

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF SPUR ENERGY PARTNERS LLC
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.**

CASE NO. _____

APPLICATION

Pursuant to NMSA § 70-2-17, Spur Energy Partners LLC (OGRID No. 328947) (“Spur” or “Applicant”) applies for an order pooling all uncommitted interests in the San Andres formation from approximately 1,560’ to 2,969’ TVD underlying a 320-acre, more or less, standard horizontal spacing unit comprised of the S/2 of Section 27, Township 17 South, Range 27 East, Eddy County, New Mexico (“Unit”). In support of this application, Spur states the following.

1. Applicant is a working interest owner in the Unit and has the right to drill wells thereon.
2. Applicant seeks to dedicate the Unit to the following wells (“Wells”):
 - **Big Eagle Federal Com 110H**, which will be drilled from a surface hole location in the SW/4 SW/4 (Unit M) of Section 26 to a bottom hole location in the NW/4 SW/4 (Unit L) of Section 27.
 - **Big Eagle Federal Com 111H**, which will be drilled from a surface hole location in the SW/4 SW/4 (Unit M) of Section 26 to a bottom hole location in the SW/4 SW/4 (Unit M) of Section 27.
3. The completed intervals of the Wells will be orthodox.
4. The completed interval of **Big Eagle Federal Com 110H** will be located within 330’ of the quarter-quarter section line separating the N/2 S/2 and S/2 S/2 of Section 27 to allow

for the creation of a 320-acre, more or less, standard horizontal spacing unit.

5. A depth severance exists within the San Andres formation within the Unit. Accordingly, Applicant seeks to pool uncommitted interest from a stratigraphic equivalent of approximately 1,560' to 2,969' TVD, as observed on the Schlumberger Hondo Federal Com #1 (API No. 30-015-20937) Compensated Neutron-Formation Density Log.

6. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Wells but has been unable to obtain voluntary agreements from all interest owners.

7. The pooling of uncommitted interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

8. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled and Applicant should be designated the operator of the Wells and Unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on June 5, 2025, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the Wells in the Unit;
- C. Designating Applicant as operator of the Unit and the Wells to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping and completing the Wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the

COPAS accounting procedures; and

- F. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the Wells against any working interest owner who does not voluntarily participate in the drilling of the Wells.

Respectfully submitted,
