FAE II Operating, LLC
Attn: Joseph Kent
11757 Katy Freeway, Suite 725
Houston, TX 77079

Gentlemen:

Our letter of April 29, 2022, designated 19,369.77 acres in the South Jal (Yates - Seven Rivers - Queen) Unit, Lea County, New Mexico, as logically subject to exploration and development under unitization provisions of the Mineral Leasing Act, as amended. Your letter of May 17, 2023, requests an amendment to five sections (Sections 2, 11, 13, 15, and 24) to the Unit Agreement and to Exhibit "C".

Your request is approved. The amended Unit Agreement and amended Exhibit "C" are enclosed.

Refer any questions on this matter to Abby Peterson, Land Law Examiner, at (307) 261-7636.

Sincerely,

J. David Chase
Chief, Reservoir Management Group

RE: **Request for Amended Designation**
Designation of Proposed Unit Area
South Jal Unit (Yates - Seven Rivers - Queen)
Lea County, New Mexico

Dear Mr. David Chase,

Whereas, on March 25, 2022, FAE II Operating, LLC ("**Forty Acres**") submitted an Application for Designation (Preliminary Approval) of the proposed South Jal Unit (Yates - Seven Rivers - Queen) ("**South Jal Unit**"), as an area logically subject to development through enhanced oil recovery operations (waterflood and CO2); and

Whereas, on April 29, 2022 the Chief, Reservoir Management Group ("**BLM**") requested the designation of the South Jal Unit, embracing 19,369.77 acres in Lea County, New Mexico as logically subject to operations under unitization provisions of the Mineral Leasing Act, as amended. Further, the BLM accepted the proposed form unit agreement along with its submitted Exhibits "A", "B", and "C"; and

Whereas, Forty Acres, as unit operator, on behalf of itself and other working interest owners, desires to amend the previously submitted and approved Unit Agreement an associated Exhibit "C";

Now Therefore, Forty Acres hereby submits this Request for Amended Designation of Unit (Preliminary Approval) of the proposed South Jal Unit (Yates - Seven Rivers - Queen), as an area logically subject to development through enhanced oil recovery operations (waterflood and CO2).

Enclosed with this letter is the following:

1. **Amended form of Unit Agreement**
2. **Amended Exhibit "C" to Unit Agreement**

Received by OCD: 11/30/2023 2:15:38 PM
Released to Imaging: 12/4/2023 3:14:14 PM

Additionally, Forty Acres is requesting the following amendments of the proposed Unit Agreement:

1. SECTION 2. UNIT AREA AND DEFINITIONS

The definition of (k) "Tract Participation" shall be amended to the following:

"(k) "Tract Participation" is defined as the percentage of participation shown on Exhibit "C" for allocating Unitized Substances to a Tract under this agreement."

2. SECTION 11. PLAN OF OPERATIONS.

The first paragraph of Section 11 is amended as follows:

"It is recognized and agreed by the parties hereto that all of the land subject to this Agreement is reasonably proved to be productive of Unitized Substances and that the object and purpose of this Agreement is to formulate and to put into effect an improved recovery project in order to effect additional recovery of Unitized Substances, prevent waste, and conserve natural resources. Unit Operator shall have the right to inject into the Unitized Formation any substances for enhanced recovery purposes, inclusive of CO2, as needed or desired by Operator, which will not require an accounting to the Working Interest Owners, as to these substances so used or stored, in accordance with a plan of operation approved by the Working Interest Owners, the A.O., the Land Commissioner and the Division, including the right to drill and maintain injection wells on the Unitized Land and completed in the Unitized Formation, and to use abandoned wells. Subject to like approval, the Plan of Operation may be revised as conditions may warrant."

3. SECTION 13. TRACT PARTICIPATION.

The Exhibit "C" tract participation formula shall be amended to the following formula:

Single Phase Formula: 10%A + 90%B

A = Current Production from the unitized formation from July 1, 2022 to December 1, 2022
B = Remaining Oil In Place

4. SECTION 15. ALLOCATION OF UNITIZED SUBSTANCES.

The first paragraph of Section 15 is amended as follows:

Received by OCD: 11/30/2023 2:15:38 PM
Released to Imaging: 12/4/2023 3:14:14 PM

Page 4 of 2128

RECEIVED
MAY 17 2023
Bureau of Land Management
Carlsbad Field Office

"All Unitized Substances produced and saved (less, save and except any part of such Unitized Substances used in conformity with good operating practices on unitized land for drilling, operating, camp and other production or development purposes and for injection or unavoidable loss in accordance with a Plan of Operation approved by the A.O. and the Land Commissioner) shall be apportioned among and allocated to the qualified Tracts in accordance with the respective Tract Participations effective hereunder during the respective periods such Unitized Substances were produced, as set forth in the schedule of participation in Exhibit "C". The amount of Unitized Substances so allocated to each Tract, and only that amount (regardless of whether it be more or less than the amount of the actual production of Unitized Substances from the well or wells, if any, on such Tract) shall, for all intents, uses, and purposes, be deemed to have been produced from such Tract."

5. SECTION 24. EFFECTIVE DATE AND TERM.

The second paragraph of Section 24 is amended as follows:

"If this Agreement does not become effective on or before December 31,2024, it shall ipso facto expire on said date (hereinafter call "Expiration Date") and thereafter be of no further force or effect, unless prior thereto, this Agreement has been executed or ratified by Working Interest Owners owning a combined Participation of at least seventy-five percent (75%); and at least seventy-five percent (75%) of such Working Interest Owners committed to this Agreement have decided to extend Expiration Date for a period not to exceed one (1) year (hereinafter called "Extended Expiration Date"). If Expiration Date is so extended and this Agreement does not become effective on or before the Extended Expiration Date, it shall ipso facto expire on Extended Expiration Date and thereafter be of no further force and effect."

The fourth paragraph of Section 24 is amended as follows:

"The terms of this Agreement shall be for and during the time that Unitized Substances are produced from the Unitized Formation(s) and for so long thereafter as drilling, reworking, or other operations (including improved recovery operations) are prosecuted thereon without cessation on the Unitized Area of more than sixty (60) consecutive days unless sooner terminated as herein provided."

All other relevant information pertaining to the South Jal Unit and previously designated and approved by the BLM remains unchanged.

Received by OCD: 11/30/2023 2:15:38 PM
Released to Imaging: 12/4/2023 3:14:14 PM

Page 5 of 2128

We respectfully request your early review of this application as it is the intent of Forty Acres to schedule a hearing before the New Mexico Oil Conservation Division as quickly as is feasible.

Thank you, in advance, for you cooperation and assistance with this matter.

Sincerely,

Joseph Kent

AMENDED UNIT AGREEMENT
FOR THE DEVELOPMENT AND OPERATION
OF THE
SOUTH JAL UNIT (YATES - SEVEN RIVERS - QUEEN)
LEA COUNTY, NEW MEXICO

THIS AGREEMENT, entered into as of this _____ day of _____, 2023 by and between the parties subscribing, ratifying, or consenting hereto, and herein referred to as the "parties hereto."

WITNESSETH:

WHEREAS, the parties hereto are the owners of working, royalty, or other oil and gas interests in the Unit Area subject to this Agreement; and,

WHEREAS, the Mineral Leasing Act of February 25, 1920, 41 Stat. 437, as amended, 30 U.S.C. Sec. 181, et seq., authorizes Federal lessees and their representatives to unite with each other, or jointly or separately with others, in collectively adopting and operating a cooperative or unit plan of development or operation of any oil or gas pool, field, or like area, or any part thereof for the purpose of more properly conserving the natural resources thereof whenever determined and certified by the Secretary of the Interior to be necessary or advisable in the public interest; and,

WHEREAS, the Commissioner of Public Lands of the State of New Mexico is authorized by an Act of the Legislature (Section 1, Chapter 88, Laws 1943, as amended by Section 1 of Chapter 176, Laws of 1961) (Chapter 19, Article 10, Section 45, New Mexico Statutes 1978 Annotated), to consent to and approve the development or operation of State lands under agreements made by lessees of State land jointly or severally with other lessees where such agreements provide for the unit operation or development of part of or all of any oil or gas pool, field or area; and,

WHEREAS, the Commissioner of Public Lands of the State of New Mexico is authorized by an Act of the Legislature (Section 1, Chapter 88, Laws 1943, as amended by Section 1, Chapter 162, Laws of 1951) (Chapter 19, Article 10, Section 47, New Mexico Statutes 1978 Annotated) to amend with the approval of lessee, evidenced by the lessee's execution of such agreement or otherwise, any oil and gas lease embracing State lands so that the length of the term of said lease may coincide with the term of such agreements for the unit operation and development of part or all of any oil or gas pool, field or area; and,

WHEREAS, the Oil Conservation Division of the State of New Mexico (hereinafter referred to as the "Division") is authorized by an Act of the Legislature (Chapter 72, Laws of 1935, as amended) (Chapter 70, Article 2, Section 2, et seq., New Mexico Statutes 1978 Annotated) to approve this Agreement and the conservation provisions hereof; and,

WHEREAS, the Oil Conservation Division of the Energy and Minerals Department of the State of New Mexico is authorized by law (Chapter 65, Article 3 and Article 14, N.M.S. 1953

Received by OCD: 11/30/2023 2:15:38 PM

Released to Imaging: 12/4/2023 3:14:14 PM

Page 13 of 2128

limits of which extended from an upper limit described as the top of the Yates Formation to a lower limit at the base of the Queen Formation: the geologic markers having been previously found to occur at 2,635 feet and 3,563 feet, respectively, in Western Natural Gas Company's Dabbs #001 (re-entered and renamed to Dabbs #004 in January, 1997) well (located at 1650 feet FNL and 660 feet FWL of Section 34, T-25-S, R-37-E, Lea County, New Mexico) as recorded on the Schlumberger Electrical Log taken on August 14, 1957, said log being measured from a Kelly Bushing elevation of 3,025 feet above sea level.

(i) "Unitized Substances" are all oil, gas, gaseous substances, sulphur contained in gas, condensate, distillate and all associated and constituent liquid or liquefiable hydrocarbons, other than outside substances, within and produced from the Unitized Formation.

(j) "Tract" is each parcel of land described as such and given a Tract number in Exhibit "B".

(k) "Tract Participation" is defined as the percentage of participation shown on Exhibit "C" for allocating Unitized Substances to a Tract under this agreement.

(l) "Unit Participation" is the sum of the percentages obtained by multiplying the Working Interest of a Working Interest Owner in each Tract by the Tract Participation of such Tract.

(m) "Working Interest" is the right to search for, produce and acquire Unitized Substances whether held as an incident of ownership of mineral fee simple title, under an oil and gas lease, operating agreement, or otherwise held, which interest is chargeable with and obligated to pay or bear, either in cash or out of production, or otherwise, all or a portion of the cost of drilling, developing and producing the Unitized Substances from the Unitized Formation and operations thereof hereunder; provided, however, that any royalty interest created out of a working interest subsequent to the execution of this Agreement by the owner of the working interest shall continue to be subject to such working interest burdens and obligations. Likewise, any royalty interest may be joined to the Unit by the Working Interest Owner if the instrument vesting that interest so allows for joinder of the same to the Unit.

(n) "Working Interest Owner" is any party hereto owning a Working Interest, including a carried working interest owner, holding an interest in Unitized Substances by virtue of a lease, operating agreement, fee title or otherwise. The owner of oil and gas rights that are free of lease or other instrument creating a Working Interest in another shall be regarded as a Working Interest Owner to the extent of seven-eighths (7/8) of his interest in Unitized Substances, and as a Royalty Owner with respect to his remaining one-eighth (1/8) interest therein. Execution in both capacities as to this Agreement is unnecessary and by executing as a Working Interest Owner, the party is committing their Royalty Interest as if they joined as a Royalty Interest Owner.

(o) "Royalty Interest" or "Royalty" is an interest other than a Working Interest in or right to receive a portion of the Unitized Substances or the proceeds thereof and includes the

Page 14 of 2128

or interests as are shown in said map or schedule as owned by such party. The shapes and descriptions of the respective Tracts have been established by using the best information available. Each Working Interest Owner is responsible for supplying Unit Operator with accurate information relating to each Working Interest Owner's interest. If it subsequently appears that any Tract, because of diverse royalty or working interest ownership on the Effective Date hereof, should be divided into more than one Tract, or when any revision is requested by the A.O., or any correction of any error is needed, then the Unit Operator may correct the mistake by revising the exhibits to conform to the facts. The revision shall not include any reevaluation of engineering or geological interpretations used in determining Tract Participation. Each such revision of an exhibit made prior to thirty (30) days after the Effective Date shall be effective as of the Effective Date. Each other such revision of an exhibit shall be effective at 7:00 a.m. on the first day of the calendar month next following the filing for record of the revised exhibit or on such other date as may be determined by the Unit Operator and set forth in the revised exhibit. Copies of such revision shall be filed with the Land Commissioner, and not less than four copies shall be filed with the A.O. In any such revision, there shall be no retroactive allocation or adjustment of Unit Expense or of interests in the Unitized Substances produced, or proceeds thereof.

SECTION 4. EXPANSION. The above-described Unit Area may, with the approval of the A.O. and the Land Commissioner, when practicable, be expanded to include therein any additional Tract or Tracts regarded as reasonably necessary or advisable for the purposes of this Agreement provided, however, in such expansion there shall be no retroactive allocation or adjustment of Unit Expense or of interests in the Unitized Substances produced, or proceeds thereof. Pursuant to Subsection (b), the Working Interest Owners may agree upon an adjustment of investment by reason of the expansion. Such expansion shall be effectuated in the following manner:

(a) The Working Interest Owner or Owners of a Tract, or Tracts, desiring to bring such Tract, or Tracts, into this unit, shall file an application therefor with Unit Operator requesting such admission.

(b) Unit Operator shall circulate a notice of the proposed expansion to each Working Interest Owner in the Unit Area and in the Tract proposed to be included in the unit, setting out the basis for admission, the Tract Participation to be assigned to each Tract in the enlarged Unit Area, and other pertinent data. After negotiation (at Working Interest Owners' meeting or otherwise), if at least two Working Interest Owners having in the aggregate seventy-five percent (75%) of the Unit Participation then in effect have agreed to inclusion of such Tract or Tracts in the Unit Area, then Unit Operator shall:

1. After obtaining preliminary concurrence by the A.O. and Land Commissioner, prepare a notice of proposed expansion describing the contemplated changes in the boundaries of the Unit Area, the reason therefor, the basis for admission of the additional Tract or Tracts, the Tract Participation to be assigned thereto, and the proposed effective date thereof; and,

2. Deliver copies of said notice to the Land Commissioner, the A.O. at the proper BLM Office, each Working Interest Owner, and to the last known address of each lessee and lessor whose interests are affected, advising such parties that thirty (30) days will be

thereof to the Land Commissioner and the A.O.

In all such instances of effective resignation or removal, until a successor to Unit Operator is selected and approved as hereinafter provided, the Working Interest Owners shall be jointly responsible for the performance of the duties of the Unit Operator and shall, not later than thirty (30) days before such resignation or removal becomes effective, appoint a Unit Manager to represent them in any action to be taken hereunder.

The resignation or removal of Unit Operator under this Agreement shall not terminate its right, title or interest as the owner of a Working Interest or other interest in Unitized Substances, but upon the resignation or removal of Unit Operator becoming effective, such Unit Operator shall deliver possession of all wells, equipment, books and records, materials, appurtenances and any other assets used in connection with the Unit Operations to the new duly qualified successor Unit Operator or to the Unit Manager if no such new Unit Operator is elected. Nothing herein shall be construed as authorizing the removal of any material, equipment, or appurtenances needed for the preservation of any wells. Nothing herein contained shall be construed to relieve or discharge any Unit Operator or Unit Manager who resigns or is removed hereunder from any liability or duties accruing or performable by it prior to the effective date of such resignation or removal.

SECTION 8. SUCCESSOR UNIT OPERATOR. Whenever the Unit Operator shall tender its resignation as Unit Operator or shall be removed as hereinabove provided, the Working Interest Owners shall select a successor Unit Operator as herein provided. Such selection shall not become effective until (a) a Unit Operator so selected shall accept the duties and responsibilities of Unit Operator in writing, and (b) the selection shall have been approved by the Land Commissioner and the A.O. If no successor Unit Operator or Unit Manager is selected and qualified as herein provided, the Land Commissioner and/or the A.O., at their election, may declare this Agreement terminated.

In selecting a successor Unit Operator, the affirmative vote of three (3) or more Working Interest Owners having a total of sixty-five percent (65%), or more, of the total Unit Participation shall prevail; provided that if any one Working Interest Owner has a Unit Participation of more than thirty-five percent (35%), its negative vote or failure to vote shall not be regarded as sufficient against the selection of the successor Unit Operator unless supported by the vote of one or more other unaffiliated Working Interest Owners having a total Unit Participation of at least five percent (5%). If the Unit Operator who is removed votes only to succeed itself, or fails to vote, the successor Unit Operator may be selected by the affirmative vote of the owners of at least seventy-five percent (75%) of the Unit Participation remaining after excluding the Unit Participation of Unit Operator so removed.

SECTION 9. ACCOUNTING PROVISIONS AND UNIT OPERATING AGREEMENT. Costs and expenses incurred by Unit Operator in conducting Unit Operations hereunder shall be paid, apportioned among and borne by the Working Interest Owners in accordance with the Unit Operating Agreement. Such Unit Operating Agreement shall also provide the manner in which the Working Interest Owners shall be entitled to receive their respective proportionate and allocated share of the benefits accruing hereto in conformity with their underlying operating agreements, leases or other contracts and such other rights and obligations as between Unit Operator and the Working Interest Owners as may be agreed upon by the Unit Operator and the Working Interest

to commence Unit Operations for the enhanced recovery of Unitized Substances from the Unit Area within eighteen (18) months after the effective date of this Agreement, or any extension thereof approved by the A.O., this Agreement shall terminate automatically as of the date of default.

SECTION 12. USE OF SURFACE AND USE OF WATER. The parties, to the extent of their rights and interests, hereby grant to Unit Operator the right to use as much of the surface, including the water thereunder, of the Unitized Land as may reasonably be necessary for Unit Operations.

Unit Operator's free use of water or brine or both for Unit Operations, shall not include any water from any well, lake, pond, or irrigation ditch of a surface owner, unless approval for such use is granted by the surface owner. The aforementioned notwithstanding, if any Working Interest Owner has the right to use any well, lake, pond, or irrigation ditch of a surface owner, either by virtue of its lease or other agreement, or as surface owner itself, said right shall be conferred upon the Unit Operator to use these water sources as necessary or convenient for operations hereunder. Additionally, to the extent that any Working Interest Owner has the right to inject water for disposal, in addition to the rights to inject water for recovery operations hereunder, said right of disposal shall be conferred upon the Unit Operator.

