**APPLICATIONS OF V-F PETROLEUM INC.  
FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO**

**CASE NOS. 25115 & 25117**

**NOTICE OF REVISED EXHIBITS**

Read & Stevens, Inc. and Permian Resources Operating, LLC (collectively “Permian”), applicant in Case Nos. 24941-24942 and 25145-25148, gives notice that it is filing the attached revised exhibits for acceptance into the record.

**Revised Exhibit A** are updated Compulsory Pooling Checklists with corrected reference to the depth severances involved with the applicable cases.

**Revised Exhibit C** is a revised Landman Statement with corrected reference to the depth severances involved with the applicable cases, and attestation that all land sub-exhibits were prepared by or under the supervision of landman, Travis Macha.

**Revised Exhibit C-2** are surveyor marked C-102s.

**Revised Exhibit C-3** includes a fourth updated working interest control pooling exhibit in favor of Permian, which also reflects that Carolyn Beall is being pooled in Case Nos. 24941 & 25145.

**Revised Exhibit C-6** includes an additional letter of support from Ard Oil, Ltd.

**Revised Exhibit C-9** includes a third updated timeline and summary, which includes reference to Case No. 25145 and drops XTO's objection.

**Supplemental Exhibit C-10** is the JOA signature page from Occidental Permian Limited Partnership.

**Supplemental Exhibit C-11** is the JOA signature page from Marathon Oil Company.

**Supplemental Exhibit C-12** is a detailed discussion of the depth severances in the NE/4 NW/4 and SE/4 SW/4 of Section 14.

**Supplemental Exhibit D-7** is a second updated cross-section showing the depth severances above Permian's target interval in Case Nos. 25145 & 25148.

**Supplemental Exhibit D-8** full development Gunbarrel with First Bone Spring called out as "future inventory."

**Revised Exhibit F** is an updated self-affirmed statement and notice information for Case Nos. 25145-25148.

**Revised Exhibit G** are affidavit of notice of publication for Case Nos. 25145-25148.

Respectfully submitted,

HOLLAND & HART LLP

**STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION OF READ & STEVENS, INC.  
FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

**CASE NO. 24941**

**APPLICATION**

Read & Stevens, Inc. ("Applicant"), through undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in a portion of the Bone Spring formation, from the top of the Bone Spring formation to the base of the Second Bone Spring formation, underlying a standard 320-acre, more or less, horizontal well spacing unit comprised of the S/2 N/2 of Sections 14 and 15, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico. In support of its application, Applicant states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to designate Permian Resources Operating, LLC (OGRID No. 372165) as the operator of the proposed horizontal spacing unit.
3. Applicant seeks to initially dedicate the above-referenced horizontal spacing unit to the proposed **Slim Jim 14-15 Fed Com 122H** and **Slim Jim 14-15 Fed Com 123H** wells, both to be horizontally drilled from a surface location in the SE/4 NE/4 (Unit H) of Section 14, with a first take point in the SE/4 NE/4 (Unit H) of Section 14, and a last take point in the SW/4 NW/4 (Unit E) of Section 15.

**BEFORE THE OIL CONSERVATION DIVISION  
Santa Fe, New Mexico  
Exhibit No. B  
Submitted by: Read & Stevens, Inc.  
Hearing Date: January 28 2025  
Case Nos. 24941-24942 & 25145-25148**

4. An ownership depth severance exists in the Bone Spring formation within the proposed horizontal well spacing unit. Accordingly, Permian seeks to pool only a portion of the Bone Spring formation, from the top of the Bone Spring formation to the base of the Second Bone Spring formation, measured from the top of the Bone Spring formation, to the stratigraphic equivalent of the base of the Second Bone Spring formation, as seen at 8,913 feet measured depth beneath the surface, as shown in that certain Dual Lateralog, Micro Laterlog, Gamma Ray well log in the Tamano 15 Fed Com #2 (API # 30-015-33398), located in Section 15, Township 18 South, Range 31 East, Eddy County, New Mexico. Permian will provide notice of this hearing to the vertical offset parties within the pool who are not subject to this pooling application.

5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.

6. The pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on November 7, 2024, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests within the defined portion of the Bone Spring formation;
- B. Designating Permian Resources Operating, LLC as operator of this horizontal spacing unit and the horizontal wells to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, completing, and equipping the wells;

- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

HOLLAND & HART LLP

ATTORNEYS FOR READ & STEVENS, INC.

CASE \_\_\_\_\_: **Application of Read & Stevens, Inc. for Compulsory Pooling, Eddy County, New Mexico.** Applicant in the above-styled cause seeks an order pooling all uncommitted interests in a portion of the Bone Spring formation, from the top of the Bone Spring formation to the base of the Second Bone Spring formation, underlying a standard 320-acre, more or less, horizontal well spacing unit comprised of the S/2 N/2 of Sections 14 and 15, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico. Said unit will be initially dedicated to the proposed **Slim Jim 14-15 Fed Com 122H** and **Slim Jim 14-15 Fed Com 123H** wells, both to be horizontally drilled from a surface location in the SE/4 NE/4 (Unit H) of Section 14, with a first take point in the SE/4 NE/4 (Unit H) of Section 14, and a last take point in the SW/4 NW/4 (Unit E) of Section 15. Also, to be considered will be the cost of drilling and completing the wells and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Permian Resources Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 8.5 miles southwest of Maljamar, New Mexico.

**STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION OF READ & STEVENS, INC.  
FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

**CASE NO. 24942**

**APPLICATION**

Read & Stevens, Inc. ("Applicant"), through undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in a portion of the Bone Spring formation, from the top of the Bone Spring formation to the base of the Second Bone Spring formation, underlying a standard 640-acre, more or less, horizontal well spacing unit comprised of the S/2 of Sections 14 and 15, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico. In support of its application, Applicant states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to designate Permian Resources Operating, LLC (OGRID No. 372165) as the operator of the proposed horizontal spacing unit.
3. Applicant seeks to initially dedicate the above-referenced horizontal spacing unit to the proposed **Slim Jim 14-15 Fed Com 124H** and **Slim Jim 14-15 Fed Com 125H** wells, both to be horizontally drilled from a surface location in the NE/4 SE/4 (Unit I) of Section 14, with a first take point in the NE/4 SE/4 (Unit I) of Section 14, and a last take point in the NW/4 SW/4 (Unit L) of Section 15; and **Slim Jim 14-15 Fed Com 126H** well, to be horizontally drilled from

a surface location in the NE/4 SE/4 (Unit I) of Section 14, with a first take point in the SE/4 SE/4 (Unit P) of Section 14, and a last take point in the SW/4 SW/4 (Unit M) of Section 15.

4. The completed interval of the **Slim Jim 14-15 Fed Com 125H** is expected to remain within 330 feet of the adjoining quarter-quarter section (or equivalent) tracts to allow inclusion of these proximity tracts within the proposed horizontal spacing unit under 19.15.16.15.B(1)(b) NMAC.

5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit

6. An ownership depth severance exists in the Bone Spring formation within the proposed horizontal well spacing unit. FOR APPROVAL OF AN OVERLAPPING  
HORIZONTAL WELL SPACING UNIT AND  
COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

**CASE NO. 25145**

**APPLICATION**

Read & Stevens, Inc. ("Applicant"), through undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order (1) approving a 320-acre, more or less, overlapping horizontal well spacing unit in a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone Spring formation, underlying the N/2 N/2 of Sections 14 and 15, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico, and (2) pooling all uncommitted interests in this acreage. In support of its application, Applicant states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to designate Permian Resources Operating, LLC (OGRID No. 372165) as the operator of the proposed overlapping horizontal spacing unit.
3. Applicant seeks to initially dedicate the above-referenced overlapping horizontal spacing unit to the proposed **Slim Jim 14-15 Fed Com 131H** well, to be horizontally drilled from a surface location in the NE/4 NE/4 (Unit A) of Section 14, with a first take point in the NE/4 NE/4 (Unit A) of Section 14, and a last take point in the NW/4 NW/4 (Unit D) of Section 15.

4. This proposed horizontal well spacing unit will overlap the following existing spacing unit in the Bone Spring formation:

- 160-acre spacing unit comprised of the N/2 N/2 of Section 15, T18S-R31E, dedicated to the Tamano 15 AD Federal 1H (API: 30-015-40868) well currently operated by Mewbourne Oil Company.

5. An ownership depth severance exists in the Bone Spring formation within the proposed horizontal well spacing unit. Accordingly, Permian seeks to pool only a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone Spring formation, measured from a foot below the base of the Second Bone Spring formation, to the stratigraphic equivalent of the base of the Bone Spring formation, as seen at 8,913 feet measured depth beneath the surface, as shown in that certain Dual Lateralog, Micro Laterlog, Gamma Ray well log in the Tamano 15 Fed Com #2 (API # 30-015-33398), located in Section 15, Township 18 South, Range 31 East, Eddy County, New Mexico. Permian will provide notice of this hearing to the vertical offset parties within the pool who are not subject to this pooling application.

6. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.

7. The pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on February 13, 2025, and, after notice and hearing as required by law, the Division enter an order:

- A. Approving the proposed overlapping spacing unit;

- B. Pooling all uncommitted interests within the defined portion of the Bone Spring formation;
- C. Designating Permian Resources Operating, LLC as operator of this horizontal spacing unit and the horizontal well to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, completing, and equipping the well;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

**ATTORNEYS FOR READ AND STEVENS, INC. &  
PERMIAN RESOURCES OPERATING, LLC**

CASE \_\_\_\_\_: **Application of Read & Stevens, Inc. for Compulsory Pooling, Eddy County, New Mexico.** Applicant in the above-styled cause seeks an order pooling all uncommitted interests in a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone Spring formation, underlying the S/2 N/2 of Sections 14 and 15, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico. Said unit will be initially dedicated to the proposed **Slim Jim 14-15 Fed Com 132H** well, to be horizontally drilled from a surface location in the NW/4 SW/4 (Unit L) of Section 13, with a first take point in the SE/4 NE/4 (Unit H) of Section 14, and a last take point in the SW/4 NW/4 (Unit E) of Section 15. Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Permian Resources Operating, LLC as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 8.5 miles southwest of Maljamar, New Mexico.

**STATE OF NEW MEXICO  
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT  
OIL CONSERVATION DIVISION**

**APPLICATION OF READ & STEVENS, INC.  
FOR COMPULSORY POOLING,  
EDDY COUNTY, NEW MEXICO.**

**CASE NO. 25147**

**APPLICATION**

Read & Stevens, Inc. ("Applicant"), through undersigned attorneys, hereby files this application with the Oil Conservation Division pursuant to the provisions of NMSA 1978, § 70-2-17, for an order pooling all uncommitted interests in a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone Spring formation, underlying the N/2 S/2 of Sections 14 and 15, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico. In support of its application, Applicant states:

1. Applicant is a working interest owner in the proposed horizontal spacing unit and has the right to drill thereon.
2. Applicant seeks to designate Permian Resources Operating, LLC (OGRID No. 372165) as the operator of the proposed horizontal spacing unit.
3. Applicant seeks to initially dedicate the above-referenced horizontal spacing unit to the proposed **Slim Jim 14-15 Fed Com 133H** well, to be horizontally drilled from a surface location in the SW/4 SW/4 (Unit M) of Section 15, with a first take point in the NW/4 SW/4 (Unit L) of Section 15, and a last take point in the NE/4 SE/4 (Unit I) of Section 14.
4. An ownership depth severance exists in the Bone Spring formation within the proposed horizontal well spacing unit. Accordingly, Permian seeks to pool only a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone

Spring formation, measured from a foot below the base of the Second Bone Spring formation, to the stratigraphic equivalent of the base of the Bone Spring formation, as seen at 8,913 feet measured depth beneath the surface, as shown in that certain Dual Lateralog, Micro Laterlog, Gamma Ray well log in the Tamano 15 Fed Com #2 (API # 30-015-33398), located in Section 15, Township 18 South, Range 31 East, Eddy County, New Mexico. Permian will provide notice of this hearing to the vertical offset parties within the pool who are not subject to this pooling application.

