanent installation, the primary function of which is to directly serve daily operation and maintenance activities of the Joint Property and which serves as a staging area for directly chargeable field personnel.
- "First Level Supervision" means those employees whose primary function in Joint Operations is the direct oversight of the Operator's field employees and/or contract labor directly employed On-site in a field operating capacity. First Level Supervision functions may include, but are not limited to:
  - Responsibility for field employees and contract labor engaged in activities that can include field operations, maintenance, construction, well remedial work, equipment movement and drilling
  - Responsibility for day-to-day direct oversight of rig operations
  - · Responsibility for day-to-day direct oversight of construction operations
  - Coordination of job priorities and approval of work procedures
  - Responsibility for optimal resource utilization (equipment, Materials, personnel)
     Responsibility for meeting production and field operating expense targets
  - · Representation of the Parties in local matters involving community, vendors, regulatory agents and landowners, as an incidental
  - part of the supervisor's operating responsibilities

    Responsibility for all emergency responses with field staff
  - Responsibility for implementing safety and environmental practices
     Responsibility for field adherence to company policy
  - Responsibility for employment decisions and performance appraisals for field personnel
  - Oversight of sub-groups for field functions such as electrical, safety, environmental, telecommunications, which may have group
    or team leaders.
- "Joint Account" means the account showing the charges paid and credits received in the conduct of the Joint Operations that are to be shared by the Parties, but does not include proceeds attributable to hydrocarbons and by-products produced under the Agreement.
- "Joint Operations" means all operations necessary or proper for the exploration, appraisal, development, production, protection, maintenance, repair, abandonment, and restoration of the Joint Property.

COPAS 2005 Accounting Procedure Recommended by COPAS, Inc.

- · human resources
- management

A.

- supervision not directly charged under Section II.2 (Labor)
- legal services not directly chargeable under Section II.9 (Legal Expense)
- taxation, other than those costs identified as directly chargeable under Section II.10 (Taxes and Permits)
- preparation and monitoring of permits and certifications; preparing regulatory reports; appearances before or meetings with governmental agencies or other authorities having jurisdiction over the Joint Property, other than On-site inspections; reviewing, interpreting, or submitting comments on or lobbying with respect to Laws or proposed Laws.

Overhead charges shall include the salaries or wages plus applicable payroll burdens, benefits, and Personal Expenses of personnel performing overhead functions, as well as office and other related expenses of overhead functions.

#### 1. OVERHEAD—DRILLING AND PRODUCING OPERATIONS

As compensation for costs incurred but not chargeable under Section II (Direct Charges) and not covered by other provisions of this Sec

•	II, the Operator shall charge on either:
	(Alternative 1) Fixed Rate Basis, Section III.1.B. (Alternative 2) Percentage Basis, Section III.1.C.
TE	CHNICAL SERVICES
(i)	Except as otherwise provided in Section II.13 (Ecological Environmental, and Safety) and Section III.2 (Overhead - Majo Construction and Catastrophe), or by approval of the Parties pursuant to Section L6.A (General Matters), the salaries, wages related payroll burdens and benefits, and Personal Expenses for On-site Technical Services, including third party Technical Services:
	☑ (Alternative 1 – Direct) shall be charged direct to the Joint Account.
	☐ (Alternative 2 – Overhead) shall be covered by the <u>overhead</u> rates.
(ii)	Except as otherwise provided in Section II.13 (Ecological, Environmental, and Safety) and Section III.2 (Overhead - Majo Construction and Catastrophe), or by approval of the Parties pursuant to Section I.6.A (General Matters), the salaries, wages related payroll burdens and benefits, and Personal Expenses for Off-site Technical Services; including third party Technical Services:

☐ (Alternative 1 – All Overhead) shall be covered by the <u>overhead</u> rates. (Alternative 2 - All Direct) shall be charged direct to the Joint Account.

☐ (Alternative 3 – Drilling Direct) shall be charged direct to the Joint Account, only to the extent such Technical Services are directly attributable to drilling, redrilling, deepening, or sidetracking operations, through completion, temporary abandonment, or abandonment if a dry hole. Off-site Technical Services for all other operations, including workover, recompletion, abandonment of producing wells, and the construction or expansion of fixed assets not covered by Section III.2 (Overhead - Major Construction and Catastrophe) shall be covered by the overhead rates.

Notwithstanding anything to the contrary in this Section III, Technical Services provided by Operator's Affiliates are subject to limitations set forth in Section II.7 (Affiliates). Charges for Technical personnel performing non-technical work shall not be governed by this Section III.1.A, but instead governed by other provisions of this Accounting Procedure relating to the type of work being performed.

#### B. OVERHEAD-FIXED RATE BASIS

(1) The Operator shall charge the Joint Account at the following rates per well per month:

Drilling Well Rate per month \$ 8,000.00 \_\_ (prorated for less than a full month) Producing Well Rate per month \$ 800.00

- (2) Application of Overhead—Drilling Well Rate shall be as follows:
  - (a) Charges for onshore drilling wells shall begin on the spud date and terminate on the date the drilling and/or completion equipment used on the well is released, whichever occurs later. Charges for offshore and inland waters drilling wells shall begin on the date the drilling or completion equipment arrives on location and terminate on the date the drilling or completion equipment moves off location, or is released, whichever occurs first. No charge shall be made during suspension of drilling and/or completion operations for fifteen (15) or more consecutive calendar days.

#### STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO., FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

Case Nos. 22891-93

#### AFFIDAVIT OF STACI MUELLER

- I, STACI MUELLER, being duly sworn on oath, state the following:
  - 1. I am over the age of 18, and I have personal knowledge of the matters stated herein.
- 2. I am employed as a petroleum geologist for Cimarex Energy Co. ("Cimarex"), and I am familiar with the subject application and the geology involved.
- 3. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.
- 4. I have testified previously by affidavit before the Oil Conservation Division ("Division") as an expert petroleum geologist; my credentials have been made a matter of record, and I have been qualified as an expert by the Division.
  - a. I have a Bachelor of Science Degree in Geophysical Engineering from Colorado School of Mines, and a Master of Science Degree in Geophysics from Colorado School of Mines.
  - b. I have worked on New Mexico Oil and Gas matters since July 2018.
- 5. **Exhibit B-1** is a structure map of the top of the 2nd Bone Spring Sand formation with contour interval of 20'. The unit being pooled is outlined by a white rectangle. The

EXHIBIT

B

structure map shows that there is a regional down-dip to the southeast. I do not observe any faulting, pinchouts, or other geologic impediments to developing this targeted interval.