Unit Operator shall pay the surface owner for damages to growing crops, fences, improvements, and structures on the Unitized Land that result from Unit Operations, and such payments shall be considered as items of unit expense to be borne by all the Working Interest Owners of lands subject hereto.

SECTION 13. TRACT PARTICIPATION. In Exhibit "C", attached hereto, there are listed and numbered the various Tracts within the Unit Area, and set forth opposite each Tract are figures which represent the Tract Participation, during Unit Operations, if all Tracts in the Unit Area qualify as provided herein. The Tract Participation of each Tract as shown in Exhibit "C" was determined in accordance with the following formula:

Tract Participation = 10% A + 90% B

A = the amount of oil and gas produced from the Unitized Formation by the Tract from July 1, 2022 through December 31, 2022.

B = the amount of Remaining Recoverable Oil In Place

In the event less than all Tracts are qualified on the Effective Date hereof, the Tract Participation shall be calculated on the basis of all such qualified Tracts rather than all Tracts in the Unit Area.

SECTION 14. TRACTS QUALIFIED FOR PARTICIPATION. On and after the Effective Date hereof, the Tracts within the Unit Area which shall be entitled to participation in the production of Unitized Substances shall be those Tracts more particularly described in Exhibit "B" that corner or have a common boundary (Tracts separated only by a public road or a railroad right-of-way

participation shall be revised Exhibit "B" and upon approval thereof by the Land Commissioner and the A.O., shall become a part of this Agreement and shall govern the allocation of production of Unitized Substances until a new schedule is approved by the Land Commissioner and the A.O.

SECTION 15. ALLOCATION OF UNITIZED SUBSTANCES. All Unitized Substances produced and saved (less, save and except any part of such Unitized Substances used in conformity with good operating practices on unitized land for drilling, operating, camp and other production or development purposes and for injection or unavoidable loss in accordance with a Plan of Operation approved by the A.O. and the Land Commissioner) shall be apportioned among and allocated to the qualified Tracts in accordance with the respective Tract Participations effective hereunder during the respective periods such Unitized Substances were produced, as set forth in the schedule of participation in Exhibit "C". The amount of Unitized Substances so allocated to each Tract, and only that amount (regardless of whether it be more or less than the amount of the actual production of Unitized Substances from the well or wells, if any, on such Tract) shall, for all intents, uses, and purposes, be deemed to have been produced from such Tract.

The Unitized Substances allocated to each Tract shall be distributed among, or accounted for, to the parties entitled to share in the production from such Tract in the same manner, in the same proportions, and upon the same conditions, as they would have participated and shared in the production from such Tracts, or in the proceeds thereof, had this Agreement not been entered into; and with the same legal force and effect.

No Tract committed to this Agreement and qualified for participation, as above provided, shall be subsequently excluded from participation hereunder on account of depletion of Unitized Substances.

If the Working Interest and/or the Royalty Interest in any Tract are divided with respect to separate parcels or portions of such Tract and owned now or hereafter in severalty by different persons, the Tract Participation shall, in the absence of a recordable instrument executed by all owners in such Tract and furnished to Unit Operator fixing the divisions of ownership, be divided among such parcels or portions in proportion to the number of surface acres in each.

Any Working Interest Owner receiving in kind or separately disposing of all or any part of the Unitized Substances allocated to any Tract, or receiving the proceeds therefrom if the same is sold or purchased by Unit Operator, shall be responsible for the payment of all royalty, overriding royalty and production payments due thereon, and each such party shall hold each other Working Interest Owner harmless against all claims, demands and causes of action by owners of such royalty, overriding royalty and production payments, as well as any regulatory or environmental issues, claims, or causes of action by surface owners and regulatory bodies.

If, after the Effective Date of this Agreement, there is any Tract or Tracts that are subsequently committed hereto, as provided in Section 4 (Expansion) hereof, or any Tract or Tracts within the Unit Area not committed hereto as of the Effective Date hereof but which are subsequently committed hereto under the provisions of Section 14 (Tracts Qualified for Participation) and Section 32 (Non-joinder and Subsequent Joinder); or, if any Tract is excluded from this Agreement as provided for in Section 21 (Loss of Title), the schedule of participation as

Page 18 of 2128

With the exception of Federal and State requirements to the contrary, Working Interest Owners may use, or consume, Unitized Substances for Unit Operations and no Royalty, overriding royalty, production, or other payments shall be payable on account of Unitized Substances used, lost, or consumed in Unit Operations, including those for injection or used gas.

Each Royalty Owner (other than the State of New Mexico and the United States of America) that executes this Agreement represents and warrants that it is the owner of a Royalty Interest in a Tract or Tracts within the Unit Area as its interest appears in Exhibit "B", attached hereto. If any Royalty Interest in a Tract or Tracts should be lost by title failure, or otherwise, in whole or in part, during the term of this Agreement, then the Royalty Interest of the party representing himself to be the owner thereof shall be reduced proportionately and the interest of all parties shall be adjusted accordingly.

SECTION 18. RENTAL SETTLEMENT. Rentals or minimum Royalties due on the leases committed hereto shall be paid by Working Interest Owners responsible therefor under existing contracts, laws, and regulations, provided that nothing contained herein shall operate to relieve the lessees of any land from their respective lease obligations for the payment of any rental or minimum Royalty in lieu thereof, due under their leases. Rental for lands of the State of New Mexico subject to this Agreement shall be paid at the rate specified in the respective leases from the State of New Mexico. Rental or minimum Royalty for lands of the United States of America subject to this Agreement shall be paid at the rate specified in the respective leases from the United States of America, unless such rental or minimum Royalty is waived, suspended, or reduced by law or by approval of the Secretary or his duly authorized representative.

SECTION 19. CONSERVATION. Operations hereunder and production of Unitized Substances shall be conducted to provide for the most economical and efficient recovery of said substances without waste, as defined by or pursuant to Federal and State laws and regulations.

SECTION 20. DRAINAGE. The Unit Operator shall take all reasonable and prudent measures to prevent drainage of Unitized Substances from unitized land by wells on land not subject to this Agreement.

The Unit Operator, upon a majority approval by the Working Interest Owners, the A.O., and the Land Commissioner, is hereby empowered to enter into a borderline agreement or agreements with working interest owners of adjoining lands not subject to this Agreement with respect to operation in the border area for the maximum economic recovery, conservation purposes and proper protection of the parties and interest affected.

SECTION 21. LOSS OF TITLE. In the event title to any Tract of unitized land shall fail and the true owner cannot be induced to join in this Agreement, such Tract shall be automatically regarded as not committed hereto, and there shall be such readjustment of future costs and benefits as may be required on account of the loss of such title. In the event of a dispute as to title to any Royalty, Working Interest, or other interests subject thereto, payment or delivery on account thereof may be withheld without liability for interest until the dispute is finally settled; provided, that, as to State or Federal lands or leases, no payments of funds due the United States or the State of New

(b) Drilling, producing, or improved recovery operations performed hereunder shall be deemed to be performed upon and for the benefit of each Tract, and no lease shall be deemed to expire by reason of failure to drill or produce wells situated on the land therein embraced.

(c) Suspension of drilling or producing operations within the Unit Area pursuant to direction or consent of the Land Commissioner and the A.O., or their duly authorized representatives, shall be deemed to constitute such suspension pursuant to such direction or consent as to each Tract within the Unitized Area.

(d) Each lease, sublease, or contract relating to the exploration, drilling, development, or operation for oil and gas which by its terms might expire prior to the termination of this Agreement, is hereby extended beyond any such term so provided therein, so that it shall be continued in full force and effect for and during the term of this Agreement.

(e) Any lease embracing lands of the State of New Mexico which is made subject to this Agreement shall continue in force beyond the term provided therein as to the lands committed hereto until the termination hereof.

(f) Any lease embracing lands of the State of New Mexico having only a portion of its land committed hereto shall be segregated as to that portion committed and that not committed, and the terms of such lease shall apply separately to such segregated portions commencing as of the Effective Date hereof; provided, however, that notwithstanding any of the provisions of this Agreement to the contrary, such lease (including both segregated portions) shall continue in full force and effect beyond the term provided therein as to all lands embraced in such lease if oil or gas is, or has heretofore been discovered in paying quantities on some part of the lands embraced in such lease committed to this Agreement or, so long as a portion of the Unitized Substances produced from the Unit Area is, under the terms of this Agreement, allocated to the portion of the lands covered by such lease committed to this Agreement, or, at any time during the term hereof, as to any lease that is then valid and subsisting and upon which the lessee or the Unit Operator is then engaged in bona fide drilling, reworking, or improved recovery operations on any part of the lands embraced in such lease, then the same as to all lands embraced therein shall remain in full force and effect so long as such operations are diligently prosecuted, and if they result in the production of oil or gas, said lease shall continue in full force and effect as to all of the lands embraced therein, so long thereafter as oil or gas in paying quantities is being produced from any portion of said lands.

(g) The segregation of any Federal lease committed to this Agreement is governed by the following provision in the fourth paragraph of Section 17 (j) of the Mineral Leasing Act, as amended by the Act of September 2, 1960 (74 Stat. 781-784): "Any (Federal) lease heretofore or hereafter committed to any such (unit) plan embracing lands that are in part within and in part outside of the area covered by any such plan shall be segregated into separate leases as to the lands committed and the lands not committed as of the effective date of unitization: provided, however, that any such lease as to the non-unitized portion shall continue in force and effect for the term thereof but for not less than two years from

of the first day of the month after said Working Interest Owners' determination. Notice of any such termination shall be filed by Unit Operator in the office of the County Clerk of Lea County, New Mexico, within thirty (30) days of the effective date of termination.

Upon termination of this Agreement, the parties hereto shall be governed by the terms and provisions of the leases and contracts affecting the separate Tracts just as if this Agreement had never been entered into.

Notwithstanding any other provisions in the leases unitized under this Agreement, Royalty Owners hereby grant Working Interest Owners a period of six (6) months after termination of this Agreement in which to salvage, sell, distribute, or otherwise dispose of the personal property and facilities used in connection with Unit Operations.

SECTION 25. RATE OF PROSPECTING, DEVELOPMENT & PRODUCTION. All production and the disposal thereof shall be in conformity with allocations and quotas made or fixed by any duly authorized person or regulatory body under any Federal or State Statute. The A.O. is hereby vested with authority to alter or modify from time to time, in his discretion, the rate of prospecting and development and within the limits made or fixed by the Division to alter or modify the quantity and rate of production under this Agreement, such authority being hereby limited to alteration or modification in the public interest, the purpose thereof, and the public interest to be served thereby to be stated in the order of alteration or modification: provided, further, that no such alteration or modification shall be effective as to any land of the State of New Mexico as to the rate of prospecting and development in the absence of the specific written approval thereof by the Land Commissioner and as to any lands in the State of New Mexico or privately-owned lands subject to this Agreement or to the quantity and rate of production from such lands in the absence of specific written approval thereof by the Division.

Powers in this Section vested in the A.O. shall only be exercised after notice to Unit Operator and opportunity for hearing to be held not less than fifteen (15) days from notice, and thereafter subject to administrative appeal before becoming final.

SECTION 26. NON-DISCRIMINATION. Unit Operator, in connection with the performance of work under this Agreement relating to leases of the United States, agrees to comply with all of the provisions of Section 202 (1) to (7), inclusive of Executive Order 11246, (30 F.R. 12319), which are hereby incorporated by reference in this Agreement.

SECTION 27. APPEARANCES. Unit Operator shall have the right to appear for or on behalf of any interests affected hereby before the Land Commissioner, the Department, and the Division, and to appeal from any order issued under the rules and regulations of the Land Commissioner, the Department or the Division, or to apply for relief from any of said rules and regulations or in any proceedings relative to operations before the Land Commissioner, the Department or the Division, or any other legally constituted authority; provided, however, that any other interested party shall also have the right at his or its own expense to be heard in any such proceeding.

SECTION 28. NOTICES. All notices, demands, objections, and/or statements required hereunder to be given or rendered to the parties hereto shall be deemed fully given if made in writing and

Interest, by the owner of such interest subscribing also to the Unit Operating Agreement.

It is understood and agreed, however, that from and after the Effective Date hereof, the right of subsequent joinder as provided in this Section shall be subject to such requirements or approvals and on such basis as may be agreed upon by Working Interest Owners owning not less than sixty-five percent (65%) of the Unit Participation then in effect, and approved by the Land Commissioner and the A.O. Such subsequent joinder by a proposed Working Interest Owner must be evidenced by his execution or ratification of this Agreement and the Unit Operating Agreement and, where State or Federal land is involved, such joinder must be approved by the Land Commissioner or the A.O. Such joinder by a proposed Royalty Owner must be evidenced by his execution, ratification or consent of this Agreement and must be consented to in writing by the Working Interest Owner responsible for the payment of any benefits that may accrue hereunder on behalf of such proposed Royalty Owner. Except as may be otherwise herein provided, subsequent joinder to this Agreement shall be effective as of the first day of the month following the filing with the Land Commissioner and A.O. of duly executed counterparts of any and all documents necessary to establish effective commitment of any Tract or interest to this Agreement, unless objection to such joinder by the Land Commissioner or the A.O., is duly made sixty (60) days after such filing.

SECTION 33. COUNTERPARTS. This Agreement may be executed in any number of counterparts, no one of which needs to be executed by all parties and may be ratified or consented to by separate instrument in writing, specifically referring hereto, and shall be binding upon all those parties who have executed such a counterpart, ratification, or consent hereto with the same force and effect as if all parties had signed the same document, and regardless of whether or not it is executed by all other parties owning or claiming an interest in the land within the described Unit Area. Furthermore, this Agreement shall extend to and be binding on the parties hereto, their successors, heirs, and assigns.

SECTION 34. JOINDER IN DUAL CAPACITY. Execution as herein provided by any party as either a Working Interest Owner or a Royalty Owner shall commit all interests owned or controlled by such party; provided, that if the party is the owner of a Working Interest, he must also execute the Unit Operating Agreement.

SECTION 35. TAXES. Each party hereto shall, for its own account, render and pay its share of any taxes levied against or measured by the amount or value of the Unitized Substances produced from the unitized land; provided, however, that if it is required, or if it be determined that the Unit Operator or the several Working Interest Owners must pay or advance said taxes for the account of the parties hereto, it is hereby expressly agreed that the parties so paying or advancing said taxes shall be reimbursed therefor by the parties hereto, including Royalty Owners, who may be responsible for the taxes on their respective allocated share of said Unitized Substances. No taxes shall be charged to the United States or to the State of New Mexico, nor to any lessor who has a contract with a lessee which requires his lessee to pay such taxes.

SECTION 36. NO PARTNERSHIP. The duties, obligations, and liabilities of the parties hereto are intended to be several and not joint or collective. This Agreement is not intended to create, and shall not be construed to create, an association or trust, or to impose a partnership duty, obligation, or liability with regard to any one or more of the parties hereto. Each party hereto shall

FAE II Operating, LLC
ATTN: Mr. Joe Kent
11757 Katy Freeway, Suite 725
Houston, TX 77079

Re: Revised Preliminary Approval
South Jal (Seven - Rivers Queen) Unit
Lea, New Mexico

Dear Mr. Kent,

We received your request for Amended Designation dated May 16, 2023. We also received the unexecuted copy of the unit agreement that you submitted for the proposed South Jal (Yates – Seven Rivers Queen) Unit area, Lea County, New Mexico. The State Land Office (SLO) concurs with BLM on the new one phase formula that FAE is proposing for the unit. This agreement meets the general requirements of the SLO, and you have this date been granted preliminary approval as to form and content. The NMOCD must also be in agreement with FAE's proposed allocation formula before the SLO will provide final approval. Prior to issuance of SLO final approval, FAE will be required to submit a plan to the Land Office, for approval, regarding inactive wells on State Land and how they will be handled.

Preliminary approval shall not be construed to mean final approval of this agreement in any way and will not extend any short-term leases until final approval and an effective date have been given.

When submitting your agreement for final approval, please include the following:

1. Application for final approval by the Commissioner setting forth the tracts that have been committed and the tracts that have not been committed.

2. Pursuant to Rule 19.2.100.51, a statement of facts showing that:

   a. The agreement will tend to promote the conservation of oil and gas and the better utilization of reservoir energy.

   b. Under the proposed unit operation, the State of New Mexico will receive its fair and equitable share of the recoverable oil and gas in place under its lands in the proposed unit area.

   c. Each beneficiary institution of the State of New Mexico will receive its fair and equitable share of the recoverable oil and gas under its lands within the unit area.

   d. The unit agreement is in other respects for the best interest of the Trust.

3. All ratifications from the Lessees of Record and Working Interest Owners. The documents must contain original signatures that are acknowledged by a notary.

4. Approval order from the New Mexico Oil Conservation Division. State Land Office approval is conditioned upon approval by the New Mexico Oil Conservation Division.

5. Final approval letter from the Bureau of Land Management.

6. One copy of the Unit Operating Agreement.

7. A $4,000.00 total filing fee. The filing fee is $100 for each section or partial section included in the unit, whether federal, state, or privately owned.

If you have any questions or if we may be of further assistance, please contact the Units Manager, Scott Dawson at 505.827.5791 or sdawson@slo.state.nm.us.

Respectfully,

JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated _____, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

RATIFICATION AND
JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated _____, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 1ST day of MAY, 2023.

RATIFICATION AND
JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated _____, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 2nd day of May, 2023.

WELL DATA REQUIREMENTS
Black Shale Minerals, LLC (BSM) NON-OPERATED WELLS

The following information should be provided to BSM for each applicable well:

1. **SURVEY & ELEVATION PLATS** – email to NonOpReports@buffcoproduction.com

   Note: **Well locations should be shown in footage measurements and in Latitude & Longitude coordinates.** Pipelines and other significant reference points should also be spotted using both footage measurements and Lat/Long coordinates. **Lat/Long coordinates should be given in decimal format (ie Longitude –94.762068; Latitude 33.045172).** XY coordinates may be used in lieu of Lat/Long coordinated if necessary.

