**APPLICATION OF SPUR ENERGY

POOLING, EDDY COUNTY, NEW MEXICO.**

**CASE NO. 25997**

**SELF-AFFIRMED STATEMENT  
OF COLLEEN BRADLEY**

1. I am a Landman with Spur Energy Partners LLC (“Spur”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”) and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. Copies of Spur’s application and proposed hearing notice are attached as **Exhibit A-1**.

3. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit; therefore I do not expect any opposition at hearing.

4. Spur seeks to pool all uncommitted interests in the San Andres formation underlying a 120-acre, more or less, standard horizontal spacing unit comprised of the SE/4 NW/4 and the S/2 NE/4 of Section 36, Township 17 South, Range 27 East, Eddy County, New Mexico (“Unit”).

5. The Unit will be dedicated to the **Cherry Cola State Com 110H** well (“Well”), to be drilled from a surface hole location in the SW/4 NW/4 (Unit E) of Section 31, Township 17 South, Range 28 East, to a bottom hole location in the SE/4 NW/4 (Unit F) of Section 36, Township 17 South, Range 27 East.

6. The completed interval of the Well will be orthodox.

**Spur Energy Partners LLC  
Case No, 25997  
Exhibit A**

7. **Exhibit A-2** contains the C-102 for the Well.
8. **Exhibit A-3** contains a plat identifying ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests Spur seeks to pool highlighted in yellow.
9. Spur has conducted a diligent search of all county public records, including phone directories and computer databases, as well as internet searches, to locate the interest owners it seeks to pool.
10. **Exhibit A-4** contains a sample dedication and joinder of pooling agreement sent to the additional overriding royalty interest owners for the Well to be pooled under the terms of the Order.
11. In my opinion, Spur made a good-faith effort to reach voluntary joinder of uncommitted interests in the Well as indicated by the chronology of contact described in **Exhibit A-5**.
12. The Ownership Commitment Exhibit is attached as **Exhibit A-6**. This exhibit includes a list of all owners in the Unit and identifies each owner's ownership status, whether the owner has committed to the proposed spacing unit, and the type of commitment, *i.e.*, whether a signed letter of commitment, joint operating agreement, or verbal agreement. Exhibit C of Spur's hearing exhibits also identifies when notice of this hearing was sent to each interest owner by our outside counsel, Hardy McLean LLC.
13. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.
14. In my opinion, the granting of Spur's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

15. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date next to my electronic signature below.

**CASE NO. 25997**

**APPLICATION**

Pursuant to NMSA § 70-2-17, Spur Energy Partners LLC (OGRID No. 328947) (“Applicant”) applies for an order pooling all uncommitted interests in the San Andres formation underlying a 120-acre, more or less, standard horizontal spacing unit comprised of the SE/4 NW/4 and the S/2 NE/4 of Section 36, Township 17 South, Range 27 East, Eddy County, New Mexico (“Unit”). In support of this application, Spur states the following.

1. Applicant is a working interest owner in the Unit and has the right to drill wells thereon.
2. Applicant seeks to dedicate the Unit to the **Cherry Cola State Com 110H** well (“Well”), to be drilled from a surface hole location in the SW/4 NW/4 (Unit E) of Section 31, Township 17 South, Range 28 East, to a bottom hole location in the SE/4 NW/4 (Unit F) of Section 36, Township 17 South, Range 27 East.
3. The completed interval of the Well will be orthodox.
4. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Well but has been unable to obtain voluntary agreements from all interest owners.
5. The pooling of uncommitted interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.
6. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled and Applicant

**Spur Energy Partners LLC  
Case No, 25997  
Exhibit A-1**

should be designated the operator of the Well and Unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on March 26, 2026, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the Well in the Unit;
- C. Designating Applicant as operator of the Unit and the Well to be drilled thereon;
- D. Authorizing Applicant to recover its costs of drilling, equipping and completing the Well;
- E. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- F. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the Well against any working interest owner who does not voluntarily participate in the drilling of the Well.

