CASE NO. _____

APPLICATION

XTO Energy Inc., OGRID No. 005380 (“XTO” or “Applicant”), through its undersigned attorneys, hereby files this Application with the Oil Conservation Division (“Division”) pursuant to the provisions of NMSA 1978, § 70-2-17, for an order (1) approving a 768.41-acre, more or less, standard horizontal spacing unit (“HSU”) composed of the E/2 of Sections 19, 30, and 31, Township 26 South, Range 30 East, N.M.P.M., Eddy County, New Mexico (the “Application Lands”), and (2) pooling all uncommitted mineral interests in the WC-015 G-03 S262925D; Bone Spring Pool [98211], designated as an oil pool, underlying said HSU.

In support of its Application, XTO states the following:

1. XTO and/or its affiliates are working interest owners in the Application Lands and have the right to drill the well(s) thereon as the designated Operator of the Application Lands.
2. XTO seeks to dedicate all of the Application Lands to form a 768.41-acre, more or less, HSU.
3. XTO seeks to dedicate the above-referenced HSU to the following proposed wells:
 - A. **Rose 19 Federal Com 203H** (API No. *Pending*), which is an oil well that will be horizontally drilled from a surface location in the NE/4 NE/4 (Unit A) of Section 19, Township 26 South, Range 30 East, to a bottom hole location in the WC-015 G-03 S262925D; Bone Spring Pool in Lot 4 of Section 31, Township 26 South, Range 30 East;

B. **Rose 19 Federal Com 217H** (API No. *Pending*), which is an oil well that will be horizontally drilled from a surface location in the NE/4 NE/4 (Unit A) of Section 19, Township 26 South, Range 30 East, to a bottom hole location in the WC-015 G-03 S262925D; Bone Spring Pool in Lot 5 of Section 31, Township 26 South, Range 30 East;

4. The wells are orthodox in their locations as defined by 19.15.16.15.(C) NMAC, and the take points and laterals comply with Statewide Rules for setbacks under 19.15.16.15.C.(1)(a-b).

5. XTO has made good faith efforts to obtain voluntary agreement from all interest owners in the WC-015 G-03 S262925D; Bone Spring Pool underlying the proposed spacing unit, but has been unable to secure agreement from all parties to participate in the drilling of the wells or otherwise commit their interests.

6. The pooling of all interests in the WC-015 G-03 S262925D; Bone Spring Pool within the proposed unit will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

7. To provide for its just and fair share of oil and gas underlying the Application Lands, XTO requests that all uncommitted interests in this HSU be pooled and that XTO be designated as the operator of the proposed horizontal wells and HSU.

WHEREFORE, XTO requests this Application be set for hearing on March 5, 2026, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

A. Approving the horizontal well spacing unit and pooling all uncommitted interests in Wildcat WC-015 G-03 S262925D; Bone Spring Pool underlying the HSU within the Application Lands;

- B. Approving the **Rose 19 Federal Com 203H** and **Rose 19 Federal Com 203H** as the initial wells for the HSU;
- C. Designating XTO as operator of the HSU and the horizontal wells to be drilled thereon;
- D. Authorizing XTO to recover its costs of drilling, completing, and equipping the wells;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% charge for the risk assumed by XTO in drilling, equipping, and completing the wells against any working interest owner who does not voluntarily participate in the drilling of the wells.

Respectfully submitted,

BEATTY & WOZNIAK, P.C.