2. **STATE & FEDERAL FORMS** – email to NonOpReports@buffcoproduction.com
   (a) Application to Drill
   (b) Permit to Drill
   (c) Plugging Application
   (d) Plugging Permit
   (e) Production Tests
   (f) Completion Reports
   (g) Abandonment Report
   (h) Application for Well Category Determination
   (i) All other miscellaneous forms

3. **DAILY DRILLING REPORTS** – email to NonOpReports@buffcoproduction.com

   (a) Email Report - weekdays by 9:00 am – NonOpReports@buffcoproduction.com
   (b) Written Report –**only if email is unavailable** - mailed weekly - Attn: Jason Moore
   (c) Phone Report – **only if email is unavailable** (903) 988 - 8199
   (d) Fax Report – **only if email is unavailable** (903) 988 - 8608

4. **DRILLING & TESTING REPORTS & ANALYSIS**

ITEM	FIELD COPIES	FINAL COPIES
(a) Core Description	1	2
(b) Core Analysis	1	2
(c) Sample Description	1	2
(d) DST Reports & Charts	1	2
(e) DST Fluid & Gas Analysis	1	2
(f) Mud Log - Daily & Final	1	2
(g) Completion Report by Geologist	1	2
(h) All other miscellaneous reports	1	2

All items should be sent to the captioned address Attn: Jason Moore and emailed to NonOpReports@buffcoproduction.com

RATIFICATION AND
JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated May 4, 2023, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 4th day of May, 2023.

RATIFICATION AND
JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated APRIL 24, 2023, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 28TH day of APRIL, 2023.

RATIFICATION AND
JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated 6/28/2023, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 28 day of June 2023

RE: Proposed South Jal (Yates - Seven Rivers - Queen) Unit:

Dear Mr. Kent:

Graham Family Investments, LLC has elected NOT to participate as a working interest owner in the proposed South Jal Unit. I have enclosed an executed *Owner's Election Ballot*. This document has been executed by me as Managing Member with signatory authority for Graham Family Investments, LLC.

I apologize for the late arrival of this document. Your letter indicated that if the election document it did not arrive within 30 days, then it would be assumed non-consent. If you need any additional information, please feel free to contact me at any of the addresses listed above.

With Kind Regards,

Ms. Jimi S Gadzia
Managing Member

RATIFICATION AND
JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated _____, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 30th day of May, 2023.

RATIFICATION AND
JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated _____, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

RATIFICATION AND
JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated _____, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 18th day of May, 2023.

RATIFICATION AND
JOINDER OF UNIT AGREEMENT & UNIT OPERATING AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated _____, in form approved on behalf of the Secretary of the Interior, and in consideration of the execution or ratification by other working interest owners of the contemporary Unit Operating Agreement which relates to said Unit Agreement, the undersigned (whether one or more) hereby expressly ratifies, approves, confirms, and adopts said Unit Agreement, and also said Unit Operating Agreement as fully as though the undersigned had executed the original instruments.

This Ratification and Joinder shall be effective as to the undersigned's interest in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 15th day of May, 2023.

RATIFICATION AND
JOINDER OF UNIT AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated June 14, 2023, in form approved on behalf of the Secretary of the Interior, the undersigned (whether one or more) hereby expressly joins said Unit Agreement and ratifies, approves, confirms, and adopts said Unit Agreement as fully as though the undersigned had executed the original instrument.

This Ratification and Joinder shall be effective as to the undersigned's interests in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

VIA CERTIFIED MAIL
RETURN RECEIPT REQUESTED

TO ALL PARTIES ENTITLED TO NOTICE

Re: Case No. 23636 - Application of FAE II Operating, LLC for Statutory Unitization, Lea County, New Mexico.

To whom it may concern:

This letter is to advise you that the enclosed application was filed with the New Mexico Oil Conservation Division. The hearing will be conducted on **July 6, 2023** beginning at 8:15 a.m. The exhibits to the application, which include the Unit Agreement and Unit Operating Agreement, are available at the following website link: https://ocdimage.emnrd.nm.gov/imaging/casefileview.aspx?CaseNO=23636
If you would prefer a hard copy, please contact my office and one will be provided.

Hearings are currently conducted remotely. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: https://www.emnrd.nm.gov/ocd/hearing-info/. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days in advance of a scheduled hearing, but in no event later than 5:00 p.m. Mountain Time, on the Thursday preceding the scheduled hearing date. The statement must be submitted through the OCD E-Permitting system (https://wwwapps.emnrd.nm.gov/OCD/OCDPermitting) or via e-mail to ocd.hearings@emnrd.nm.gov and should include: the names of the parties and their attorneys, a concise statement of the case, the names of all witnesses the party will call to testify at the hearing, the approximate time the party will need to present its case, and identification of any procedural matters that are to be resolved prior to the hearing.

I am also enclosing a ratification agreement for your review. If you approve, please sign the agreement and send it to info@faenergyus.com. If you have questions about this matter, please contact Joe Kent at 832-674-1255 or email info@faenergyus.com.

Sincerely,
/s/ Dana S. Hardy

RATIFICATION AND
JOINDER OF UNIT AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated _____, in form approved on behalf of the Secretary of the Interior, the undersigned (whether one or more) hereby expressly joins said Unit Agreement and ratifies, approves, confirms, and adopts said Unit Agreement as fully as though the undersigned had executed the original instrument.

This Ratification and Joinder shall be effective as to the undersigned's interests in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 8th day of June, 2023

VIA CERTIFIED MAIL
RETURN RECEIPT REQUESTED

TO ALL PARTIES ENTITLED TO NOTICE

Re: Case No. 23636 - Application of FAE II Operating, LLC for Statutory Unitization, Lea County, New Mexico.

To whom it may concern:

This letter is to advise you that the enclosed application was filed with the New Mexico Oil Conservation Division. The hearing will be conducted on **July 6, 2023** beginning at 8:15 a.m. The exhibits to the application, which include the Unit Agreement and Unit Operating Agreement, are available at the following website link: https://ocdimage.emnrd.nm.gov/imaging/casefileview.aspx?CaseNO=23636
If you would prefer a hard copy, please contact my office and one will be provided.

Hearings are currently conducted remotely. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: https://www.emnrd.nm.gov/ocd/hearing-info/. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days in advance of a scheduled hearing, but in no event later than 5:00 p.m. Mountain Time, on the Thursday preceding the scheduled hearing date. The statement must be submitted through the OCD E-Permitting system (https://wwwapps.emnrd.nm.gov/OCD/OCDPermitting) or via e-mail to ocd.hearings@emnrd.nm.gov and should include: the names of the parties and their attorneys, a concise statement of the case, the names of all witnesses the party will call to testify at the hearing, the approximate time the party will need to present its case, and identification of any procedural matters that are to be resolved prior to the hearing.

I am also enclosing a ratification agreement for your review. If you approve, please sign the agreement and send it to info@faenergyus.com. If you have questions about this matter, please contact Joe Kent at 832-674-1255 or email info@faenergyus.com.

Sincerely,
/s/ Dana S. Hardy

RATIFICATION AND
JOINDER OF UNIT AGREEMENT

In consideration of the execution of the Unit Agreement for the Development and Operation of the **South Jal (Yates - Seven Rivers - Queen) Unit Area** located in Lea County, New Mexico, dated 6/22/2023, in form approved on behalf of the Secretary of the Interior, the undersigned (whether one or more) hereby expressly joins said Unit Agreement and ratifies, approves, confirms, and adopts said Unit Agreement as fully as though the undersigned had executed the original instrument.

This Ratification and Joinder shall be effective as to the undersigned's interests in any lands and leases, or interests therein, and royalties presently held or which may arise under existing option agreements or other interests in unitized substances, covering any and all of the lands within the Unit Area in which the undersigned may be found to have an oil or gas interest.

This Ratification and Joinder shall be binding upon the undersigned, their heirs, executors, devisees, assigns, and/or successors in interest.

EXECUTED this 22 day of June 2023.

TO ALL PARTIES ENTITLED TO NOTICE

Re: Case No. 23636 - Application of FAE II Operating, LLC for Statutory Unitization, Lea County, New Mexico.

To whom it may concern:

This letter is to advise you that the enclosed application was filed with the New Mexico Oil Conservation Division. The hearing will be conducted on **July 6, 2023** beginning at 8:15 a.m. The exhibits to the application, which include the Unit Agreement and Unit Operating Agreement, are available at the following website link: https://ocdimage.emnrd.nm.gov/imaging/casefileview.aspx?CaseNO=23636
If you would prefer a hard copy, please contact my office and one will be provided.

Hearings are currently conducted remotely. To participate in the electronic hearing, see the instructions posted on the OCD Hearings website: https://www.emnrd.nm.gov/ocd/hearing-info/. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days in advance of a scheduled hearing, but in no event later than 5:00 p.m. Mountain Time, on the Thursday preceding the scheduled hearing date. The statement must be submitted through the OCD E-Permitting system (https://wwwapps.emnrd.nm.gov/OCD/OCDPermitting) or via e-mail to ocd.hearings@emnrd.nm.gov and should include: the names of the parties and their attorneys, a concise statement of the case, the names of all witnesses the party will call to testify at the hearing, the approximate time the party will need to present its case, and identification of any procedural matters that are to be resolved prior to the hearing.

I am also enclosing a ratification agreement for your review. If you approve, please sign the agreement and send it to info@faenergyus.com. If you have questions about this matter, please contact Joe Kent at 832-674-1255 or email info@faenergyus.com.

Sincerely,
/s/ Dana S. Hardy

Attachments: 2022.06.23 - 1st Revised Offer Letter - ConocoPhillips, et al.pdf

Joe,

Please see below the latest correspondence with Conoco and the latest offer letter attached. I called Ruth after I received this email but did not hear back.

Per her email below, it looks like she moved areas, and the new contact is Brian Trejo Rojo.

Thank you,

Colleen Bradley | Landman

Subject: RE: [EXTERNAL]Re: reschedule on phone call

Hi Colleen,

Hope you had a great thanksgiving break! I wanted to touch base with on the revised offer letter. By any chance does FAE have title information on the unit (regarding our interests)? This is such a large unit and any title opinion excerpts or information you may have would be really helpful as we negotiate.
Also, I am moving groups/areas. Im not sure if I'll be the main person you work with on this in the near future but in the meantime I wanted to cc my counterpart (Brian Trejo Rojo) on this email so he was also in the loop.

Good afternoon, Ruth!

Thank you for your time yesterday. Per our phone call, please find attached the latest offer letter from FAE to purchase Conoco's interest in the proposed South Jal (Yates-Seven Rivers-Queen) EOR Unit ("South Jal Unit"). I've also attached a copy of the South Jal Unit map with tract numbers for reference.

Please let me know if there is anything I can send your way or if you have any questions.

Thank you,

Jess,

In the interest of time, and given our discussions of COP's desire to sell out of the South Jal Unit, we would like to move forward with submitting an offer to COP, and its affiliates for their acreage within the South Jal Unit only. This is in lieu of the larger acreage deal we discussed below which we can address at a later date.

See attached offer letter for $400/net acre for all of COP's, and its affiliates rights in the South Jal Unit excluding any royalty interests which COP will retain.

Let me know if you would like to discuss this further. Time is of the essence on this so I appreciate your immediate attention and feedback.

Jess,

See attached list of acreage we would be interested in purchasing. I am working on a /acre bonus consideration number, but before I do that I was hoping you cvould help me.

The list above is the acreage we are confident COP and its affiliates own. There is an additional area that we do not have title on yet, but know COP likey has acreage in this area. Can you send me a list of acreage that you show COP as owning within the blue box?

Once you send me that list, I can review quickly and compile a total offer schedule.

Jess,

I know you mentioned last week if FAE would be interested in buying COP out of the South Jal. Would COP be interested in an offer for your South Jal Acreage on top of acreage within our upcoming North Jal and Northern Units? These units will be identical to the South Jal.

I can put together that offer if COP is interested…

Hey Joe-

Sorry for the delay in getting back to you. I am a one man show right now for all the non-op stuff (not a great excuse but it sounds good). I am having some conversations with my engineers about the next step forward. I hope to have some feedback soon. In the meantime, you have my email and phone number so give me a call if needed.

Thanks,

Jess Ritter | Associate Land Negotiator, NM OBO | ConocoPhillips

Subject: [EXTERNAL]Meeting Follow Up- Items Discussed

CAUTION:This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Jess,

We appreciate you meeting with us on Tuesday afternoon. It was great to meet you in person.

As discussed, I am following up our conversation to address some of the concerns you had with our proposed South Jal Unit:

1. Gas Rights and Current Production: Gas rights are being tracked through the existing decks. If COP is currently receiving revenue for gas from existing wells, then it will continue to receive revenues from gas. Keep in mind, this unit will be an Enhanced Oil Recovery Unit with the oil being the primary value driver. We expect gas production to be very minimal. However, ***if you show that COP currently has gas only rights within the South Jal Unit boundary and it is not accurately represented below, please let me know and I will dig into the discrepancy***. Below is a breakdown of COP entity ownership in current production and ROIP as calculated in our South Jal Unit. It appears that only COG is the only COP entity currently receiving revenue from existing production.

	10%		90%			
Owner Name	**Current Production WI**	**Current Production NRI**	**ROIP WI**	**ROIP NRI**	**Final Allocation WI (90/10)**	**Final Allocation NRI (90/10)**
ConocoPhillips Company	0.000000%	0.000000%	0.723440%	0.672128%	0.651096%	0.604915%
Burlington Resources Oil & Gas Company	0.000000%	0.000000%	0.489649%	0.515779%	0.440684%	0.464201%
COG OPERATING, LLC	0.000000%	0.000577%	0.000000%	0.004266%	0.000000%	0.003897%
Concho Oil & Gas	0.000000%	0.000000%	0.000000%	0.000225%	0.000000%	0.000202%
					1.091780%	**1.073216%**

2. Title: We appreciate you bringing the Meridian interest to our attention, it looks like our broker missed the attached name change and we now have added the Meridian ownership into Burlington's interest. Other than that error, the attached schedules are effectively a copy and paste from our broker ownership reports and abstracts. We have successfully closed deals with other parties within this unit in which their records reflected different acreage similar to what you explained with Meridian. We have been able to successfully work with these other parties to fill in the gaps of title and close the deals. We hope to do this with COP as well. I am attaching plats of both the South Jal and North Jal Unit outlines. ***If there is acreage within these unit outlines that you show COP owning that you feel is not accurately represented on the attached schedules, please provide that data and we will check the discrepancies.***

3. I am re-sending the proposed Pre-Statutory Unitization Letter Agreement for your review. This Letter Agreement allows COP a deferred election under this unit until after the unit is approved. This will ensure COP has more time to evaluate its participation in the unit. Outside of this avenue, our offer to buy COP out of the South and North Jal Units is still on the table for $400/net acre (depth allocated).

We would like to continue working with COP on a resolution to COP's issues with our proposed South Jal Unit. I hope we can continue to work through any other title discrepancies in a similar manner as the Meridian Oil issue. Please do not hesitate to reach out with any further questions.

FAE II
11757 Katy Freeway, Suite 725
Houston, Texas 77079

June 23, 2022

ConocoPhillips Company
600 W. Illinois Ave.
Midland, Texas 79701

RE: 1st REVISED OFFER to purchase the interest of ConocoPhillips Company; COG Operating, LLC; Concho Oil & Gas; and, Burlington Resources Oil & Gas Company in FAE II's proposed South Jal EOR Unit, located in Southeastern Lea County, New Mexico.

Dear Mr. Ryan Curry,

We have prepared this Offer Letter pursuant to your request for an offer for Forty Acres Energy (sometimes referred to as "FAE" and/or "FAE II") to purchase the interest of ConocoPhillips Company; COG Operating, LLC; Concho Oil & Gas; and, Burlington Resources Oil & Gas Company (hereinafter referred to as "ConocoPhillips, et al.") in the proposed South Jal (Yates - Seven Rivers - Queen) EOR Unit.

The title due diligence used in ascertaining ownership of the lands covered by the proposed South Jal EOR Unit reflect the following interests in the lands located within the proposed South Jal EOR Unit boundaries, insofar only as the unitized interval, which are vested in ConocoPhillips, et al.:

PLEASE SEE EXHIBIT "A"
(Attached hereto and incorporated herein by reference)

Forty Acres Energy is willing to make a cash offer in the amount of **Sixty-Five Thousand Four Hundred Fifty Dollars ($65,450.00)** to purchase all of the above-described leasehold interest (specifically, Working Interest and/or Operating Rights; not mineral/royalty interests or ORRI currently credited to ConocoPhillips, et al.) that will be included within the proposed South Jal EOR Unit. This Offer Letter contemplates ConocoPhillips, et al., retaining an Overriding Royalty Interest equal to the positive difference, if any, between 25.00% and existing leasehold burdens (to be proportionately reduced to the extent that ConocoPhillips, et al., owns less than 100% Working Interest in the Leases subject to the proposed Assignment).

