CASE NO. 26347

**SELF-AFFIRMED STATEMENT
OF CAROLINE FREDERICK**

1. I am an Associate Land Negotiator with COG Operating LLC (“COG”). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division (“Division”), and my credentials as an expert in petroleum land matters were accepted and made a matter of record.

2. Copies of COG’s application and proposed hearing notice are attached as **Exhibit A-1**.

3. None of the parties proposed to be pooled in this case indicated opposition to this matter proceeding by affidavit; therefore, I do not expect any opposition at the hearing.

4. COG seeks to pool all uncommitted interests from the top of the Wolfcamp B interval to the base of the Wolfcamp formation underlying a 1,920-acre, more or less, non-standard, overlapping horizontal spacing unit comprised of the E/2 and the E/2 W/2 of Sections 28 and 33, Township 25 South, Range 35 East, and the E/2 and the E/2 W/2 of Sections 4 and 9, Township 26 South, Range 35 East, Lea County, New Mexico (“Unit”).

5. The Unit will be dedicated to the following wells (“Wells”):

**COG Operating LLC
Case No. 26347
Exhibit A**

- a. **Wimple Federal Com 803H**, which will be drilled from a surface hole location in the SW/4 SE/4 (Unit O) of Section 9, Township 26 South, to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 28, Township 25 South; and
 - b. **Wimple Federal Com 805H**, which will be drilled from a surface hole location in the SW/4 SE/4 (Unit O) of Section 9, Township 26 South, to a bottom hole location in the NE/4 NE/4 (Unit A) of Section 28, Township 25 South.
6. The completed intervals of the Wells will be orthodox.
7. Due to a depth severance within the Unit, Applicant seeks to pool only those uncommitted interests from the top of the Wolfcamp B interval, at a stratigraphic interval of approximately 12,841' TVD, as observed on the Tele Delux 32 State 4H well log (API No. 30-025-42362), to the base of the Wolfcamp formation.
8. The spacing unit for the Wells will partially overlap with the spacing units for the following wells, which produce from the WC-025 G-09 S263504N; Wolfcamp Pool (Code 98117):
 - a. Talco 9 26 35 Federal #003H (API No. 30-025-43458), located in the W/2 E/2 of Section 4 and the W/2 NE/4 of Section 9, Township 26 South, Range 35 East;
 - b. Akubra Federal Com #701H (API No. 30-025-52891), located in Sections 28 and 33, Township 25 South, Range 35 East;
 - c. Akubra Federal Com #702H (API No. 30-025-52892), located in Sections 28 and 33, Township 25 South, Range 35 East;
 - d. Akubra Federal Com #703H (API No. 30-025-52893), located in Sections 28 and 33, Township 25 South, Range 35 East;
 - e. Akubra Federal Com #801H (API No. 30-025-52895), located in Sections 28 and 33, Township 25 South, Range 35 East; and

f. Akubra Federal Com #802H (API No. 30-025-52896), located in Sections 28 and 33, Township 25 South, Range 35 East.

9. COG's request for approval of a non-standard spacing unit will allow it to consolidate surface facilities and will consequently prevent surface, environmental, and economic waste.

- a. The non-standard unit will allow COG to minimize surface use. Centralizing equipment for facilities for the Wells will reduce the total acreage needed for surface facilities by 4.63 acres of the total amount that would be necessary absent a non-standard unit.
- b. Surface facilities and equipment, pipelines, and rights-of-way for one well cost approximately \$1,036,141.00. While the centralized facilities will be larger, so that they may handle production from multiple wells, I estimate the overall savings, if a non-standard unit is approved, will be approximately \$9,300,000.00. This will reduce the overall well costs and improve economics for the wells.
- c. A common facility also reduces the number of flares COG may need to use in the case of an emergency from 4 to 2. Additionally, the VOC reduction is nearly 50%.

10. As a result, approval of a non-standard spacing unit is necessary to prevent waste and protect correlative rights.

11. A plat showing the offset tracts and the parties that were notified of the non-standard spacing unit is attached as **Exhibit A-2**.

12. **Exhibit A-3** contains the C-102s for the Wells.

13. **Exhibit A-4** contains a plat identifying ownership by tract in the Unit. This exhibit also includes any applicable lease numbers, a unit recapitulation, and the interests COG seeks to pool highlighted in yellow. Exhibit A-4 also includes the overlapping spacing unit plat.

14. COG has conducted a diligent search of all county public records, including phone directories and computer databases, as well as internet searches, to locate the interest owners it seeks to pool.