5. Applicant has sought and been unable to obtain voluntary agreement for the development of these lands from all interest owners in the subject spacing unit.

6. The pooling of interests will allow Applicant to obtain a just and fair share of the oil and gas underlying the subject lands, avoid the drilling of unnecessary wells, will prevent waste, and will protect correlative rights.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on February 13, 2025, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests within the defined portion of the Bone Spring formation;
- B. Designating Permian Resources Operating, LLC as operator of this horizontal spacing unit and the horizontal well to be drilled thereon;
- C. Authorizing Applicant to recover its costs of drilling, completing, and equipping the well;

- D. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- E. Imposing a 200% charge for the risk assumed by Applicant in drilling and completing the well against any working interest owner who does not voluntarily participate in the drilling of the well.

Respectfully submitted,

HOLLAND & HART LLP

**CASE NOS. 25117 & 25117**

**SELF-AFFIRMED STATEMENT OF TRAVIS MACHA**

1. My name is Travis Macha. I work for Permian Resources Operating, LLC (“Permian”) as the New Mexico Land Manager. Permian is the proposed designated operator on behalf of Read & Stevens, Inc.

**BEFORE THE OIL CONSERVATION DIVISION  
Santa Fe, New Mexico  
Revised Exhibit No. C  
Submitted by: Read & Stevens, Inc.  
Hearing Date: January 28 2025  
Case Nos. 24941-24942 & 25145-25148**

2. I have previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in petroleum land matters. My credentials as a petroleum landman have been accepted by the Division and made a matter of record.

3. I am familiar with the applications filed by Permian and V-F Petroleum Inc. (“V-F Petroleum Inc.”) in these consolidated cases. These are competing plans of development for the Bone Spring formations covering Sections 14, 15 and 16 of Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico (the “Subject Acreage”), with an overlap between the competing plans in Section 15. This area is located approximately 8.5 miles southwest of Maljamar, New Mexico.

4. Permian seeks to pool standard horizontal well spacing units underlying portions of Subject Acreage as follows:

- Under **Case No. 24941**, Permian seeks to pool all uncommitted interests in a portion of the Bone Spring formation, from the top of the Bone Spring formation to the base of the Second Bone Spring formation, underlying a standard 320-acre, more or less, horizontal well spacing unit comprised of the S/2 N/2 of Sections 14 and 15, and initially dedicate the unit to the proposed **Slim Jim 14-15 Fed Com 122H** and **Slim Jim 14-15 Fed Com 123H** wells. This proposed spacing unit overlaps with V-F Petroleum’s Case No. 25116 in Section 15;
- Under **Case No. 24942** Permian seeks to pool all uncommitted interests in a portion of the Bone Spring formation, from the top of the Bone Spring formation to the base of the Second Bone Spring formation, underlying a standard 640-acre, more or less, horizontal well spacing unit comprised of the S/2 of Sections 14 and 15, and initially dedicate the unit to the proposed **Slim Jim 14-15 Fed Com 124H**, **Slim Jim 14-15 Fed Com 125H** (proximity well), and **Slim Jim 14-15 Fed Com 126H** wells. This proposed spacing unit overlaps with V-F Petroleum’s Case Nos. 24994 and 24995 in Section 15;
- Under **Case No. 25145**, Permian seeks an order (1) approving a 320-acre, more or less, overlapping horizontal well spacing unit in a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone Spring formation, underlying the N/2 N/2 of Sections 14 and 15, and initially dedicate the unit to the proposed **Slim Jim 14-15 Fed Com 131H** well. This proposed horizontal spacing unit will overlap an existing 160-acre spacing unit comprised of the N/2 N/2 of Section 15, T18S-R31E, dedicated to the Tamano 15

AD Federal 1H (API: 30-015-40868) well currently operated by Mewbourne Oil Company. This proposed spacing unit overlaps with V-F Petroleum's Case No. 25115;

- Under **Case No. 25146**, Permian seeks to pool all uncommitted interests in a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone Spring formation, underlying the S/2 N/2 of Sections 14 and 15, and initially dedicate the unit to the proposed **Slim Jim 14-15 Fed Com 132H** well. This proposed spacing unit overlaps with V-F Petroleum's Case No. 25117;
- Under **Case No. 25147**, Permian seeks to pool all uncommitted interests in a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone Spring formation, underlying the N/2 S/2 of Sections 14 and 15, and initially dedicate the unit to the proposed **Slim Jim 14-15 Fed Com 133H** well. This proposed spacing unit overlaps with V-F Petroleum's Case No. 24995; and
- Under **Case No. 25148**, Permian seeks to pool all uncommitted interests in a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone Spring formation, underlying the S/2 S/2 of Sections 14 and 15, and initially dedicate the unit to the proposed **Slim Jim 14-15 Fed Com 134H** well. This proposed spacing unit overlaps with V-F Petroleum's Case No. 24994.

5. An ownership depth severance exists in the Bone Spring formation within the proposed horizontal well spacing units in Case Nos. 24942, 25145, and 25148. Accordingly, Permian seeks to pool only a portion of the Bone Spring formation for each of its cases, and specifically the following depths for Case Nos. 24942, 25145, and 25148:

- For Case No. 24942, Permian seeks to pool only a portion of the Bone Spring formation, from the top of the Bone Spring formation to 9,397 feet where an ownership severance exists in the SE/4 SW/4 of Section 14, as shown in **Permian Supplemental Exhibit No. D-7** for the Swearingen Deep 14 Fed 1 (API # 30-015-25839), located in Section 14, Township 18 South, Range 31 East, Eddy County, New Mexico.
- For Case No. 25145, Permian seeks to pool only a portion of the Bone Spring formation, from 9,291 feet where an ownership severance exists in the NE/4 NW/4 of Section 14 to the base of the Bone Spring formation, measured to the stratigraphic equivalent of the base of the Third Bone Spring formation, interpreted at 9,540 feet measured depth beneath the surface, as shown in **Permian Supplemental Exhibit No. D-7** for the Jamie Federal 001 (API # 30-015-26064),

located in Section 14, Township 18 South, Range 31 East, Eddy County, New Mexico.

- For Case No. 25148, Permian seeks to pool only a portion of the Bone Spring formation, from 9,397 feet where an ownership severance exists in the SE/4 SW/4 of Section 14 to the base of the Bone Spring formation, measured to the stratigraphic equivalent of the base of the Bone Spring formation, interpreted at 9,610 feet measured depth beneath the surface, as shown in **Permian Supplemental Exhibit No. D-7** for the Swearingen Deep 14 Fed 1 (API # 30-015-25839), located in Section 14, Township 18 South, Range 31 East, Eddy County, New Mexico.

6. Permian has provided notice of this hearing to the vertical offset parties where the depths severances occur within the pool who are not subject to this pooling application.

7. **Permian Exhibit C-1** is a diagram depicting the newly proposed spacing unit in Case No. 25145, in relation to Mewbourne Oil Company's existing spacing unit. Permian provided notice to Mewbourne Oil Company, operator of the Tamano 15 AD Federal 1H and the Bureau of Land Management ("BLM") since federal lands are involved. Mewbourne was notified via email, and the BLM was mailed a copy of the proposal providing such notice. A sample copy of the notice, and mailing report, is included in Exhibit G.

8. **Permian Exhibit C-2** contains a C-102 for Permian's initial wells in the Subject Acreage, starting with the First and Second Bone Spring formation followed by the Third Bone Spring formation wells. Permian understands the wells will be placed in the Tamano; Bone Spring [58040].

9. The completed intervals for the proposed wells will remain within the standard setbacks required by the statewide rules set forth in 19.15.16.15 NMAC.

10. **Permian Exhibit C-3** identifies the tracts of land comprising the proposed horizontal spacing units, the ownership interests in each tract, and a recapitulation of the ownership. The interest owners that Permian seeks to pool are highlighted in yellow. Permian Exhibit C-3 also includes the title records holder that Permian seeks to pool. The subject acreage

that Permian seeks to pool is comprised of federal leases. As shown in Permian Exhibit C-3, Permian controls the working interest percentage in each of its applications in these cases.

11. **Permian C-4** contains a sample of the well proposal letter and AFEs for the wells that was sent to owners with a working interest. The costs reflected in the AFEs are consistent with what Permian and other operators have incurred for drilling similar horizontal wells in the area in this formation. While no material changes were made, the Second Bone Spring wells were restated and updated on the Third Bone Spring well proposal letters. That letter is included herein.

12. Permian requests that the overhead and administrative costs for drilling and producing the proposed wells be set at \$10,000 per month while drilling and \$1,000 per month while producing. These costs are consistent with what other operators are charging in this area for similar wells.

13. **Permian Exhibit C-5** contains a general summary of the contacts with the uncommitted interest owners. As indicated in the exhibit, Permian has made a good faith effort to locate and has had communications with and an open and good relationship with the majority of the parties that it seeks to pool in this case in an effort to reach voluntary joinder. In my opinion, Permian has undertaken good faith efforts to reach an agreement with the uncommitted interest owners.

14. Permian has provided the law firm of Holland & Hart LLP with the names and addresses of the parties that Permian seeks to pool and instructed that they be notified of this hearing. Permian has conducted a diligent search of all public records in the county where the property is located, reviewed telephone directories, and conducted computer searches to locate contact information for each interest owner.

### **Analysis of Competing Cases**

15. As referenced above, Permian's applications seek to develop portions of the Bone Spring formation in Sections 14 and 15, and V-F Petroleum's applications similarly seek to pool the Bone Spring formation but in Sections 15 and 16. An overlap exists between the two plans in Section 15. Permian believes there are distinct differences between itself and V-F Petroleum and why its applications should be approved, and V-F Petroleum's should be denied in these cases. I will be focusing on the land-related reasons.

#### **Permian Has the Majority Working Interest Control**

16. As shown in Permian Exhibit C-3, for each of its Bone Spring formation cases, Permian owns the majority of the working interest. Furthermore, Permian owns or controls more than 50% of the working interest in all of its cases and in the contested acreage (Section 15).

#### **Permian Has a Letter of Support From the Parties that Term Assigned their Interest to V-F Petroleum, Amongst Others**

17. As shown in **Permian Exhibit C-6**, Permian has a letter of support from the parties Javelina Partners and Zorro Partners that term assigned their interest to V-F Petroleum in Section 15. This term assignment is the only basis for V-F Petroleum's interest in Section 15; without it, V-F Petroleum has no interest in Section 15. In addition to Javelina Partners and Zorro Partners, Permian has received letters of support from Union Hill Oil & Gas, DHB Partnership, New Mexico Western Minerals, Inc., and Bean Family Limited Partnership.

#### **Permian is An Experienced Operator in Eddy County, Whereas V-F Petroleum is Not**

18. Permian currently operates two hundred and forty-three active horizontal wells in Eddy County and is planning on increasing future activity in the area.

