APPLICANT’S STATEMENT OF CASE

In this case, Riley seeks orders to approve non-standard 160-acre, more or less, horizontal spacing unit (“HSU”) composed of the N/2 N/2 of Section 33, Township 17 South, Range 27 East, N.M.P.M., Eddy County, New Mexico (the “Application Lands”), and to pool all uncommitted mineral interests in the Yeso formation, designated as oil pools, underlying said HSU.

Under **Case 25049**, Riley seeks to pool the Yeso formation underlying the Application Lands and seeks dedicate the HSU to the following proposed wells:

A. **Eagle 33 Fed Com #010H** (API No. 30-015-49668), which is an oil well that will be horizontally drilled from a surface location in the NW/4NW/4 (Unit D) of Section 34 to a bottom hole location in the Yeso Formation in Lot 4 (Unit D) of Section 33, Township 17 South, Range 27 East;

B. **Eagle 33 Fed Com #011H** (API No. 30-015-49475), which is an oil well that will be horizontally drilled from a surface location in the NW/4NW/4 (Unit D) of Section 34 to a bottom hole location in the Yeso Formation in Lot 4 (Unit D) of Section 33, Township 17 South, Range 27 East;

The wells are orthodox in their location as defined by 19.15.16.15.(C) NMAC, and the take points and laterals comply with Statewide Rules for setbacks under 19.15.16.15.(C) NMAC. Also to be considered will be the cost of drilling and completing the Wells and the allocation of the cost, the designation of Applicant as the operator of the Wells, and a 200% charge for the risk involved in drilling and completing the Wells.

The wells and lands are located approximately 8 miles southeast from Artesia, New Mexico.