15. **Exhibit A-5** contains a sample well proposal letter and AFEs sent to working interest owners for the Wells. The estimated costs reflected on the AFEs are fair and reasonable and comparable to the cost of other wells of similar depth and length drilled in the subject formation in the area.

16. In my opinion, COG made a good-faith effort to reach voluntary joinder of uncommitted interests in the Wells as indicated by the chronology of contact described in **Exhibit A-6**.

17. The Ownership Commitment Exhibit is attached as **Exhibit A-7**. This exhibit includes a list of all owners in the Unit and identifies each owner's ownership status, whether the owner has committed to the proposed spacing unit, and the type of commitment, *i.e.*, whether a signed letter of commitment, joint operating agreement, or verbal agreement. Exhibit C of the exhibit packet identified when notice of this hearing was sent to each interest owner by our outside counsel, Hardy McLean LLC.

18. COG requests that it be designated as the operator of the Unit and the Wells. COG requests overhead and administrative rates of \$14,000 per month while the Wells are being drilled and \$1,400 per month while the Wells are producing. These rates are fair and are comparable to the rates charged by COG and other operators in the vicinity.

19. The attached exhibits were either prepared by me or under my supervision or were compiled from company business records.

20. In my opinion, the granting of COG's application would serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

21. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm that my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date next to my electronic signature below.

CASE NO. 26347

APPLICATION

Pursuant to NMSA 1978, Section 70-2-17, COG Operating LLC (OGRID No. 229137) (“COG” or “Applicant”) applies for an order pooling all uncommitted interests from the top of the Wolfcamp B interval to the base of the Wolfcamp formation underlying a 1,920-acre, more or less, non-standard, overlapping horizontal spacing unit comprised of the E/2 and the E/2 W/2 of Sections 28 and 33, Township 25 South, Range 35 East, and the E/2 and the E/2 W/2 of Sections 4 and 9, Township 26 South, Range 35 East, Lea County, New Mexico (“Unit”). In support of this application, COG states the following.

1. Applicant is a working interest owner in the Unit and has the right to drill wells thereon.
2. Applicant seeks to dedicate the Unit to the following wells (“Wells”):
 - a. **Wimple Federal Com 803H**, which will be drilled from a surface hole location in the SW/4 SE/4 (Unit O) of Section 9, Township 26 South, to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 28, Township 25 South; and
 - b. **Wimple Federal Com 805H**, which will be drilled from a surface hole location in the SW/4 SE/4 (Unit O) of Section 9, Township 26 South, to a bottom hole location in the NE/4 NE/4 (Unit A) of Section 28, Township 25 South.
3. The completed intervals of the Wells will be orthodox.
4. Applicant requests approval of a non-standard horizontal spacing unit pursuant to

**COG Operating LLC
Case No. 26347
Exhibit A-1**

Rule 19.15.16.15(B)(5) NMAC, which will create cost efficiencies, prevent waste, and protect correlative rights.

5. Due to a depth severance within the Unit, Applicant seeks to pool only those uncommitted interests from the top of the Wolfcamp B interval, at a stratigraphic interval of approximately 12,841' TVD, as observed on the Tele Delux 32 State 4H well log (API No. 30-025-42362), to the base of the Wolfcamp formation.

6. The spacing unit for the Wells will partially overlap with the spacing units for the following wells, which produce from the WC-025 G-09 S263504N; Wolfcamp Pool (Code 98117):

- a. Talco 9 26 35 Federal #003H (API No. 30-025-43458), located in the W/2 E/2 of Section 4 and the W/2 NE/4 of Section 9, Township 26 South, Range 35 East;
- b. Akubra Federal Com #701H (API No. 30-025-52891), located in Sections 28 and 33, Township 25 South, Range 35 East;
- c. Akubra Federal Com #702H (API No. 30-025-52892), located in Sections 28 and 33, Township 25 South, Range 35 East;
- d. Akubra Federal Com #703H (API No. 30-025-52893), located in Sections 28 and 33, Township 25 South, Range 35 East;
- e. Akubra Federal Com #801H (API No. 30-025-52895), located in Sections 28 and 33, Township 25 South, Range 35 East; and
- f. Akubra Federal Com #802H (API No. 30-025-52896), located in Sections 28 and 33, Township 25 South, Range 35 East.

7. Applicant has undertaken diligent, good-faith efforts to obtain voluntary agreements from all interest owners to participate in the drilling of the Wells but has been unable to obtain voluntary agreements from all interest owners.