19. V-F Petroleum by comparison has only drilled ten horizontal wells in Eddy County, of which only two are two-mile wells. One of the ten wells, the Scanlon Draw 34 State 231H (30-015-49912) which was spud in December of 2022 is already inactive. See **Permian Exhibit C-7**. Sam Hamilton's self-affirmed statement discusses in more detail the significance of this lack of experience in drilling and operatorship.

20. **Permian Exhibit C-8** is a simplified map of Sections 14, 15 and 16 denoting notable lease expirations and provides additional context to Permian's recommendation that V-F Petroleum focus on developing Section 16 on a single-mile basis. There are five key reasons: (1) V-F Petroleum only owns 57.8 net acres in Section 15 where the proposed developments overlap; (2) the reversionary rights owners to the term assignments that have vested V-F Petroleum with its interest in Section 15 support Permian as operator of this acreage; (3) the N/2 NW/4 of Section 16 is unleased State Minerals; (4) therefore, it would be prudent for V-F Petroleum to focus on leasing these unleased State Minerals and meet its January 31, 2026 State lease expirations; and (5) single-mile laterals remain economically viable, especially for V-F Petroleum since the majority of their wells are one-mile laterals in Eddy County.

21. **Permian Exhibit C-9** provides general commentary on the well proposals received from V-F Petroleum. Permian received V-F Petroleum's proposals at different times and manners. Permian received the N/2 well proposals in November 2024 with Second and Third Bone Spring AFE costs at \$8,526,516 and \$9,571,750, respectively. Whereas the S/2 well proposals are dated September 2023 and were emailed to Permian. The S/2 well proposals include Second and Third Bone Spring AFE costs at \$13,149,650 and \$13,708,400, respectively. Given that V-F Petroleum is not an active operator, Permian is not quite sure how to view these well costs given the drastic differences and the accuracy behind them. In any case, Permian's AFEs are well below V-F

Petroleum's costs for the Second and Third Bone at \$8,291,484.42 and \$8,404,009.72, respectively.

22. **Permian Supplemental Exhibit C-10** is a copy of the signature page from the Joint Operating Agreement signed between Permian and Occidental Permian Limited Partnership. *See also*, Permian Exhibit C-3 (interest included in Permian's working interest control).

23. **Permian Supplemental Exhibit C-11** is a copy of the signature page from the Joint Operating Agreement signed between Permian and Marathon Oil Company. *See also*, Permian Exhibit C-3 (interest included in Permian's working interest control).

24. **Permian Supplemental Exhibit C-12** provides a detailed description of the depth severances in Permian's Case No. 25145 (depth severance located in the NE/4 NW/4 of Section 14) and Case Nos. 24942 & 25148 (depth severance located in the SE/4 SW/4 of Section 14).

25. **Permian Exhibits C-1 through C-12** were either prepared by me or compiled under my direction and supervision.

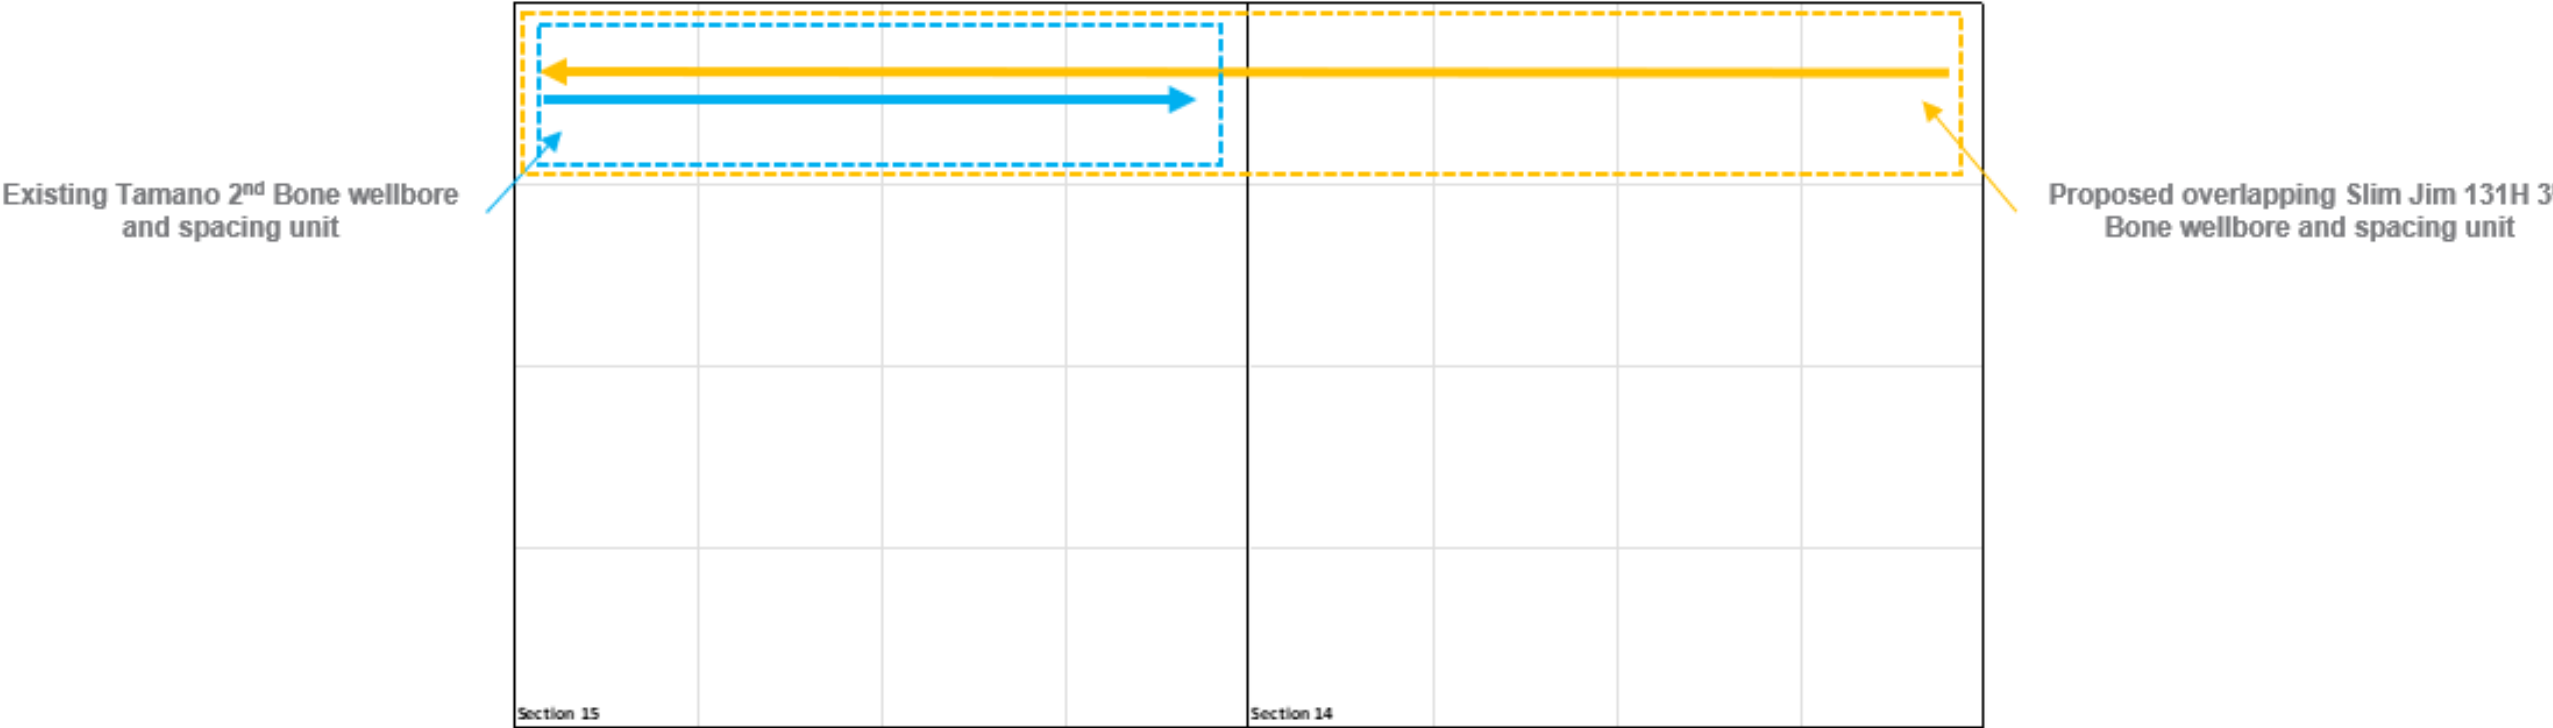

26. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

Travis Macha

Email Address Cassie.Evans@permianres.com		Certificate Number 12177	Date of Survey Santa Fe, New Mexico Revised Exhibit No. C-2 Submitted by: Reed Stevens, Inc. Hearing Date: January 28 2025 Case Nos. 24941-24942 & 25145-25148

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Plan view of the proposed 10' x 10' LTP structure. The diagram shows the layout of the structure and its relationship to existing and proposed infrastructure.

- Structure 15 (NMNM 89882):** A 10' x 10' structure located to the left of the main structure.
- Structure 14 (NMLC 047633A):** A 10' x 10' structure located to the right of the main structure.
- Structure 13 (NMLC 058709B):** A 10' x 10' structure located to the right of Structure 14.
- Structure 12 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 15.
- Structure 11 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 12.
- Structure 10 (NMNM 89882):** A 10' x 10' structure located to the left of Structure 11.
- Structure 9 (NMNM 28096):** A 10' x 10' structure located to the left of Structure 10.
- Structure 8 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 9.
- Structure 7 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 8.
- Structure 6 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 7.
- Structure 5 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 6.
- Structure 4 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 5.
- Structure 3 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 4.
- Structure 2 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 3.
- Structure 1 (NMNM 89879):** A 10' x 10' structure located to the left of Structure 2.

Dimensions and offsets are indicated by dashed lines and arrows:

- Offset from LTP/BHL to the centerline of the main structure: 100'.
- Offset from the centerline of the main structure to the centerline of Structure 15: 2,639'.
- Offset from the centerline of the main structure to the centerline of Structure 14: -1,320'.
- Offset from the centerline of the main structure to the centerline of Structure 13: 100'.
- Offset from the centerline of the main structure to the centerline of Structure 12: 330'.
- Offset from the centerline of the main structure to the centerline of Structure 11: 1,978'.
- Offset from the centerline of the main structure to the centerline of Structure 10: 1,980'.
- Offset from the centerline of the main structure to the centerline of Structure 9: 1,980'.
- Offset from the centerline of the main structure to the centerline of Structure 8: 1,980'.

