STATE OF NEW MEXICO ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT OIL CONSERVATION DIVISION

APPLICATION OF MRC PERMIAN COMPANY FOR APPROVAL OF AN OVERLAPPING HORIZONTAL WELL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO.

CASE NO. 23417

APPLICATION

MRC Permian Company ("MRC" or "Applicant"), through undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order (a) approving a standard 400-acre, more or less, overlapping horizontal well spacing unit in the Bone Spring formation comprised of the W/2 SE/4 of Section 4, and the W/2 E/2 of Section 9 and 16, Township 23 South, Range 35 East, NMPM, Lea County, New Mexico, and (b) pooling all uncommitted mineral interests in this overlapping horizontal well spacing unit. In support of its application, MRC states:

- 1. Applicant is a working interest owner in the proposed overlapping horizontal spacing unit and has the right to drill thereon.
- 2. Applicant seeks to designate Matador Production Company (OGRID No. 228937) as the operator of the proposed overlapping horizontal spacing unit.
- 3. Applicant seeks to initially dedicate the above-referenced overlapping horizontal spacing unit to the proposed **Marlan Downey State Com #123H** well, to be horizontally drilled from a surface location in the N/2 SE/4 of Section 4 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 16.

 BEFORE THE OIL CONSERVATION DIVISION

SEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. B
Submitted by: MRC Permian Company
Hearing Date: April 6, 2023
Case Nos. 23417 & 23418

- 4. This 400-acre horizontal well spacing unit will overlap the following existing horizontal well spacing unit covering portions of the subject acreage:
 - 240-acre, more or less, horizontal well spacing unit comprised of the W/2 SE/4 of Section 4 and the W/2 E/2 of Section 9, Township 23 South, Range 35 East, dedicated to the Marlan Downey State 04&09-23S-35E AR #113H well (API: 30-025-46254).
- 5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.
- 6. The pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on April 6, 2023, and, after notice and hearing as required by law, the Division enter an order:

- A. Approving the overlapping horizontal well spacing unit and pooling all uncommitted interests therein;
- B. Designating Matador Production Company as operator of this overlapping horizontal spacing unit and the horizontal well to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, completing, and equipping the well;
- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and

E. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

APPLICATIONS OF MRC PERMIAN COMPANY FOR APPROVAL OF AN OVERLAPPING HORIZONTAL WELL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

CASE NOS. 23417 and 23418

Received by OCD: 4/4/2023 3:19:18 PM

AFFIDAVIT OF DAVID JOHNS

David Johns, of lawful age and being first duly sworn, states the following:

1. My name is David Johns and I am employed by MRC Energy Company, an affiliate of Matador Production Company ("Matador"), as a Landman. I have previously testified before the New Mexico Oil Conservation Division as an expert witness in petroleum land matters. I am familiar with the applications filed by Matador in these consolidated cases and the status of the lands in the subject area.

2. In these cases, Matador seeks an order pooling the uncommitted interests in the Bone Spring formation in the following standard horizontal spacing units:

In Case 23417, Matador seeks to pool all uncommitted interests in the Bone Spring formation underlying a standard 400-acre, more or less, horizontal well spacing unit comprised of the W/2 SE/4 of Section 4, and the W/2 E/2 of Section 9 and 16, Township 23 South, Range 35 East, NMPM, Lea County, New Mexico. The spacing unit will initially be dedicated to the Marlan Downey State Com #123H well, to be horizontally drilled from a surface location in the N/2 SE/4 of Section 4 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 16.

In addition, this 400-acre horizontal well spacing unit will overlap an existing horizontal well spacing unit covering portions of the subject acreage, being the 240-acre, more or less, horizontal well spacing unit comprised of the W/2 SE/4 of Section 4 and the W/2 E/2 of Section 9, Township 23 South, Range 35 East, dedicated to the Marlan Downey State 04&09-23S-35E AR #113H well (API: 30-025-46254). Matador is the designated operator of this existing horizontal well spacing unit. The proposed spacing unit will have a completed

interval located within the entirety of existing horizontal well spacing unit, among other acreage.

