**APPLICATION OF XTO ENERGY, INC., FOR
SPACING WITHIN THE BIG EDDY FEDERAL
EXPLORATORY UNIT, EDDY AND LEA
COUNTIES, NEW MEXICO**

CASE NO. 26248

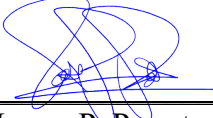

NOTICE OF SECOND AMENDED EXHIBIT PACKET

XTO Energy, Inc. ("XTO"), provides notice that it is amending the evidentiary record in this case with respect to the following materials:

- A supplemental Exhibit B-7 identifying affected persons in offset lands.
- A new Exhibit B-8 to provide a Waiver of Notice and Objection from Civitas DE Basin Resources, LLC ("Civitas") demonstrating that Civitas received the Application, affirmatively waived any defect in notice, has no objection to the requested relief, and does not request further hearing
- An amended Exhibit D-2 & D-3 to include certified notice to NMSLO.

The supplemental materials respond to the Division's regarding notice to affected persons in offset lands. In compiling the supplemental materials, XTO determined that notices were inadvertently not sent to Civitas and the New Mexico State Land Office ("NMSLO"). XTO corrected this by: obtaining the waiver from Civitas attached as Exhibit B-8; and providing notice to the NMSLO. The supplemental materials do not alter the Application Lands, proposed spacing, formations, geology, development plan, or relief requested. If no protests are received from the NMSLO, XTO respectfully requests that the Division accept the supplemental materials into the record and decide Case No. 26248 on the supplemented record without further hearing after the additional 20-day notice period runs for NMSLO.

Respectfully submitted,
BEATTY & WOZNIAK, P.C.

CASE NO. _____

APPLICATION

XTO Energy Inc., OGRID No. 5380 (“XTO” or “Applicant”), through its undersigned attorneys, hereby files this application with the Oil Conservation Division (“Division”) pursuant to the provisions of the Oil and Gas Act, NMSA 1978 §§ 70-2-1, *et seq.* (the “Act”) and 19.15.16 NMAC, for an order approving certain spacing accommodations within the Big Eddy Federal Exploratory Unit, Serial Number NMNM105467880 (Legacy Serial No. NMNM068294X), located in Eddy and Lea Counties (the “FEU”), more particularly described on **Exhibit A-1**, including the pools identified on **Exhibit A-2** and depicted on **Exhibit B** (Bone Spring Pool Maps) and **Exhibit C** (Wolfcamp Pool Maps), attached hereto and incorporated herein by this reference.

In support of its Application, XTO states the following:

1. Pursuant to NMSA 1978, § 70-2-11, the Division has the duty and authority to prevent waste and protect correlative rights, and is empowered to make and enforce rules, regulations and orders, and to do whatever may be reasonably necessary to carry out the purpose of the Act, whether or not indicated or specified in any section thereof.
2. Under 19.15.20.14 NMAC, the Division may, after notice and hearing, approve the combining of contiguous developed proration units into a unitized area.

3. The FEU is an approved federal exploratory unit, currently in its secondary term, covering lands in Townships 19 through 23 South, and Ranges 28 through 32 East, comprising 133,444.29 acres. See **Exhibit A-1**.

4. The pools within the Bone Spring and Wolfcamp formations underlying the FEU are identified and described in **Exhibit A-2** and depicted on **Exhibits B and C**, which show pools within and surrounding the FEU boundary.

5. The FEU covers all depths and formations below the base of the Dakota Sand, including the Bone Spring and Wolfcamp Formations.

6. The setbacks applicable to horizontal wells within the FEU are governed by 19.15.16.15.C. NMAC, except that setbacks for wells in the Purple Sage; Wolfcamp (Gas) Pool [98220] are governed by the special provisions of Division Order R-14262.

7. **Exhibit B** contains the Bone Spring pool master map and township detail maps for the affected townships within the FEU.

8. **Exhibit C** contains the Wolfcamp pool master map and township detail maps for the affected townships within the FEU.

9. These exhibits depict the FEU boundary, the affected townships and sections, and the location of the subject pools relative to the irregular FEU boundary.

10. XTO is the majority working interest owner in the lands covered by the FEU, and is the operator of the FEU pursuant to the plan of unitization approved for the FEU by the Bureau of Land Management.