- 6. **Exhibit B-2** is a stratigraphic cross-section flattened on the top of the 3<sup>rd</sup> Bone Spring Carbonate formation. The first and third well in the cross section contains a Gamma Ray and Porosity log, and the middle well contains Gamma Ray, Resistivity, and Neutron/Density Porosity logs. The well logs are oriented north to south, and are meant to illustrate the continuity of the targeted formation. The well logs on the cross-section are representative of this formation in this area. The landing zone is highlighted by arrows.
- 7. Additional exhibits for the benefit of the Division's review include **Exhibit B-3**, a gross isopach of the 1<sup>st</sup> Bone Spring Sand formation, illustrating in the subject unit the thickness of the formation is between ~390-410ft. **Exhibit B-4** is a gun barrel representation of the unit. It illustrates what Cimarex has concluded to be optimal spacing and configuration for the development of the Bone Spring formation in this area. **Exhibit B-5** is a trajectory cross section-oriented N-S and highlights the reservoir being targeted as being correlative & continuous.
  - 8. I conclude from the attached exhibits that:
    - a. The horizontal spacing and proration unit is justified from a geologic standpoint.
    - b. There are no structural impediments or faulting that will interfere with horizontal development.
    - c. Each quarter-quarter section in the unit will contribute more or less equally to production.

- 9. The preferred well orientation in this area is North-South so that the wells run subperpendicular to the inferred orientation of the maximum horizontal stress.
- 10. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.
- 11. The granting of this Application is in the interests of conservation, the prevention of waste and the drilling of unnecessary wells, and the protection of correlative rights.
  - 12. The foregoing is correct and complete to the best of my knowledge and belief.

- I, Darin C. Savage, attorney and authorized representative of Cimarex Energy Co. ("Cimarex"), the Applicant herein, being first duly sworn, upon oath, states the following:
- 1. Well proposals were timely sent to all working interest owners. See Exhibit A-3, herein.
- 2. Notice of the application and hearing in the above-reference case was timely sent by certified mail, return receipt requested, through the United States Postal Service on June 16, 2022, to all uncommitted interest owners sought to be pooled in this proceeding. See Exhibit C-2, attached hereto. Copies of notice letters and evidence of mailing to parties are attached hereto as Exhibits C-1 and C-2. Notice was also timely served by publication in the Hobbs News-Sun, a newspaper of general circulation in Lea County, New Mexico, on June 19, 2022, as reflected in the Affidavit of Publication attached hereto as Exhibit C-3.
- 3. It is my understanding that Cimarex has conducted a good faith, diligent effort to find the names and correct addresses for the interest owners entitled to receive notice of the application filed herein.

#### Dear Interest Owners:

This letter is to advise you that Cimarex Energy Co. ("Cimarex") has filed the enclosed applications, Case Nos. 22891, 22892 & 22893, with the New Mexico Oil Conservation Division ("Division") for the compulsory pooling of units in the Bone Spring formation.

In Case No. 22891, Cimarex seeks to pool the 3<sup>rd</sup> Bone Spring (10,290 ft to the base of the Bone Spring) covering the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 2H Well. Please note the depth severance in Paragraph 5 of the attached application.

In Case No. 22892, Cimarex seeks to pool the 1st and 2nd Bone Spring (from top of the Bone Spring to 10,290 ft) covering the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 3H and 5H Wells. Please note the depth severance in Paragraph 6 of the attached application.

**EXHIBIT** 

In Case No. 22893, Cimarex seeks to pool the 1<sup>st</sup> and 2<sup>nd</sup> Bone Spring (from top of the Bone Spring to 10,290 ft) covering the E/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 4H and 6H Wells. Please note the depth severance in Paragraph 7 and overlapping units in Paragraph 8 of the attached application.

A hearing has been requested before a Division Examiner on July 7, 2022, and the status of the hearing can be monitored through the Division's website. Division hearings will commence at 8:15 a.m., traditionally in Porter Hall at the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. However, under the COVID-19 Public Health policies, the hearing will be conducted remotely online. For information about remote access and status of the case, you can visit the Division's website at: <a href="https://www.emnrd.nm.gov/ocd/hearing-info/">https://www.emnrd.nm.gov/ocd/hearing-info/</a> or call (505) 476-3441.

You are being notified as an interest owner and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B NMAC to file a Prehearing Statement at least four business days in advance of a scheduled hearing, but in no event later than 5 p.m. mountain time on the Thursday preceding the scheduled hearing date. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: The names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact John Coffman at (432) 571-7883 or at john.coffman@coterra.com.

Sincerely,

Darin C. Savage

GARRITY, HILLMAN ROYALTIES, LP., CARGOIL AND GAS COMPANY, WING RESOURCES III, LLC, and MAGNUM HUNTER PRODUCTION, INC., of Cimarex Energy Co.'s application for approval of a spacing unit and compulsory pooling, Lea County, New Mexico. The State of New Mexico, through its Oil Conservation Division, hereby gives notice that the Division's website at: https://www.emmrd.nm.gov/ocd/hearing-info/ or call (505) 476-3441. Cimarex Energy Co.'s whose operational office is at 600. Midland, Texas, 79701 (HQ at 1700 Lincoln St. Suite 3700, Denver, Colorado 80203), seeks an order from the Division: (1) establishing a standard 320-acre, more or less, horizontal spacing and proration unit comprised of the W/2 E/2 of Sections 21 said unit. Said horizontal spacing unit is to be dedicated to the Mescalero Ridge 21-28 Fed Com 3H Well, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28, and the Mescalero Ridge 21-28 Fed Com 5H Well, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 28. The locations are standard; the completed intervals and first take and last take points for the wells proposed in the unit meet the Division's statewide setback requirements for horizontal oil wells. Also to be considered will be the cost of drilling and completing the wells and the allocation of the costs thereof; actual operating costs and charges for supervision; the designation of the Applicant as Operator of the wells and unit; a depth severance in the Bone Spring formation; and a 200% charge for the risk involved in drilling and completing the wells. The wells and lands are located 24 miles southwest from completing the wells. The wells and lands are located 24 miles southwest from Hobbs, New Mexico.

# STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO., FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

### **APPLICATION**

Cimarex Energy Co. ("Cimarex"), OGRID No. 215099, through its undersigned attorneys, hereby files this Application with the Oil Conservation Division ("Division") pursuant to the provisions of NMSA 1978, Section 70-2-17, seeking an order (1) establishing a standard 320-acre, more or less, spacing and proration unit comprised of the E/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, and (2) pooling all uncommitted mineral interests from the top of the Quail Ridge; Bone Spring Pool [Code 50460] to a depth of 10,290 feet, designated as an oil pool, underlying said unit.

In support of its Application, Cimarex states the following:

- 1. Cimarex is a working interest owner in the proposed horizontal spacing and proration unit ("HSU") and has a right to drill a well thereon.
- Cimarex proposes and dedicates to the HSU the Mescalero Ridge 21-28 Fed Com
   4H Well and Mescalero Ridge 21-28 Fed Com 6H Well as initial wells, to be drilled to a depth sufficient to test the Bone Spring formation.
- 3. Cimarex proposes the **Mescalero Ridge 21-28 Fed Com 4H**, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SE/4 SE/4 (Unit P) of Section 28.

Released to Imaging: 7/6/2022 8:14:19 AM

- 4. Cimarex proposes the **Mescalero Ridge 21-28 Fed Com 6H**, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SE/4 SE/4 (Unit P) of Section 28.
- 5. The proposed wells are orthodox in their locations, and the take points and completed intervals comply with setback requirements under the statewide rules.
- 6. Cimarex has sought in good faith, but has been unable to obtain, voluntary agreement from all interest owners to participate in the drilling of the wells or in the commitment of their interests to the wells for development within the proposed HSU.
- 7. A depth severance exists in the Bone Spring formation within the proposed HSU. Accordingly, Cimarex seeks to pool a portion of the Quail Ridge; Bone Spring pool [Code 50460], to include the 1<sup>st</sup> and 2<sup>nd</sup> Bone Spring formations of said pool, from the top of the pool at a stratigraphic equivalent of 8,085 feet measured depth, as defined by the Triple Combo Log in the Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099), to a depth of 10,290 feet, that being the base of the 2<sup>nd</sup> Bone Spring. Cimarex will provide notice of this hearing to the vertical offset parties within the pool who are not subject to the pooling application.
- 8. Cimarex owns and operates an existing well, the Mescalero Ridge 21 Federal 1H Well (API No. 30-02-4504), whose unit covers the Bone Spring formation in the E/2 E/2 of Section 21, and Cimarex owns and operates an existing well, the Cordoniz 28 Federal Com 4H Well (API No. 30-025-41834), whose unit covers the Bone Spring formation in the E/2 E/2 of Section 28. Consequently, Cimarex seeks approval for over-lapping units as it develops the E/2 E/2 of Sections 21 and 28 for the Mescalero Ridge 21-28 Fed Com 4H and 6H Wells.

- 9. The pooling of all interests in the Bone Spring formation within the proposed HSU, and establishing the spacing unit, will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
- 10. In order to provide for its just and fair share of the oil and gas underlying the subject lands, Cimarex requests that all uncommitted interests in this HSU be pooled and that Cimarex be designated the operator of the proposed horizontal well and HSU.

WHEREFORE, Cimarex requests that this Application be set for hearing on July 7, 2022, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

- A. Establishing a standard 320-acre, more or less, spacing and proration unit comprised of the E/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico;
- B. Pooling all uncommitted mineral interests in specified depths of the Bone Spring formation underlying the proposed HSU;
- C. Approving the Mescalero Ridge 21-28 Fed Com 4H Well and Mescalero Ridge21-28 Fed Com 6H Well as wells for the HSU.
- D. Designating Cimarex as operator of this HSU and the horizontal wells to be drilled thereon;
- E. Approving overlapping units as described above in Paragraph 8 to account for the existing Mescalero Ridge 21 Federal 1H Well (API No. 30-025-45054) and Cordoniz 28 Federal Com 4H Well (API No. 30-025-41834).
- F. Authorizing Cimarex to recover its costs of drilling, equipping, and completing the wells;

- G. Approving actual operating charges and costs of supervision, to the maximum extent allowable, while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- H. Setting a 200% charge for the risk assumed by Cimarex in drilling and completing the wells in the event a working interest owner elects not to participate in the wells.

Respectfully submitted,

ABADIE & SCHILL, PC

**Attorneys for Cimarex Energy Co.** 

Application of Cimarex Energy Co. for a Horizontal Spacing Unit and Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order from the Division: (1) establishing a standard 320-acre, more or less, spacing and proration unit comprised of the E/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, and (2) pooling all mineral interests from the top of the Quail Ridge; Bone Spring Pool [Code 50460] to the base of the 2<sup>nd</sup> Bone Spring formation of said pool, measured by Cimarex at a depth of 10,290 feet, designated as an oil pool, underlying the unit, the intent being to include the 1st and 2nd Bone Spring of said pool. The proposed oil wells to be dedicated to the horizontal spacing unit are the Mescalero Ridge 21-28 Fed Com 4H Well and Mescalero Ridge 21-28 Fed Com 6H Well, each to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SE/4 SE/4 (Unit P) of Section 28. The wells will be orthodox, and the take points and completed intervals will comply with the setback requirements under the statewide Rules; also to be considered will be approval of overlapping units for the existing Mescalero Ridge 21 Federal 1H Well (API No. 30-025-45054) and Cordoniz 28 Federal Com 4H Well (API No. 30-025-41834); the cost of drilling and completing the wells and the allocation of the costs thereof; actual operating costs and charges for supervision; the designation of the Applicant as Operator of the wells and unit; and a 200% charge for the risk involved in drilling and completing the wells. The wells and lands are located approximately 24 miles southwest from Hobbs.

# STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO., FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

Case No. 22893

#### AFFIDAVIT OF JOHN COFFMAN

STATE OF TEXAS	)
	) ss.
COUNTY OF MIDLAND	)

- I, being duly sworn on oath, state the following:
- 1. I am over the age of eighteen years and have the capacity to execute this Affidavit, which is based on my personal knowledge.
- 2. I am employed as a Landman with Cimarex Energy Co. ("Cimarex"), and I am familiar with the subject application and the lands involved.
- 3. I graduated in 2018 from Texas Tech University with a bachelor's degree in Business Administration with an emphasis on Energy Commerce. I have worked at Cimarex for approximately 4 years, and I have been working in New Mexico for 4 years. My credentials as an expert witness in petroleum land matters have been accepted by the New Mexico Oil Conservation Division ("Division") and made a matter of record.
- 4. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced spacing and compulsory pooling application pursuant to 19.15.4.12.A(1).
- 5. Cimarex seeks an order pooling all uncommitted mineral interests from the top of the Quail Ridge; Bone Spring Pool [Code 50460] to a depth of 10,290 feet, designated as an oil

EXHIBIT

pool, underlying a standard 320-acre, more or less, spacing and proration unit comprised of the E/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico.

- Under <u>Case No. 22893</u>, Cimarex seeks to dedicate to the unit the <u>Mescalero Ridge 21-28 Fed Com 4H Well</u> and <u>Mescalero Ridge 21-28 Fed Com 6H Well</u> as initial wells.
  - a. The Mescalero Ridge 21-28 Fed Com 4H, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SE/4 SE/4 (Unit P) of Section 28; approximate TVD of 9,510', as defined by the Triple Combo Log in the Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099); approximate TMD of 19,500'; FTP in Section 21: approx. 484' FNL, 660' FEL; LTP in Section 28: approx. 100' FSL, 660' FEL.
  - b. The Mescalero Ridge 21-28 Fed Com 6H, an oil well, to be horizontally drilled from a surface location in the NW/4 NE/4 (Unit B) of Section 21 to a bottom hole location in the SE/4 SE/4 (Unit P) of Section 28; approximate TVD of 10,240°, as defined by the Triple Combo Log in the Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099); approximate TMD of 20,100°; FTP in Section 21: approx. 424° FNL, 660° FEL; LTP in Section 28: approx. 100° FSL, 660° FEL.
  - 7. The proposed C-102s for the wells are attached as **Exhibit A-1**.
- 8. A general location plat and a plat outlining the unit being pooled is attached hereto as **Exhibit A-2**, which shows the location of the proposed wells within the unit. The location of the

Received by OCD: 7/5/2022 5:58:20 PM

Page 201 of 285

wells are orthodox, and meet the Division's offset requirements for horizontal wells under

statewide rules.

9. The parties being pooled, the nature of their interests, and their last known addresses are

listed on Exhibit A-2 attached hereto. Exhibit A-2 includes information regarding working

interest owners and overriding royalty interest owners.

10. A depth severance exists in the Bone Spring formation within the proposed unit.

Accordingly, Cimarex seeks to pool a portion of the Quail Ridge; Bone Spring pool [Code 50460],

to include the 1st and 2nd Bone Spring formations of said pool, from the top of the pool at a

stratigraphic equivalent of 8,085 feet measured depth, as defined by the Triple Combo Log in the

Mescalero Ridge 20 Federal 1 Well (API No. 30-025-36099), to a depth of 10,290 feet, that being

the base of the 2<sup>nd</sup> Bone Spring. Cimarex has provided notice of this hearing to the vertical offset

parties within the pool who are not subject to the pooling application.

11. I provided the law firm of Abadie & Schill P.C. a list of names and addresses for the

uncommitted interest owners shown on Exhibit A-2. In compiling these addresses, I conducted a

diligent search of the public records in Lea County, New Mexico, where the wells are located, and

of phone directories and did computer searches to locate the contact information for parties entitled

to notification. There was one overriding royalty interest owner notice letter returned

undeliverable: the letter to Atlas Investment Corporation. Eight of the mailings are still listed in-

transit, only one of which is to a working interest owner, Matador Resources Company. The rest

of the in-transit mailings are to either record title or overriding royalty interest owners: Celia

Stivason, Balog Family Trust, Richard H. Coats, Shanon Titzel, Steven R. Garrity, Van P. Welch,

Jr., and Wing Resources III, LLC. Cimarex published notice in the Hobbs News-Sun, a newspaper

of general circulation in Lea County, New Mexico, to account for any unlocatable parties and

Received by OCD: 7/5/2022 5:58:20 PM

Page 202 of 285

cover any contingencies regarding notice. Cimarex published notice in the Hobbs News-Sun, a

newspaper of general circulation in Lea County, New Mexico, to account for any unlocatable

parties and cover any contingencies regarding notice.

12. Cimarex has made a good faith effort to negotiate with the interest owners, but has been

unable to obtain voluntary agreement from all interest owners to participate in the drilling of the

well or in the commitment of their interests to the well for its development within the proposed

horizontal spacing unit. Exhibit A-4 provides a chronology and history of contacts with the

owners.

13. The interest owners being pooled have been contacted regarding the proposed wells but

have failed or refused to voluntarily commit their interest in the wells. However, Cimarex has

been in ongoing discussions with some of the interest owners to voluntarily enter into a Joint

Operating Agreement. If a mutually agreeable Joint Operating Agreement is reached between

Cimarex and another interest owner or owners, Cimarex requests that the voluntary agreement

become operative and supersede the Division's order for said parties, except to the extent the

Division deems it necessary to maintain spacing criteria for the purpose of conservation, the

prevention of waste, and protection of correlative rights.