(b) In Case 23418, Matador seeks to pool all uncommitted interests in the Bone Spring formation underlying a standard 400-acre, more or less, overlapping horizontal well spacing unit in the Bone Spring formation comprised of the E/2 SE/4 of Section 4, and the E/2 E/2 of Section 9 and 16, Township 23 South, Range 35 East, NMPM, Lea County, New Mexico. The spacing unit will initially be dedicated to the Marlan Downey State Com #124H well, to be horizontally drilled from a surface location in the N/2 SE/4 of Section 4 to a bottom hole location in the SE/4 SE/4 (Unit P) of Section 16.

In addition, this 400-acre horizontal well spacing unit will overlap an existing horizontal well spacing unit covering portions of the subject acreage, being the 240-acre, more or less, horizontal well spacing unit comprised of the E/2 SE/4 of Section 4 and the E/2 E/2 of Section 9, Township 23 South, Range 35 East, dedicated to the Marlan Downey State 04&09-23S-35E AR #114H well (API: 30-025-46255). Matador is the designated operator of this existing horizontal well spacing unit. The proposed spacing unit will have a completed interval located within the entirety of existing horizontal well spacing unit, among other acreage.

- 3. A map showing each of the above-referenced overlapping spacing units is attached as **Matador Exhibit C-1**.
- 4. **Matador Exhibit C-2** contains a copy of the notice that Matador sent to the working interest owners in the existing spacing unit for the Marlan Downey State 04&09-23S-35E AR #113H well (API: 30- 025-46254) well and the proposed spacing unit in Matador's **Case 23417**. Matador has not received written notice of any objection to the notice of overlapping spacing unit.
- 5. **Matador Exhibit C-3** contains a copy of the notice that Matador sent to the working interest owners in the existing spacing unit for the Marlan Downey State 04&09-23S-35E AR #114H well (API: 30-025-46255) well and the proposed spacing unit in Matador's **Case 23418**. Matador has not received written notice of any objection to the notice of overlapping spacing unit.

- 7. Matador understands that these Wolfcamp wells will be placed in (i) the ROCK LAKE; BONE SPRING, SOUTH [52769] pool for the acreage in Sections 4 and 9, and (ii) the WC-025 G-06 S233516M; MID BONE SPRING [98246] pool for the acreage in Section 16.
- 8. **Matador Exhibit C-5** identifies the tracts of land comprising each of the proposed horizontal spacing units. The subject acreage is comprised of state acreage.
- 9. There are no depth severances within the Bone Spring formation underlying this acreage.
- 10. **Matador Exhibit C-6** identifies the working interest owners that Matador is seeking to pool in each of these proposed horizontal spacing units. **Matador Exhibit C-6** also identifies the overriding royalty interest owners that Matador is seeking to pool in each case.
- 11. **Matador Exhibit C-7** contains a sample of the well proposal letters and AFEs sent to the working interest owner Matador is seeking to pool. The costs reflected in these AFEs are consistent with what other operators have incurred for drilling similar horizontal wells in the area in these formations. **Matador Exhibit C-7** also includes a copy of the supplemental notice letter that Matador sent to the working interest owners it seeks to pool clarifying the location of the proposed wells.
- (c) Matador Exhibit C-8 contains a general summary of the contacts with the uncommitted working interest owners that Matador seeks to pool. As indicated in Exhibit C-8, Matador has located and has discussions with each owner that it seeks to pool in both cases. In my opinion, Matador has undertaken good faith efforts to reach an agreement with the uncommitted working interest owners.
- (d) Matador requests that the overhead and administrative costs for drilling and producing the proposed wells be set at \$8,000 per month while drilling and \$800 per month while producing. These costs are consistent with what other operators are charging in this area for similar wells.

Received by OCD: 4/4/2023 3:19:18 PM

- Matador has provided the law firm of Holland & Hart LLP with the names and addresses (where available) of the parties that Matador seeks to pool and instructed that they be notified of this hearing.
- (f) Matador Exhibits C-1 through C-8 were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NAUGHT.