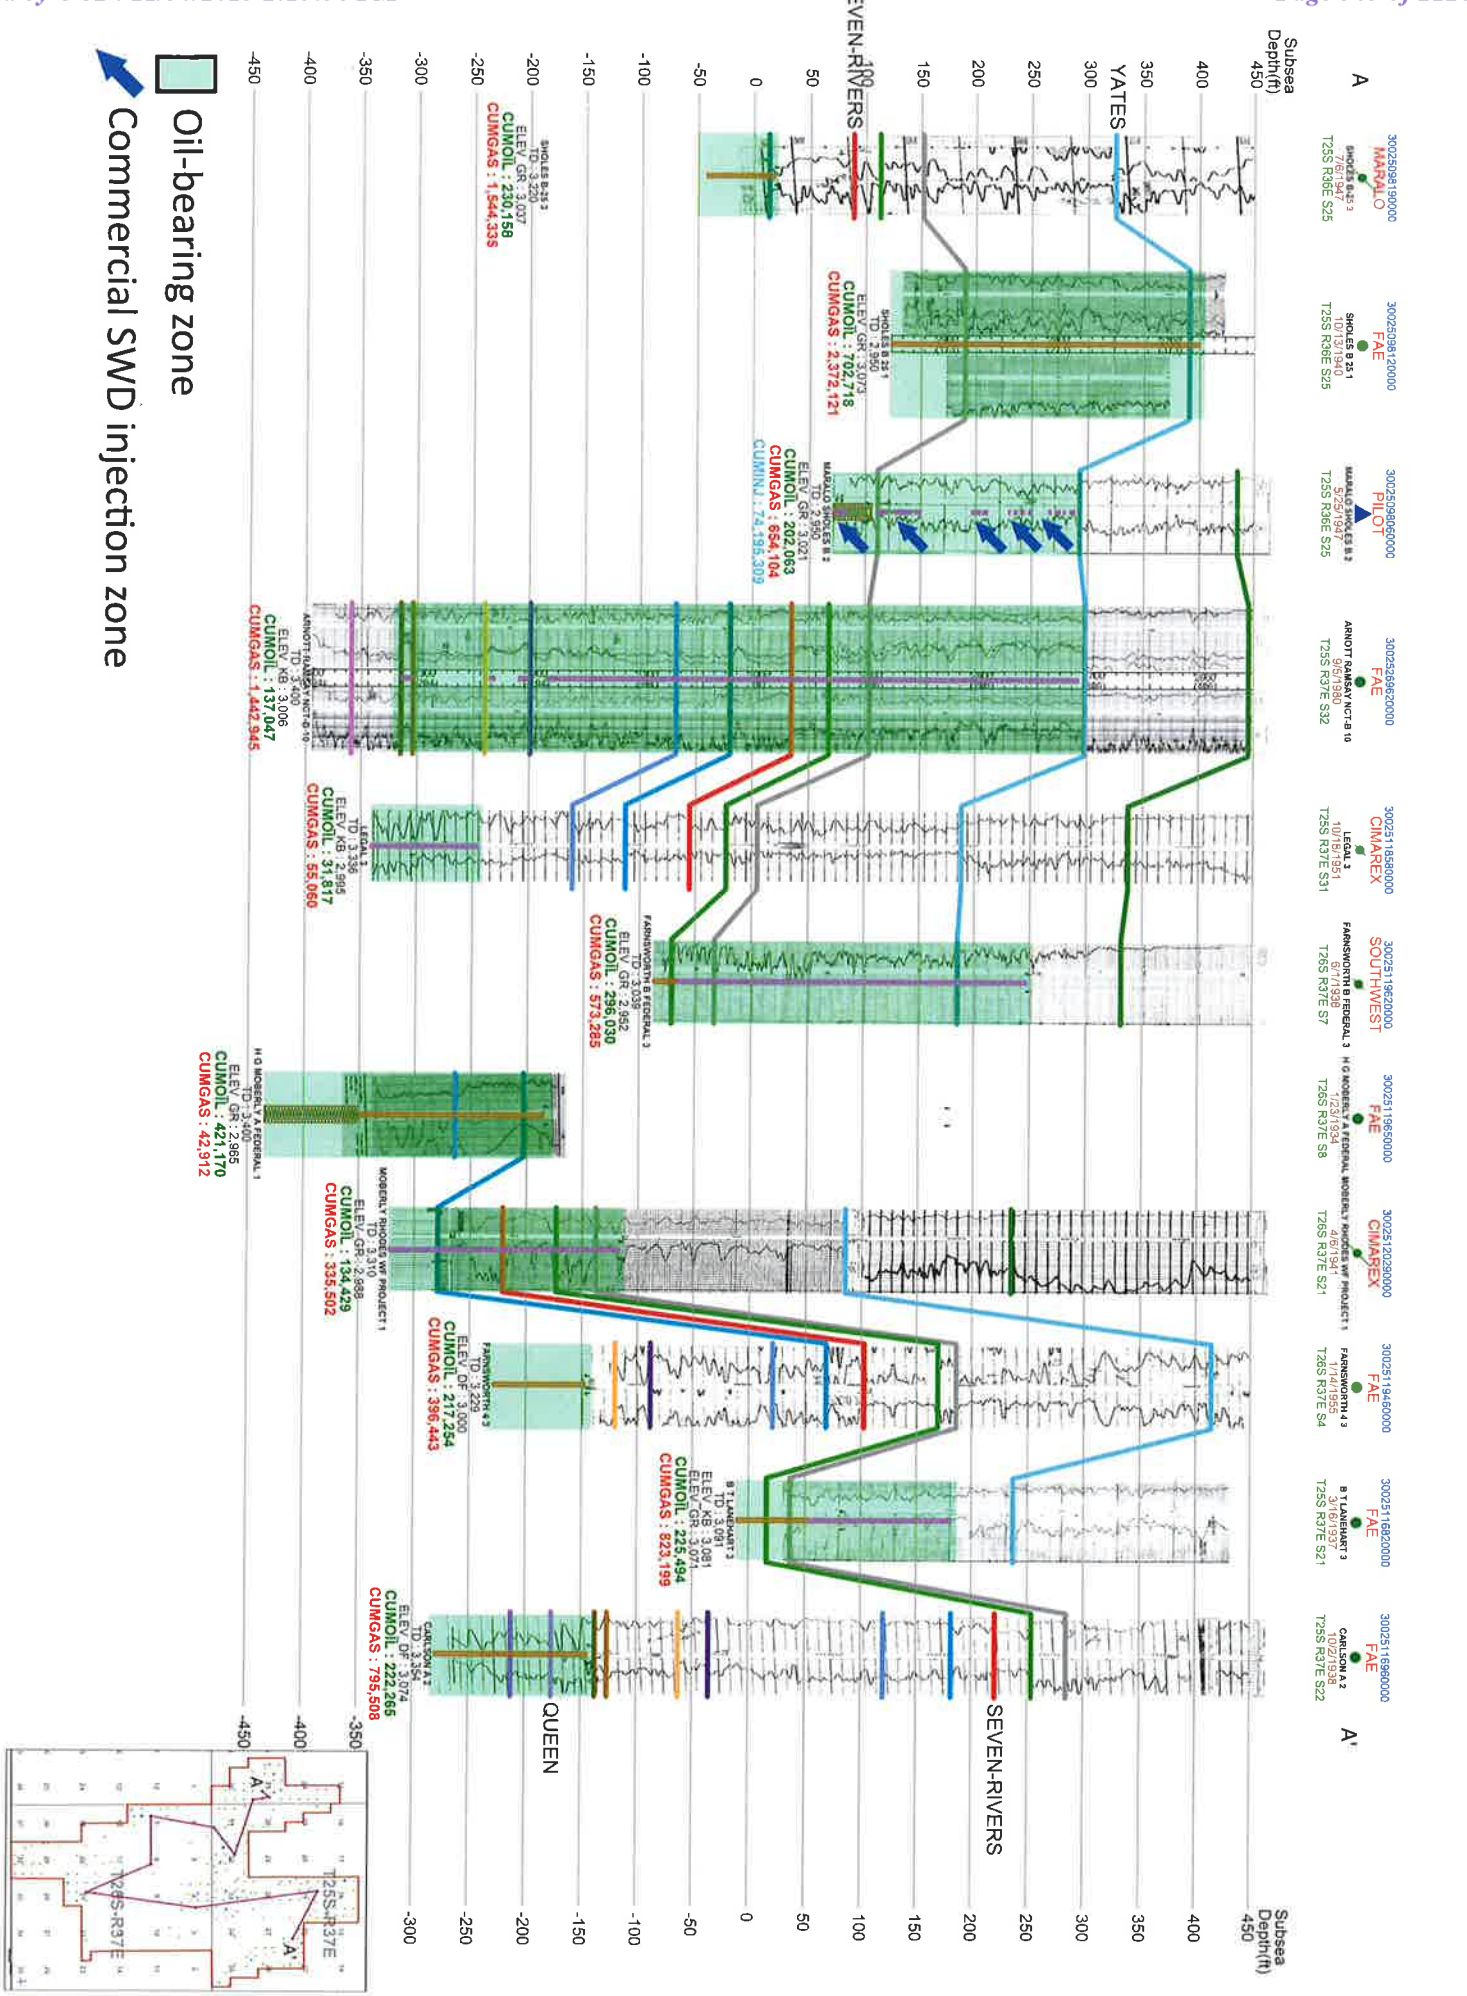
To the extent that ConocoPhillips, et al., are currently vested with any unleased mineral interest(s), this Offer Letter has contemplated ConocoPhillips, et al., leasing said interest(s) to one of its affiliates/subsidiaries, or FAE II directly, with a leasehold royalty equal to one-fourth (1/4), or twenty-five percent (25.00%), on FAE II's standard Lease form (limited in depth to the unitized interval of the proposed South Jal Unit). ***This Offer Letter is expressly being made contingent upon the mutual acceptance of the terms and provisions contained in the aforementioned Oil & Gas Lease(s).***

We believe that this is a mutually beneficial offer given the small collective interest of ConocoPhillips, et al., in Phase I (0.00000000 WI & 0.00099955 overall NRI) and in Phase II (0.00878417 WI & 0.00897659 overall NRI) in the South Jal EOR Unit, and that such a transaction would allow Forty Acres Energy to consolidate its Working Interest in the proposed South Jal EOR Unit while allowing ConocoPhillips, et al., to retain their current MI/RI/ORRI (non-cost bearing) interest and further allowing ConocoPhillips, et al., to carve out additional non-cost bearing ORRI as additional consideration in addition to the purchase price, stated above, and would provide ConocoPhillips, et al., the ability to participate in the proposed South Jal EOR Unit solely as a non-cost bearing interest owner, allowing ConocoPhillips, et al., to not incur out of pocket expenses related to same.

Due to the proximity, time-wise, to the South Jal EOR Unit's NMOCD Hearing date (August 4th, 2022), this offer is being made expressly contingent upon ConocoPhillips, et al.'s ratification of the unit and your election to participate in the unit. In order to prevent ConocoPhillips, et al., from incurring any expenses related to the South Jal EOR Unit, FAE II proposes executing a Letter of Intent outlining an effective date for the proposed transaction equal to, or dated prior to, the South Jal Unit's effective date, pursuant to the NMOCD's Order Approving Unit Formation. Alternatively, if we are able to close the transaction with enough time to update the South Jal Unit Exhibits prior to the NMOCD Hearing, that is also acceptable, but it appears unlikely given time constraints.

This offer shall remain in effect until 6:00 p.m., CST, on Friday, July 8, 2022, unless sooner rejected by ConocoPhillips, et al., or revoked by Forty Acres Energy. If you agree to this offer, FAE II will prepare the Assignment for execution and recording, unless ConocoPhillips, et al., prefers to prepare the aforementioned executable instruments. Please feel free to call or email me, directly, if you have any questions or if you'd like to discuss further.

Sincerely,



FAE II, LLC

Steven Lehrbass

STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION

APPLICATION OF FAE II OPERATING, LLC FOR STATUTORY UNITIZATION OF THE PROPOSED SOUTH JAL UNIT FOR ENHANCED OIL RECOVERY OPERATIONS, LEA COUNTY, NEW MEXICO

CASE NO. 23712

SELF-AFFIRMED STATEMENT OF CHARLES HOOPER

1. I am over 18 years of age and am competent to provide this Self-Affirmed Statement. I have personal knowledge of the matters addressed herein. I am employed by FAE II Operating, LLC ("FAE") as a geologist. I am familiar with the Application in this case and with the geology matters pertaining to this Application. I have previously testified before the New Mexico Oil Conservation Division ("Division"), and my credentials as an expert in petroleum geology matters were accepted and made a matter of record. A copy of my curriculum vitae is attached as **Exhibit B-1**.

2. FAE's application seeks an order granting the statutory unitization of the proposed enhanced oil recovery (secondary and tertiary) South Jal Unit ("Unit"), which comprises approximately 19,369.77 acres of federal, state, and fee lands located in Sections 13 (SE), 24 (E2), 25 (All), 26 (E2E2), 36 (N2,SE), Township 25 South, Range 36 East; Sections 15 (W2W2), 16 (All), 18 (Lot 4), 19 (Lot 1-4, E2SW), 21 (All), 22 (W2NW, S2), 23 (SW), 26 (W2, SWSE), 27-28 (All), 30 (Lot 1-4, E2W2, W2E2), 31-34 (All), 35 (NW, W2NE, S2), Township 25 South, Range 37 East; and, Sections 3-10 (All), 15-17 (All), 18 (Lot 1, NENW, E2), 19 (NE), 20 (All), 21 (W2, NE, W2SE), 22 (N2), 23 (SWNW), 29 (All), 32 (N2N2, Lot 1-4), Township 26 South, Range 37 East,ex Lea County, New Mexico.

3. **Exhibit B-2** contains a the specific well log for the "unitized interval," defined in Unit documentation as the Yates, Seven Rivers, and Queen formations, which has a depth of 2,635' MD and 3,563' MD, respectively, in Western Natural Gas Company's Dabbs #001 (re-entered and renamed to Dabbs #004 (API:30-025-11887) in January, 1997) well (located at 1650 feet FNL and 660 feet FWL of Section 34, T-25-S, R-37-E, Lea County, New Mexico) as recorded on the Schlumberger Gamma Ray-Neutron Log taken on August 14, 1957, said log being measured from a Kelly Bushing elevation of 3,025 feet above sea level.

4. **Exhibit B-3** contains a type log of the Yates-Seven Rivers-Queen unitized interval. The interval consists primarily of sandstones interbedded with dolomites and anhydrites. The log shows the interval top at 2649' and which is top sealed by a low porosity/low permeability non-oil bearing Tansil anhydrite layer. The bottom of the interval is sealed by a low porosity/low permeability section of the Grayburg carbonate, starting at 3567' (base of Queen formation/top of Grayburg formation). There is no fracturing and essentially no vugular porosity fabric evident in cores or on the openhole wireline log data. Productive porosity typically ranges from 10% to 20% throughout the interval.

5. **Exhibit B-4** contains a structure map of the Unit. The map shows the structural contours for the top of the Yates formation. Broadly speaking, the area gently dips to the WSW towards the Central Basin Platform shelf edge and Delaware Basin, with an exception of a small, local anticline in Sections 28 and 33 and accompanying trough in Sections 27 and 34 of T-25-S, R-37-E. The structural characteristics exhibited by the Yates formation is largely mirrored by the Seven Rivers and Queen formations.

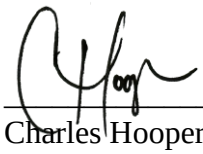
6. **Exhibits B-5 and B-6** contain structural cross-sections, one W-E and one N-S, of the interval to be unitized, specifically the Yates, Seven Rivers and Queen formations. The cross-sections demonstrate the injection interval is consistent and continuous across the target interval underlying the Project area. The cross-sections also show all lands within the proposed unit contain porous reservoir rock and therefore, all lands within the proposed unit appear capable of contributing additional secondary and tertiary recovery reserves.

7. Accordingly, from geologic studies performed over this area, the unit area is well suited for secondary and tertiary recovery operations and the entire Project area should continue to contribute enhanced recovery reserves. More detailed information can be found in the attached Feasibility Report (**Exhibit C-2**).

8. There are no faults or other geologic impediments that would impede the efficiency of the Project.

9. Based on my professional training and experience, it is my opinion that the proposed injection operations will not impair any hydrocarbon-bearing zones. It is also my opinion that injection fluids will be confined to the injection interval as a result of the stratigraphic confining layers above and below the injection zone.

10. **Exhibit B-7a** is a water sample report for two (2) fresh water wells and two (2) produced water battery locations near the proposed areas of initial development within the unit bounds. **Exhibit B-7b** is a map of the fresh and produced water sample locations. These fresh water wells are also discussed in the accompanying C-108 documents/cases. Generally, fresh water wells reported to the state have maximum depths of 250-350’ from the surface. At a depth of 850-1000’ from the surface is the top of the Rustler formation (measured at 894’ in the Dabbs #004), which is an impermeable anhydrite that acts as a seal (along with the Saldo formation and Tansil



formation, totaling 1500'+) below the alluvium strata above, which is assumed to be and treated as entirely fresh water. The two sources of water tested, fresh and produced, are compositionally distinct and hydrologically separate.

11. I have examined the available geological and engineering data and have found no evidence of open faults or hydrological connection between the proposed Yates-Seven Rivers-Queen unitized interval and any underground sources of drinking water.

12. The exhibits referenced above were either prepared by me or under my supervision or were compiled from company business records.

13. In my opinion, the granting of FAE's application would serve the interests of conservation, the prevention of waste, and the protection of correlative rights.

14. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony in paragraphs 1 through 13 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date next to my signature below.

Charles Hooper

9/26/2023
Date

Exhibit B-1

CHARLES J. HOOPER

SENIOR GEOLOGIST

Geologist with 10+ years of experience in extracting value from mature assets via highly detailed reservoir studies, reservoir simulation, and waterflood design. Dual masters' degrees in business and geology provide a unique ability to incorporate technical findings with practical economics to deliver the maximum yield on assets.

WORK EXPERIENCE

Forty Acres Energy, LLC. (2019-present) Houston, TX

Senior Geologist

- Produce and refine large-scale reservoir studies of the New Mexico Central Basin Platform utilizing tens of thousands of wells, well logs, completions data, and well histories to analyze potential EOR and workover prospectivity.
- Generate workover opportunities for up to a 10-rig workover program by identifying bypassed and/or partially depleted pay in wells, ranking PDNP opportunities, and working with operations to effectively and efficiently complete wells.
- Evaluate and recommend potential waterflood/EOR projects utilizing reservoir simulation and detailed geologic studies.
- Provide/present technical review presentations for regulatory agencies, investors, and third-party reserves auditors.

Durango Resources Corp. (2012-2019) Houston, TX

Senior Geologist & Business Development Officer (2016-2019)

- Prospected a horizontal well play and oversaw geosteering for two successful pilot wells in a mature Gulf Coast field; lateral portion of the wells were kept within a 2 ft. window of the targeted reservoir path.
- Played a primary role in identifying, evaluating, valuing, presenting, and securing a capital partner for a $22MM conventional assets acquisition in the Delaware Basin and Central Basin Platform.
- Generated financial models for PDP valuation, field upside development valuation, and specific investor requests.
- Authored and presented investor presentations covering company highlights, financial models, reservoir characterization, upside potential, and reservoir simulation (via ReservoirGrail).
- Developed and managed a comprehensive prioritized workflow for newly acquired assets to quickly and accurately conduct large-scale reservoir studies (sourcing data, generating databases, correlating stratigraphy, mapping of individual reservoir segments, locating and quantifying current hydrocarbons in place).
- Conducted field development plans utilizing field studies and reservoir simulation to design the most economical approaches for upside exploitation, including recompletions, infill drilling, and waterflood.

Senior Geologist (2016)

- Spearheaded acquisition due diligence, including geologic interpretation audits, reservoir simulation, and upside evaluation on a pre-bid basis.
- Performed field studies in the Gulf Coast Basin and Hardeman Basin (Oklahoma) and due diligence in the Anadarko Basin, Denver Basin, East Texas, Green River Basin, Louisiana salt domes, North Texas, Permian Basin, and Powder River Basin.
- Recommend projects within the company's existing assets such as new-drills, recompletions, re-entries and waterflood/pressure maintenance programs.
- Assisted in proving projects as PDNP/PUD reserves to 3rd party reserves engineers.
- Generated waterflood EOR prospects in mature and abandoned oil fields.
- Oversaw various field operations as "company man" including wireline logging, perforations, and workovers.