14. Exhibit A-3 is a sample proposal letter and the AFE for the proposed wells. The estimated

cost of the wells set forth in the AFEs is fair, reasonable, and comparable to the costs of other wells

of similar depths and lengths drilled in this area of New Mexico.

15. Cimarex requests overhead and administrative rates of \$8,000/month for drilling the wells

and \$800/month for producing the wells, as listed in the JOA sent to the owners. These rates are

fair and comparable to the rates charged by other operators for wells of this type in this area of

southeastern New Mexico. Cimarex requests that these rates be adjusted periodically as provided in the COPAS Accounting Procedure.

- 16. Cimarex requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners.
  - 17. Cimarex requests that it be designated operator of the unit and wells.
- 18. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.
- 19. The granting of this Application is in the best interests of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.
  - 20. The foregoing is correct and complete to the best of my knowledge and belief.

**Re:** Proposal to Drill

Mescalero Ridge 21-28 Federal Com 2H-6H

Sections 21 & 28, Township 19 South, Range 34 East

Lea County, NM

Dear Working Interest Owner,

Cimarex Energy Co. hereby proposes to drill the Mescalero Ridge 21-28 Fed Com 2H, 3H, 4H, 5H, 6H wells at a legal location in Section 21, Township 19 South, Range 34 East, NMPM, Lea County, NM.

Mescalero Ridge 21-28 Fed Com 2H - The intended surface hole location for the well is 544' FNL and 2020' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 1980' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 3<sup>rd</sup> Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 10,750'.

Mescalero Ridge 21-28 Fed Com 3H - The intended surface hole location for the well is 484' FNL and 2100' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 1980' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 1st Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 9,696'.

Mescalero Ridge 21-28 Fed Com 4H - The intended surface hole location for the well is 484' FNL and 2080' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 660' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 1st Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 9,696'.

Mescalero Ridge 21-28 Fed Com 5H - The intended surface hole location for the well is 424' FNL and 1980' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 1980' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 2nd Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 10,300'.

**EXHIBIT** 

**A-**3

Mescalero Ridge 21-28 Fed Com 6H - The intended surface hole location for the well is 424' FNL and 2000' FEL of Section 21, Township 19 South, Range 34 East, and the intended bottom hole location is 100' FSL and 660' FEL of Section 28, Township 19 South, Range 34 East. The well is proposed to be drilled vertically to the 2nd Bone Spring interval and laterally within the formation to the referenced bottom hole location. Total vertical depth of the well is proposed to be approximately 10,300'.

It should be understood that compliance with topography or cultural or environmental concerns, among others, might require modification of Cimarex's intended procedure. Cimarex will advise you of any such modifications.

Enclosed, in duplicate, is (i) our detailed AFE reflecting estimated costs associated with this proposal, and; (ii) our proposed form of Operating Agreement to govern operations of the Mescalero Ridge 21-28 Fed Com wells. If you intend to participate, please approve and return one (1) original of the enclosed AFE, one (1) original of the signature page to the Operating Agreement, along with the contact information to receive your well data, to the undersigned within thirty (30) days of receipt of this proposal. If you elect to purchase your own well control insurance, you must provide a certificate of such insurance to Cimarex prior to commencement of drilling operations; otherwise, you will be covered by insurance procured by Cimarex and will be responsible for your share of the cost.

Cimarex will file for force pooling for the Mescalero Ridge 21-28 Fed Com 2H-6H Wells thirty (30) days after the receipt of this proposal.

If you elect not to participate, please so indicate on the attached election form and return it to the attention of the undersigned at the letterhead address. Failure to elect whether or not to participate within 30 days of your receipt of this proposal will, as provided in the Operating Agreement, will be considered an election not to participate.

Please call the undersigned at (432) 571-7883 with any questions or comments.

Respectfully,

John Coffman Landman John.coffman@coterra.com

#### Comments On Well Costs

1. All tubulars, well or lease equipment is priced by COPAS and CEPS guidelines using the Historic Price Multiplier.

#### Well Control Insurance

Unless otherwise indicated below, you, as a non-operating working interest owner, agree to be covered by Operator's well control insurance procured by Operator so long as Operator conducts operations hereunder and to pay your prorated share of the premiums therefore. If you elect to purchase your own well control insurance, you must provide a certificate of such insurance acceptable to Operator, as to form and limits, at the time this AFE is returned, if available, but in no event later than commencement of drilling operations. You agree that failure to provide the certificate of insurance, as provided herein, will result in your being covered by insurance procured by Operator.

I elect to purchase my own well control insurance policy.

#### Marketing Election

Cimarex sells its gas under arm's-length contracts with third party purchasers. Such contracts may include fees. In addition, penalties may be incurred for insufficient volumes delivered over time. Should you choose to market your share of gas with Cimarex, you will be subject to all of the terms of such contracts. Upon written request to Cimarex's Marketing Department, we will share with you the terms and conditions pursuant to which gas will be sold. Failure to make an election below shall be deemed an election to market your gas with Cimarex under the terms and conditions set forth above.

I elect to take my gas in kind.

I elect to market my gas with Cimarex pursuant to the terms and conditions of its contract.

#### Comments on AFE

The above costs are estimates only and anticipate trouble free operations without any foreseeable change in plans. The actual costs may exceed the estimated costs without affecting the authorization for expenditure herein granted. By approval of this AFE, the working interest owner agrees to pay its proportionate share of actual legal, curative, regulatory and well costs under term of the joint operating agreement, regulatory order or other applicable agreement covering this well.

Approved By (Print Name)	Approved By (Signature)	Date
	Approved By (Print Name)	Approved By (Print Name) Approved By (Signature)

NOTICE TO NONOPERATOR: Costs shown on this form are estimates only. By executing this AFE, the consenting party agrees to pay its proportionate share of actual costs incurred. Overhead will be charged in accordance with the Joint Operating Agreement.