Attorneys for XTO Energy Inc.,

Application of XTO Energy Inc., for Approving a Standard Horizontal Spacing Unit and Compulsory Pooling, Eddy County, New Mexico. Applicant in the above-styled cause seeks an order from the Division: (1) approving a 768.41-acre, more or less, standard horizontal spacing and proration unit composed of the E/2 of Sections 19, 30, and 31, Township 26 South, Range 30 East, N.M.P.M., Eddy County, New Mexico (the “Application Lands”), and (2) pooling all uncommitted mineral interests in the WC-015 G-03 S262925D; Bone Spring Pool, designated as an oil pool, underlying said unit. The proposed wells to be dedicated to the horizontal spacing unit are the: **Rose 19 Federal Com 203H** (API No. *Pending*), which is an oil well that will be horizontally drilled from a surface location in the NE/4 NE/4 (Unit A) of Section 19, Township 26 South, Range 30 East, to a bottom hole location in the WC-015 G-03 S262925D; Bone Spring Pool in Lot 4 of Section 31, Township 26 South, Range 30 East; and the **Rose 19 Federal Com 217H** (API No. *Pending*), which is an oil well that will be horizontally drilled from a surface location in the NE/4 NE/4 (Unit A) of Section 19, Township 26 South, Range 30 East, to a bottom hole location in the WC-015 G-03 S262925D; Bone Spring Pool in Lot 5 of Section 31, Township 26 South, Range 30 East; N.M.P.M., Eddy County, New Mexico. The wells are orthodox in location, and the take points and laterals comply with Statewide Rules for setbacks for the WC-015 G-03 S262925D; Bone Spring Pool. The well and lands are located approximately 16.07 miles southeast of Malaga, New Mexico.

CASE NO. 25944

SELF-AFFIRMED STATEMENT OF CHAD SMITH

Chad Smith, being first duly sworn upon oath, deposes and states as follows:

1. My name is Chad Smith, and I am employed by XTO Energy, Inc. ("XTO") as Commercial and Land Advisor.

2. I have previously testified before the New Mexico Oil Conservation Division ("Division"), and my qualifications as an expert in petroleum land matters were accepted and made a matter of record. I have several years of experience in petroleum land matters, and I have worked directly or in a supervisory role with the properties that are the subject of this matter.

3. I am familiar with the application filed by XTO in the above-referenced case and the status of the subject lands.

4. I am submitting this statement in support of XTO's application in the above-referenced case, as required by the Pre-Hearing Order issued by the Division. I intend to present this case by affidavit pursuant to 19.15.4.12.(A)(1) NMAC.

5. XTO seeks an order (1) approving a standard 768.41-acre, more or less, horizontal spacing unit ("HSU") underlying the lands incorporated herein by reference via the initial application filed under Case No. 25944, and (2) pooling all uncommitted mineral interests in the WC-015 G-03 S262925D; Bone Spring Pool (98211), designated as an oil pool, underlying said

HSU, and (3) dedicating the HSU to the subject wells incorporated herein by reference via the initial application filed under Case No. 25944.

6. **XTO Exhibit C-1** is a general location map showing the proposed HSU. The acreage subject to the applications are federal lands.

7. **XTO Exhibit C-2** contains the Form C-102s reflecting the proposed WC-015 G-03 S262925D; Bone Spring Pool Wells to be drilled and completed in the HSU. The location of each well is orthodox and meets the Division's offset requirements.

8. A review of the WC-015 G-03 S262925D; Bone Spring Pool underlying the subject lands indicated that there are no overlapping spacing units in this pool.

9. **XTO Exhibit C-3** contains a plat identifying ownership by tract in the HSU and applicable federal lease numbers.

10. **XTO Exhibit C-4** sets forth the ownership of the parties being pooled in the WC-015 G-03 S262925D; Bone Spring Pool and the nature of their interests. This exhibit identifies the tract number and working interest percentages for each owner.

11. **XTO Exhibit C-4** also includes detail regarding the notice provided to uncommitted owners, as required by the OCD's November 1, 2025, Public Note: Clarification of Evidentiary Requirements for Compulsory Pooling Applications. The exhibit provides the owner name, ownership status, commitment type, and notice details provided.

12. **XTO Exhibit C-5** contains a sample well proposal letter sent in December of 2025 to each working interest owner, which included AFEs for each proposed well. The estimated costs of the wells set forth in the AFEs are fair, reasonable, and comparable with the costs of other wells of similar depths and lateral lengths drilled in this area of New Mexico.

13. XTO requests overhead and administrative rates of \$7,500/month for drilling each well and \$750/month for producing each well. These rates are fair and comparable to the rates charged by other operators for similar wells in this area of New Mexico. XTO respectfully requests that these administrative and overhead costs be incorporated into any orders entered by the Division in these cases.