Re:

Notice of Overlapping Spacing Unit

Matador's Marlan Downey State Com #123H

To Whom It May Concern:

Matador Production Company has proposed the above-referenced well for the initial development of the Bone Spring formation under the W/2 E/2 of Sections 9 and 16 and the W/2 SE/4 of Section 4, Township 23 South, Range 35 East, NMPM, Lea County, NM.

This letter is to advise you that this proposed development plan will require the formation of the 400 acre, more or less, spacing unit comprised of the W/2 E/2 of Sections 9 and 16 and the W/2 SE/4 of Section 4, Township 23 South, Range 35 East, NMPM, Lea County, NM, which will initially be dedicated to:

(i) Matador's Marlan Downey State Com #123H, to be drilled from a surface location within the N/2 SE/4 of Section 4, T-23-S, R-35-E to a bottom hole location within the SW/4 SE/4 of Section 16, T-23-S, R-35-E. This well is targeting the Second Bone Spring of the Bone Spring formation, with an approximate TVD of 10,271'.

Matador's proposed 400-acre spacing unit will overlap the following existing spacing unit and well:

(i) Matador's Marlan Downey 4 9 23S 35E State Com #113H (API 30-025-46254), drilled from a surface location within NE/4 SE/4 of Section 4, T-23-S, R-35-E to a bottom hole location within SW/4 SE/4 of Section 9, T-23-S, R-35-E. This well is targeting the First Bone Spring of the Bone Spring formation, with an approximate TVD of 9,770'.

Pursuant to NMAC 19.15.16.15.B(9) and 19.15.15.12.B, you have a right to object the overlapping spacing unit by delivering a written statement of objection to our office within twenty (20) days of the mailing of this notice. If no objection is received within this 20-day period, we will proceed with obtaining any remaining regulatory approvals for the proposed spacing unit.

If you have any questions about this matter, please contact me at your convenience.

Sincerely,

David Johns

Senior Landman for Matador Production Company

Case Nos. 23417 & 23418

EXHIBIT C-3

VIA CERTIFIED MAIL RETURN RECEIPT REQUESTED

TO ALL WORKING INTEREST OWNERS IN THE AGREAGE AFFECTED BY PROPOSED OVERLAPPING SPACING UNIT

March 1, 2023

Re:

Notice of Overlapping Spacing Unit

Matador's Marlan Downey State Com #124H

To Whom It May Concern:

Matador Production Company has proposed the above-referenced well for the initial development of the Bone Spring formation under the E/2 E/2 of Sections 9 and 16 and the E2 SE4 of Section 4, Township 23 South, Range 35 East, NMPM, Lea County, NM.

This letter is to advise you that this proposed development plan will require the formation of the 400 acre, more or less, spacing unit comprised of the E/2 E/2 of Sections 9 and 16 and the E/2 SE/4 of Section 4, Township 23 South, Range 35 East, NMPM, Lea County, NM, which will initially be dedicated to:

(i) Matador's Marlan Downey State Com #124H, to be drilled from a surface location within the N/2 SE/4 of Section 4, T-23-S, R-35-E to a bottom hole location within the SE/4 SE/4 of Section 16, T-23-S, R-35-E. This well is targeting the Second Bone Spring of the Bone Spring formation, with an approximate TVD of 10,191'.

Matador's proposed 400-acre spacing unit will overlap the following existing spacing unit and well:

(i) Matador's Marlan Downey 4 9 23S 35E State Com #114H (API 30-025-46255), drilled from a surface location within NE/4 SE/4 of Section 4, T-23-S, R-35-E to a bottom hole location within SE/4 SE/4 of Section 9, T-23-S, R-35-E. This well is targeting the First Bone Spring of the Bone Spring formation, with an approximate TVD of 9,690'.

Pursuant to NMAC 19.15.16.15.B(9) and 19.15.15.12.B, you have a right to object the overlapping spacing unit by delivering a written statement of objection to our office within twenty (20) days of the mailing of this notice. If no objection is received within this 20-day period, we will proceed with obtaining any remaining regulatory approvals for the proposed spacing unit.

If you have any questions about this matter, please contact me at your convenience.