### Authorization For Expenditure Drilling

Bone Spring 2 /Sd/

AFE # 26725004

10,300

Date Prepared Company Entity Cimarex Energy Co (001) 4/27/2022 Well Name AFE **Exploration Region** Prospect Property Number MESCALERO RIDGE 21-28 FED COM Quail Ridge Prospect 309617-242.01 Permian Basin 26725004 County, State Location **Estimated Spud Estimated Completion** Lea, NM E/2 of Sections 21 and 28, Township 19 South, Range 34 East 2/9/2025 X New Formation Well Type Ttl Measured Depth Ttl Vetical Depth Supplement

Drill and complete well Purpose

#### Description

Revision

Drilling Drill and complete a horizontal test. Drill to 1790 Set Surface casing. Drill to Drill to 5327', set surface casing. Drill to 9790' (KOP). Drill curve at 12°/100' initial build rate to +/- 75 degrees and set casing at +/- 10415' MD. Finish curve at +/- 4°/100' to +/- 10300' TVD and drill a +/- 9910' long lateral in the 2nd BSS. Run and cement production liner. Stage frac.Drill out plugs. Run production packer, tubing and GLVs.

Drilling Costs	\$2,201,000		\$2,201,000
Intangible	Dry Hole	After Casing Point	Completed Well Cost

#### Comments On Well Costs

1. All tubulars, well or lease equipment is priced by COPAS and CEPS guidelines using the Historic Price Multiplier.

#### Well Control Insurance

Unless otherwise indicated below, you, as a non-operating working interest owner, agree to be covered by Operator's well control insurance procured by Operator so long as Operator conducts operations hereunder and to pay your prorated share of the premiums therefore. If you elect to purchase your own well control insurance, you must provide a certificate of such insurance acceptable to Operator, as to form and limits, at the time this AFE is returned, if available, but in no event later than commencement of drilling operations. You agree that failure to provide the certificate of insurance, as provided herein, will result in your being covered by insurance procured by Operator.

I elect to purchase my own well control insurance policy.

#### Marketing Election

Cimarex sells its gas under arm's-length contracts with third party purchasers. Such contracts may include fees. In addition, penalties may be incurred for insufficient volumes delivered over time. Should you choose to market your share of gas with Cimarex, you will be subject to all of the terms of such contracts. Upon written request to Cimarex's Marketing Department, we will share with you the terms and conditions pursuant to which gas will be sold. Failure to make an election below shall be deemed an election to market your gas with Cimarex under the terms and conditions set forth above.

I elect to take my gas in kind.

I elect to market my gas with Cimarex pursuant to the terms and conditions of its contract.

#### Comments on AFE

The above costs are estimates only and anticipate trouble free operations without any foreseeable change in plans. The actual costs may exceed the estimated costs without affecting the authorization for expenditure herein granted. By approval of this AFE, the working interest owner agrees to pay its proportionate share of actual legal, curative, regulatory and well costs under term of the joint operating agreement, regulatory order or other applicable agreement covering this well.

Nonoperator Approval			
Company	Approved By (Print Name)	Approved By (Signature)	Date

NOTICE TO NONOPERATOR: Costs shown on this form are estimates only. By executing this AFE, the consenting party agrees to pay its proportionate share of actual costs incurred. Overhead will be charged in accordance with the Joint Operating Agreement.

A.A.P.L. NO. 610 - 1989

COPAS 2005 Accounting Procedure Recommended by COPAS

# Exhibit " C " ACCOUNTING PROCEDURE JOINT OPERATIONS

Attached to and made part of that certain Operating Agreement dated February 11, 2022, between Cimarex Energy Co, of Colorado, as Operator on behalf of Magnum Hunter Production, Inc., a wholly owned subsidiary of Cimarex Energy Co, and Chevron U.S.A. Inc., et al, as Non-Operators

#### I. GENERAL PROVISIONS

IF THE PARTIES FAIL TO SELECT EITHER ONE OF COMPETING "ALTERNATIVE" PROVISIONS, OR SELECT ALL THE COMPETING "ALTERNATIVE" PROVISIONS, ALTERNATIVE 1 IN EACH SUCH INSTANCE SHALL BE DEEMED TO HAVE BEEN ADOPTED BY THE PARTIES AS A RESULT OF ANY SUCH OMISSION OR DUPLICATE NOTATION.

IN THE EVENT THAT ANY "OPTIONAL" PROVISION OF THIS ACCOUNTING PROCEDURE IS NOT ADOPTED BY THE PARTIES TO THE AGREEMENT BY A TYPED, PRINTED OR HANDWRITTEN INDICATION, SUCH PROVISION SHALL NOT FORM A PART OF THIS ACCOUNTING PROCEDURE, AND NO INFERENCE SHALL BE MADE CONCERNING THE INTENT OF THE PARTIES IN SUCH EVENT.

#### 1. **DEFINITIONS**

All terms used in this Accounting Procedure shall have the following meaning, unless otherwise expressly defined in the Agreement:

