### APPLICANT'S STATEMENT OF THE CASE

Applicant seeks an order (a) approving a standard 320-acre, more or less, overlapping horizontal well spacing unit in the Bone Spring formation comprised of the E2 of Section 16, Township 19 South, Range 34 East, NMPM, Lea County, New Mexico, and (b) pooling all uncommitted mineral interests in this horizontal well spacing unit. Applicant intends to initially dedicate the above-referenced horizontal spacing unit to the proposed **Cimarron State Com 1143H** and **Cimarron State Com 1243H** “u-turn” wells to be horizontally drilled from a surface location in the NE4 of Section 16, with first take points in the NE4NE4 (Unit A) of Section 16 and last take points in the NW4NE4 (Unit B) of Section 16. This proposed horizontal well spacing unit will overlap the following existing spacing units:

- A 160-acre horizontal well spacing unit comprised of the W2E2 of Section 16 currently dedicated to the Cimarron 16 19S 34E RN State Com 133H (30-025-42979) operated by Matador Production Company in a different interval of the Bone Spring formation and assigned to the Quail Ridge; Bone Spring Pool (50460); and
- A 160-acre horizontal well spacing unit comprised of the E2E2 of Section 16 currently dedicated to the Cimarron 16 19S 34E RN State Com 134H (30-025-42352) operated by Matador Production Company in a different interval of the Bone Spring formation and assigned to the Quail Ridge; Bone Spring Pool (50460).

Applicant seeks to have Matador Production Company (OGRID No. 228937) designated as the operator of these proposed spacing units. Applicant has sought but been unable to obtain voluntary agreement for development of this acreage from all affected mineral interest owners.