11. As with most federal exploratory units, the FEU is not shaped as a perfect square or rectangle, and its boundaries do not follow section lines. Rather, many portions of the FEU boundaries follow irregular courses along quarter-quarter section boundaries.

12. Due to the alignment of the FEU boundaries, standard horizontal spacing unit rules for the lands and pools covered by the FEU would result in horizontal spacing units that do not align with the boundaries of the FEU.

13. FEU-wide boundary changes (to align with the boundaries of standard horizontal spacing units) are unattainable due to complex and fractured tracts and ownership within the FEU. Therefore, XTO seeks approval of this application to effectively develop the reservoirs within the FEU, without changing the boundaries of the FEU.

14. To best protect correlative rights, prevent waste, avoid stranding reservoir inside or outside the FEU, and optimize production within the unitized area and certain single sources of supply designated by the Division, horizontal spacing units within the FEU should align with the FEU boundaries, rather than covering lands both inside and outside the FEU.

15. Therefore, XTO seeks an order allowing all standard horizontal spacing units that lie within the FEU to be composed of tracts that align with the boundaries of the FEU, without the need for non-standard horizontal spacing units, and regardless of whether such tracts would normally be included within standard horizontal spacing units established pursuant to 19.15.16.15 NMAC. To accomplish such alignment, XTO requests that horizontal spacing units within the FEU comprise one or more contiguous tracts, each of which consists of a governmental quarter-quarter-section or equivalent.

16. Furthermore, XTO requests that the order authorize the completed intervals of any horizontal well within the FEU to be at any location, without the need for an unorthodox well location, provided that no portion of any completed interval is closer to the FEU boundaries than allowed: (i) by the provisions of any special pool rule covering the location of such well, or if there is no such applicable provision, then (ii) by 19.15.16.15.C. NMAC.

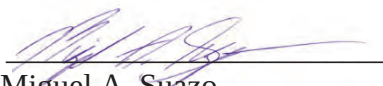

17. Granting this application will protect correlative rights, prevent waste, avoid stranding reservoir inside or outside the FEU, and optimize production within the unitized area and certain single sources of supply designated by the Division.

WHEREFORE, XTO requests this Application be set for hearing on July 9, 2026, or as soon thereafter as reasonably practical, before an Examiner of the Oil Conservation Division, and after notice and hearing as required by law, the Division enter an order:

- A. Allowing all standard horizontal spacing units that lie within the FEU to be composed of tracts that align with the boundaries of the FEU, without the need for non-standard horizontal spacing units, and regardless of whether such tracts would normally be included within standard horizontal spacing units established pursuant to 19.15.16.15 NMAC; and
- B. Authorizing the completed intervals of any horizontal well within the FEU to be at any location, without the need for an unorthodox well location, provided that no portion of any completed interval is closer to the FEU boundaries than allowed: (i) by the provisions of any special pool rule covering the location of such well, or if there is no such applicable provision, then (ii) by 19.15.16.15.C. NMAC.
- C. Granting such other relief as the Division deems appropriate.

Respectfully submitted,

BEATTY & WOZNIAK, P.C.