- "Affiliate" means for a person, another person that controls, is controlled by, or is under common control with that person. In this definition, (a) control means the ownership by one person, directly or indirectly, of more than fifty percent (50%) of the voting securities of a corporation or, for other persons, the equivalent ownership interest (such as partnership interests), and (b) "person" means an individual, corporation, partnership, trust, estate, unincorporated organization, association, or other legal entity.
- "Agreement" means the operating agreement, farmout agreement, or other contract between the Parties to which this Accounting Procedure is attached.
- "Controllable Material" means Material that, at the time of acquisition or disposition by the Joint Account, as applicable, is so classified in the Material Classification Manual most recently recommended by the Council of Petroleum Accountants Societies (COPAS).
- "Equalized Freight" means the procedure of charging transportation cost to the Joint Account based upon the distance from the nearest Railway Receiving Point to the property.
- "Excluded Amount" means a specified excluded trucking amount most recently recommended by COPAS.
- "Field Office" means a structure, or portion of a structure, whether a temporary or permanent installation, the primary function of which is to directly serve daily operation and maintenance activities of the Joint Property and which serves as a staging area for directly chargeable field personnel.
- "First Level Supervision" means those employees whose primary function in Joint Operations is the direct oversight of the Operator's field employees and/or contract labor directly employed On-site in a field operating capacity. First Level Supervision functions may include, but are not limited to:
  - Responsibility for field employees and contract labor engaged in activities that can include field operations, maintenance, construction, well remedial work, equipment movement and drilling
  - Responsibility for day-to-day direct oversight of rig operations
  - · Responsibility for day-to-day direct oversight of construction operations
  - · Coordination of job priorities and approval of work procedures
  - Responsibility for optimal resource utilization (equipment, Materials, personnel)
  - Responsibility for meeting production and field operating expense targets
  - Representation of the Parties in local matters involving community, vendors, regulatory agents and landowners, as an incidental
    part of the supervisor's operating responsibilities
  - · Responsibility for all emergency responses with field staff
  - · Responsibility for implementing safety and environmental practices
  - · Responsibility for field adherence to company policy
  - Responsibility for employment decisions and performance appraisals for field personnel
  - Oversight of sub-groups for field functions such as electrical, safety, environmental, telecommunications, which may have group
    or team leaders.
- "Joint Account" means the account showing the charges paid and credits received in the conduct of the Joint Operations that are to be shared by the Parties, but does not include proceeds attributable to hydrocarbons and by-products produced under the Agreement.
- "Joint Operations" means all operations necessary or proper for the exploration, appraisal, development, production, protection, maintenance, repair, abandonment, and restoration of the Joint Property.

COPAS 2005 Accounting Procedure Recommended by COPAS, Inc.

- · human resources
- management

A.

- supervision not directly charged under Section II.2 (Labor)
- legal services not directly chargeable under Section II.9 (Legal Expense)
- taxation, other than those costs identified as directly chargeable under Section II.10 (Taxes and Permits)
- preparation and monitoring of permits and certifications; preparing regulatory reports; appearances before or meetings with governmental agencies or other authorities having jurisdiction over the Joint Property, other than On-site inspections; reviewing, interpreting, or submitting comments on or lobbying with respect to Laws or proposed Laws.

Overhead charges shall include the salaries or wages plus applicable payroll burdens, benefits, and Personal Expenses of personnel performing overhead functions, as well as office and other related expenses of overhead functions.

#### 1. OVERHEAD—DRILLING AND PRODUCING OPERATIONS

As compensation for costs incurred but not chargeable under Section II (Direct Charges) and not covered by other provisions of this Sec

tion II	I, the Operator shall charge on either:
	(Alternative 1) Fixed Rate Basis, Section III.1.B. (Alternative 2) Percentage Basis, Section III.1.C.
TEC	PHNICAL SERVICES
(i)	Except as otherwise provided in Section II.13 (Ecological Environmental, and Safety) and Section III.2 (Overhead - Major Construction and Catastrophe), or by approval of the Parties pursuant to Section L6.A (General Matters), the salaries, wages related payroll burdens and benefits, and Personal Expenses for On-site Technical Services, including third party Technical Services:
	✓ (Alternative 1 – Direct) shall be charged <u>direct</u> to the Joint Account.
	☐ (Alternative 2 – Overhead) shall be covered by the <u>overhead</u> rates.
(ii)	Except as otherwise provided in Section II.13 (Ecological, Environmental, and Safety) and Section III.2 (Overhead – Major Construction and Catastrophe), or by approval of the Parties pursuant to Section I.6.A (General Matters), the salaries, wages related payroll burdens and benefits, and Personal Expenses for Off-site Technical Services, including third party Technical Services:

☐ (Alternative 1 – All Overhead) shall be covered by the <u>overhead</u> rates. ☑ (Alternative 2 – All Direct) shall be charged direct to the Joint Account.

☐ (Alternative 3 – Drilling Direct) shall be charged direct to the Joint Account, only to the extent such Technical Services are directly attributable to drilling, redrilling, deepening, or sidetracking operations, through completion, temporary abandonment, or abandonment if a dry hole. Off-site Technical Services for all other operations, including workover, recompletion, abandonment of producing wells, and the construction or expansion of fixed assets not covered by Section III.2 (Overhead - Major Construction and Catastrophe) shall be covered by the overhead rates.

Notwithstanding anything to the contrary in this Section III, Technical Services provided by Operator's Affiliates are subject to limitations set forth in Section II.7 (Affiliates). Charges for Technical personnel performing non-technical work shall not be governed by this Section III.1.A, but instead governed by other provisions of this Accounting Procedure relating to the type of work being performed.

#### B. OVERHEAD-FIXED RATE BASIS

(1) The Operator shall charge the Joint Account at the following rates per well per month:

Drilling Well Rate per month \$ 8,000.00 \_\_ (prorated for less than a full month) Producing Well Rate per month \$ 800.00

- (2) Application of Overhead—Drilling Well Rate shall be as follows:
  - (a) Charges for onshore drilling wells shall begin on the spud date and terminate on the date the drilling and/or completion equipment used on the well is released, whichever occurs later. Charges for offshore and inland waters drilling wells shall begin on the date the drilling or completion equipment arrives on location and terminate on the date the drilling or completion equipment moves off location, or is released, whichever occurs first. No charge shall be made during suspension of drilling and/or completion operations for fifteen (15) or more consecutive calendar days.

#### STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF CIMAREX ENERGY CO., FOR A HORIZONTAL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

Case Nos. 22891-93

#### AFFIDAVIT OF STACI MUELLER

- I, STACI MUELLER, being duly sworn on oath, state the following:
  - 1. I am over the age of 18, and I have personal knowledge of the matters stated herein.
- 2. I am employed as a petroleum geologist for Cimarex Energy Co. ("Cimarex"), and I am familiar with the subject application and the geology involved.
- 3. This affidavit is submitted in connection with the filing by Cimarex of the above-referenced compulsory pooling applications pursuant to 19.15.4.12.A(1) NMAC.
- 4. I have testified previously by affidavit before the Oil Conservation Division ("Division") as an expert petroleum geologist; my credentials have been made a matter of record, and I have been qualified as an expert by the Division.
  - a. I have a Bachelor of Science Degree in Geophysical Engineering from Colorado School of Mines, and a Master of Science Degree in Geophysics from Colorado School of Mines.
  - b. I have worked on New Mexico Oil and Gas matters since July 2018.
- 5. **Exhibit B-1** is a structure map of the top of the 1<sup>st</sup> Bone Spring Sand formation with contour interval of 20°. The unit being pooled is outlined by a white rectangle. The

EXHIBIT

B

structure map shows that there is a regional down-dip to the southeast. I do not observe any faulting, pinchouts, or other geologic impediments to developing this targeted interval.

- 6. **Exhibit B-2** is a stratigraphic cross-section flattened on the top of the 2<sup>nd</sup> Bone Spring Carbonate formation. The first and third well in the cross section contains a Gamma Ray and Porosity log, and the middle well contains Gamma Ray, Resistivity, and Neutron/Density Porosity logs. The well logs are oriented north to south, and are meant to illustrate the continuity of the targeted formation. The well logs on the cross-section are representative of this formation in this area. The landing zone is highlighted by arrows.
- 7. Additional exhibits for the benefit of the Division's review include **Exhibit B-3**, a gross isopach of the 1<sup>st</sup> Bone Spring Sand formation, illustrating in the subject unit the thickness of the formation is between ~300-440ft. **Exhibit B-4** is a gun barrel representation of the unit. It illustrates what Cimarex has concluded to be optimal spacing and configuration for the development of the Bone Spring formation in this area. **Exhibit B-5** is a trajectory cross section-oriented N-S and highlights the reservoir being targeted as being correlative & continuous.
  - 8. I conclude from the attached exhibits that:
    - a. The horizontal spacing and proration unit is justified from a geologic standpoint.
    - b. There are no structural impediments or faulting that will interfere with horizontal development.
    - Each quarter-quarter section in the unit will contribute more or less equally to production.

- 9. The preferred well orientation in this area is North-South so that the wells run subperpendicular to the inferred orientation of the maximum horizontal stress.
- 10. The Exhibits to this Affidavit were prepared by me or compiled from Cimarex's company business records under my direct supervision.
- 11. The granting of this Application is in the interests of conservation, the prevention of waste and the drilling of unnecessary wells, and the protection of correlative rights.
  - 12. The foregoing is correct and complete to the best of my knowledge and belief.

- I, Darin C. Savage, attorney and authorized representative of Cimarex Energy Co. ("Cimarex"), the Applicant herein, being first duly sworn, upon oath, states the following:
- 1. Well proposals were timely sent to all working interest owners. See Exhibit A-3, herein.
- 2. Notice of the application and hearing in the above-reference case was timely sent by certified mail, return receipt requested, through the United States Postal Service on June 16, 2022, to all uncommitted interest owners sought to be pooled in this proceeding. See Exhibit C-2, attached hereto. Copies of notice letters and evidence of mailing to parties are attached hereto as Exhibits C-1 and C-2. Notice was also timely served by publication in the Hobbs News-Sun, a newspaper of general circulation in Lea County, New Mexico, on June 19, 2022, as reflected in the Affidavit of Publication attached hereto as Exhibit C-3.
- 3. It is my understanding that Cimarex has conducted a good faith, diligent effort to find the names and correct addresses for the interest owners entitled to receive notice of the application filed herein.

#### Dear Interest Owners:

This letter is to advise you that Cimarex Energy Co. ("Cimarex") has filed the enclosed applications, Case Nos. 22891, 22892 & 22893, with the New Mexico Oil Conservation Division ("Division") for the compulsory pooling of units in the Bone Spring formation.

In Case No. 22891, Cimarex seeks to pool the 3<sup>rd</sup> Bone Spring (10,290 ft to the base of the Bone Spring) covering the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 2H Well. Please note the depth severance in Paragraph 5 of the attached application.

In Case No. 22892, Cimarex seeks to pool the 1st and 2nd Bone Spring (from top of the Bone Spring to 10,290 ft) covering the W/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 3H and 5H Wells. Please note the depth severance in Paragraph 6 of the attached application.

**EXHIBIT** 

In Case No. 22893, Cimarex seeks to pool the 1st and 2nd Bone Spring (from top of the Bone Spring to 10,290 ft) covering the E/2 E/2 of Sections 21 and 28, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, a standard unit encompassing 320 acres, more or less, dedicated to the above-referenced 4H and 6H Wells. Please note the depth severance in Paragraph 7 and overlapping units in Paragraph 8 of the attached application.

A hearing has been requested before a Division Examiner on July 7, 2022, and the status of the hearing can be monitored through the Division's website. Division hearings will commence at 8:15 a.m., traditionally in Porter Hall at the Oil Conservation Division's Santa Fe Offices located at 1220 South Saint Francis Drive, Santa Fe, New Mexico 87505. However, under the COVID-19 Public Health policies, the hearing will be conducted remotely online. For information about remote access and status of the case, you can visit the Division's website at: <a href="https://www.emnrd.nm.gov/ocd/hearing-info/">https://www.emnrd.nm.gov/ocd/hearing-info/</a> or call (505) 476-3441.

You are being notified as an interest owner and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases are required by Division Rule 19.15.4.13.B NMAC to file a Prehearing Statement at least four business days in advance of a scheduled hearing, but in no event later than 5 p.m. mountain time on the Thursday preceding the scheduled hearing date. This statement must be filed at the Division's Santa Fe office at the above specified address and should include: The names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing.

If you have any questions about this matter, please contact John Coffman at (432) 571-7883 or at john.coffman@coterra.com.

Sincerely,

Darin C. Savage

Attorney for Cimarex Energy Co.