---	--	-------------------------

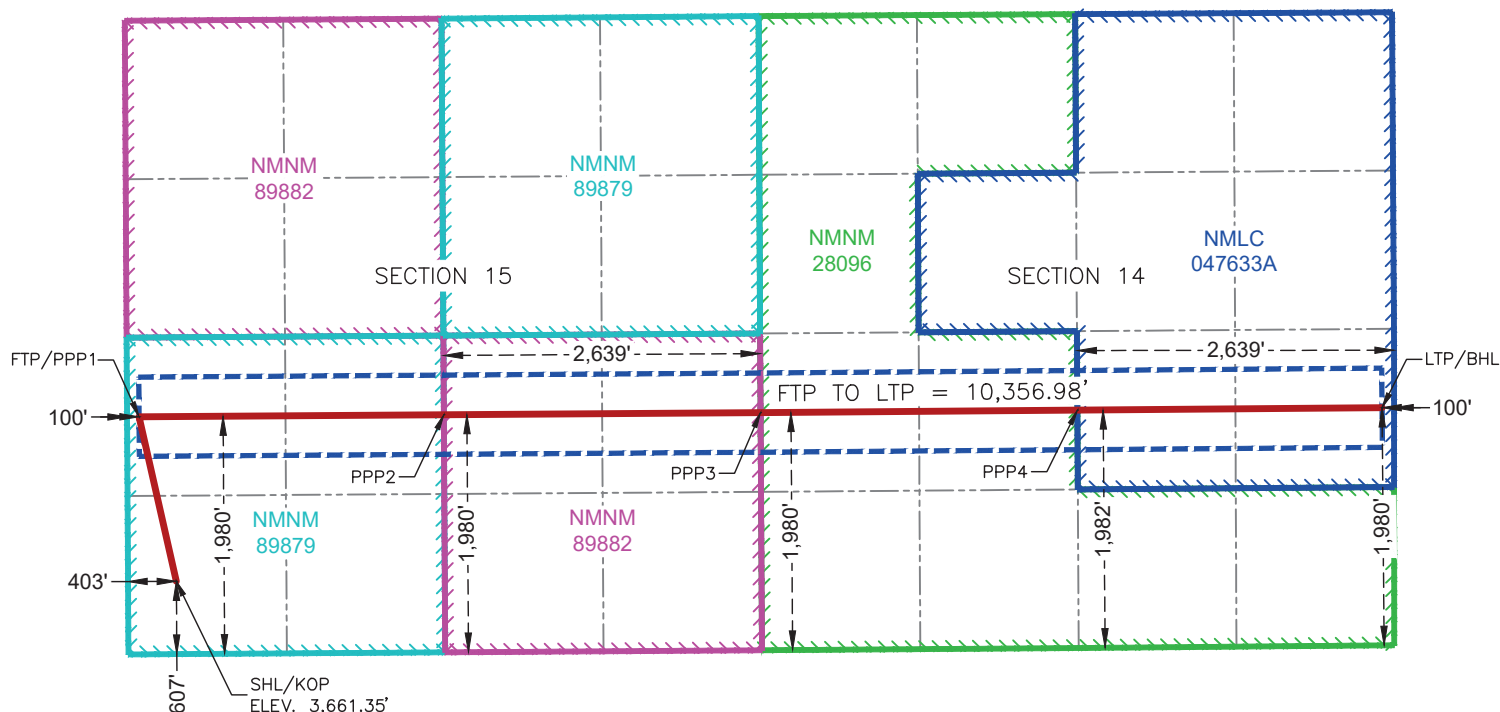

<b>OPERATOR CERTIFICATIONS</b>  I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.  If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.		<b>SURVEYOR CERTIFICATIONS</b>  I hereby certify that the well location shown on this plat was plotted from field notes of actual surveys made by me or under my supervision, and that the same is true and correct to the best of my belief.   Date: 1/3/2025	
Signature 	Date 1/22/25	Signature and Seal of Professional Surveyor

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

## ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

## ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

## ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

## ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

**RE: Slim Jim 14-15 Fed Com**  
Third Bone Spring Well Proposals / Second Bone Spring Informational  
All of Sections 14 & 15, T18S-R31E  
Eddy County, New Mexico

To Whom It May Concern:

Permian Resources Operating, LLC, as Operator for Read & Stevens, Inc. ("Permian"), previously proposed the Slim Jim 2<sup>nd</sup> Bone Spring development being the 121H-126H wellbores. As you may be aware, V-F Petroleum, Inc. has contested Permian's development utilizing their September 2023 proposals to Permian's predecessors.

Whereas a depth severance exists in Section 14 so Permian previously limited any compulsory pooling application to the base of the 2<sup>nd</sup> Bone Spring formation. However, V-F is attempting to pool the 3<sup>rd</sup> Bone Spring under Permian's proposals therefore Permian is hereby proposing it's planned Slim Jim 14-15 Fed Com 131H-134H wellbores as its competing applications. I would *likely* expect these applications to be consolidated with the 2<sup>nd</sup> Bone Spring and set for a new contested hearing date.

**Slim Jim Third Bone Spring Formation Development:**

**1. Slim Jim 14-15 Fed Com 131H**

SHL: 350' FEL & 100' FNL, or at a legal location within the NE4 of Section 14

BHL: 100' FWL & 660' FNL of Section 15

FTP: 100' FEL & 660' FNL of Section 14

LTP: 100' FWL & 660' FNL of Section 15

TVD: Approximately 9,530'

TMD: Approximately 19,815'

Proration Unit: N/2N/2 of Sections 14 & 15, T18S-R31E

Targeted Interval: 3<sup>rd</sup> Bone Spring

Total Cost: See attached AFE

*\*Please note the 131H SHL is subject to BLM conversation on moving the NENE quarter of Section 14 monument marker for pad expansion. No material changes expected.*

*\*Additionally, please note that the 131H wellbore will be an overlapping spacing unit to the Mewbourne operated Tamano 15 AD Federal Com 1H*

Total Cost: See attached AFE

The locations, TVDs, and targets are approximate and subject to change dependent on surface or subsurface issues encountered. These locations do fall within an approved potash drill island, so any surface changes remain subject to BLM approval. Permian is proposing to drill these wells under the modified terms of the 1989 AAPL Operating Agreement and a form of said Operating Agreement is available upon request. The Operating Agreement has the following general provisions:

- 100%/300%/300% non-consent provisions
- \$10,000/\$1,000 drilling and producing rates
- Permian Resources Operating, LLC named as Operator

Please indicate your election to participate in the drilling and completion of the proposed wells on the enclosed ballot. Please sign and return one copy of this letter, signed copies of the proposed AFEs, a signed copy of the enclosed insurance declaration, and your geologic well requirements.

In the interest of time, should we not reach an agreement within thirty (30) days of the date of your receipt of this letter, Permian will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into spacing units for the proposed wells. If you do not wish to participate, Permian would be interested in acquiring your interest in the subject lands which is subject to further mutually agreeable negotiation.

Thank you for your time and consideration, if you have any questions at all, please don't hesitate to contact me by email at [Travis.Macha@permianres.com](mailto:Travis.Macha@permianres.com)

Respectfully,

Travis Macha  
Permian Resources  
NM Land Manager

**Participate / Rejection Declaration**

Please return this page to Permian Resources Operating, LLC ("Permian") by the date specified in the letter, signed indicating your election to either participate in or reject this insurance program. If you reject the insurance coverage arranged by Permian, then, to the extent that Permian has an obligation to secure any such insurance on your behalf under any applicable agreements or otherwise, Permian will be relieved of such obligation, and Permian will assume that you maintain appropriate levels of insurance and will provide a current Certificate of Insurance upon request. If you fail to make an election within 30 days from receipt of this notice, you will be deemed a participant in the program as detailed on the attached and billed for your percentage participation as such.

- ☐ I hereby elect to participate in the insurance coverage arranged by Permian Resources Operating, LLC and understand that I will be charged for such participation.
- ☐ I hereby elect to reject the insurance coverage arranged by Permian Resources Operating, LLC.

Sections 14 & 15

To Whom It May Concern,

The purpose of this letter is to notify all interest owners of an upcoming contested hearing at the New Mexico Oil Conservation Division (the "NMOCD") between Read & Stevens, Inc. as a wholly owned subsidiary of Permian Resources Operating, LLC ("Permian") and V-F Petroleum, Inc. ("V-F").

Whereas Permian previously proposed the five (5) wells shown here on Exhibit "A" herein all landing in the 2nd bone Spring formation. Permian has not received V-F's full development plan, so I am refraining from making any assumptions in this letter as to well count, spacing, etc.

To provide a brief update on the status of the Slim Jim project to-date:

- **Royalty Rate Reduction:** In June of 2024, Permian has engaged the Bureau of Land Management (the "BLM") and has formally requested the sliding scale nature of federal lease NMNM 089879 be fixed to a 12.5% royalty rate. Positive feedback has been obtained in addition to other recent royalty rate fixes outside of the Slim Jim unit, so we remain very optimistic of the approval.
- **Applications for Permits to Drill ("APDs"):** Permian has conducted several on sites with the BLM, surface locations approved and has APDs submitted. The surface in this area is heavily impacted by the Dunes Sagebrush Lizard habitat and the reason for multiple on sites.
- **Spacing Test/Offset Results:** Permian has recently completed twelve (12) wells offset the Slim Jim unit and are currently flowing back (the "Pinkie Pie", "Long John", and "Silver") projects. Permian will have ample well data and offset results to utilize in Slim Jim to obtain any learnings and enhance recovery.
- **Timing:** As it stands, Permian would prefer to drill these wells in August of 2025.

The contested hearing for operatorship is currently scheduled for January 14, 2025. Should you elect to support Permian as operator of Sections 14 & 15 (the Slim Jim unit) and you may sign below in the indicated space and return a copy of it using the enclosed return envelope.

**BEFORE THE OIL CONSERVATION DIVISION**  
**Santa Fe, New Mexico**  
**Revised Exhibit No. C-6**  
**Submitted by: Read & Stevens, Inc.**  
**Hearing Date: January 28 2025**  
**Case Nos. 24941-24942 & 25145-25148**

Additionally supplemented here as part of Exhibit "A" are spaces for well elections and AFEs if you are a working interest owner and have not returned elections and so choose to.

We look forward to taking the necessary steps forward to developing Slim Jim in a meaningful manner and having any open conversations with you as see fit. We appreciate the time and consideration taken into this, if you have any questions, please don't hesitate to reach out to the undersigned at [travis.macha@permianres.com](mailto:travis.macha@permianres.com).

Respectfully,

Travis Macha  
NM Land Manager

It is agreed and understood that the undersigned supports Permian Resources Operating, LLC as operator of the **Slim Jim** Project Area:

**RE: Slim Jim Development**  
Township 18 South, Range 31 East, Eddy Co., New Mexico  
Sections 14 & 15

To Whom It May Concern,

The purpose of this letter is to notify all interest owners of an upcoming contested hearing at the New Mexico Oil Conservation Division (the "NMOCD") between Read & Stevens, Inc. as a wholly owned subsidiary of Permian Resources Operating, LLC ("Permian") and V-F Petroleum, Inc. ("V-F").

Whereas Permian previously proposed the five (5) wells shown here on Exhibit "A" herein all landing in the 2nd bone Spring formation. Permian has not received V-F's full development plan, so I am refraining from making any assumptions in this letter as to well count, spacing, etc.

To provide a brief update on the status of the Slim Jim project to-date:

- **Royalty Rate Reduction:** In June of 2024, Permian has engaged the Bureau of Land Management (the "BLM") and has formally requested the sliding scale nature of federal lease NMNM 089879 be fixed to a 12.5% royalty rate. Positive feedback has been obtained in addition to other recent royalty rate fixes outside of the Slim Jim unit, so we remain very optimistic of the approval.
- **Applications for Permits to Drill ("APDs"):** Permian has conducted several on sites with the BLM, surface locations approved and has APDs submitted. The surface in this area is heavily impacted by the Dunes Sagebrush Lizard habitat and the reason for multiple on sites.
- **Spacing Test/Offset Results:** Permian has recently completed twelve (12) wells offset the Slim Jim unit and are currently flowing back (the "Pinkie Pie", "Long John", and "Silver") projects. Permian will have ample well data and offset results to utilize in Slim Jim to obtain any learnings and enhance recovery.
- **Timing:** As it stands, Permian would prefer to drill these wells in August of 2025.