Respectfully submitted,

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is a directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

**RE: Pooling Authority for Overriding Royalty Interest  
120.0 acres, more or less, being the SENW, S2NE of Section 36, T-17S, R-27E  
Eddy County, New Mexico**

Dear Overriding Royalty Interest Owner,

Spur Energy Partners LLC ("SPUR") has near-term plans to drill multiple horizontal wells to develop a portion of the San Andres formation located in the SENW & S2NE of Section 36, T-17S, R-27E, Eddy County, New Mexico, and SPUR's current record title ownership determinations indicate that you own an overriding royalty interest in some or all of the associated lands and/or leases further described on Exhibit "A" to the enclosed Dedication and Joinder of Pooling Agreement ("Agreement").

Therefore, please review the enclosed Agreement prepared by SPUR for the purpose of obtaining the authority to pool your overriding royalty interest in the drilling and spacing units subject to the aforementioned development plans. If the enclosed meets your approval, SPUR would appreciate if you could execute and return the notarized Agreement at your earliest convenience.

Should you have any questions regarding this matter, please email me at [colleen.bradley@spurenergy.com](mailto:colleen.bradley@spurenergy.com). Thank you for your assistance and cooperation with this matter.

Sincerely,

Colleen Bradley

STATE OF NEW MEXICO  
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES  
OIL CONSERVATION DIVISION

APPLICATION OF SPUR ENERGY  
PARTNERS LLC FOR COMPULSORY  
POOLING, EDDY COUNTY, NEW MEXICO.

CASE NO. 25997

SELF-AFFIRMED STATEMENT  
OF MATTHEW VAN WIE

1. I am a geologist with Spur Energy Partners, LLC (“Spur”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”), and my credentials as an expert in petroleum geology matters were accepted and made a matter of record.

2. I am familiar with the application filed by Spur in this case, and I have conducted a geologic study of the lands.

3. In this case, Spur is targeting the San Andres formation.

4. **Exhibit B-1** is a location map of the proposed horizontal spacing unit (“Unit”). Spur’s acreage is shown in yellow and the approximate wellbore path for the proposed **Cherry Cola State Com 110H** well (“Well”) is represented by a solid black line. Nearby wells producing in the target formation are also identified. The exhibit also identifies five wells penetrating the targeted interval that I used to construct a structural cross-section from A to A’. I used these well logs because they penetrate the targeted interval, are of good quality, and are representative of the geology in the area.

5. **Exhibit B-2** is a subsea structure map that I prepared for the top of the San Andres with a contour interval of 25 feet. The structure map demonstrates the formation gently dipping to the southeast in this area. The formation appears consistent across the proposed spacing unit. I do

Spur Energy Partners LLC  
Case No, 25997  
Exhibit B

not observe any faulting, pinch-outs, or geologic impediments to developing the targeted interval with horizontal wells. This map also shows a line bisecting the proposed spacing unit from B to B' which is depicted in a gun barrel diagram in a later exhibit.

6. **Exhibit B-3** is a structural cross-section that I prepared displaying open-hole logs acquired over the target formation from the representative wells denoted from A to A' on Exhibit B-1. For each well in the cross-section, the exhibit shows the following logs where available: gamma ray, resistivity, and porosity. The targeted zone for the proposed Well is labeled and marked on the cross-section. This red dotted line also depicts the interval Spur seeks to pool those uncommitted interests. The logs in the cross-section demonstrate that the targeted interval is continuous and consistent along trend.

7. **Exhibit B-4** is a gun barrel diagram from B to B' reflecting Spur's intended development in the San Andres formation across this acreage and identifies the initial proposed well (solid black line) relative to the different intervals within the San Andres and Yeso formations.

8. There is no identified preferred orientation for exploitation in this portion of the Northwest shelf based on stress orientation or production data. Thus, the laydown orientation is appropriate to properly develop this acreage using 3/4-mile lateral in a manner that is consistent with Spur's ownership interest and offsetting development.

9. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will contribute more or less equally to the production of the Well.