Sincerely,

David Johns

Re: Marlan Downey State Com #123H & #124H (the "Wells")

Participation Proposal

SE/4 of Section 4, and E/2 of Sections 9 & 16, Township 23 South, Range 35 East

Lea County, New Mexico

Dear Sir/Madam:

MRC Permian Company ("MRC") proposes the drilling of Matador Production Company's Marlan Downey State Com #123H & Marlan Downey State Com #124H wells, located in SE/4 of Section 4, and E/2 of Sections 9 & 16, Township 23 South, Range 35 East, Lea County, New Mexico.

In connection with the above, please note the following:

- The estimated cost of drilling, testing, completing, and equipping of each Well is itemized on the two (2) enclosed Authority for Expenditures ("AFE") dated February 2, 2023.
- Marlan Downey State Com #123H: to be drilled from a legal location with a proposed surface hole location in the N/2SE/4 of Section 4-23S-35E, a proposed first take point located at 100' FNL and 1,980' FEL of Section 4-23S-35E, and a proposed last take point located at 100' FSL and 1,980' FEL of Section 16-23S-35E. The Well will have a targeted interval within the Bone Spring formation and will be drilled horizontally in the Bone Spring (~10,350' TVD) to a Measured Depth of approximately 23,400'.
- Marlan Downey State Com #124H: to be drilled from a legal location with a proposed surface hole location in the N/2SE/4 of Section 4-23S-35E, a proposed first take point located at 100' FNL and 660' FEL of Section 4-23S-35E, and a proposed last take point located at 100' FSL and 660' FEL of Section 16-23S-35E. The Well will have a targeted interval within the Bone Spring formation and will be drilled horizontally in the Bone Spring (~10,350' TVD) to a Measured Depth of approximately 23,400'.

MRC reserves the right to modify the locations and drilling plans described above in order to address topography, cultural or environmental concerns, among other reasons. MRC will advise you of any such modifications.

MRC requests that you indicate your election to participate in the drilling and completion of the Wells in the space provided below, sign and return one (1) copy of this letter to the undersigned.

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Exhibit No. C7
Submitted by: MRC Permian Company
Hearing Date: April 6, 2023
Case Nos. 23417 & 23418

MRC is proposing to drill the Wells under the terms of the modified 1989 AAPL form of Operating Agreement, which will be provided at a later date. The proposed Operating Agreement dated January 1, 2023, by and between Matador Production Company, as Operator and MRC Permian Company et al as Non-Operators, covers certain depths in the SE/4 of Section 4, and E/2 of Sections 9 & 16, Township 23 South, Range 35 East, Lea County, New Mexico, and has the following general provisions:

- 100/300/300 Non-consenting penalty
- \$8,000/\$800 Drilling and Producing rate
- Matador Production Company named as Operator

If your election is to participate in the drilling and completion of the Wells, please sign and return a copy of the enclosed AFEs within thirty (30) days of receipt of this notice. Please be aware that the enclosed AFEs are only an estimate of costs to be incurred and by electing to participate in the Wells, each working interest owner shall be responsible for its proportionate share of all costs incurred.

Thank you for your consideration of this proposal. Please contact me if you have any questions.

Sincerely,

MRC PERMIAN COMPANY

David Johns

LeaCo New Mexico Exploration and Production, LLC hereby elects to:

	Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Matador Production Company's Marlan Downey State Com #123H well. Not to participate in the Marlan Downey State Com #123H
	Participate for its proportionate share of the costs detailed in the enclosed AFE associated with Matador Production Company's Marlan Downey State Com #124H well. Not to participate in the Marlan Downey State Com #124H

VIA CERTIFIED RETURN RECEIPT MAIL

MR NM Operating, LLC 5950 Berkshire Lane, Suite 1000 Dallas, TX 75225

Re:

Marlan Downey State Com #123H & #124H (the "Wells")

Participation Proposal

SE/4 of Section 4, and E/2 of Sections 9 & 16, Township 23 South, Range 35 East

Lea County, New Mexico

Dear Sir/Madam:

MRC Permian Company ("MRC") previously proposed the drilling of Matador Production Company's Marlan Downey State Com #123H and Marlan Downey State Com #124H wells, located in SE/4 of Section 4, and E/2 of Sections 9 & 16, Township 23 South, Range 35 East, Lea County, New Mexico.