14. XTO requests the maximum cost, plus 200% risk charge be assessed against non-consenting working interest owners.

15. **XTO Exhibit C-6** sets forth a chronology of contact with each of the owners XTO seeks to pool. XTO has made a good faith effort to obtain voluntary joinder of the interest owners in the proposed wells.

In compiling the working interest parties' addresses, I conducted a diligent search of the public records in Eddy County, New Mexico, where the wells are located and did computer searches to locate the contact information for parties entitled to notification. All working interest owners were locatable and noticed, and there are no unleased mineral interest owners. XTO caused notice to be published in the Carlsbad-Current Argus, a newspaper of general circulation in Eddy County, New Mexico. I provided the law firm Beatty & Wozniak, P.C., with the names and addresses for these working interest owners and instructed that each owner be provided notice of the hearing in these matters.

16. XTO requests that it be designated operator of the HSU and wells.

17. **Exhibit C-1** through **Exhibit C-6** were either prepared by me or compiled from XTO's company business records under my direction and supervision.

18. The granting of this application for compulsory pooling and approval of a standard spacing unit is in the best interest of conservation, the prevention of waste, and the protection of correlative rights, and will avoid the drilling of unnecessary wells.

19. I hereby swear that to the best of my knowledge and belief, all of the matters set forth herein and in the exhibits are true, correct, and accurate.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or a larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is the closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or a larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is the closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Township 26 South, Range 30 East, NMPM**

Section 19: E/2

Section 30: E/2

Section 31: N/2NE/4, Lots 4 (24.14), Lots 5 (24.27), (aka E/2)

Eddy County, New Mexico

Attention Tim Prout:

XTO Energy Inc, ("XTO"), as Operator, hereby proposes the drilling and completion of the following wells, at the following approximate locations with the above-described lands.

- 1. Rose 19 Federal State Com 203H**
- 2. Rose 19 Federal State Com 217H**

Well Locations can be found on the attached C-102s.

The locations, and targets are approximate and subject to change dependent of surface or subsurface issues encountered. XTO is proposing to drill these wells under the modified terms of the 1989 AAPL Operating Agreement and a form of said Operating Agreement will be provided upon request. The Operating agreement has the following general provisions:

- 100%/300%/300% non-consent provisions
- \$7,500 drilling/\$750 producing rates
- XTO Energy Inc, as Operator

Please indicate your election to participate in the drilling and completion of the proposed well(s) on the enclosed ballot. If you wish to participate, please sign the attached AFE.

In the interest of time, should we not reach an agreement within thirty (30) days of the date of your receipt of this letter, XTO will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into a spacing unit for the proposed wells.

Should you have any questions, contact me via the letterhead contact information.

Sincerely

XTO Energy Inc.

APPROVAL OF A STANDARD HORIZONTAL
SPACING UNIT AND COMPULSORY
POOLING, EDDY COUNTY, NEW MEXICO**

CASE NO. 25944

AFFIDAVIT OF MATTHEW W. KEARNEY

Matthew W. Kearney, being first duly sworn upon oath, deposes and states as follows:

1. My name is Matthew W. Kearney, and I am employed by XTO Energy, Inc. (“XTO”) as a Geologist.

2. I have testified before the New Mexico Oil Conservation Division (“Division”), and my qualifications as an expert in petroleum geology were accepted and made a matter of record. I have several years of experience in petroleum geological matters, and I have worked directly or in a supervisory role with the properties that are the subject of this matter.

3. I am familiar with the applications filed by XTO in this case and the geology involved.

4. I am submitting this affidavit in support of XTO’s application in the above-referenced case, as required by the Pre-Hearing Order issued by the Division. I intend to present this case by affidavit pursuant to 19.15.4.12.(A)(1) NMAC. The Application Lands and subject Wells included in the initial application filed under Case No. 25944 are incorporated herein by reference.

5. **XTO Exhibit D-1** includes a base location map of the lands showing the proposed WC-015 G-03 S262925D; Bone Spring Formation (“Bone Spring”) spacing unit and the proposed well development plan.

6. **XTO Exhibit D-2** is a subsea structure map showing the top of the Bone Spring Formation, a marker that defines the top of the target interval for the proposed wells. The contour interval used in this exhibit is 100'. The unit being pooled is outlined in red, and the proposed wells are identified as solid red lines. The structure map shows regional down-dip to the east. I do not observe any faulting, pinchouts, or other geologic impediments to developing this target interval.