The contested hearing for operatorship is currently scheduled for January 14, 2025. Should you elect to support Permian as operator of Sections 14 & 15 (the Slim Jim unit) and you may sign below in the indicated space and return a copy of it using the enclosed return envelope.

Additionally supplemented here as part of Exhibit "A" are spaces for well elections and AFEs if you are a working interest owner and have not returned elections and so choose to.

We look forward to taking the necessary steps forward to developing Slim Jim in a meaningful manner and having any open conversations with you as see fit. We appreciate the time and consideration taken into this, if you have any questions, please don't hesitate to reach out to the undersigned at [travis.macha@permianres.com](mailto:travis.macha@permianres.com).

Respectfully,

Travis Macha  
NM Land Manager

It is agreed and understood that the undersigned supports Permian Resources Operating, LLC as operator of the Slim Jim Project Area:

Notable Expirations (Sections 14-16, both competing developments)

BEFORE THE OIL CONSERVATION DIVISION

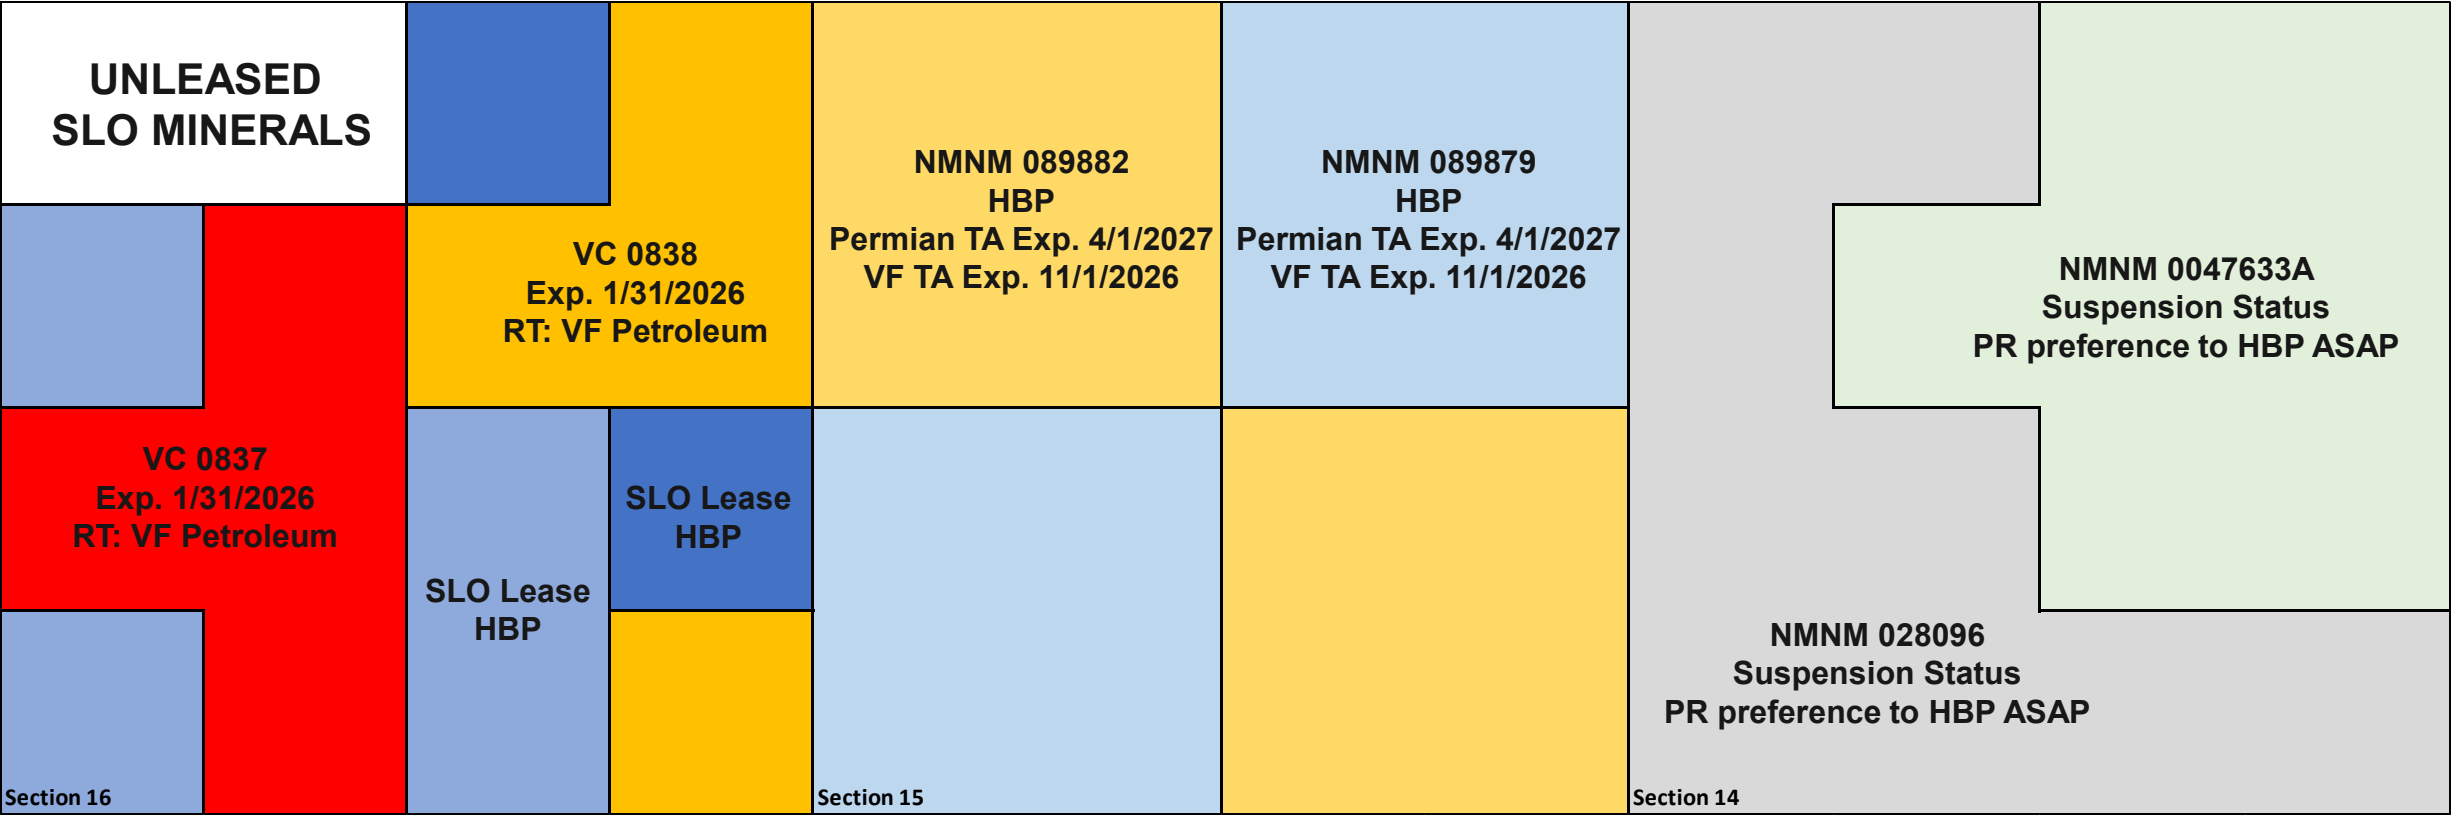

Santa Fe, New Mexico

Exhibit No. C-8

Submitted by: Read & Stevens, Inc.

Hearing Date: January 28 2025

Case Nos. 24941-24942 & 25145-25148

While VF has proposed a 2-mile development into Section 15 from Section 16, due to the below, PR recommends VF concentrate on single-mile laterals:

1. Section 16: N2NW – unused SLO Minerals, recommend leasing and co-developing with the rest of the section
2. VF is vested with a total of 57.8 of the 640 acres in Section 15
3. VF presently has 320 gross acres of SLO minerals expiring 1/31/2026. Federal Permits can take awhile to obtain. Section 16 is 100% State, permit timing is short and will allow them to more comfortably HBP leases
4. VF Term Assignments in Section 15 (where 100% of their interest is coming from) do not include the N2N2. PR likewise has a TA expiration in line with VF's and is committed to HBPing.
5. Single Mile laterals a non-issue, PR drilling single mile in the N2N2 of Section 14 (Order No. 23609)

# Slim Jim – Section 14 Depth Severances

BEFORE THE OIL CONSERVATION DIVISION

Santa Fe, New Mexico

Supplemental Exhibit No. C-12

Submitted by: Read &amp; Stevens, Inc.

Hearing Date: January 28 2025

Case Nos. 24941-24942 &amp; 25145-25148

## Depth Severances (Bone Spring):

### Severance #1 - Section 14: NENW – Carolyn Beall contest

- Severance: 9,290'
- Date Severance Created: September 1, 1989 (Assignment effective date)
- Existing Well: Jamie Federal #1 (30-015-26064)
  - Spud: September 7, 1989
  - TVD: 9,190'
  - Production: 99,960 Barrels of Oil / 147,369 Mcf
    - Produced until 2020 (31 years) when it was P&A'd
- Permian Cases pertaining to this Severance:
  - Case Numbers: 24939 (order received, R-23609) & 25145
    - Permian not seeking to pool Beall
    - Zero (0) V-F interest in either of these cases

### Severance #2 - Section 14: SESW

- Severance: 9,397'
- Date Severance Created: September 9, 1988 (Assignment effective date)
- Existing Well: Swearingen Deep 14 Federal #1 (30-015-25839)
  - Spud: April 9, 1988
  - TVD: 9,253'
  - Production: 14,889 Barrels of Oil / 33,223 Mcf
    - Produced until 1997 (9 years) when it was P&A'd
- Permian Cases pertaining to this Severance:
  - Case Numbers: 24942 & 25148

## Observed Interests:

### Severance #1 - Section 14: NENW:

- Carolyn Beall Interest:
  - 3,900' to 9,290'
  - WI: 1.583333%
  - Net Acres: 0.63333

### Severance #2 - Section 14: SESW

- Interest owners above and below the 9,397' severance appear to be analogous with Read & Stevens owning a 6.415% WI less below 9,397'. Permian/Read & Stevens NOT claiming the higher interest above this severance in its 3<sup>rd</sup> Bone Spring case nor is it being sought to be "blended" via any arbitrary allocation formula.

**CASE NOS. 25117 & 25117**

**SELF-AFFIRMED STATEMENT OF CHRISTOPHER CANTIN**

1. My name is Christopher Cantin. I work for Permian Resources Operating, LLC ("Permian") as a Geologist. Permian is the proposed designated operator on behalf of Read & Stevens, Inc ("Read and Stevens").

**BEFORE THE OIL CONSERVATION DIVISION  
Santa Fe, New Mexico  
Exhibit No. D  
Submitted by: Read & Stevens, Inc.  
Hearing Date: January 28 2025  
Case Nos. 24941-24942 & 25145-25148**

2. I have previously testified before the New Mexico Oil Conservation Division ("Division") as an expert witness in petroleum geology matters. My credentials as a petroleum geologist have been accepted by the Division and made a matter of record.

3. I am familiar with the applications filed by Read & Stevens and V-F Petroleum Inc. ("V-F Petroleum") in these consolidated cases, and I have conducted a geologic study of the lands in the subject area.