Geologist (2013-2016)

- Interpreted well logs, production data, 3D seismic, and other relevant data to create regional and local geologic maps and cross-sections. Map types include fault plane, gross facies, net sand, net pay, structure, porosity, and saturation.
- Utilized reservoir simulation to identify and quantify current-oil-in-place in the company's existing assets.
- Incorporated new data to re-interpret the company's existing field/reservoir studies.

Geologist Intern (2012)

- Created an Eagle Ford asset report for a public oil company analyzing improvements in drilling and completion techniques, production decline rates and EUR's, and gross revenue scenarios for specific time periods. The report was used as supporting documentation to recommend the sale of the asset.
- Utilized ReservoirGrail software to simulate and analyze horizontal multi-stage well depletion rates.

GrailQuest Corp. (a subsidiary of Durango Resources) (2014-2019) Houston, TX
Geomodeling Consultant (2014-2019)

- Provided consulting services using ReservoirGrail reservoir simulation software to identify, quantify, and design upside exploitation, including infill drilling, offset drilling, and/or waterflood/EOR applications.
  - Services rendered: regional and local geologic studies, review of geologic and engineering interpretations, reservoir simulation to present conditions, reservoir simulation to design and quantify future field development, real-time waterflood progress feedback, financial modeling, unit participation formulation, and assistance with 3rd party reserves documentation.
- Conducted and updated market analysis for ReservoirGrail, including strengths, weaknesses, competitors, competitive advantages, marketing tactics, promotional ideas, and pricing regimes.
- Assisted in software sales and new user training of ReservoirGrail.
- Conceptualized software enhancements and identified software maintenance needs.

DrillingInfo (2011) Austin, TX
Energy Strategy Partners Junior Analyst

- Performed geoscience research and data analysis in unconventional plays for play-specific reports.
- Provided troubleshooting, data input, and research for a developmental geologic basin modeling software program which used domestic basins as an analog for international basins.
- Served as Administrator for operator updates and highlights in unconventional plays.

EDUCATION

University of Houston, College of Natural Sciences and Mathematics
Master of Science in Geology, GPA: 3.4, May 2015
University of Houston, C. T. Bauer College of Business
Master of Business Administration, GPA: 3.7, May 2015
University of Texas at Austin, Jackson School of Geosciences
Bachelor of Science in Geology, GPA: 3.0, December 2010

RELEVANT EXPERIENCE

AAPG Imperial Barrel Award (IBA) Competition (2015)

- Annual prospective basin evaluation competition for teams of geoscience graduate students.
- Dataset included a 3D seismic survey and various well logs in the Patchawarra Trough, Cooper Basin, Australia.
- Led the team in well log correlation, petroleum system analysis, prospect risking, prospect mapping and volumetrics, and recommended course of action.
- Contributed to the team in analysis of paleogeography, tectonic history, burial history, seismic interpretation, seismic attribute mapping, well log modeling, dry hole analysis, and analog field and basin comparisons.
- Team recommended 2 prospects in "sweet spots" and steps for further evaluation of a basin-centered gas play.

RE: EAST OF JAL

Enclosed are the results of analyses for samples received by the laboratory on 09/29/21 11:40.

Cardinal Laboratories is accredited through Texas NELAP under certificate number T104704398-21-14. Accreditation applies to drinking water, non-potable water and solid and chemical materials. All accredited analytes are denoted by an asterisk (*). For a complete list of accredited analytes and matrices visit the TCEQ website at www.tceq.texas.gov/field/qa/lab_accred_certif.html.

Cardinal Laboratories is accreditated through the State of Colorado Department of Public Health and Environment for:

Method EPA 552.2	Total Haloacetic Acids (HAA-5)
Method EPA 524.2	Total Trihalomethanes (TTHM)
Method EPA 524.4	Regulated VOCs (V1, V2, V3)

Cardinal Laboratories is accredited through the State of New Mexico Environment Department for:

Method SM 9223-B	Total Coliform and E. coli (Colilert MMO-MUG)
Method EPA 524.2	Regulated VOCs and Total Trihalomethanes (TTHM)
Method EPA 552.2	Total Haloacetic Acids (HAA-5)

Accreditation applies to public drinking water matrices for State of Colorado and New Mexico.

This report meets NELAP requirements and is made up of a cover page, analytical results, and a copy of the original chain-of-custody. If you have any questions concerning this report, please feel free to contact me.

Sincerely,

Celey D. Keene

STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION

APPLICATION OF FAE II OPERATING, LLC FOR STATUTORY UNITIZATION OF THE PROPOSED SOUTH JAL UNIT FOR ENHANCED OIL RECOVERY OPERATIONS, LEA COUNTY, NEW MEXICO

CASE NO. 23712

SELF-AFFIRMED STATEMENT OF VANESSA NEAL

1. I am over 18 years of age and am competent to provide this Self-Affirmed Statement. I have personal knowledge of the matters addressed herein. I am the Sr Reservoir Engineer for FAE II Operating, LLC ("FAE"). I am familiar with the Application filed by FAE in this case and with the engineering matters pertaining to this Application. I have previously testified before the New Mexico Oil Conservation Division ("Division"). A copy of my curriculum vitae is attached as **Exhibit C-1**.

2. FAE's application seeks an order granting the statutory unitization of the proposed enhanced oil recovery (secondary and tertiary) South Jal Unit ("Unit"), which comprises approximately 19,369.77 acres of federal, state, and fee lands located in Sections 13 (SE), 24 (E2), 25 (All), 26 (E2E2), 36 (N2,SE), Township 25 South, Range 36 East; Sections 15 (W2W2), 16 (All), 18 (Lot 4), 19 (Lot 1-4, E2SW), 21 (All), 22 (W2NW, S2), 23 (SW), 26 (W2, SWSE), 27-28 (All), 30 (Lot 1-4, E2W2, W2E2), 31-34 (All), 35 (NW, W2NE, S2), Township 25 South, Range 37 East; and, Sections 3-10 (All), 15-17 (All), 18 (Lot 1, NENW, E2), 19 (NE), 20 (All), 21 (W2, NE, W2SE), 22 (N2), 23 (SWNW), 29 (All), 32 (N2N2, Lot 1-4), Township 26 South, Range 37 East Lea County, New Mexico.

3. The "unitized interval" was defined in Unit documentation as the Yates, Seven Rivers, and Queen formations, which has a depth of 2,635' MD and 3,563' MD, respectively, in Western Natural Gas Company's Dabbs #001 (re-entered and renamed to Dabbs #004 (API:30-025-11887)

in January, 1997) well (located at 1650 feet FNL and 660 feet FWL of Section 34, T-25-S, R-37-E, Lea County, New Mexico) as recorded on the Schlumberger Electrical Log taken on August 14, 1957, said log being measured from a Kelly Bushing elevation of 3,025 feet above sea level.

PURPOSE OF UNITIZATION

4. Based on my training and experience, it is my professional opinion that enhanced oil recovery ("EOR") through secondary and tertiary recovery projects are a method of extending the life of a reservoir.

5. Unitization and EOR benefit the working interest and royalty owners in this Unit. Unitized management and operation of this reservoir is required to develop the secondary and tertiary reserves that can only be recovered using EOR methods with current technology.

6. The granting of this application is in the interests of conservation and the prevention of waste as EOR development reactivates shut-in wells, increases recovery of existing leases and prevents premature plugging and abandonment of useful wellbores.

HISTORY OF FIELD

7. The Unit area was initially discovered in the 1920s and actively developed from the 1940s through the 1970s with heavy testing and development centered within the unitized interval. Oil development was focused mainly in the northern half of the Unit area. The central Unit area was unitized as the Rhodes Federal Unit ("RFU") with the primary purpose of gas storage. After the RFU was converted into a producing gas unit, additional development occurred but was contained to the gas-bearing formations, leaving the oil-bearing formations undeveloped in the central Unit area. Since the 2000s, active well count has continually declined from approximately 160 to 100 wells in the Unit area. The majority of the wells in the Unit area would be considered "stripper" wells, each producing less than 5 bopd and approaching their economic limit.

8. In 2021, FAE began the Arnott Ramsay NCT-B Waterflood Project ("AR WF Project") as proof of concept for secondary recovery within the Unit area. The AR WF Project has been deemed successful with initial oil response seen within 6 months from the start of injection and average oil rates ramping up from 40 bopd to 160 bopd over the past two years.

9. As of December 2022, the Unit area has produced 18.1 mmbo, 417.8 Bcf, and 193.7 mmbw from the unitized interval.

RESERVOIR STUDY

10. A study of the reservoir was performed using data including, but not limited to: pre-1970s data from New Mexico Oil Conservation Division ("NMOCD") records; post-1970s data from IHS Enerdeq; logs across the Central Basin Platform ("CBP") located in Lea County, New Mexico; core data from wells drilled in the Unit and surrounding areas; offset analogous waterfloods; and, historical reservoir studies in the Unit and surrounding areas. From these sources, FAE was able to characterize the reservoir, interpret structure, net sand and net pay, and determine an ideal secondary development strategy.

11. The reservoir's drive mechanism is solution gas drive. In areas where primary production has occurred, the pressure in the reservoir is depleted. Introducing EOR methods in depleted areas is crucial for recovering remaining reserves.

12. EOR methods are technically and economically feasible in the proposed Unit. A full feasibility study was performed for the proposed Unit and is provided in **Exhibit C-2** with associated Appendixes in **Exhibit C-2a** through **Exhibit C-2e**.

13. After extensive research into the topic of induced seismicity, it is my professional opinion the Unit is at low risk for inducing earthquakes. A full induced seismicity assessment was performed and is provided in **Exhibit C-3**.

ENHANCED OIL RECOVERY ESTIMATES

14. Secondary reserves are estimated to be approximately 63.7 mmbo for the Unit.

15. Secondary reserves were calculated using offset analogous waterfloods. Analog floods with a development plan similar to FAE's plan of development ("POD") recovered between 1.2 and 2.0 times secondary reserves when compared to their primary reserves; this ratio is referred to as the S/P ratio in the industry. Secondary reserves for the Unit were calculated for proposed injector assuming a 1.6 S/P ratio (the average of the analogs). Original oil in place ("OOIP") was mapped per core/log data and used to quality check ("QC") the calculated secondary reserves. For each 40ac location centered on an injector in the Unit: 1) recoverable reserves were calculated by applying an ultimate (primary, secondary & tertiary) recovery factor ("RF") to the location's OOIP; 2) maximum secondary reserves was calculated by subtracting the cumulative primary production and potential tertiary recovery from the recoverable reserves; and, 3) the maximum secondary reserves were then applied as a cap to the secondary reserves from the S/P ratio.

16. Based on surrounding analogous waterfloods, secondary recovery is estimated to be between 1.2 and 2.0 times primary recovery. The central part of the Unit has not been fully developed, i.e. not all primary recovery has occurred in the Unit to date.

17. Tertiary reserves are estimated to be between 29 and 44 mmbo for the Unit.

18. Tertiary reserves were calculated based on a published study performed on the Rock Queen Unit located in Chaves and Lea County, New Mexico. Tertiary recovery via wagging water and gas (CO2 flood) was implemented after the waterflood was mature. It estimated that tertiary recovery reached 12.5-15% RF before the program reached its economic limit. Tertiary reserves for the Unit were calculated applying a 10-15% RF range to the OOIP.

19. This additional production would qualify the Unit for the Recovered Oil Tax Rate.

PLAN OF DEVELOPMENT

20. Based on a comparison of the S/P ratios from surrounding analogous waterfloods, it was determined that the highest performing development was 40ac 5-spot patterns (20ac well spacing). FAE intends to develop the Unit with these patterns utilizing existing wellbores where possible and prioritizing injectors as new drills. Drilling injectors as new wells allows for greater vertical control of injection and reduced risk of directional flow from previously fraced intervals. Initially, FAE plans to develop floods in specific formations to determine which have the most potential and to help prioritize/plan future development. The AR WF Project is an example of an initial development in the Seven Rivers formation. Full development would require ~440 new drill injectors, ~230 new drill producers, ~145 re-entries, ~30 convert to injection ("CTI"), and various workovers/recompletions to ensure pattern conformance. Full development would take a minimum of 10 years to complete.

21. All new drills, whether producer or injector, will be drilled with surface and production casing. The surface casing will be set ~1,650' to cover all the freshwater zones with cement circulated to surface. The 5-1/2" production casing will be run to TD, majority of the time this is expected to be ~4000'. Production casing will also be cemented in place with volume of cement pumped to reach a minimum of 500' above the top of the unitized interval. Cemented casing will be pressure tested to 500 psi before continuing operations. For injection wells, cement bond logs ("CBL") will be run to determine cement quality behind casing. Proposed completion intervals will be perforated 2-4 shots per foot ("SPF") and perforations will be acidized with 20-50 gals/ft.

22. Full development costs for secondary recovery were estimated to total $480 million. Well work included in this total assumes the following costs: new drill injector ~$550k; new drill producer ~$645k; injector re-entry ~$300k; producer re-entry ~$345k; CTI ~$160k; and,

recompletion ~$125k. Facility costs included in this total assume $1.5 million per injection facility that can support up to 40 injection wells and $20/injector for flowlines.

23. This project is economic. **Exhibit C-2e** is the economics run for this project.

24. This project's life is expected to exceed 40 years before reaching economic limit.

25. **Exhibit C-4** lists wells within the Unit boundaries whose status is listed as "Expired Temporary Abandonment", "Plugged, Not Released", or "Active" but last production was reported prior to 2023. To avoid waste, FAE has incorporated most of these inactive wells into the Unit development and noted the plan for each in the Exhibit.

26. FAE has submitted C-108s (REF: CASE NO 23711) for three initial development areas: the Yates Project, Queen Project and Moberly Project. For these injection projects:

a. Produced water will be injected into the unitized interval found at the depth interval of 2,635' MD and 3,563' MD as shown in the Dabbs #004 (API:30-025-11887) well log for the purpose of increasing the ultimate recovery of oil within the interval underlying the Unit area.

b. The proposed average injection pressure through the wells in the Project Areas is expected to be approximately 350-500 psi. The expected maximum injection pressure will be calculated relative to the depth of the highest perforation, using a factor of 0.25 psi/ft. The proposed Project Area wells will have perforation depths between approximately 2850' and 4000' (or 713 psi and 1000 psi maximum injection pressure, respectively). Pending results of a step rate test, the maximum injection pressure could potentially be increased to a factor of 0.6 psi/ft (or 1710 psi at 2850' and 2400 psi at 4000').

c. The proposed average injection rate is expected to be approximately 600 barrels of water per day. The maximum daily injection rate will be 1,500 barrels of water per day or as permitted by the Division.

d. FAE proposed to acidize the injectors with 1,500 gals 15% NEFE HCl for each set of perforations. Based on my professional training and experience, it is my professional opinion that acidizing each set of well perforations will break down well perforations and cause injection at lower pressures to maximize injection rates. The injectors will not be sand frac'd to allow for better vertical conformance and areal sweep.

e. It is my opinion that injection operations within the initial Project Areas are economically and technically feasible and that it is prudent to utilize secondary recovery operations to maximize oil recovery. It is also my opinion that the proposed conversion and/or drilling of wells within the Project Areas from producers to injectors for waterflood operations is not premature.

f. FAE will run an MIT test prior to commencing injection and will monitor pressure during injection.

UNITIZATION

27. The proposed tract allocation formula strikes a balance between honoring current producing cashflow and future reserved cashflow. In my opinion, the formula allocates produced and reserved hydrocarbons to each tract on a fair, reasonable, and equitable basis.

28. The participation parameters for the proposed tract allocation formula are 10% production (Jul-Dec 2022) and 90% remaining recoverable oil in place. These parameters were chosen as they represent the current cashflow/value of the Unit today and the potential value of the Unit fully developed. Due to the significant amount of potential value, the formula is weighted to remaining recoverable oil in place. The 10% production factor is meant to sustain those with current cashflow, prevent them from being negatively impacted from the initial formation of the Unit and reward them for the infrastructure that the Unit may utilize.

29. The exhibits referenced above were either prepared by me or under my supervision or were compiled from company business records.

30. In my opinion, the granting of FAE's application would serve the interests of conservation, the prevention of waste, and the protection of correlative rights.

31. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony in paragraphs 1 through 30 above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date handwritten next to my signature below.

VANESSA GLASS NEAL

979-255-3476 ▪ Houston, TX ▪ vanessa.g.neal@gmail.com

RESERVOIR ENGINEER ADVISOR

Motivated reservoir engineer of integrity with 15+ years experience delivering value to E&P operators in the oil industry. Demonstrated history of servant leadership with excellent interpersonal skills. Proven record of managing projects from concept to completion, building relationships and coaching young professionals to success. Confident hands-on problem solver focused on developing opportunities that further organizational goals.

WORK EXPERIENCE

FORTY ACRES ENERGY LLC — SEPT 2020 – PRESENT
Sr Reservoir Engineer — Houston, TX

- Lead subsurface team in development planning, implementation, surveillance and optimization of multiple waterflood fields in the Central Basin Platform (CBP). Capital projects are identified for improving sweep efficiency and evaluated based on economics. Recommendations are presented to management for approval.
- Reserve management of ~900 wells between two independent entities. Forecast proven developed producing (PDP) reserves of 750+ wells using decline curve analysis (DCA) in PHDWin. Create typecurves for future waterflood development and capture economic value in proven developed non-producing (PDNP), probable (2P) and possible (3P) forecasts. Represent company in annual third-party audits and mid-year bank reviews.
- Manage workover portfolio and plan rig schedule based on capital restrictions and project lead time.
- Collaborate with Land and Legal teams for unitization of two proposed EOR units. Present technical review, development plan, estimated reserves, capital costs and economics of proposed units in BLM/SLO area and depth meetings, working interest owners meeting and NMOCD hearings. Testify as Reservoir Engineering Expert Witness in NMOCD hearings.

SETHLANS ENERGY LLC — MAR – SEPT 2020
Founder | Managing Director | Reservoir Engineer Consultant — Houston/San Antonio, TX

- Collaborated on an interdisciplinary team to evaluate international assets in a $1.4 Billion acquisition. Generated economic forecasts for 265 wells using DCA in PHDWin database. Conducted technical assessment of portfolio assets provided in virtual data room (VDR), identified upside potential of 9.6 MMBO reserves.
- Directed thermal waterflood development plan for shallow heavy oil field in East Texas with expected 25% incremental secondary recovery. Designed waterflood pilot including waterflood pattern, injector locations, and setting target injection rates. Injection increased field oil production 500% and reduced watercut 13%.