10. In my opinion, the granting of Spur's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

11. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

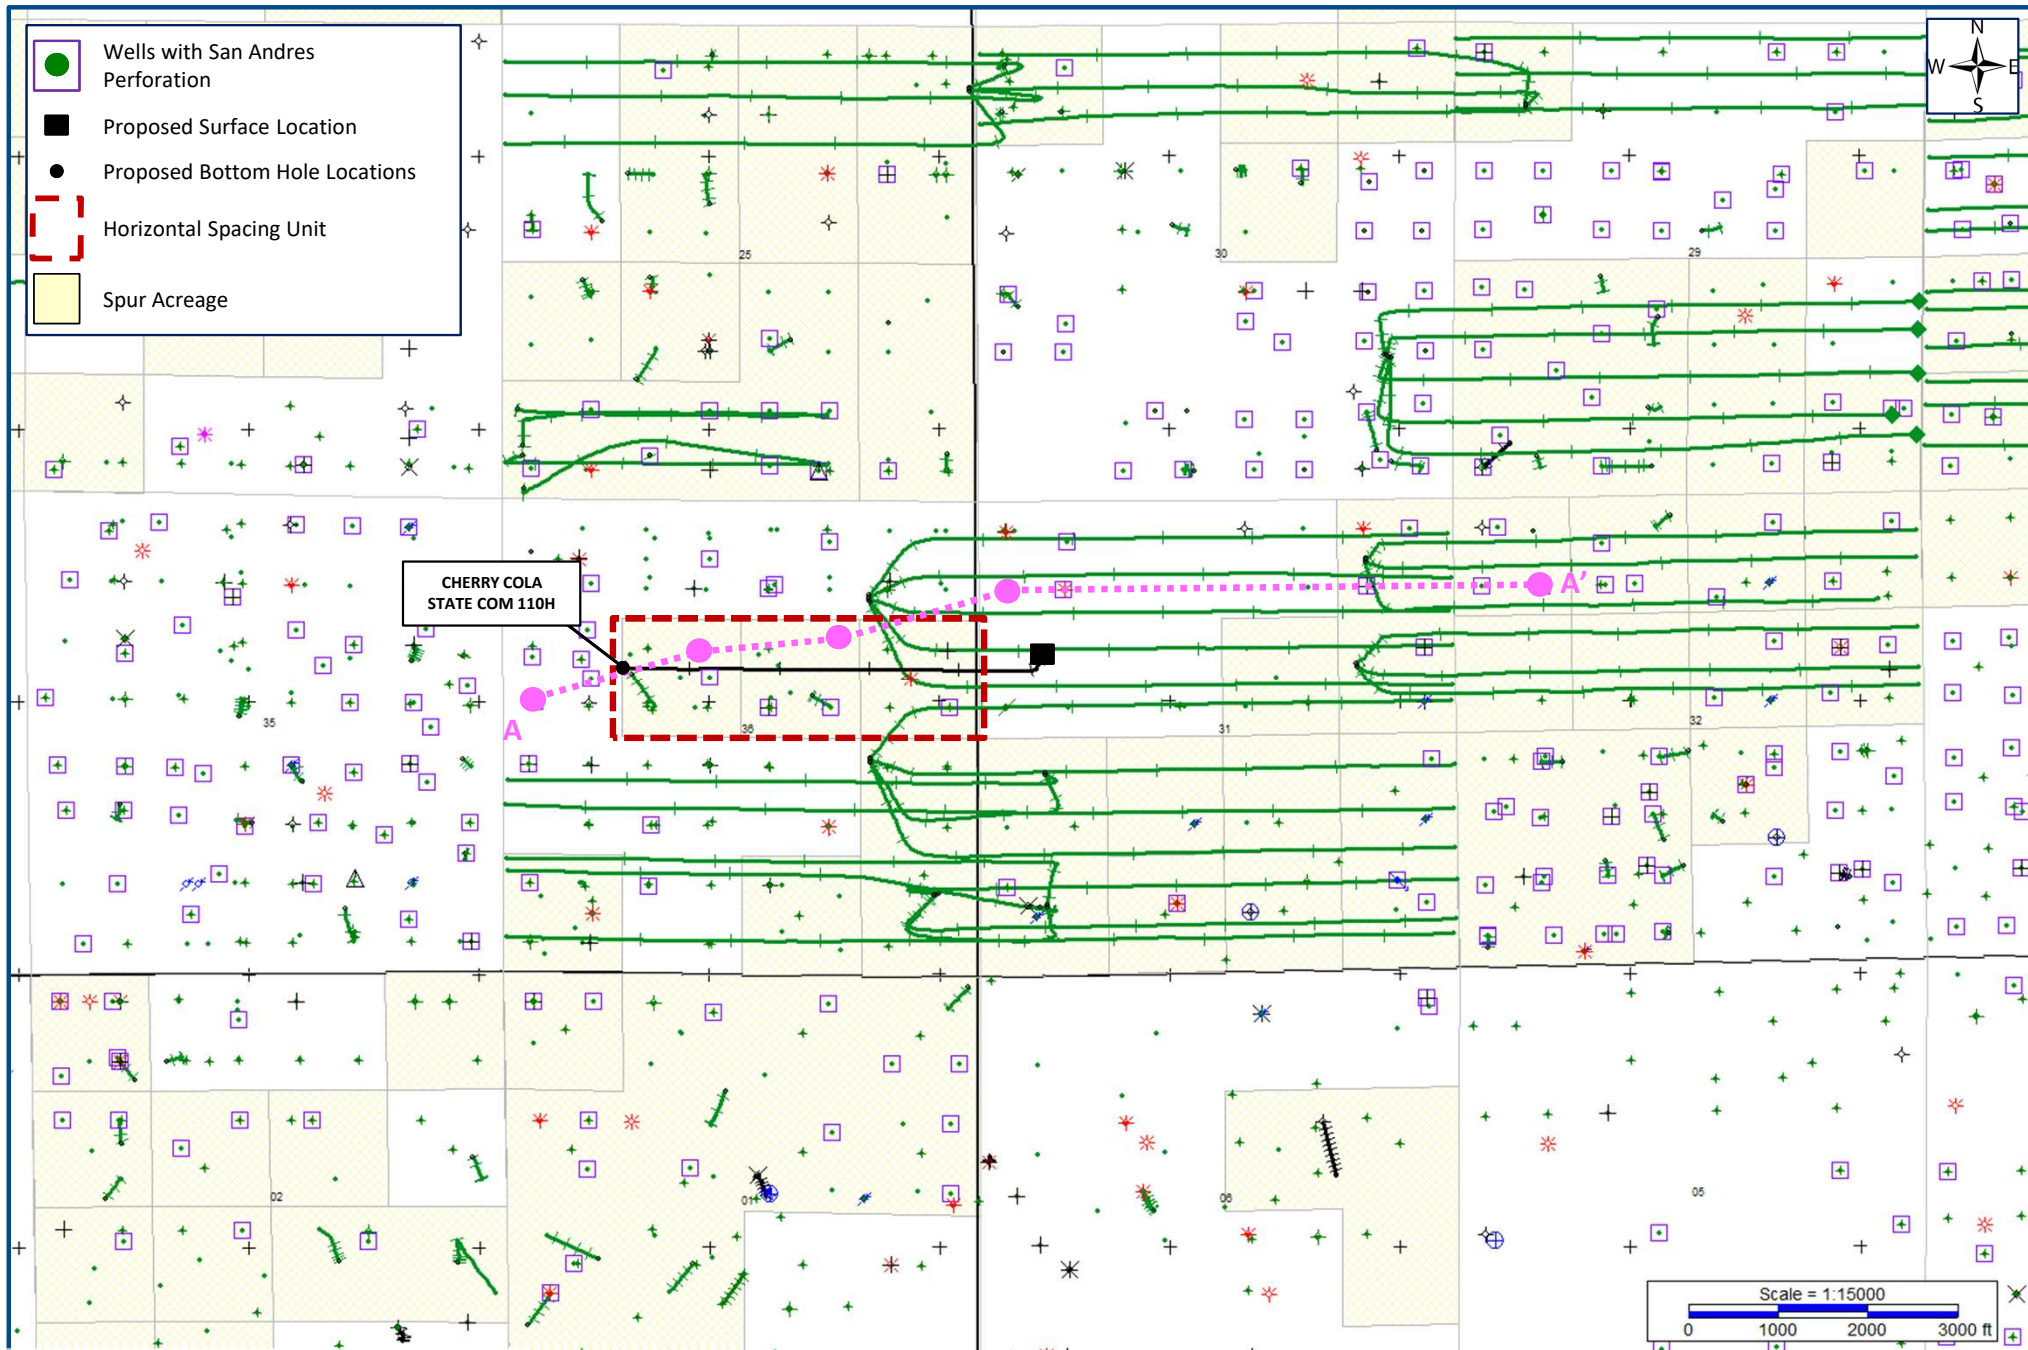

12. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.