Application of XTO Energy Inc., for Approval of Comprehensive Spacing within the Big Eddy Federal Exploratory Unit, Eddy and Lea Counties, New Mexico. Applicant in the above-styled cause seeks an order from the Division approving certain spacing accommodations within the Big Eddy Federal Exploratory Unit, Serial Number NMNM105467880, Legacy Serial No. NMNM068294X, located in Eddy and Lea Counties, New Mexico. The Big Eddy Federal Exploratory Unit, containing approximately 133,444.29 acres, more or less, is comprised of the following lands: the S/2 of Section 27, E/2 of Section 33, and all of Sections 34-35, Township 19 South, Range 31 East, N.M.P.M.; all of Sections 25-27 and 34-36, Township 20 South, Range 30 East, N.M.P.M.; all of Sections 2-36, Township 20 South, Range 31 East, N.M.P.M.; all of Section 7, W/2W/2 of Section 8, all of Sections 17-21, S/2S/2 of Section 27, and all of Sections 28-34, Township 20 South, Range 32 East, N.M.P.M.; all of Sections 3-36, Township 21 South, Range 28 East, N.M.P.M.; all of Sections 1-3 and 7-36, Township 21 South, Range 29 East, N.M.P.M.; all of Sections 1-12, 14-23, and 28-30, and the N/2 of Section 27, Township 21 South, Range 30 East, N.M.P.M.; Lots 1-16 of Section 3, and all of Sections 4-9, Township 21 South, Range 31 East, N.M.P.M.; all of Sections 1-5, the N/2, SE/4 of Section 6, the E/2, E/2W/2 of Section 8, all of Sections 9-14, the N/2N/2 of Section 17, the E/2NE/4 of Section 22, and all of Sections 23-25, Township 22 South, Range 28 East, N.M.P.M.; all of Sections 2-10, 15-22, 27-30, and 32-34, the E/2 of Sections 31, and the W/2, W/2SE/4 of Section 35, Township 22 South, Range 29 East, N.M.P.M.; and all of Section 2, the N/2, N/2S/2, SE/4SW/4, S/2SE/4 of Section 3, and the N/2, N/2SE/4 of Section 4, Township 23 South, Range 29 East, N.M.P.M. The application concerns the Bone Spring and Wolfcamp formations underlying the Big Eddy Federal Exploratory Unit, and the associated pools contained therein. Applicant seeks an order from the Division: (1) allowing horizontal spacing units within the Big Eddy Federal Exploratory Unit to be composed of one or more contiguous tracts consisting of governmental quarter-quarter-quarter sections or equivalents that align with the irregular boundaries of the Big Eddy Federal Exploratory Unit, without the need for separate non-standard horizontal spacing unit applications; and (2) authorizing the completed intervals of horizontal wells within the Big Eddy Federal Exploratory Unit to be located without separate unorthodox well location approval, provided that no portion of any completed interval is closer to the applicable boundary than allowed by any governing special pool rule, Division order, or 19.15.16.15 NMAC. The lands are in Eddy and Lea Counties, New Mexico, located approximately 5.5 miles east of Carlsbad and 36 miles southwest of Hobbs.

EXHIBIT A-2**Big Eddy Federal Exploratory Unit—pools narrative by township**

Compiled from the Bone Spring pools map (Exhibit B) and the Wolfcamp pools map (Exhibit C). Each township entry contains the tract narrative and then lists the Wolfcamp (WC) pools and Bone Spring (BS) pools WITHIN the unit boundary ONLY.

1. **Township 19 South, Range 31 East, N.M.P.M.** (Section 27: S/2; Section 33: E/2; Sections 34–35: all)
 - **Wolfcamp:** no WC pool over Sections 27, 33, 34, or 35.
 - **Bone Spring:** Hackberry; BS East (#96746) covers Section 27. WC Williams Sink; BS (#97650) is present in Sections 33–35.
2. **Township 20 South, Range 31 East, N.M.P.M.** (Sections 2–36: all)
 - **Wolfcamp:** Big Eddy; WC (gas) #72120—Sections 2, 3, 7–12. WC 015-G072031S13M; WC (gas) #98343—Sections 13–14.
 - **Bone Spring:** WC Williams Sink; BS #97650—Sections 2–3, 7–17, 20–29. Gatuna Canyon; BS #96688—Sections 4–6. Hackberry BS South #29347—Section 4. Big Eddy; BS #5540—Sections 21–22 (upper sands). Maroon Cliff; BS #96722—Sections 19, 30. WC-015 G-06 S203127; BS #98232—Sections 25–27 (lower sands), 33–36.
3. **Township 20 South, Range 30 East, N.M.P.M.** (Sections 25–27, 34–36: all)
 - **Wolfcamp:** no WC pool coverage shown.
 - **Bone Spring:** no BS pool coverage shown over Sections 25–27 or 34–36.
4. **Township 20 South, Range 32 East, N.M.P.M.** (Section 7; Section 8: W/2W/2; Sections 17–21; Section 27: S/2S/2; Sections 28–34)
 - **Wolfcamp:** Big Eddy; WC (gas) #72120—Section 7. Salt Lake; WC #53570—Sections 19–21, 27–30.
 - **Bone Spring:** Salt Lake; BS #53560—Sections 7, 17–21. Lusk; BS South #41460—Section 7.
5. **Township 21 South, Range 28 East, N.M.P.M.** (Sections 3–36)
 - **Wolfcamp:** Burton Flat Up WC (oil) #98315—Sections 3–4. Lone Tree Draw; WC #97208—Sections 19–20. Carlsbad WC East (gas) #74160—Sections 31–32. Indian Flats; WC #79115—Section 36.
 - **Bone Spring:** Fenton; BS, Northeast #24300—Sections 10, 11, 15–17, 20. Carlsbad; BS, East #96144—Sections 30–32.
6. **Township 21 South, Range 29 East, N.M.P.M.** (Sections 1–3; Sections 7–36)