APACHE CORPORATION — NOV 2010 – MAR 2020
Reservoir Engineer III – North American Unconventional Resources — San Antonio, TX

- Led asset teams to increase internal communication and cooperation. Broke down silo walls and united subsurface team in development plans and recommendations. Directed technical team analysis of innovative ways to optimized horizontal well development by altering well spacing, wellbore orientation and completion design. Reduced development costs by 50%, minimized offset frac hits, reduced well hit recovery time from 4 months to 2 weeks, and increased individual well reserves up to 43%.
- Modeled horizontal wells in Harmony and CMG. Used rate-transient analysis (RTA) to estimate minimum drainage areas of hydraulically fraced wells. Anchored DCA to simulated forecasts. Audited economics in ARIES and ran sensitivities with planning group. Generated type-curves for Delaware Basin exploration in shale gas plays with high-yield condensate. Populated inventory with Tier I, II, and III well locations.
- Evaluated offsetting Delaware Basin acreage for pending land deals. Analyzed public data of surrounding acreage to estimate initial rates, reserves, development costs and overall value of assets.

Reservoir Engineer II, III – Improved Recovery — Houston, TX

- Conducted technical assessments of existing assets in company's portfolio through reservoir simulation. Modeled fields to optimize mature and develop immature waterfloods. Investigated historical performance and prompted field (re)development scenarios in Egypt, North Sea, Permian Basin (Midland & Central Basin Platform), Anadarko Basin, and the Gulf of Mexico (GOM) Shelf and State Waters. Prepared technical reports of asset assessments and presented optimization projects totaling 82.5 MMBO incremental reserves.
- Directed Apache's 2018 Summer Field Engineering Intern Program for 16 petroleum engineers. Piloted office engineering mentor program and made return offer recommendations. Supported 2014-2017 Summer Engineering Intern Programs. Utilized Excel/VBA to streamline ranking process, reducing manager selection meetings length from more than 6 hours down to 2 hours.

- Mentored and trained rotating engineers and interns in various modeling software, waterflood evaluation, field development and forecasting. Guided them in individual project evaluation and optimization planning.
- Assessed the effects of longitudinal and transverse hydraulic fractures on a horizontal producer in an Egyptian waterflooded field. Showcased optimum location for supporting injectors with Eclipse.

Reservoir Engineer I – Engineering Development Program Houston/Midland, TX

- Planned development of Midland Basin field to maximize potential based on reservoir drainage and permeability trends. Gained approval to drill five locations and upgrade facilities, total EUR 400 MBO, 2.1 BCF and 350 MBNGL.
- Utilized ARIES to perform economic evaluation on workover and recompletion projects in Argentina fields. Forecasted base line production using DCA in ARIES database for annual budget planning.
- Evaluated economics of a GOM Deepwater prospect on open acreage and recommended bid for upcoming lease sale. Apache was high bidder and was awarded the block.
- Performed technical lookback on infill drilling program in mature Permian waterflood field to identify reason(s) for economic failure. Identified reason for economic failure and proposed recommendations for correction. Executed projects with 287 MBO incremental reserves.

MARINER ENERGY INC JUL 2007 – NOV 2010

Associate Production Engineer Houston, TX

- Managed production of multiple offshore fields on the Eastern GOM Shelf. Identified severe paraffin issues and implemented routine well and pipeline maintenance programs which resulted in 200 BOPD increased production and 2,000 BWIPD increased salt-water disposal (SWD) capacity.
- Evaluated behind pipe potential within an interdisciplinary asset team to identify capital and LOE projects. Prepared procedures, AFEs, and oversaw workovers and recompletions to increase production 300 BOPD.

BAKER HUGHES INTEQ JUL 2006 – JUN 2007

MWD Operator III Broussard, LA

- Traveled to onshore and offshore rigs to operate downhole logging and measurement tools while drilling (LWD/MWD). Prioritized safety while in the field to avoid injuries and reduce lost time incidents (LTI). Decoded tool signals to provide clients with real-time downhole conditions and logs while drilling.
- Developed MS Excel calculator for MWD battery-powered tools which increased accuracy of battery life tracker, reduced premature tripping and prevented data loss from battery power expiration.

EOR Feasibility and Unitization Study

Proposed South Jal Unit, Lea Co., New Mexico

Purpose

The purpose of this report is to determine the feasibility of enhanced oil recovery (EOR), i.e. waterflooding and CO2 flooding the Yates-Seven Rivers-Queen formations in the South Jal Unit, Lea County, New Mexico, and to present a proposed EOR unitization and development plan.

Conclusions

1. Based on the Arnott Ramsay NCT-B pilot flood in the northern part of the South Jal Unit and multiple analog field studies; the Yates-Seven Rivers-Queen formations in the South Jal Unit can be successfully waterflooded and CO2 flooded.
2. Undeveloped primary oil recovery is estimated at 21 million barrels of oil, including both behind pipe and undrilled reserves. This would give the South Jal Unit a primary recovery of 12.6% without flooding.
3. Estimated undeveloped secondary reserves are 64 mmbo based on a secondary to primary ratio (S/P ratio) of 1.6 which is within the proven range of S/P ratios known for surrounding Yates-Seven Rivers-Queen waterfloods, 1.2 to 2.0. Estimated undeveloped tertiary reserves range from 29 to 44 mmbo based on recovery seen in CO2 flood of the Rock Queen Unit.
4. Estimated investment for the waterflood project is $480 million. This capital investment includes drilling of new wells, conversions to injection, re-entry of TA and P&A wells, deepening of existing wells, recompletions, and surface facilities installation/expansion. Capital expenditures for tertiary recovery (CO2 flood) are to be determined.
5. Present net worth, discounted 10%, for undeveloped primary and secondary reserves is $631 million as compared to a 10% discounted present net worth of developed producing reserves of $32 million.
6. The most efficient way to economically recover remaining primary, secondary and tertiary reserves is to unitize the South Jal Unit as an enhanced oil recovery unit.

1.0 Field History

1.1 Location

The South Jal Unit, Lea County, New Mexico is located directly South of the city of Jal, on the Central Basin Platform (CBP) of the Permian Basin in T25S and T26S, R36E and R37E. The field lies near the northwestern edge of the CBP that runs in a NW-SE direction from New Mexico into West Texas. The area of focus includes the Northwest Eumont Unit, West Eumont Unit, Jalmat Field Yates Sand Unit, Cooper Jal Unit, Skelly Penrose A Unit, Langlie Mattix Penrose Sand Unit, Seven Rivers Queen Unit, South Eunice Unit, Seven Rivers Queen Unit, South Leonard Unit, Rhodes Yates Unit, Langlie Jal Unit and many other units in the Monument-Jal Oil Field (Fig 1).

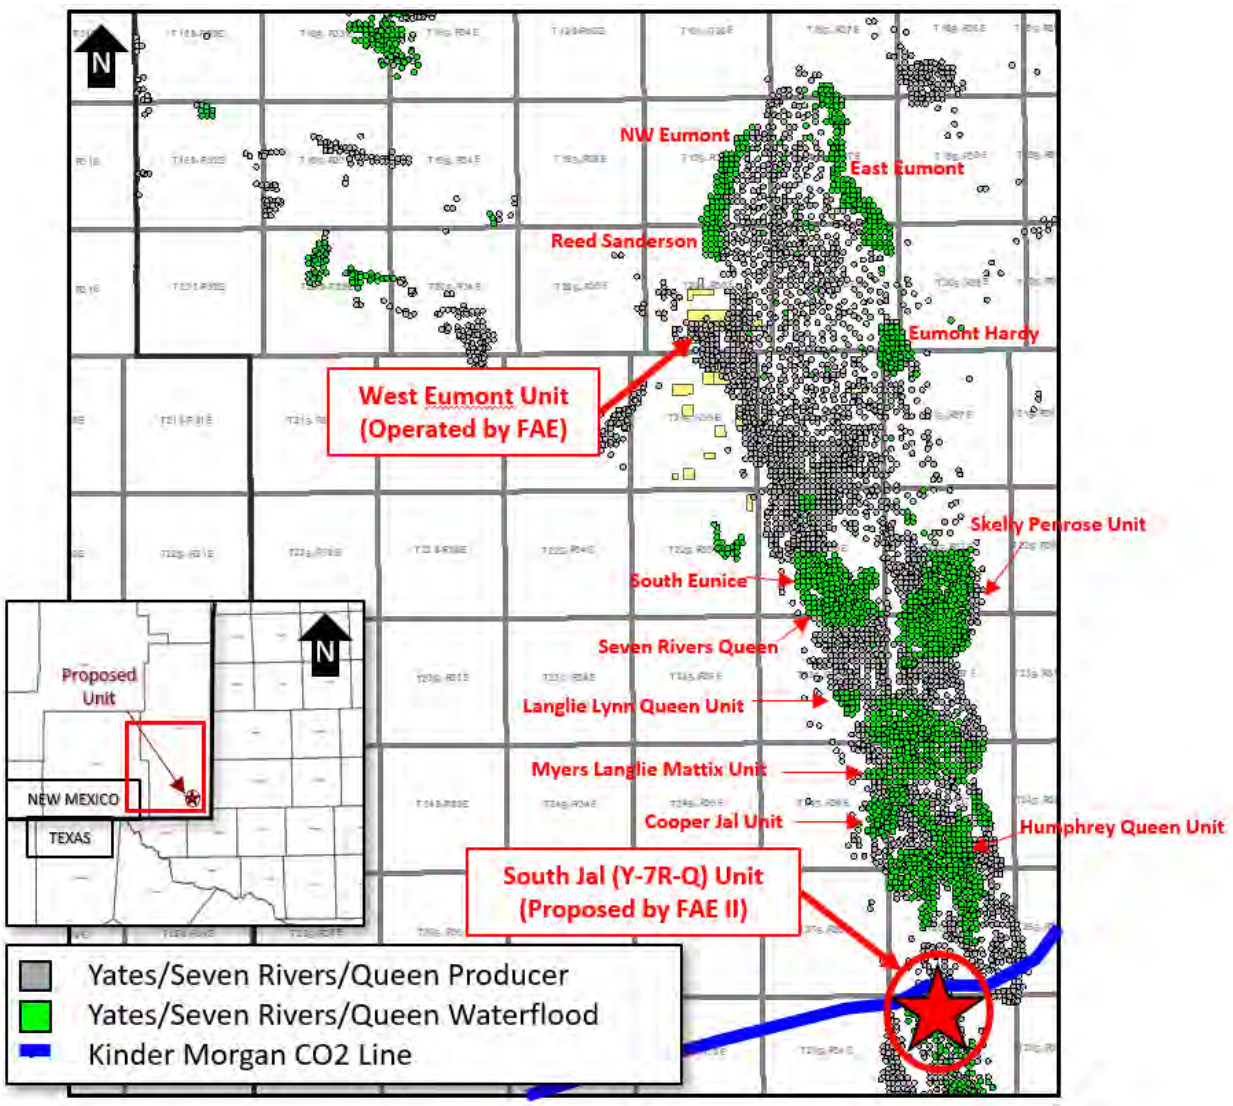

Fig 1 — Yates-Seven Rivers-Queen producers and waterfloods within the Central Basin Platform (CBP).

1.2 Producing Zones

South Jal Unit's productive oil-bearing reservoirs are the Yates, Seven Rivers, and Queen formations. The zones occur at depths from 2,300 to 4,100 feet with gross thicknesses ranging from 750 to 1,100 feet for the combined interval. The Yates and Seven Rivers are equally productive zones being completed in the vast majority of all wells except on the northeast edge of the proposed unit area where the Queen is the primary target and initial completion interval.

1.3 Discovery and Development

Initially discovered in the 1920s, the South Jal Unit area was actively developed from the 1940s through the 1970s with heavy testing and development centered on the Yates-Seven Rivers-Queen formations. Development was focused on oil and drilling was mainly in the north with some area testing along the western edge and in the south (Fig 2). In the center of the unit area, the Yates and upper Seven Rivers is gas productive. This area was later unitized as the Rhodes Federal Unit, outline shown in orange in Fig 2, with the primary purpose of gas storage. Most the of the Rhodes Federal Unit was developed in the 1970s with additional wells drilled in the 1990s and early 2000s. These were some of the last wells drilled in the unit area, leaving a significant amount of acreage undeveloped in the oil-bearing zones. Since the 2000s, the active well count began to decrease and has since dropped below 100 wells.

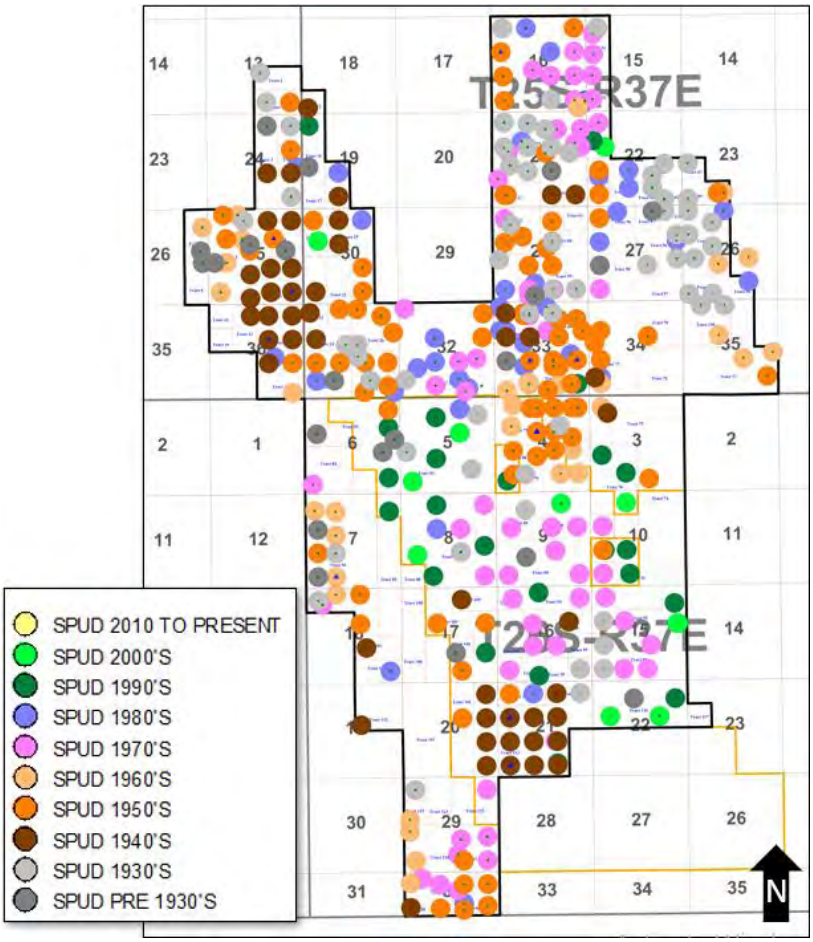

Fig 2 — Base map of the South Jal Unit with wells colored by spud date. No new drilling activity has occurred since the early 2000s.

South Jal's production history for the Yates-Seven Rivers-Queen formations (Fig 3) shows peak oil production in 1951 at 1766 bopd, while gas production didn't peak until 1956 at 72 mmcfpd. The field GOR has remained above 10,000 scf/bo for the known life of the field, indicating the primary reservoir mechanism is solution gas drive and the reservoir pressure fell below bubble point prior to 1940. As wells were shut-in during the 2000s, the water rate significantly dropped off supporting the idea of a localized aquifer that is not present throughout the unit. In 2021, the Arnott Ramsay NCT-B pilot waterflood program (T25S-R37E-32) was initiated with the drilling of three new injectors and two new producers. Additional workover and conversion work was completing on active wells to complete the pilot which included four inverted 5-spot patterns on 20-acre well spacing; injection began June 2021. As of Dec 31, 2021, average daily production from the proposed unit was 138 bopd, 844 mcfpd, and 3,818 bwpd. Cumulative field production at the same date was 18.071 mmbo, 417.629 bcf, and 192.209 mmbw. With an OOIP of 306 mmbo, this puts the recovery factor (RF) at 5.9% primary recovery to date.

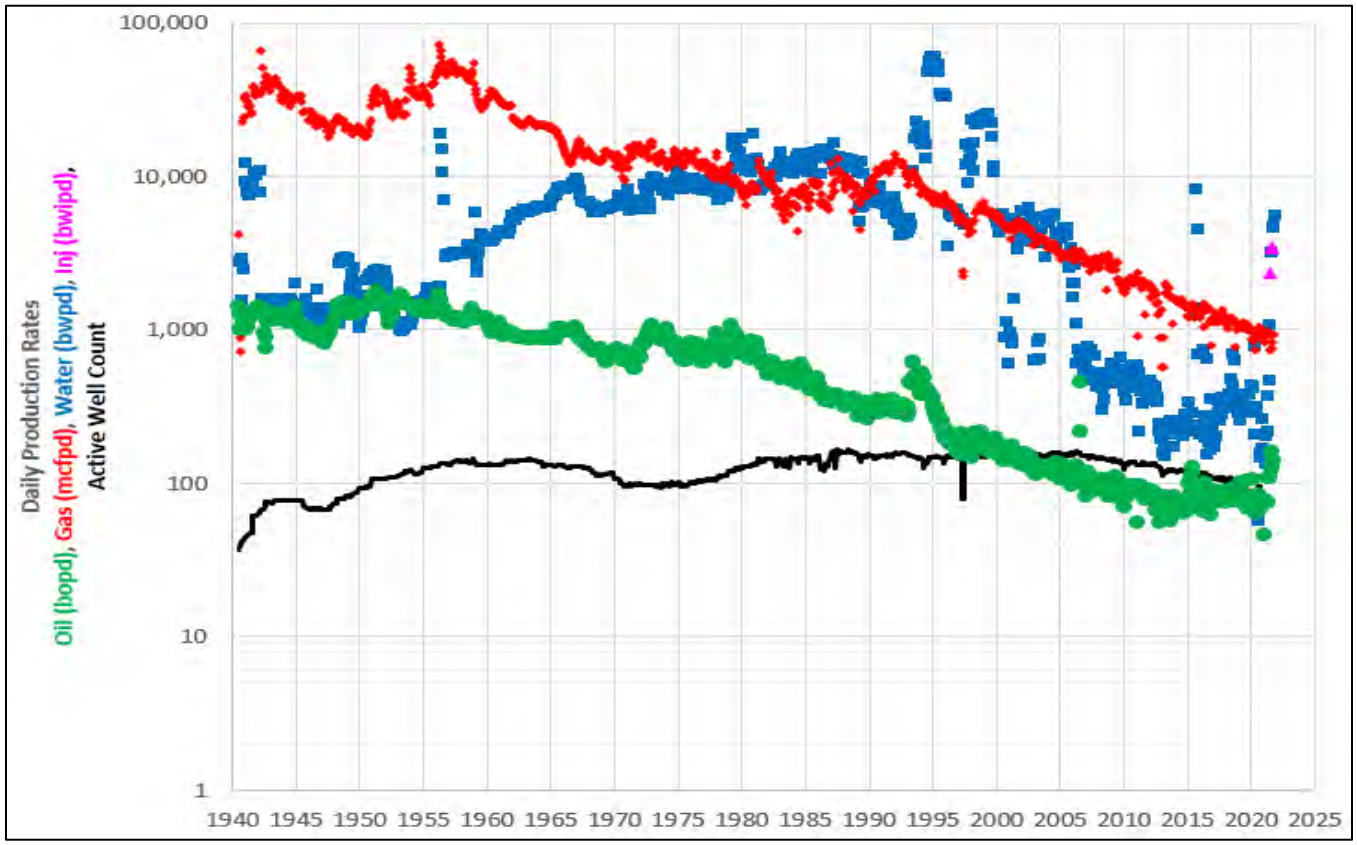

Fig 3 — South Jal Unit production history of the Yates-Seven Rivers-Queen formations. Production data sources are a combination of electronic records from IHS (post 1970's) and hard copied data from the New Mexico OCD District Office in Hobbs, NM (pre-1970's).