In connection with the above, please note that the subject participation proposal listed the Marlan Downey State Com #123H and Marlan Downey State Com #124H with respective first take points of 100' FNL and 1,980' FEL and 100' FNL and 660' FEL of Section 4-23S-35E. I am writing to clarify that the respective first take point will actually be located 2,540' FSL and 1,980' FEL and 2,540' FSL and 660' FEL of Section 4-23S-35E.

No other clarification was made to the proposal and no modification has been made to the AFE previously included in the original proposal.

Please contact me if you have any questions.

Sincerely,

MRC Permian Company

David Johns

EXHIBIT C-8

CASE 23417

Marian Downey Slot 3 (W2 SE4 of S4, W2 E2 of S9, W2 E2 of S16, 23S, 35E)

Uncommitted Working Interest Owner

1. MR NM Operating LLC

In addition to sending well proposals, Matador has had discussions with MR NM Operating LLC regarding their interest and we are continuing to discuss voluntary joinder.

2. Chief Capital (O&G) II LLC

In addition to sending well proposals, Matador has had discussions with Chief Capital (O&G) II LLC regarding their interest and we are continuing to discuss voluntary joinder.

3. Marlin Operating, LLC

In addition to sending well proposals, Matador has had discussions with Marlin Operating, LLC regarding their interest and we are continuing to discuss voluntary joinder.

CASE 23418

Marlan Downey Slot 4 (E2 SE4 of S4, E2 E2 of S9, E2 E2 of S16, 23S, 35E)

Uncommitted Working Interest Owner

1. MR NM Operating LLC

In addition to sending well proposals, Matador has had discussions with MR NM Operating LLC regarding their interest and we are continuing to discuss voluntary joinder.

2. Chief Capital (O&G) II LLC

In addition to sending well proposals, Matador has had discussions with Chief Capital (O&G) II LLC regarding their interest and we are continuing to discuss voluntary joinder.

3. Marlin Operating, LLC

In addition to sending well proposals, Matador has had discussions with Marlin Operating, LLC regarding their interest and we are continuing to discuss voluntary joinder.

4. Leaco New Mexico Exploration and Production LLC

In addition to sending well proposals, Matador has had discussions with Leaco New Mexico Exploration and Production LLC regarding their interest and we are continuing to discuss voluntary joinder.

5. XTO Delaware Basin, LLC

In addition to sending well proposals, Matador has had discussions with XTO Delaware Basin, LLCregarding their interest and we are continuing to discuss voluntary joinder.

6. Occidental Permian Limited Partnership

In addition to sending well proposals, Matador has had discussions with Occidental Permian Limited Partnership regarding their interest and we are continuing to discuss voluntary joinder.

STATE OF NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES **OIL CONSERVATION DIVISION**

APPLICATIONS OF MRC PERMIAN COMPANY FOR APPROVAL OF AN OVERLAPPING HORIZONTAL WELL SPACING UNIT AND COMPULSORY POOLING, LEA COUNTY, NEW MEXICO

CASE NOS. 23417 and 23418

AFFIDAVIT OF BLAKE HERBER

Blake Herber, of lawful age and being first duly sworn, declares as follows:

1. My name is Blake Herber and I am employed by MRC Energy Company, an

affiliate of Matador Production Company ("Matador"), as a Senior Staff Geologist.

2. I have previously testified before the New Mexico Oil Conservation Division as an

expert witness in petroleum geology. My credentials as a petroleum geologist have been accepted

by the Division and made a matter of record.

3. I am familiar with the applications filed by Matador in these cases and have

conducted a geologic study of the lands in the subject area.

4. Matador Exhibit D-1 is a locator map outlining the horizontal spacing units with

a black box shaded in yellow, with the larger area identified in a red box.

5. The target interval for the initial wells in these proposed spacing units is the Second

Bone Spring of the Bone Spring formation.