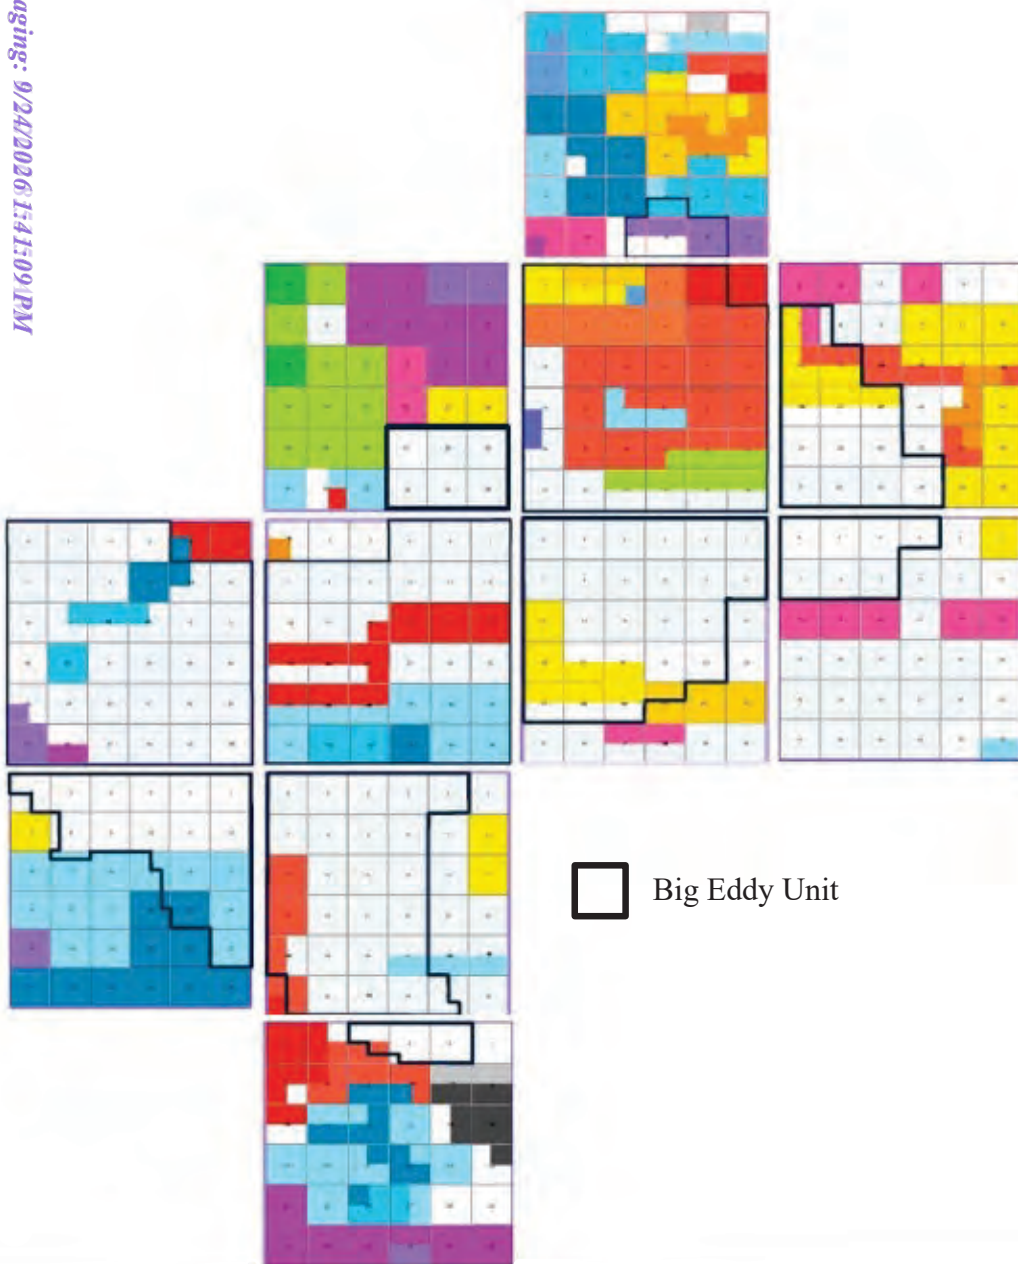

- **Wolfcamp:** Golden Lane; WC (gas) #77620—Section 18 (legacy) and Sections 19, 25–36 (proposed).
 - **Bone Spring:** U.S.; BS #97077—Sections 34 (ordered), 25–36 (permitted). WC-015 G-08 S212915D; BS #98053—Sections 13–16, 19–21, 28–30 (upper/lower sands).
7. **Township 21 South, Range 30 East, N.M.P.M.** (Sections 1–12; Sections 14–23; Section 27: N/2; Sections 28–30)
- **Wolfcamp:** Golden Lane; WC (gas) #77620—Sections 19–23, 27–30.
 - **Bone Spring:** WC 015 G08 S212915D; BS #98053—Sections 18–21, 28–30. WC 015 G08 S212915D; BS #98053—Section 27.
8. **Township 21 South, Range 31 East, N.M.P.M.** (Section 3: lots 1–16; Sections 4–9)
- **Wolfcamp:** no WC pool coverage shown over Sections 3–9.
 - **Bone Spring:** no BS pool coverage shown over Sections 3–9.
9. **Township 22 South, Range 28 East, N.M.P.M.** (Sections 1–5; Section 6: lots + N/2, SE/4; Section 8: E/2, E/2W/2; Sections 9–14; Section 15: NE/4, E/2SE/4; Section 17: N/2N/2; Section 22: E/2NE/4; Sections 23–25)
- **Wolfcamp:** Purple Sage; WC (gas) #98220 is mapped across all tract sections.
 - **Bone Spring:** Culebra Bluff; BS, South #15011—Sections 13–15, 17, 22, 23–25.
10. **Township 22 South, Range 29 East, N.M.P.M.** (Sections 2–10; Sections 15–22; Sections 27–30; Section 31: E/2; Sections 32–34; Section 35: W/2, W/2SE/4)
- **Wolfcamp:** WC-015 S222919I; WC (gas) #98395—Section 18.
 - **Bone Spring:** Culebra Bluff; BS, South #15011—Sections 18, 19, 30, 31. WC 015 G06 S282229A; BS #98340—Section 27.
11. **Township 23 South, Range 29 East, N.M.P.M.** (Section 2: all; Section 3: N/2, N/2S/2, SE/4SW/4, S/2SE/4; Section 4: N/2, N/2SE/4)
- **Wolfcamp:** Purple Sage; WC (gas) #98220—Sections 2, 3, 4.
 - **Bone Spring:** Culebra Bluff; BS, South #15011—Section 4.