8. The pooling of uncommitted interests will avoid the drilling of unnecessary wells, prevent waste, and protect correlative rights.

9. In order to allow Applicant to obtain its just and fair share of the oil and gas underlying the subject lands, all uncommitted interests in the Unit should be pooled and Applicant should be designated the operator of the Wells and Unit.

WHEREFORE, Applicant requests that this application be set for hearing before an Examiner of the Oil Conservation Division on August 6, 2026, and, after notice and hearing as required by law, the Division enter an order:

- A. Pooling all uncommitted interests in the Unit;
- B. Approving the Wells in the Unit;
- C. Approving the non-standard spacing Unit;
- D. Approving the overlapping spacing Unit;
- E. Designating Applicant as operator of the Unit and the Wells to be drilled thereon;
- F. Authorizing Applicant to recover its costs of drilling, equipping and completing the Wells;
- G. Approving the actual operating charges and costs of supervision while drilling and after completion, together with a provision adjusting the rates pursuant to the COPAS accounting procedures; and
- H. Imposing a 200% penalty for the risk assumed by Applicant in drilling and completing the Wells against any working interest owner who does not voluntarily participate in the drilling of the Wells.

COUNSEL FOR COG OPERATING LLC

Application of COG Operating LLC for Compulsory Pooling and Approval of Overlapping, Non-Standard Spacing Unit, Lea County, New Mexico. Applicant seeks an order pooling all uncommitted interests from the top of the Wolfcamp B interval to the base of the Wolfcamp formation underlying a 1,920-acre, more or less, non-standard, overlapping horizontal spacing unit comprised of the E/2 and the E/2 W/2 of Sections 28 and 33, Township 25 South, Range 35 East, and the E/2 and the E/2 W/2 of Sections 4 and 9, Township 26 South, Range 35 East, Lea County, New Mexico (“Unit”). The Unit will be dedicated to the following wells (“Wells”): **Wimple Federal Com 803H**, which will be drilled from a surface hole location in the SW/4 SE/4 (Unit O) of Section 9, Township 26 South, to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 28, Township 25 South; and **Wimple Federal Com 805H**, which will be drilled from a surface hole location in the SW/4 SE/4 (Unit O) of Section 9, Township 26 South, to a bottom hole location in the NE/4 NE/4 (Unit A) of Section 28, Township 25 South. The completed intervals of the Wells will be orthodox. Applicant requests approval of a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5) NMAC, which will create cost efficiencies, prevent waste, and protect correlative rights. Due to a depth severance within the Unit, Applicant seeks to pool only those uncommitted interests from the top of the Wolfcamp B interval, at a stratigraphic interval of approximately 12,841’ TVD, as observed on the Tele Delux 32 State 4H well log (API No. 30-025-42362), to the base of the Wolfcamp formation. The spacing unit for the Wells will partially overlap with the spacing units for the following wells, which produce from the WC-025 G-09 S263504N; Wolfcamp Pool (Code 98117): Talco 9 26 35 Federal #003H (API No. 30-025-43458), located in the W/2 E/2 of Section 4 and the W/2 NE/4 of Section 9, Township 26 South, Range 35 East; Akubra Federal Com #701H (API No. 30-025-52891), located in Sections 28 and 33, Township 25 South, Range 35 East; Akubra Federal Com #702H (API No. 30-025-52892), located

in Sections 28 and 33, Township 25 South, Range 35 East; Akubra Federal Com #703H (API No. 30-025-52893), located in Sections 28 and 33, Township 25 South, Range 35 East; Akubra Federal Com #801H (API No. 30-025-52895), located in Sections 28 and 33, Township 25 South, Range 35 East; and Akubra Federal Com #802H (API No. 30-025-52896), located in Sections 28 and 33, Township 25 South, Range 35 East. Also to be considered will be the cost of drilling and completing the Wells, the allocation of the costs, the designation of Applicant as operator of the Wells and the Unit, and a 200% charge for the risk involved in drilling and completing the Wells. The Wells are located approximately 12 miles southwest of Jal, New Mexico.

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

COG Operating LLC
Case No. 26347
Exhibit A-5

COG proposes the wells under the terms of a new Operating Agreement which is included for your review and approval. The Operating Agreement has the following general provisions:

100%/300% Non-Consenting Penalty;
\$19,134 Drilling and \$1,913 Producing Rate; and
COG Operating LLC named as Operator

In the event you wish not to participate, COG would like to discuss the term assignment of your interest to COG. Please inform me if you are interested in a term assignment via email at caroline.frederick@conocophillips.com.

