APPLICANT’S STATEMENT OF THE CASE

In Case No. 25406, WPX seeks an order pooling all uncommitted mineral interests in the Bone Spring formation, designated as an oil pool, underlying a standard 609.58-acre, more or less, spacing unit comprised of the E/2 of Sections 33 and 28, and the SE/4 of Section 21, all in Township 26 South, Range 30 East, NMPM, Eddy County, New Mexico.

WPX proposes and dedicates to the unit the **Clawhammer 33-28-21 Fed Com 324H Well, Clawhammer 33-28-21 Fed Com 325H Well, Clawhammer 33-28-21 Fed Com 335H Well,**

and the **Clawhammer 33-28-21 Fed Com 336H Well**, as initial wells, to be drilled to a sufficient depth to test the Bone Spring formation, as follows:

- WPX seeks to dedicate the **Clawhammer 33-28-21 Fed Com 324H Well** (API 30-015-pending) an oil well, to be horizontally drilled from a surface location in Lot 2 of Section 33 to a bottom hole location in the NW/4 SE/4 (Unit J) of Section 21;
- WPX seeks to dedicate the **Clawhammer 33-28-21 Fed Com 325H Well** (API 30-015-pending) an oil well, to be horizontally drilled from a surface location in Lot 1 of Section 33 to a bottom hole location in the NE/4 SE/4 (Unit I) of Section 21. The **Clawhammer 33-28-21 Fed Com 325H Well** is a proximity well, positioned so the unit can include proximity tracts located within 330 feet of the well's completed interval, thereby incorporating the W/2 E/2 of Sections 33 and 28, and the W/2 SE/4 of Section 21;
- WPX seeks to dedicate the **Clawhammer 33-28-21 Fed Com 335H Well** (API 30-015-pending) an oil well, to be horizontally drilled from a surface location in Lot 1 of Section 33 to a bottom hole location in the NW/4 SE/4 (Unit J) of Section 21;
- WPX seeks to dedicate the **Clawhammer 33-28-21 Fed Com 336H Well** (API 30-015-pending) an oil well, to be horizontally drilled from a surface location in Lot 1 of Section 33 to a bottom hole location in the NE/4 SE/4 (Unit I) of Section 21.

The wells proposed herein are orthodox in their location; and the take points and completed intervals will comply with setback requirements under statewide rules.