1.4 Log Data

Approximately 75% of the total wells (including P&A wells) have a well log, with 68% of the wells having either compensated density porosity, sidewall neutron porosity or bore hole compensated sonic logs. Note: most well logs do not cover the entire proposed Y-7R-Q unitized interval, as most wells TD somewhere in the unitized interval.

1.5 Completions

Depending on the year that the wells were drilled, the completion type differed greatly. In many early wells (1940-1950s), 7” production casing was set directly above oil-bearing reservoirs and 50 to 150 feet of pay left as open hole. In the cases where there were no open hole intervals, 7” production casing was run to TD and the targeted intervals were perforated. It was common to stimulate both perfs and open hole intervals with 1000 to 5000 gallons of 15% HCl acid. Wells drilled after the 1970s often had 5.5” production casing run to TD. There were also several re-entries to older wells in which 4.5” casing/liner was run across the open hole interval.

In the 1980s and 1990s operators went back to producing wells and re-stimulated the wells by hydraulic fracture. The frac sizes ranged from 6000# of sand with 6000 gallons of lease oil to 250,000# of sand with 150,000 gallons of slick water. Since most of the existing wells have been hydraulically fractured, FAE II intends to minimize the number of conversions to injection and primarily drill new wells for injection. This will allow for a more uniform and efficient flood front expanding out from around the injector wells.

2.0 Geology

2.1 Geologic Setting

The Yates-Seven Rivers-Queen formations are part of the Artesia Group and were deposited during the Permian period. These formations are part of stratigraphic sequences which exhibits prograding shelf-edge systems tracts caused by fluctuations in paleo-sea level and regional subsidence. Generally, they are laterally continuous porous back reef sandstones and dolomites that rim the Delaware Basin (Fig 4A). To the west and south (downdip) of the proposed unit area, reservoir rocks change facies to the Goat Seep and Capitan Reefs, which are generally not oil or gas bearing; to the east and north (updip), reservoir rocks transition into impermeable evaporites which act as stratigraphic traps/seals (Fig 4B).

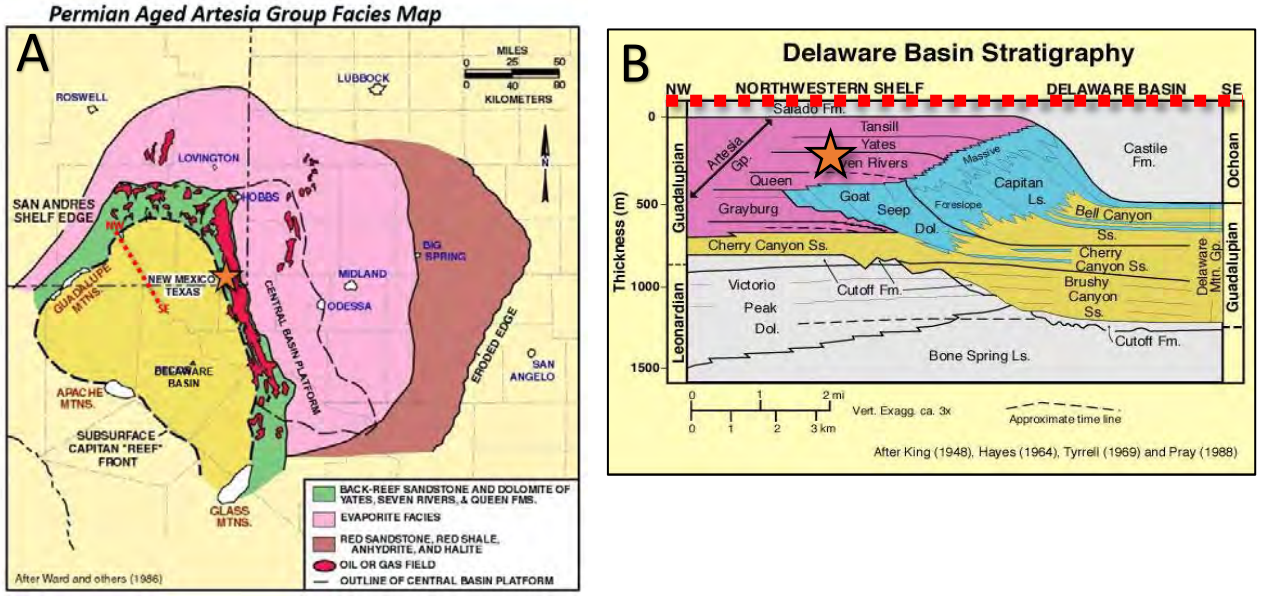

Fig 4 — (A) Map of Central Basin Platform Yates-Seven Rivers-Queen oil and gas fields. Orange star represents the SJU location. (B) Stratigraphic representation of the Y-7R-Q on the Northwest Shelf, which is similar in deposition, stratigraphy, and reservoir properties to the SJU area.

2.2 Structure

Figure 5 is a structure map that shows the Yates formation top, measured in subsea true vertical depth (SSTVD). The Seven Rivers and Queen formation below the Yates follow similar structural profiles. Overall, the Yates formation dips to the WSW. There is a ridge along the western edge and local structural anticline or “bump” in sections 28, 32, and 33 of T25S-R37E.

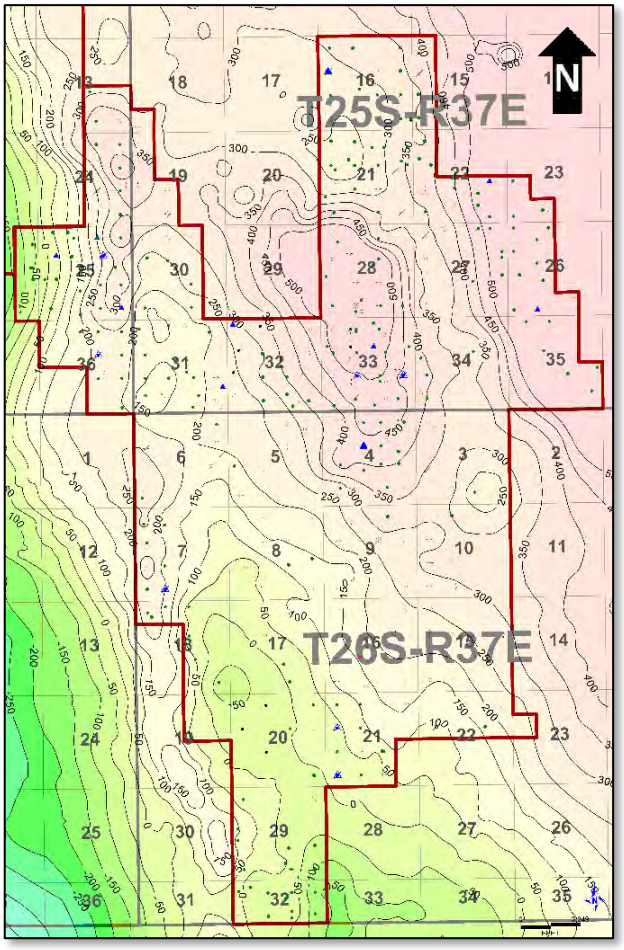

Fig 5 — Structure map of the top of the Yates formation. Values are subsea TVD.

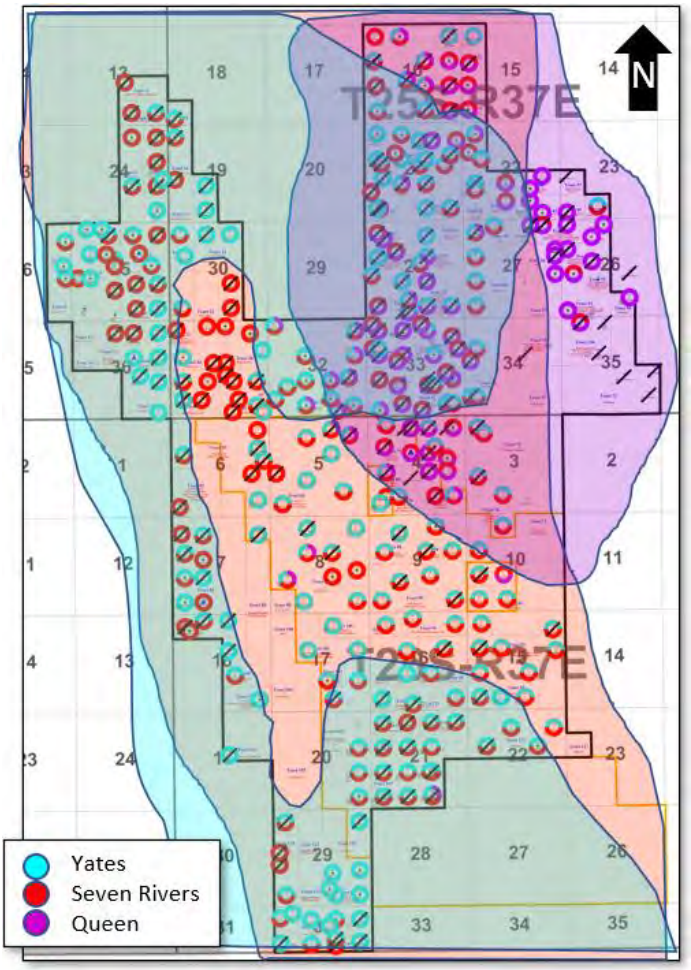

Fig 6 – Map illustrating with shaded overlays where the Yates-Seven Rivers-Queen have oil production within their formation.

2.3 Unit Productive Limits

The unit was configured to span the productive intervals of the Yates-Seven Rivers-Queen formations. Figure 6 shows which formations are oil productive in what parts of the unit. The Yates formation is oil productive in the north, south, and western edge of the unit, and gas productive everywhere else. The Seven Rivers is oil productive in various reservoirs over the entire unit area, minus the northeastern edge. The Queen is oil productive in the northeast part of the unit and wet downdip towards the center, south, and west of the unit area.

2.4 Porosity vs. Permeability

Based on published research, analysis of historical production vs. completed intervals, and recompletion results from FAE II's own wells, FAE II has established productive reservoir petrophysical cutoffs of 10% porosity and permeability greater than 0.5 mD for the Yates-Seven Rivers-Queen interval. For EOR purposes, the permeability requirement increases to 3 mD while the porosity cutoff remains unchanged. Core samples, like from the Winningham 9 (Fig 7), a FAE II operated well within the proposed SJU unit area, show the rock to exceed the minimum requirements for EOR.

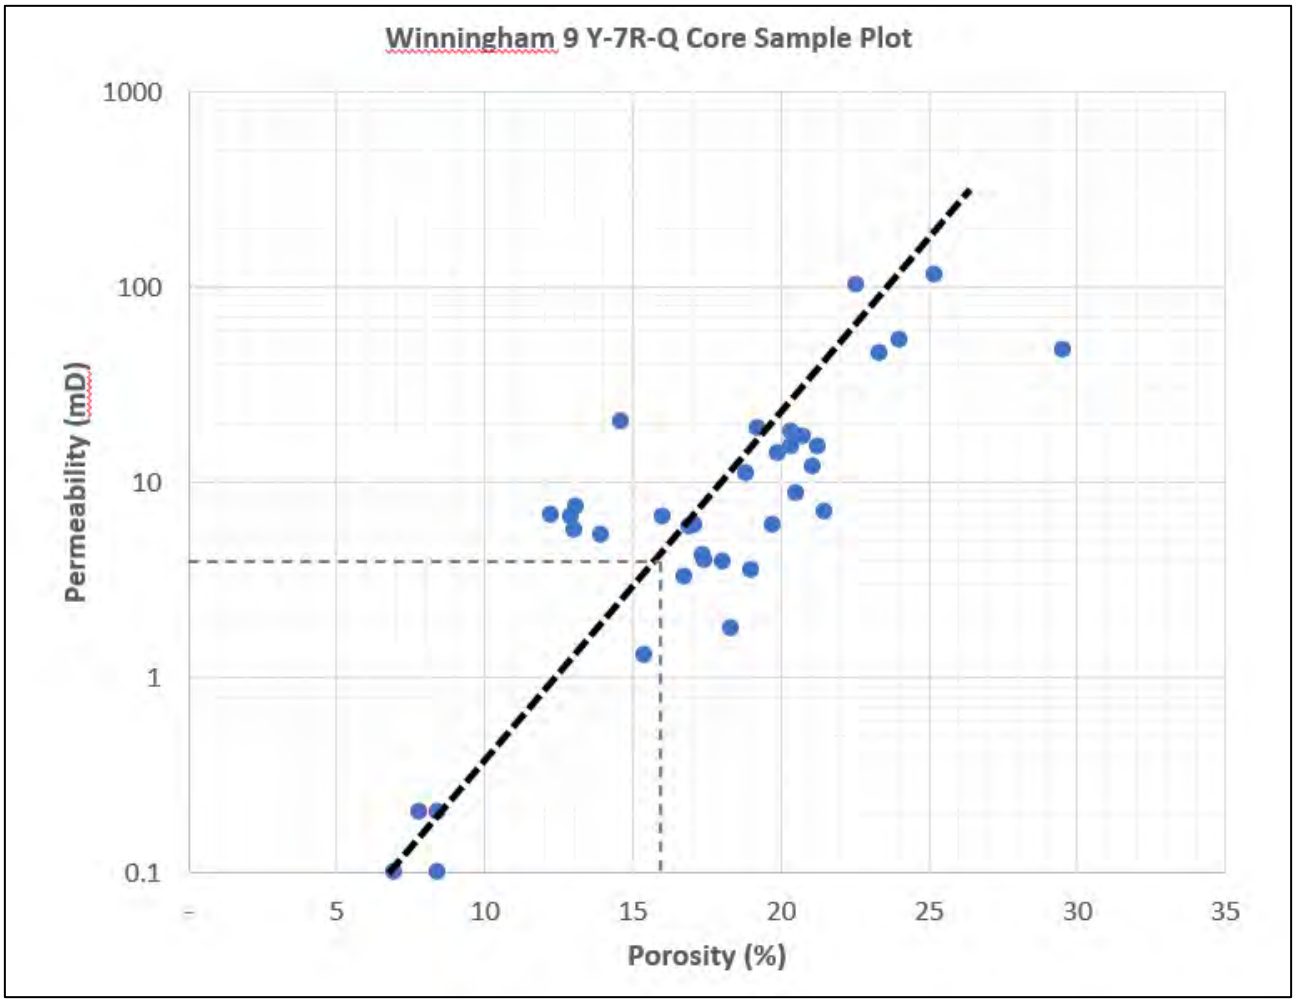

Fig 7 — Winningham 9 Core Samples Permeability vs. Porosity plot. Porosity and permeability have a positive, correlative relationship; generally speaking, the higher the porosity, the higher the permeability.

2.5 Definition of Reservoir & Net Pay

Across the unit, the gross interval of the combined Yates-Seven Rivers-Queen formations is approx. 1000 feet. Given the vintage of the data available, reservoir rock is typically identified using a 10% cutoff on modern density porosity logs. Reservoir-quality rock with 10% or greater porosity is highlighted on logs in green (Fig 8). Older neutron and acoustic logs are less accurate in quantifying porosity than the density logs, therefore neutron and acoustic logs are correlated to density logs to determine reservoir-quality rock.

Net pay is determined by rock that meets both the 10% porosity threshold and contains 40% or greater oil saturation. Historical production, research papers, analogous field studies, and Archie's law calculations were used to calculate an average of 50% oil saturation. In this report, net pay is limited to oil-bearing reservoirs and does not include gas reservoirs or gas caps, thus existing between the oil-water contact (OWC) and gas-oil contact (GOC).

