

**STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION OF MEWBOURNE OIL  
COMPANY FOR APPROVAL OF A  
NON-STANDARD 640-ACRE HORIZONTAL  
WELL SPACING UNIT AND COMPULSORY  
POOLING, LEA COUNTY, NEW MEXICO.**

**CASE NO.** \_\_\_\_\_

**APPLICATION**

Mewbourne Oil Company (“Mewbourne” or “Applicant”) (OGRID No. 14744), through its undersigned attorneys, hereby files this application with the Oil Conservation Division for an order (a) approving a 640-acre, more or less, non-standard horizontal well spacing unit in the Bone Spring formation underlying the W2 of Sections 11 and 14, Township 18 South, Range 33 East, NMPM, Lea County, New Mexico and (b) pooling all uncommitted interests in this acreage. In support of its application, Mewbourne states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Due to the nature and configuration of the federal leases in the subject area, the Bureau of Land Management (“BLM”) will not approve the commingling of production at central facilities if the subject area is developed using standard horizontal well spacing units. See, e.g., 43 CFR 3173.14 (addressing authorized commingling). However, if the proposed non-standard spacing unit is approved by the Division, the BLM has stated it will issue a corresponding Communitization Agreement for the federal leases within the subject area to allow commingling and the corresponding reduction of the necessary surface facilities.

3. Mewbourne seeks to minimize cost and surface disturbance by consolidating facilities and commingling production from existing and future wells in the proposed non-standard spacing unit. To allow the proposed wells to be dedicated to a federal Communitization Agreement, Mewbourne requires approval of a corresponding non-standard horizontal well spacing unit in the Bone Spring formation.

4. Applicant seeks to initially dedicate the above-referenced spacing unit to the proposed **La Roca 14/11 Fed Com 521H** and the **La Roca 14/11 Fed Com 523H** wells to be horizontally drilled from a common surface location in the SW4SW4 (Unit M) of Section 14 to bottom hole locations in the NW4NW4 (Unit D) and the NE4NW4 (Unit C) of Section 11.

5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all the working interest owners in the subject spacing unit.

6. Approval of the non-standard unit will allow Mewbourne to efficiently locate surface facilities for the recovery of oil and gas underlying the subject lands, reduce surface disturbance, and lower operating costs.

7. The pooling of interests will avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this matter be set for hearing before an Examiner of the Oil Conservation Division on August 3, 2023, and, after notice and hearing as required by law, the Division enter an order:

- A. Approving the proposed non-standard spacing unit;
- B. Pooling all uncommitted interests in the horizontal spacing unit and approving the initial wells thereon;

- C. Designating Applicant as operator of the horizontal spacing unit and the horizontal wells to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping, and completing the wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

HOLLAND & HART LLP

**ATTORNEYS FOR MEWBOURNE OIL  
COMPANY**

CASE: \_\_\_\_\_

**Application of Mewbourne Oil Company for Approval of a 640-acre Non-Standard Horizontal Well Spacing Unit and Compulsory Pooling, Lea County, New Mexico.**

Applicant in the above-styled cause seeks an order (a) approving a 640-acre non-standard horizontal well spacing unit in the Bone Spring formation underlying the W2 of Sections 11 and 14, Township 18 South, Range 33 East, NMPM, Lea County, New Mexico, and (b) pooling all uncommitted interests in this acreage. This spacing unit will be initially dedicated to the proposed **La Roca 14/11 Fed Com 521H** and the **La Roca 14/11 Fed Com 523H** wells to be horizontally drilled from a common surface location in the SW4SW4 (Unit M) of Section 14 to bottom hole locations in the NW4NW4 (Unit D) and the NE4NW4 (Unit C) of Section 11. Also to be considered will be the cost of drilling and completing the wells and the allocation of the costs thereof, the operating costs and charges for supervision, the designation of applicant as operator of the proposed spacing unit, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 20 miles southwest of Lovington, New Mexico.