The Term Assignment offer terminates June 19, 2026, and is subject to the approval of COG's management and verification of title.

If an agreement is not reached within 30 days of the date of this letter, COG will apply to the New Mexico Oil Conservation Division for compulsory pooling of your interest into horizontal spacing units for the proposed wells.

Please indicate your participation election in the space provided, sign, and return this letter, along with a signed copy of the enclosed AFE and fully executed signature pages to the JOA in the enclosed postage paid envelope.

If you have any questions, please do not hesitate to contact me at 432.222.4721 or by email at caroline.frederick@conocophillips.com.

Sincerely,

Caroline Frederick

**STATE OF NEW MEXICO
DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES
OIL CONSERVATION DIVISION**

**APPLICATION OF COG OPERATING, LLC
FOR COMPULSORY POOLING AND APPROVAL
OF OVERLAPPING, NON-STANDARD SPACING,
UNIT, LEA COUNTY, NEW MEXICO.**

CASE NO. 26347

**SELF-AFFIRMED STATEMENT
OF PRESTON DUPREE**

1. I am a geologist with COG Operating LLC ("COG"). I am over 18 years of age, have personal knowledge of the matters addressed herein, and am competent to provide this Self-Affirmed Statement. I have previously testified before the New Mexico Oil Conservation Division ("Division"), and my credentials as an expert in petroleum geology were accepted and made a matter of record.

2. I am familiar with the geological matters that pertain to the application filed by COG in this case.

3. **Exhibit B-1** is a location map that identifies the Wimple project area for the Wolfcamp horizontal spacing unit that is the subject of this application. The map shows the approximate wellbore paths for the proposed **Wimple Federal Com 803H** and **Wimple Federal Com 805H** wells ("Wells"). The Wells are represented by blue dashed lines. This map also shows existing horizontal wells in the surrounding sections that are completed in the Wolfcamp B interval of the Wolfcamp formation; horizontal wells completed in the Wolfcamp B interval are shown in solid blue lines.

4. **Exhibit B-2** is a subsea structure map that I prepared for the Wolfcamp formation. The contour interval is 50 feet and data points used to construct the map are indicated as green crosses. The proposed wells are depicted as described for Exhibit B-1. The structure map indicates

**COG Operating LLC
Case No. 26347
Exhibit B**

that the targeted formation dips toward the west-southwest. The structure appears consistent across the proposed spacing unit, and I do not observe any faulting, pinch outs, or other geologic impediments to drilling horizontal wells.

5. **Exhibit B-3** is a cross-section map that identifies three wells penetrating the targeted intervals used to construct a stratigraphic cross-section from A to A'. I chose the logs from these wells to create the cross-section because they penetrate the targeted intervals, are of good quality and have been subjected to petrophysical analysis of the targeted intervals. In my opinion, these well logs are representative of the geology in the subject area.

6. **Exhibit B-4** is a stratigraphic cross-section using the representative wells identified on Exhibit B-3. It contains gamma ray, resistivity and porosity logs. The proposed landing zone for the Wells are labeled on the exhibit. This cross-section demonstrates the target intervals are continuous across the Unit.

7. In my opinion, a stand-up orientation for the Wells is appropriate to properly develop the subject acreage because of consistent rock properties throughout the Unit and the preferred fracture orientation in the project area. Stand-up orientation is also consistent with the adjacent existing horizontal development.

8. Based on my geologic study of the area, the targeted interval underlying the Unit is suitable for development by horizontal wells and the tracts comprising the Unit will contribute more or less equally to the production of the Wells.

9. In my opinion, the granting of COG's application will serve the interests of conservation, the protection of correlative rights, and the prevention of waste.

10. The exhibits attached hereto were either prepared by me or under my supervision or were compiled from company business records.

11. I understand this Self-Affirmed Statement will be used as written testimony in this case. I affirm my testimony above is true and correct and is made under penalty of perjury under the laws of the State of New Mexico. My testimony is made as of the date identified next to my signature below.

**Re: Case No. 26347 – Application of COG Operating, LLC for Compulsory Pooling
and Approval of an Overlapping, Non-Standard Spacing Unit, Lea County, New Mexico.**

To whom it may concern:

This letter is to advise you that the enclosed application was filed with the New Mexico Oil Conservation Division. The hearing will be conducted on **August 6, 2026**, beginning at 8:30 a.m.