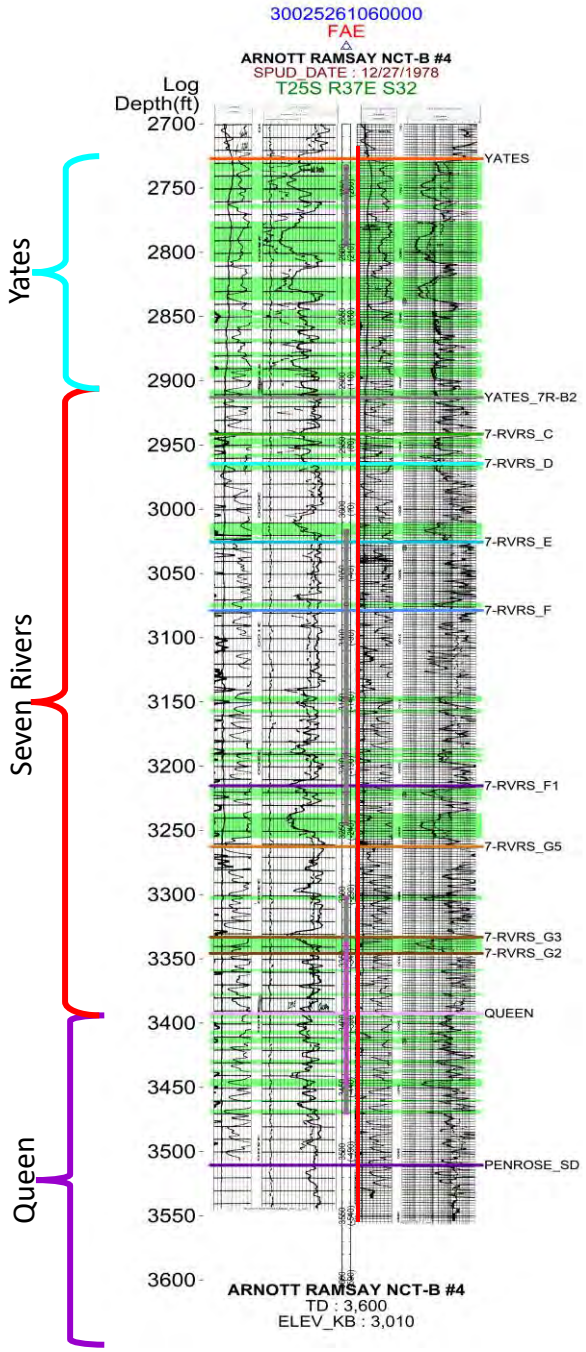

Fig 8 — Arnott Ramsay NCT B #004 Density log (left) and resistivity log (right) with rock meeting or exceeding the 10% porosity threshold highlighted in green. For reference, the red vertical line indicates 10% porosity.

Released to Imaging: 12/4/2023 3:14:14 PM

2.6 Original Oil in Place Mapping

Original Oil in Place (OOIP) mapping was performed by combining net pay within the oil window from the Yates, Seven Rivers, and Queen formations. The methodology used is as follows:

1) a net pay map was created for each of the Yates, Seven Rivers, and Queen formations,

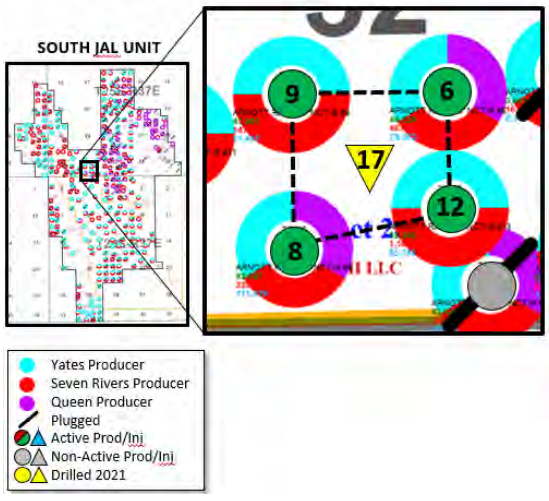
2) the area between the OWC and GOC was used to define the oil window for each horizon, constituting the area used to calculate the OOIP for each horizon, and

3) the OOIP for each of the Yates, Seven Rivers, and Queen horizons were added up to calculate the total OOIP for the South Jal Unit.

Constant figures were used for porosity (ϕ), oil saturation (S_o), and initial formation volume factor (B_{oi}) due to insufficient unit-wide coverage of quality data. In pay quality rock, the average porosity as calculated in wells with modern logs is 12%. Oil saturation was determined to be 50%, based on historical oil and water production and calculations in modern logs. The initial formation volume factor is 1.2, based on initial producing GORs and reservoir pressure. Table 1 shows a break-down of oil in place by formation.

OOIP by Formation			
	YATES	SEVEN RIVERS	QUEEN
OOIP (mmbbl)	103	124	79
Percentage of total OOIP	33.7%	40.5%	25.8%

Table 1 — Calculated original oil in place for each of the formations in the proposed unitized interval.



3.0 Engineering

3.1 Determination of Remaining Reserves

Individual well production histories were generated from IHS's electronic records (post 1970's) and paper records from the New Mexico OCD District Office in Hobbs, NM (pre-1970's). Decline curve analysis (DCA) was used to determine the remaining reserves of active wells within the proposed unit boundaries (Appendix D). Primary reserve forecasts were typically represented with exponential decline curves to the well's economic limit. Annual decline rates ranged from 2-10% with an average of 4.1%. The unit's remaining developed and producing primary reserves is forecasted at 1.031 mmbo.

In addition to primary reserves, the Arnott Ramsay pilot has forecasted developed and producing secondary reserves. The secondary reserves were calculated and assigned to each pattern's injection well. To calculate the secondary reserves by pattern, each of the four producers in one pattern assigns 25% of their cumulative primary production to the pattern. An S/P ratio of 1.6, taken from surrounding analog waterfloods, was applied to each pattern's primary production to estimate their secondary reserves. This calculation is shown in Fig 9 for the Arnott Ramsay NCT-B #17.

- Each producer 'contributes' 25% of it's oil EUR to the pattern
- The pattern's total oil volume projection is then the sum of each producer's contribution multiplied by S/P ratio

- Each producer 'contributes' 25% of it's oil EUR to the pattern
- The contribution to the pattern from the producers would be:

Well Name	Oil Cum, mbo		Pattern Primary Oil Cum, mbo
Arnott Ramsay NCT-B #6	53.249	x 25% =	13.312
Arnott Ramsay NCT-B #8	98.259	x 25% =	24.565
Arnott Ramsay NCT-B #9	75.152	x 25% =	18.788
Arnott Ramsay NCT-B #12	67.013	x 25% =	16.753
		Total	**73.418**

- Then, applying the S/P ratio, the total pattern volume is:

Well Name	Pattern Prim Oil Cum, mbo		Calc Secondary Reserves, mbo
Arnott Ramsay NCT-B #17	73.418	x 1.6 S/P Ratio =	**117.469**

Fig 9 — Secondary reserves were calculated by applying an S/P ratio to the contributing cumulative primary production for a pattern. By assigning the secondary reserves to the injector at the center of a pattern the economics of capital investment for secondary recovery can be easily calculated.

Released to Imaging: 12/4/2023 3:14:14 PM

Secondary type curves were created using historical waterflood responses seen in analog studies. Forecasts are delayed one-year from the start of injection, then ramp up to peak rate over four months and hyperbolically decline to a minimum exponential decline until the pattern reaches its economic limit. Peak rates are adjusted to match the pattern's calculated secondary reserves. The unit's remaining developed and producing secondary reserves is forecasted at 0.475 mmbo, bringing the unit's total remaining developed and producing reserves to 1.506 mmbo.

Reserve Type	Forecasted Remaining Reserves, mbo
Arnott Ramsay Waterflood Pilot Lease	
Primary	402.21
Secondary	474.68
All Other Active Oil Wells in South Jal Unit area	
Primary	628.97
Secondary	-
Total Until Transition	**1,505.86**

Table 2 — Breakdown of active well primary and secondary reserves from South Jal Unit.

3.2 Determination of Undeveloped Reserves

Undeveloped primary reserves were calculated based on the cumulative primary production of offset producers. In areas where there was no previous oil development, the unit's average RF was applied to the OOIP to calculate undeveloped primary reserves at 40 ac well spacing; the unit's total undeveloped primary reserves are calculated as 20.7 mmbo.

In order to determine the undeveloped secondary reserves, in-depth studies were performed on 26 surrounding analog units to determine their secondary performance and the factors affecting them. Well spacing and pattern design are the most controllable influences on secondary recovery, with 40-acre 5-spot patterns (20-acre well spacing) consistently showing the best secondary performance. Analog fields with this development plan had secondary to primary ratios (S/P ratios) range from 1.2 to 2.0, with an average S/P ratio of 1.6, seen in Table 3.

Lease Name	Well Spacing	Oil EUR		S/P
		Primary	Secondary	
JALMAT FIELD YATES SAND UNIT	20	1.9	3.8	2.0
COOPER JAL UNIT	20	6.8	12.3	1.8

WEST DOLLARHIDE QUEEN SAND UNIT	20	3.1	3.7	1.2

Table 3 — Waterflood performance comparison of analogous waterfloods along the Central Basin Platform.

With this high secondary performance development plan in mind, injector centered 5-spot patterns were identified and primary production of the surrounding producers was used to calculate expected secondary reserves. Calculated secondary reserves were then compared to the estimated remaining recoverable oil in place for each 40-acre location to ensure recoveries were reasonable. This unit's total undeveloped secondary reserves are calculated as 63.8 mmbo.

There is only one analog in surrounding areas for tertiary recovery in the Queen formation – the Rock Queen Unit in Chaves & Lea Counties, New Mexico (Fig 10). This unit was a mature waterflood (injection started pre-1970) on decline when CO2 was introduced in late 2010, the start of tertiary recovery. Oil rate responded within six months to the start of CO2 injection and the water alternating gas (WAG) program. The reasons the operator reduced and then stopped CO2 injection are unknown, but shortly after the field oil rate declined back to its original secondary trend. Tertiary recovery was 12.5-15% EUR for the Rock Queen Unit. Using 10-15% incremental RF, South Jal Unit's total undeveloped tertiary reserves are calculated as 29-44 mmbo.

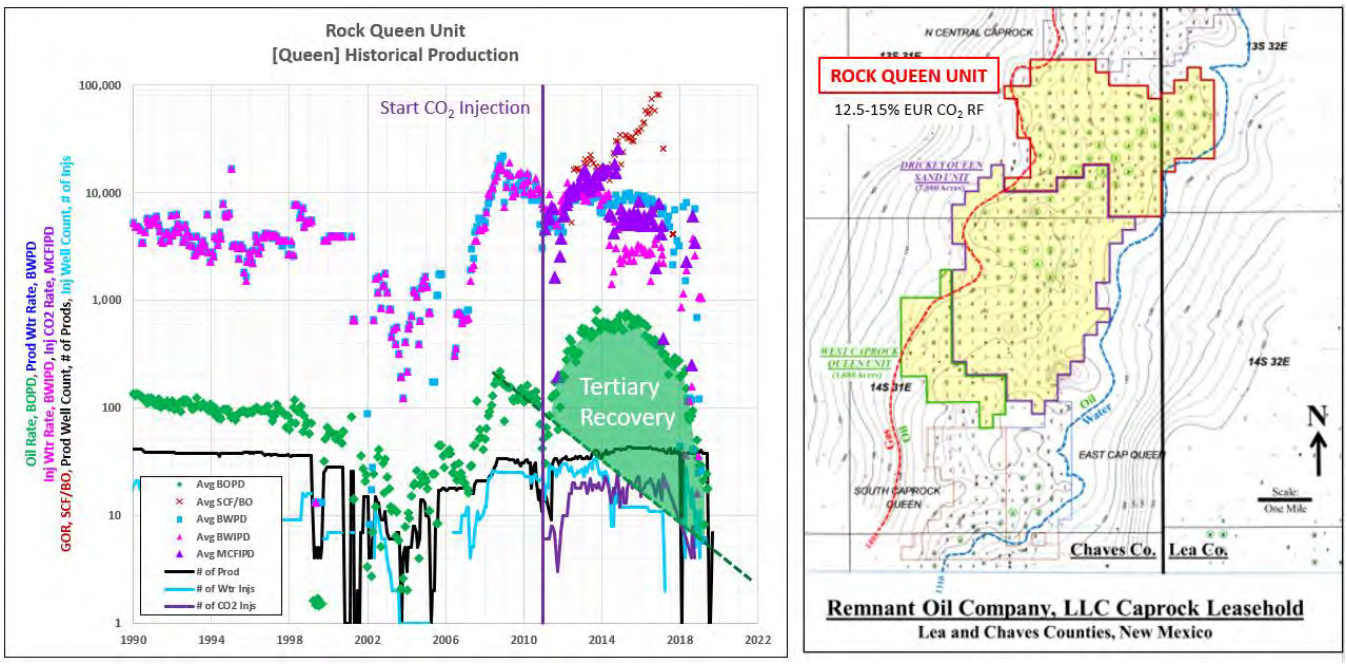

Fig 10 — The Rock Queen Unit is the only public reported study of a CO2 flood of the Queen formation in the surrounding area. No CO2 floods were found for the Yates-Seven River formations.

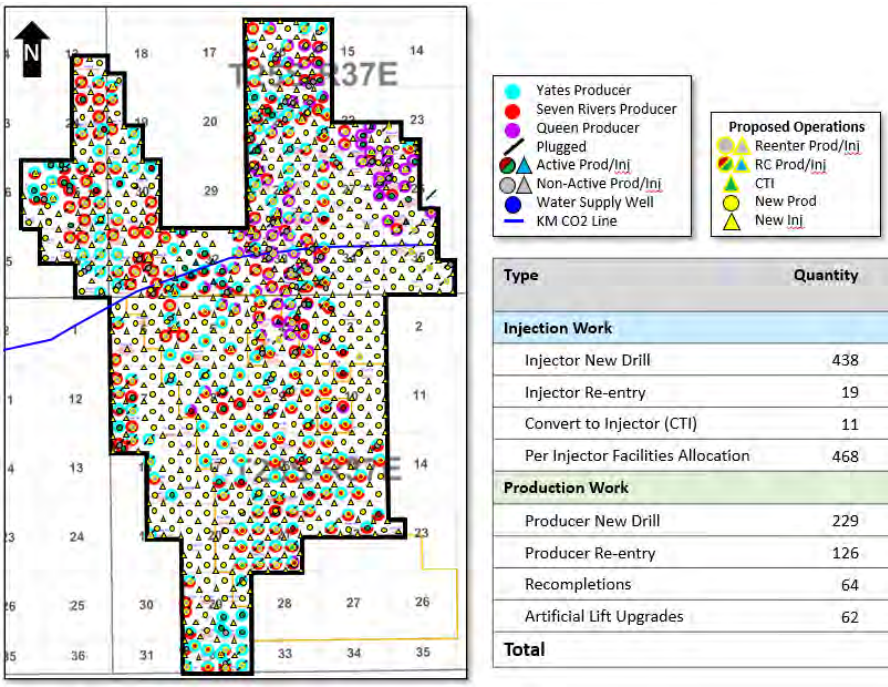
3.3 Original Oil in Place and Remaining Reserves

A total of 306 million barrels of original oil in place (OOIP) is contained in the Yates-Seven Rivers-Queen formations. A bulk volume oil map was constructed for each of the Yates-Seven Rivers-Queen formations using the porosity and saturation cutoffs previously discussed to determine net pay at each well location. The resultant bulk oil map yielded OOIP.



Cumulative production was 18.071 mmbo as of December 2021, meaning the South Jal Unit has only recovered 5.9% of the OOIP. Forecasts of the active producing wells determined estimate ultimate recovery (EUR) of the unit to date is 19.568 mmbo, leaving 1.031 mmbo primary and 0.475 mmbo secondary remaining reserves under the current development. Unperforated intervals in existing wells and undrilled acreage at 40-acre well spacing leave an estimated 20.7 mmbo undeveloped primary reserves in the ground. Combined, this would put the potential primary RF at 13.0% of the OOIP.

Secondary reserves from unit wide water injection are based on surrounding analogs' performance and the pilot waterflood program on the Arnott Ramsay lease. Undeveloped secondary reserves for the proposed unit area are 63.8 mmbo; an incremental 20.8% of the OOIP. This would give South Jal Unit an ultimate secondary recovery (secondary + primary) of 33.8% of the OOIP.

3.4 Development Plan

An additional 667 wells (438 injectors, 229 producers) will be drilled on undeveloped acreage to create 40-acre inverted 5-spot patterns for waterflooding. Additional conformance work to ensure injection support reaches surrounding producers will include re-entries, recompletions, workovers and conversions to injection. These wells will develop an estimated 84.5 mmbo offsetting producing Yates-Seven Rivers-Queen wells. The unit outline was drawn around 40-acre locations with a producer, around recommended and probable undrilled locations and around the open undrilled spots deemed reasonable by geology and to protect the unit.

Development is scheduled to start Oct 2022, building pilots in several areas of the unit with water injection commencing immediately after injection wells are brought online. After the pilots are evaluated to prioritize areas, the development program will ramp up to running a combination of six drilling and workover rigs. At earliest, the full development of the unit would be completed in 2033. Partial oil production response is expected to occur late 2023 with peak response in 2031. Total investment for the South Jal Unit waterflood development of 84.485 mmbo in incremental proven secondary and undeveloped primary reserves is estimated to be $480 million (Fig 11) with a finding and development (F&D) cost of $5.69 per barrel.

Type	Quantity	Unit Cost ($m)	Reserves (mbo)	Total Cost* ($m)
Injection Work				
Injector New Drill	438	548	60,205	240,024
Injector Re-entry	19	300	2,205	5,700
Convert to Injector (CTI)	11	161	1,345	1,771
Per Injector Facilities Allocation	468	58	-	26,913
Production Work				
Producer New Drill	229	643	18,195	147,247
Producer Re-entry	126	345	305	43,470
Recompletions	64	125	2,230	8,000
Artificial Lift Upgrades	62	117	-	7,254
Total			**84,485**	**480,379**

Fig 11 — Development plan for South Jal Unit waterflood of Yates-Seven River formations. Start development 3Q 2022 and ramp up to 2 drilling rig and 2-4 workover rig program that is expected to last through 2033.

3.5 Unitization Participation Formulas

The unitization participation formulas apply to all tracts and have been separated into two distinct phases or time periods (Phase I; Phase II) to more accurately distribute the ownership of the unit based upon current and future value, respectively. Phase I is designed to reflect the value of the unit's current development; working interest (WI) is calculated based on an averaged oil rate from Jul to Dec 2021 (Appendix C). This maintains the existing cashflow of the operators in the unit and allows them to recover capital investments previously spent. Phase I tract participation shall apply for three years starting from the Effective Date, after three years' time Phase II tract participation shall apply. Three years is the estimated time it will take to recovery remaining primary reserves per the proposed development schedule.

Phase II is intended to reflect the value of the respective tracts after additional capital investment enables the development of remaining recoverable reserves. Phase II WI is calculated based on the remaining recoverable reserves within each tract. First, total recoverable oil in place (ROIP) is calculated on a per tract basis by applying an estimated ultimate RF of 51.3% (primary + secondary + tertiary) to the mapped OOIP for each tract. Then, cumulative production through Dec 2021 and forecasted remaining reserves of active wells was subtracted from each tract's ROIP to yield each tract's remaining recoverable reserves. This formula focuses on giving credit to those tracts whose reserves have yet to be fully developed. Phase II tract participation shall begin three years from the Effective Date and shall continue until the unit is terminated.