4. Permian has targeted portions of the Bone Spring formation in these cases.

5. **Permian Exhibit D-1** is a regional locator map that identifies the Slim Jim project area, in proximity to the Capitan Reef within the Delaware Basin, for the Bone Spring horizontal spacing units that are the subject of Permian's applications.

6. **Permian Exhibit D-2** is a cross-section location map for the proposed horizontal spacing units within the First and Second Bone Spring targets (Permian Case Nos. 24941-24942). The approximate location of the proposed units is outlined in blue. Existing producing wells in the targeted interval are represented by solid lines and the approximate proposed locations for Permian's wells are represented by dashed lines. This map identifies the cross-section running from A-A' with the cross-section well names and a black line in proximity to the proposed wells.

7. **Permian Exhibit D-3** is a cross-section location map for the proposed horizontal spacing units within the Third Bone Spring target (Permian Case Nos. 25145-25148). The approximate location of the proposed units is outlined in blue. Existing producing wells in the targeted interval are represented by solid lines and the approximate proposed locations for Permian's wells are represented by dashed lines. This map identifies the cross-section running from A-A' with the cross-section well names and a black line in proximity to the proposed wells.

8. **Permian Exhibit D-4** is a subsea structure map that I prepared for off the base of the Second Bone Spring, with a contour interval of 50 feet. The structure map shows this portion of the Bone Spring gently dipping to the Southeast. The structure appears consistent across the wellbore paths. I do not observe any faulting, pinchouts, or other geologic impediments in the spacing units. This map also shows the relative location of the proposed wells as a dashed orange line, as well as the offset producers as solid orange lines.

9. **Permian Exhibit D-5** is a subsea structure map that I prepared for off the base of the Third Bone Spring target, with a contour interval of 100 feet. The structure map shows this portion of the Bone Spring gently dipping to the Southeast. The structure appears consistent across the wellbore paths. I do not observe any faulting, pinchouts, or other geologic impediments in the spacing units. This map also shows the relative location of the proposed wells as a dashed red line, as well as the offset producers as solid red lines.

10. **Permian Exhibit D-6** is a stratigraphic cross-section that I prepared displaying open-hole logs run over the Bone Spring from the representative wells denoted from A to A', including the Tamano 15 Fed Com #2 (API # 30-015-33398). The cross-section is hung at the base of the Bone Spring Formation. For each well in the cross-section, the exhibit shows the following logs: gamma ray, resistivity, and porosity. The target intervals are labeled and marked. The logs in the cross-section demonstrate that the interval is continuous across the entire spacing unit.

11. In my opinion, laydown orientation of the proposed wells is the appropriate orientation for horizontal well development in this area because it is near perpendicular to the maximum horizontal stress of the area.

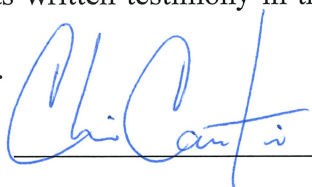

12. Based on my geologic study, the Bone Spring formation underlying the subject area is suitable for development by horizontal wells and the acreage comprising the proposed spacing units will contribute more-or-less equally to the production from the wellbores. I have not identified any geologic impediments to drilling horizontal wells in the area of the spacing units proposed.

13. In my opinion, horizontal drilling will be the most efficient method to develop this acreage, to prevent the drilling of unnecessary wells, and to result in the greatest ultimate recovery, and that approving Permian's application will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

14. **Permian Exhibits D-1 through D-6** were either prepared by me or compiled under my direction and supervision.

15. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature

below.

**CASE NOS. 25117 & 25117**

**SELF-AFFIRMED STATEMENT OF SAM HAMILTON**

1. My name is Sam Hamilton. I work for Permian Resources Operating, LLC ("Permian") as a reservoir engineer. Permian is the proposed designated operator on behalf of Read & Stevens, Inc. ("Read & Stevens").

**BEFORE THE OIL CONSERVATION DIVISION  
Santa Fe, New Mexico  
Exhibit No. E  
Submitted by: Read & Stevens, Inc.  
Hearing Date: January 28 2025  
Case Nos. 24941-24942 & 25145-25148**

2. I have not previously testified before the New Mexico Oil Conservation Division (“Division”) as an expert witness in reservoir engineering matters. I have included a copy of my resume as **Permian Exhibit E-1** for the Division to review and respectfully request that my credentials be accepted as a matter of record, and I be tendered as an expert in reservoir engineering.

3. I am familiar with the applications filed by Read & Stevens and V-F Petroleum Inc. (“V-F Petroleum”) in these consolidated cases, and I have conducted a study of the lands in the subject area.

4. As noted in Travis Macha’s self-affirmed statement, Permian and V-F Petroleum have competing plans of development for the Bone Spring formation covering Sections 14, 15, and 16, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico (the “Subject Acreage”), with an overlap between the competing plans in Section 15.

5. **Permian Exhibit E-2** provides an overview of experience between Permian and V-F Petroleum, showing that Permian has far more experience drilling and operating in Eddy County, and also far more experience drilling two-mile wells in Eddy County. Since 2020, V-F Petroleum has only drilled ten wells in Eddy County, whereas Colgate Energy (“Colgate”)/Permian<sup>1</sup> has drilled one hundred and sixty-four horizontal wells in Eddy County, of which one hundred and eleven are two-mile wells.

6. **Permian Exhibit E-3** shows that Permian not only has more experience drilling wells, but Permian’s wells have outperformed V-F Petroleum’s in the subject acreage. On the right-hand side is a diagram of the ten horizontal wells V-F Petroleum has drilled since 2020, as

---

<sup>1</sup> Colgate Energy and Centennial Resources Development merged in 2022 to form Permian Resources Operating, LLC. Through the merger, Colgate’s management and staff became part of Permian.

well as the eighty-one most analogous horizontal wells Permian has drilled since 2020. This well set is inclusive of Second Bone Spring and Third Bone Spring wells ranging in length from one to two miles. On the left-hand side is a comparison scale of well performance based on the diagram. The comparison scale shows, when normalizing all wells to a two-mile lateral length, the average Permian well outperforms the average V-F Petroleum well on a cumulative oil basis.

7. **Permian Exhibit E-4** provides an overview between Permian and V-F Petroleum's existing Second Bone Spring wells in the subject area and a comparison of both operator's plans in these cases, along with an economic analysis. As discussed above, Permian has more experience developing the Second Bone Spring in Eddy County, having drilled eleven times as many horizontal wells since 2020 than V-F Petroleum. In these cases, V-F Petroleum has proposed to drill at a four wells-per-section ("WPS") density, and Permian has proposed to drill at a six WPS density. By drilling 50% more wells than V-F Petroleum has proposed, Permian will be able to increase the stimulated rock volume within the section and recover resources that would otherwise go unproduced under V-F Petroleum's plan. An economic analysis was also performed to compare the potential outcome of the development proposed by Permian to that of V-F Petroleum at the same cost structure, commodity pricing, and 100% working interest and 80% net revenue interest ownership. The analysis showed that Permian's six WPS increased the recovery of hydrocarbons to an additional 1.1 million barrels of oil compared to V-F Petroleum's plan, and an additional \$24 million dollars PV-15 value.

8. **Permian Exhibit E-5** provides an overview between Permian and V-F Petroleum's existing Third Bone Spring wells in the subject area and a comparison of both operator's plans in these cases, along with an economic analysis. Although both V-F Petroleum and Permian propose to develop the same number of wells in the Third Bone Spring, Permian has significantly more

experience developing this target, especially at a two-mile lateral length. Not only does Permian have experience, but it is efficient at drilling two-mile wells in Eddy County. On average, it takes Permian thirty-two days to drill Third Bone Spring wells in Eddy County. Based on Permian's experience and efficiency, coupled with its cost structure (as outlined in Travis Macha's self-affirmed statement), Permian will be able to drill these wells in a timely manner and at a greater cost saving to interest owners than V-F Petroleum.

9. **Permian Exhibit E-6** are type curves and wells sets for both V-F Petroleum and Permian. The V-F Petroleum SBSG Type Curve was generated by averaging monthly production data from the well set attached to the exhibit, normalizing to a two-mile lateral length, and applying decline curve analysis. Similarly, The Permian SBSG Type Curve was generated by averaging monthly production data from the well set attached to the exhibit, normalizing to a two-mile lateral length, and applying decline curve analysis. The Permian curve results in a higher peak rate, as well as a higher total recovery.

10. In my opinion, V-F Petroleum does not have the experience to complete and operate two-mile horizontal wells in this acreage. In contrast, Permian has a proven track record of safely drilling and completing effective and efficient horizontal wells in this area of Eddy County.

11. It is my opinion approval of Permian's applications and denial of V-F Petroleum's competing applications will be in the best interest of conservation, the prevention of waste, and protection of correlative rights.

12. **Permian Exhibits E-1 through E-6** were either prepared by me or compiled under my direction and supervision.

13. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be

used as written testimony in this case. This statement is made on the date next to my signature below.

## EDUCATION

**THE UNIVERSITY OF TEXAS AT AUSTIN, McCombs School of Business, Austin, TX**

**May 2024**

**Master of Business Administration**

- Kozmetsky Scholar Award – GPA – 4.0
- McCombs Ambassador Committee – Elected Co-Chair

**THE UNIVERSITY OF TEXAS AT AUSTIN, Cockrell School of Engineering, Austin, TX**

**May 2014**

**Bachelor of Science in Petroleum Engineering**

## EXPERIENCE

**PERMIAN RESOURCES, Midland, TX**

**2024 – Present**

**Asset Development Reservoir Engineer**

- Responsible for all related field development planning in North Eddy County position, including Well Spacing, Type Curve generation, Scheduling, and Performance Analysis
- Provide supporting analysis to optimize Completions designs
- Aid in Flowback strategy and Artificial Lift design to maximize well results
- Continued involvement in Trade evaluation efforts to strengthen acreage position and increase value
- Participate in forecasting effort to be used in budgeting and planning

**MASTERS CONSULTING, LLC, Austin, TX**

**2014 – 2024**

**Petroleum Engineer**

- Provided support to clients involved in Litigation by delivering critical Reserves and Production analysis, generating Damage Models, and evaluating Development Strategies under varying scenarios, as well as assisting in development of a coherent and focused strategy for trial
- Utilized Decline Curve Analysis in PHDWin software to forecast Reserves, project future Cash Flows, and determine Fair Market Value for mineral interest owners spanning Texas
- Oversaw GIS Mapping projects by reviewing work product alignment with RRC documents and Client Ownership, ensuring Evaluated Acreage and Lease Boundaries are accurately depicted
- Conducted Accounting Analysis of Production Volumes and Commodity Prices Received using Regulatory Commission Data, Texas Comptroller Data, Enverus, and Excel, accounting for shrinkage, transportation costs, processing, and severance taxes, verifying accurately reflected product volumes and associated revenue streams
- Ascertained Zone Performance by means of Normalized Production Profile and Statistical Analysis of Estimated Ultimate Recovery of adjacent properties and adjusted for variances in order to refine projected performance and estimates of value for undeveloped acreage

## ADDITIONAL

- Computer Software: ComboCurve, Aries, Spotfire, Whitson+, PHDWin, Enverus, Prism, Excel, Word, PowerPoint
- Certified Engineer in Training and Member of Society of Petroleum Engineers, KBH Energy Center Student Advisory Board
- Work Eligibility: Eligible to work in the United States with no restrictions