The hearing will be conducted in a hybrid fashion, both virtually and in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505. The hearing may be held only virtually at the discretion of the Division. To confirm the manner in which the hearing will be held, and to participate virtually, please visit the OCD Hearings website at the following link: <https://www.emnrd.nm.gov/oed/hearing-info/>. You are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Pursuant to Division Rule 19.15.4.13.B, a party who intends to present evidence at the hearing shall file a pre-hearing statement and serve copies on other parties, or the attorneys of parties who are represented by counsel, at least four business days prior to the scheduled hearing, but in no event later than 5:00 p.m. Mountain Time, on the Thursday preceding the scheduled hearing date. If you are not registered with the OCD's E-Permitting system, you must submit the statement via e-mail to ocd.hearings@emnrd.nm.gov and should include: the names of the parties; whether or not the parties are represented by counsel; a concise statement of the case; the names of witnesses anticipated to be called to testify at the hearing; the approximate amount of time needed to present the case; and an identification of any procedural matters that are to be resolved prior to the hearing.

Please consider this letter for notification purposes only. We do not need anything signed or returned to us. If you have any questions about your interest or this application, please contact Caroline Frederick for ConocoPhillips Company at Caroline.Frederick@conocophillips.com or 432-222-4721

The hearing will be conducted on August 6, 2026, in a hybrid fashion, both virtually and in person at the Energy, Minerals, and Natural Resources Department, 1st Floor, Santa Fe, NM 87505. To participate virtually, see the instruction posted on the OCD website <https://www.emnrd.nm.gov/oed/hearing-info/>. In Case No. 26347, Applicant seeks an order pooling all uncommitted interests from the top of the Wolfcamp B interval to the base of the Wolfcamp formation underlying a 1,920-acre, more or less, non-standard, overlapping horizontal spacing unit comprised of the E/2 and the E/2 W/2 of Sections 28 and 33, Township 25 South, Range 35 East, and the E/2 and the E/2 W/2 of Sections 4 and 9, Township 26 South, Range 35 East, Lea County, New Mexico ("Unit"). The Unit will be dedicated to the following wells ("Wells"): **Wimple Federal Com 803H**, which will be drilled from a surface hole location in the SW/4 SE/4 (Unit O) of Section 9, Township 26 South, to a bottom hole location in the NE/4 NW/4 (Unit C) of Section 28, Township 25 South; and **Wimple Federal Com 805H**, which will be drilled from a surface hole location in the SW/4 SE/4 (Unit O) of Section 9, Township 26 South, to a bottom hole location in the NE/4 NE/4 (Unit A) of Section 28, Township 25 South. The complete intervals of the Wells will be orthodox. Applicant requests approval of a non-standard horizontal spacing unit pursuant to Rule 19.15.16.15(B)(5) NMAC, which will create cost efficiencies, prevent waste, and protect correlative rights. Due to a depth severance within the Unit, Applicant seeks to pool only those uncommitted interests from the top of the Wolfcamp B interval, at a stratigraphic interval of approximately 12,841' TVD, as observed on the Tele Delux 32 State 4H well log (API No. 30-025-42362), to the base of the Wolfcamp formation. The spacing unit for the Wells will partially overlap with the spacing units for the following wells which produce from the WC-025 G-09 S263504N; Wolfcamp Pool (Code 98117); Talco 9 26 35 Federal Com #003H (API No. 30-025-43458), located in the W/2 E/2 of Section 4 and the W/2 NE/4 of Section 28, Township 26 South, Range 35 East; Akubra Federal Com #701H (API No. 30-025-52891), located in Sections 28 and 33, Township 25 South, Range 35 East; Akubra Federal Com #702H (API No. 30-025-52892), located in Sections 28 and 33, Township 25 South, Range 35 East; Akubra Federal Com #703H (API No. 30-025-52893), located in Sections 28 and 33, Township 25 South, Range 35 East; Akubra Federal Com #801H (API No. 30-025-52895), located in Sections 28 and 33, Township 25 South, Range 35 East; and Akubra Federal Com #802H (API No. 30-025-52896), located in Sections 28 and 33, Township 25 South, Range 35 East. Also to be considered will be the cost of drilling and completing the Wells, the allocation of the costs, the designation of Applicant as operator of the Wells and the Unit, and a 200% charge for the risk involved in drilling and completing the Wells. The Wells are located approximately 12 miles southwest of Jal, New Mexico.