7. **XTO Exhibit D-2** also includes a cross-section locator map that identifies wells penetrating the targeted interval used to construct a structural cross-section from A to A'. These wells penetrate the targeted interval, are of good quality, and are representative of the geology in the area.

8. **XTO Exhibit D-3** includes stratigraphic cross-section flattened on the top of the 1st Bone Spring Lime. Each well in the cross-section contains a gamma ray, resistivity, and porosity log. The cross-section demonstrates continuity and consistent thickness across the target zone, and the well logs on the cross-section give a representative sample of the targeted interval. The landing zone is highlighted on the exhibit.

9. **XTO Exhibit D-4** shows the Gunbarrel Diagram within the Bone Spring Formation in the vicinity of the proposed unit.

10. **XTO Exhibit D-5** includes the gross isopach map. The Bone Spring wells are indicated by solid red lines. The proposed horizontal spacing unit is outlined in red. The contour interval used in this exhibit is 100'.

11. Based on the attached exhibits, I hereby conclude as follows:

a. The target formation is present and continuous throughout the lands subject to the applications.

b. The standard horizontal spacing and proration unit is justified from a geologic standpoint.

c. There are no structural impediments or faulting that will interfere with horizontal development.

d. Each quarter-quarter section in the unit will contribute more or less equally to production, and I can confirm each quarter section along the lateral will also contribute more or less equally to production.

e. The preferred well orientation in this area is North-South so that the wells run sub-perpendicular to the inferred orientation of the maximum horizontal stress. The standup orientation will efficiently and effectively develop the subject acreage.

12. **Exhibit D-1** through **Exhibit D-5** were prepared by me or compiled from XTO's company business records under my direct supervision.

13. The granting of these applications is in the best interest of conservation, the prevention of waste, the protection of correlative rights, and will avoid the drilling of unnecessary wells.

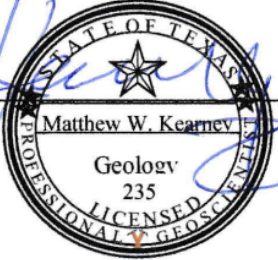

14. I hereby swear that to the best of my knowledge and belief, all of the matters set forth herein and in the exhibits are true, correct, and accurate.

TO: ALL INTEREST OWNERS SUBJECT TO SPACING AND POOLING PROCEEDINGS

Re: Application of XTO Energy Inc. for Approval of a Standard Horizontal Spacing Unit and Compulsory Pooling in Eddy County, New Mexico (Case No. 25944).

Dear Interest Owners:

This letter is to advise you that XTO Energy Inc. ("XTO") has filed the enclosed application, Case No. 25944, with the New Mexico Oil Conservation Division for Approval of a Standard Spacing Unit and Compulsory Pooling in Eddy County, New Mexico.

In Case No. 25944, XTO seeks an Order from the Division to: (1) approve a 768.41-acre, more or less, standard horizontal well spacing unit comprised of the E/2 of Sections 19, 30, and 31, Township 26 South, Range 30 East, N.M.P.M., Eddy County, New Mexico; and (2) to pool all uncommitted mineral interests in the WC-015 G-03 S262925D; Bone Spring Pool [98211], designated as an oil pool, underlying said unit.

A hearing has been requested before a Division Examiner on March 5, 2026, and the status of the hearing can be monitored through the Division's website. Division hearings will commence at 9:00 a.m. Mountain Standard Time, and will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the Microsoft Teams virtual meeting platform. To view the hearing docket and to determine how to participate in the electronic hearing, visit the Division's website at: <https://www.emnrd.nm.gov/ocd/hearing-info/> or call (505) 476-3441.

You are being notified as an interest owner and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from contesting the matter at a later date.

Parties appearing in cases who intend to present evidence are required by Division Rule 19.15.4.13.B NMAC to file a Prehearing Statement at least four business days in advance of a scheduled hearing, but in no event later than 5 p.m. mountain time on the Thursday preceding the scheduled hearing date. This statement must be submitted through the OCD E-Permitting system