**BEFORE THE OIL CONSERVATION DIVISION**

**Santa Fe, New Mexico**

**Exhibit No. E-1**

**Submitted by: Read & Stevens, Inc.**

**Hearing Date: January 28 2025**

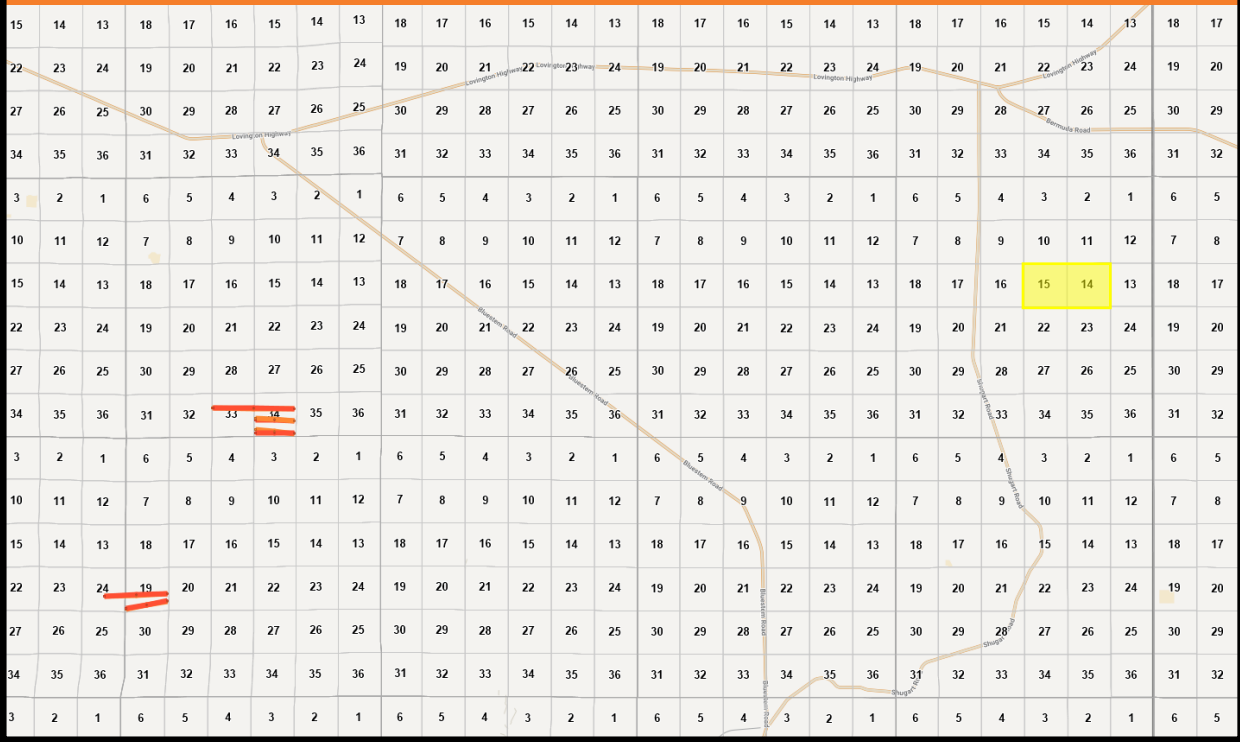

**Case Nos. 24941-24942 & 25145-25148**

Operator Activity

Commentary

- Since 2020, V-F has only drilled 10 horizontal wells in Eddy County
  - Only 2 of those horizontal wells had a lateral length of two miles
- During the same time period, Colgate and subsequently Permian Resources has drilled **164** horizontal wells in Eddy County, 111 of which are 2 Miles

Horizontal V-F Development in Eddy County since 2020

Summary of V-F Activity

SPUDs in Eddy County	Count	Average Lateral Length	Average Wells per Development	Average Months from SPUD to Production
2020	0	-	-	-
2021	0	-	-	-
2022	8	5,256	5	6.8
2023	2	9,633	5	5.5
2024	0	-	-	-
Total / Average	10	6,131	5	6.5

V-F Horizontal Wells in Eddy County

# General Well Performance

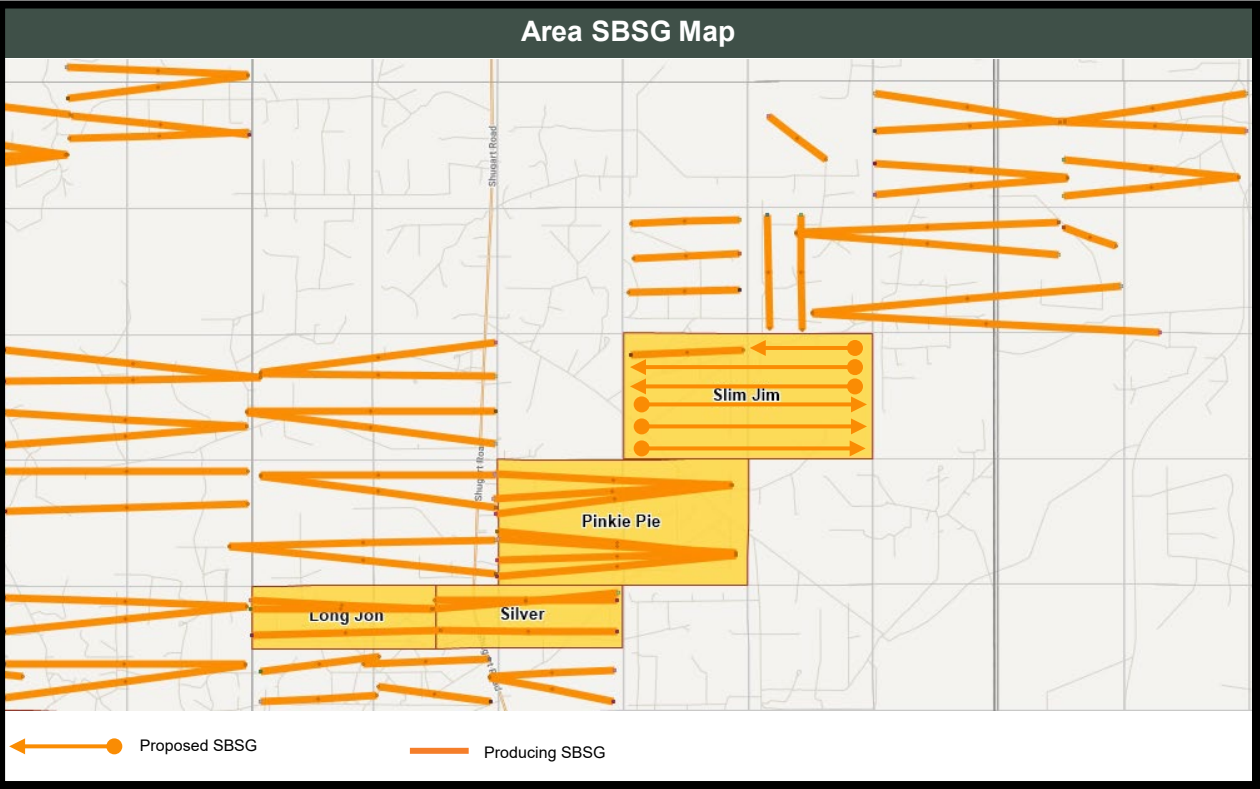

## Commentary

- **Permian Resources Developments offset to V-F Eddy Developments have outperformed on a cumulative oil basis**
- Comparing 10 V-F Eddy Horizontal wells to most analogous 81 PR Horizontal wells
  - Inclusive of SBSG & TBSG production
  - Production Normalized to a 10,000 foot lateral length

# SBSG Density & Associated Economics

## SBSG Commentary

- PR has drilled 55 SBSG Horizontal wells in Eddy County since 2020
  - VF has drilled 5 SBSG Horizontal wells in Eddy County since 2020
- Other operators developing SBSG in this area at 4 WPS
  - This is most common density for SBSG in this area
  - V-F has historically developed the SBSG at 4WPS density
- PR planning to drill 6 WPS density
  - Higher density increases section recovery factor and Stimulated Rock Volume, adding incremental reserves
  - Tested higher density to South at Pinkie Pie, Long John, and Silver
  - Awaiting results
- PR willing to drill 5,000' lateral
  - Existing 5,000' Tamano well would force either operator to drill a short lateral to develop the N/2 N/2
- Preventing waste and Protecting correlative rights, maximizing economic outcomes for landowners

## Package Level Economic Analysis

	Well Count	Total MBO	Package PV15 (\$MM)
PR	6	3,066	\$44.142
V-F	4	1,956	\$19.704

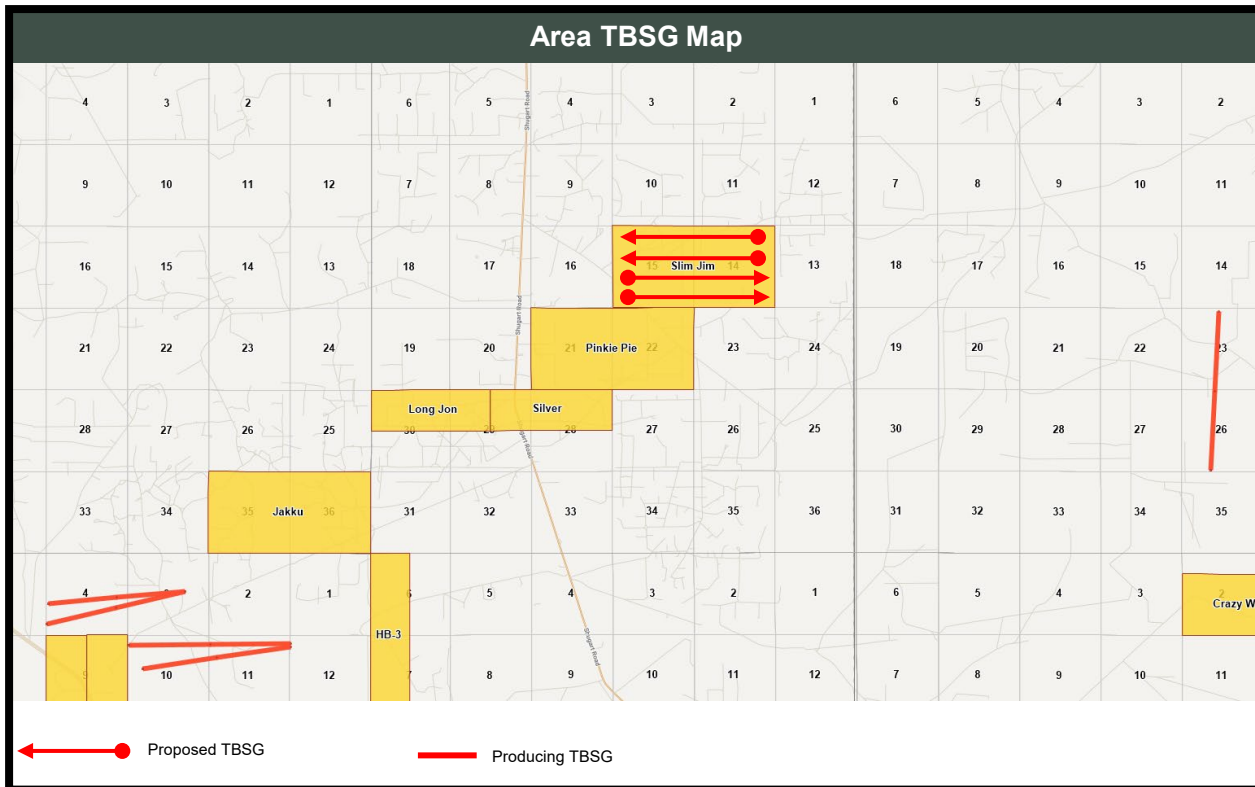

### Incremental Value Generated By PR

1,110 \$24.438

- Economics run at \$70 Oil, \$2 Gas, \$21 NGL
- Calculated at 100% WI and 80% NRI
- V-F Economics run at same cost structure as PR
  - V-F has drilled 2 two-mile wells since 2020 whereas PR has drilled 111

# TBSG Density & Associated Economics

## TBSG Commentary

- PR has drilled 66 TBSG Horizontal wells in Eddy County since 2020
  - VF has drilled 5 TBSG Horizontal wells in Eddy County since 2020
- Apache & MOC testing area with 1-2 well 10,000' developments
- PR Planning to develop 10,000' laterals at 4WPS density
- Efficiency and Experience will allow PR to develop these wells for less capital, thereby creating more value and protecting interest owners' correlative rights

**SELF-AFFIRMED STATEMENT OF  
PAULA M. VANCE**

1. I am attorney in fact and authorized representative of Read & Stevens, Inc. and Permian Resources Operating, LLC (collectively "Permian"), the Applicant herein. I have personal knowledge of the matters addressed herein and am competent to provide this self-affirmed statement.