6. **Matador Exhibit D-2** is a subsea structure map that I prepared for the top of the

Bone Spring formation. The contour interval is 50 feet. The structure map shows the Bone Spring

formation dipping to the southwest. The structure appears consistent across the proposed spacing

BEFORE THE OIL CONSERVATION DIVISION Santa Fe, New Mexico

unit and I do not observe any faulting, pinch outs, or other geologic impediments to horizontal drilling.

- 7. Also included on Matador Exhibit D-2 is a line of cross section from A to A'.
- 8. **Matador Exhibit D-3** is a structural cross-section that I prepared displaying openhole logs run over the Bone Spring formation from the three representative wells denoted from A to A'. For each well in the cross-section, the following logs are included, when available: gamma ray, caliper, resistivity, and porosity. The proposed target interval of each of the respective proposed wells is labeled and marked with a yellow shaded area. The logs in the cross-section demonstrate that the targeted intervals are consistent in thickness across the entirety of the proposed spacing units.
- 9. Based on my geologic study of the area, I have not identified any geologic impediments to drilling horizontal wells within the Bone Spring formation in the area of the spacing units proposed in these cases.
- 10. In my opinion, the stand-up orientation is the preferred orientation for development in this area for Bone Spring wells because the maximum horizontal stress is east-west in this area.
- 11. In my opinion, each quarter-quarter section will be productive and contribute moreor-less equally to production from this horizontal spacing unit.
- 12. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery.
- 13. Approving Matador's applications will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.
- 14. **Matador Exhibits D-1 through D-3** were either prepared by me or compiled under my direction and supervision.

FURTHER AFFIANT SAYETH NAUGHT

Re: Application of MRC Permian Company for Approval of an Overlapping Well Spacing Unit and Compulsory Pooling, Lea County, New Mexico: Marlan

Downey State Com #123H well

Ladies & Gentlemen:

This letter is to advise you that MRC Permian Company has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on April 6, 2023, and the status of the hearing can be monitored through the Division's website at https://www.emnrd.nm.gov/ocd/.

During the COVID-19 Public Health Emergency, state buildings are closed to the public and hearings will be conducted remotely beginning at 8:15 a.m. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: https://www.emnrd.nm.gov/ocd/hearing-info/.

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact David Johns at (972) 619-1259 or DJohns@matadorresources.com.

Sincerely,

ATTORNEY FOR MRC PERMIAN COMPANY

STATE OF NEW MEXICO TO:
All named parties and persons having any right, title, interest or claim in the following case and notice to the public.

(NOTE: All land descriptions herein refer to the New Mexico Principal Meridian whether or not so stated.)

To: All interest owners subject to pooling proceedings and all working interest owners affected by the proposed overlapping spacing unit, including: MR NM Operating LLC; Marlin Operating, LLC; and Chief Capital (O&G) II LLC.

Case No. 23417: Application of MRC Permian Company for Approval of an Overlapping Horizontal Well Spacing Unit and Compulsory Pooling, Lea County, New Mexico. Applicant in the above-styled cause seeks an order (a) approving a standard 400-acre, more or less, overlapping horizontal well spacing unit in the Bone Spring formation comprised of the W/2 SE/4 of Section 4, and the W/2 E/2 of Section 9 and 16, Township 23 South, Range 35 East, NMPM, Lea County, New Mexico, and (b) pooling all uncommitted mineral interests in this overlapping horizontal well spacing unit. Said unit will be initially dedicated to the proposed Marlan Downey State Com #123H well, to be horizontally drilled from a surface location in the N/2 SE/4 of Section 4 to a bottom hole location in the SW/4 SE/4 (Unit O) of Section 16. This 400-acre horizontal well spacing unit will overlap the following existing horizontal well spacing unit covering portions of the subject acreage:

• 240-acre, more or less, horizontal well spacing unit comprised of the W/2 SE/4 of Section 4 and the W/2 E/2 of Section 9, Township 23 South, Range 35 East, dedicated to the Marlan Downey State 04&09-23S-35E

AR #113H well (API: 30-025-46254).

Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Matador Production Company as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 14 miles southwest of Eunice, New Mexico.