**BEFORE THE OIL CONSERVATION DIVISION  
Santa Fe, New Mexico  
Revised Exhibit No. F  
Submitted by: Read & Stevens, Inc.  
Hearing Date: January 28 2025  
Case Nos. 24941-24942 & 25145-25148**

2. The above-referenced applications and notice of the hearing on the applications for Case Nos. 24941-24942 and Case Nos. 25145-25148 was sent by certified mail to the locatable affected parties on the date set forth in the letters attached hereto.

3. The spreadsheets attached hereto contains the names of the parties to whom notice was provided in Case Nos. 24941-24942 and Case Nos. 25145-25148.

4. The spreadsheet attached hereto contains the information provided by the United States Postal Service on the status of the delivery of the notice for Case Nos. 24941-24942 and Case Nos. 25145-25148, as of January 21, 2025, and January 31, 2025.

5. I caused a notice to be published to all parties subject to compulsory pooling proceeding in Case Nos. 24941-24942 and Case Nos. 25145-25148, as well as the vertical offset owners. An affidavit of publication from the publication's legal clerk with a copy of the notice of publication for Case Nos. 24941-24942 and Case Nos. 25145-25148 is attached herein.

6. I affirm under penalty of perjury under the laws of the State of New Mexico that the foregoing statements are true and correct. I understand that this self-affirmed statement will be used as written testimony in this case. This statement is made on the date next to my signature below.

**Re: Application of Read & Stevens, Inc. for Compulsory Pooling, Eddy County,  
New Mexico: Slim Jim 14-15 Fed Com #124H, #125H, & #126H wells**

Ladies & Gentlemen:

This letter is to advise you that Read & Stevens, Inc. has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on November 7, 2024, and the status of the hearing can be monitored through the Division's website at <https://www.emnrd.nm.gov/ocd/>.

**It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.**

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Travis Macha at (432) 400-1037 or [travis.macha@permianres.com](mailto:travis.macha@permianres.com).

Sincerely,

A handwritten signature in blue ink, appearing to read 'Paula M. Vance'.

This letter is to advise you that Read & Stevens, Inc. has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on November 7, 2024, and the status of the hearing can be monitored through the Division's website at <https://www.emnrd.nm.gov/ocd/>.

**It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.**

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Travis Macha at (432) 400-1037 or [travis.macha@permianres.com](mailto:travis.macha@permianres.com).

Sincerely,

A handwritten signature in blue ink, appearing to read 'Paula M. Vance'.

Bureau of Land Management  
301 Dinosaur Trail  
Santa Fe, NM 87508

**RE: Slim Jim 14-15 Fed Com 131H**  
Overlapping Spacing Unit Notice  
N2N2 of Sections 14 & 15, T18S-R31E  
Eddy County, New Mexico

To Whom It May Concern:

Permian Resources Operating, LLC, as Operator for Read & Stevens, Inc. ("Permian"), has proposed an overlapping spacing unit covering the below lands. The purpose of this letter is to serve as proper notice to the Bureau of Land Management:

**New Overlapping Unit:**

**1. Slim Jim 14-15 Fed Com 131H**

SHL: 350' FEL & 100' FNL, or at a legal location within the NE4 of Section 14

BHL: 100' FWL & 660' FNL of Section 15

FTP: 100' FEL & 660' FNL of Section 14

LTP: 100' FWL & 660' FNL of Section 15

TVD: Approximately 9,530'

TMD: Approximately 19,815'

Proration Unit: N/2N/2 of Sections 14 & 15, T18S-R31E

Targeted Interval: 3<sup>rd</sup> Bone Spring

*\*Additionally, please note that the 131H wellbore will be an overlapping spacing unit to the Mewbourne operated Tamano 15 AD Federal Com 1H*

**Existing Unit:**

Well Name:	Tamano 15 AD Federal Com 1H
API:	30-015-40868
Proration Unit:	N2N2 of Section 15, T18S-R31E
Target Interval:	2 <sup>nd</sup> Bone Spring
Operator:	Mewbourne Oil Company (Already Notified)

Thank you for your time and consideration, if you have any questions at all, please don't hesitate to contact me by email at [Travis.Macha@permianres.com](mailto:Travis.Macha@permianres.com)

Respectfully,

A handwritten signature in blue ink, appearing to read 'Travis Macha', is written over a horizontal blue line.

Travis Macha  
Permian Resources

**TO: ALL INTEREST OWNERS SUBJECT TO POOLING PROCEEDINGS AND  
APPROVAL OF THE OVERLAPPING WELL SPACING UNIT**

**Re: Application of Read & Stevens, Inc. for Approval an Overlapping Horizontal  
Well Spacing Unit and Compulsory Pooling, Eddy County, New Mexico: *Slim  
Jim 14-15 Fed Com #131H well***

Ladies & Gentlemen:

This letter is to advise you that Read & Stevens, Inc. has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on February 13, 2025, and the status of the hearing can be monitored through the Division's website at <https://www.emnrd.nm.gov/ocd/>.

**It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.**

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Travis Macha at (432) 400-1037 or [travis.macha@permianres.com](mailto:travis.macha@permianres.com).

Sincerely,

A handwritten signature in blue ink that appears to read "Paula M. Vance".

**TO: ALL INTEREST OWNERS SUBJECT TO POOLING PROCEEDINGS**

**Re: Application of Read & Stevens, Inc. for Compulsory Pooling, Eddy County,  
New Mexico: Slim Jim 14-15 Fed Com #133H well**

Ladies & Gentlemen:

This letter is to advise you that Read & Stevens, Inc. has filed the enclosed application with the New Mexico Oil Conservation Division. A hearing has been requested before a Division Examiner on February 13, 2025, and the status of the hearing can be monitored through the Division's website at <https://www.emnrd.nm.gov/ocd/>.

**It is anticipated that hearings will be held in a hybrid format with both in-person and virtual participation options. The meeting will be held in the Pecos Hall Hearing Room at the Wendall Chino Building, 1st Floor, 1220 South St. Francis Dr., Santa Fe, New Mexico. To participate virtually in the hearing, see the instructions posted on the OCD Hearings website: <https://www.emnrd.nm.gov/ocd/hearing-info/>.**

You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date. Parties appearing in cases are required to file a Pre-hearing Statement four business days in advance of a scheduled hearing that complies with the provisions of NMAC 19.15.4.13.B.

If you have any questions about this matter, please contact Travis Macha at (432) 400-1037 or [travis.macha@permianres.com](mailto:travis.macha@permianres.com).

Sincerely,

A handwritten signature in blue ink that reads "Paula M. Vance".

Case No. 24941: Application of Read & Stevens, Inc. for Compulsory Pooling, Eddy County, New Mexico. Notice to all affected interest owners, including all heirs, devisees and successors of: Ard Oil, Ltd. Delmar H. Lewis Living Trust UTA Dated July 8, 1994 Attn: Bank of America, as Trustee; Edward R. Hudson Trust 4; Javelina Partners; Josephine T. Hudson Testamentary Trust fbo J. Terrell Ard Attn: Frost Bank as Trustee; Lindy's Living Trust; Marathon Oil Permian, LLC; Moore & Shelton Co., Ltd.; Oxy Permian Limited Partnership; Read & Stevens, Inc.; V-F Petroleum, Inc.; Zorro Partners, Ltd. The State of New Mexico, Energy Minerals and Natural Resources Department, Oil Conservation Division (Division) hereby gives notice that the Division will hold public hearing 8:30 a.m. on November 7, 2024, to consider this application. The hearing will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the hearings electronically, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/> or contact Freya Tschantz, at [Freya.Tschantz@emnrd.nm.gov](mailto:Freya.Tschantz@emnrd.nm.gov). Applicant in the above-styled cause seeks an order pooling all uncommitted interests in a portion of the Bone Spring formation, from the top of the Bone Spring formation to the base of the Second Bone Spring formation, underlying a standard 320-acre, more or less, horizontal well spacing unit comprised of the S/2 N/2 of Sections 14 and 15, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico. Said unit will be initially dedicated to the proposed Slim Jim 14-15 Fed Com 122H and Slim Jim 14-15 Fed Com 123H wells, both to be horizontally drilled from a surface location in the SE/4 NE/4 (Unit H) of Section 14, with a first take point in the SE/4 NE/4 (Unit H) of Section 14, and a last take point in the SW/4 NW/4 (Unit E) of Section 15. Also, to be considered will be the cost of drilling and completing the wells and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Permian Resources Operating, LLC as operator of the wells, and a 200% charge for risk involved in drilling said wells. Said area is located approximately 8.5 miles southwest of Maljamar, New Mexico.

18930-Published in Artesia Daily Press Oct 24, 2024.

The State of New Mexico, Energy Minerals and Natural Resources Department, Oil Conservation Division ("Division") hereby gives notice that the Division will hold public hearing 8:30 a.m. on February 13, 2025, to consider this application. The hearing will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the WebEx virtual meeting platform. To participate in the hearings electronically, see the instructions posted on the docket for the hearing date: <https://www.emnrd.nm.gov/ocd/hearing-info/> or contact Freya Tschantz, at [Freya.Tschantz@emnrd.nm.gov](mailto:Freya.Tschantz@emnrd.nm.gov). Applicant in the above-styled cause seeks an order (1) approving a 320-acre, more or less, overlapping horizontal well spacing unit in a portion of the Bone Spring formation, from the top of the Third Bone Spring formation to the base of the Bone Spring formation, underlying the N/2 N/2 of Sections 14 and 15, Township 18 South, Range 31 East, NMPM, Eddy County, New Mexico, and (2) pooling all uncommitted interests in this acreage. Said unit will be initially dedicated to the proposed Slim Jim 14-15 Fed Com 131H well, to be horizontally drilled from a surface location in the NE/4 NE/4 (Unit A) of Section 14, with a first take point in the NE/4 NE/4 (Unit A) of Section 14, and a last take point in the NW/4 NW/4 (Unit D) of Section 15. This proposed horizontal well spacing unit will overlap the following existing spacing unit in the Bone Spring formation:

160-acre spacing unit comprised of the N/2 N/2 of Section 15, T18S-R31E, dedicated to the Tamano 15 AD Federal 1H (API: 30-015-40868) well currently operated by Mewbourne Oil Company.

Also, to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, actual operating costs and charges for supervision, designation of Permian Resources Operating, LLC as operator of the well, and a 200% charge for risk involved in drilling said well. Said area is located approximately 8.5 miles southwest of Maljamar, New Mexico.