**STATE OF NEW MEXICO
ENERGY, MINERALS, AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION**

**APPLICATION OF XTO ENERGY, INC. FOR
SPACING WITHIN THE BIG EDDY FEDERAL
EXPLORATORY UNIT, EDDY AND LEA
COUNTIES, NEW MEXICO**

CASE NO. 26248

SELF-AFFIRMED STATEMENT OF MATTHEW C. FLETCHER

Matthew C. Fletcher, first duly sworn upon oath, deposes and states as follows:

1. My name is Matthew C. Fletcher, and I am employed by XTO Energy, Inc. (“XTO”) as a Commercial & Land Advisor.

2. I have not previously testified before the New Mexico Oil Conservation Division (“Division”), and my qualifications as an expert in petroleum land matters have not been accepted and made a matter of record. I have several years of experience in petroleum land matters, and I have worked directly or in a supervisory role with the properties that are the subject of this matter. A copy of my resume is attached.

3. I am familiar with the application filed by XTO in the above-referenced case and the ownership, unitization, and proposed development plans related to the subject lands.

4. I am submitting this affidavit in support of XTO’s application in the above-referenced case, as required by the Pre-Hearing Order issued by the Division. I intend to present this case by affidavit pursuant to 19.15.4.12.(A)(1) NMAC.

5. Under Case No. 26248, XTO seeks an order approving certain spacing accommodations within the Big Eddy Federal Exploratory Unit, Serial Number NMNM105467880 (Legacy Serial No. NMNM068294X), located in Eddy and Lea Counties (the

“FEU”) underlying the lands incorporated herein by reference via the initial Application filed under Case No. 26248.

6. **XTO Exhibit B-1** is a general location map showing the FEU. The acreage subject to the applications are federal, state, and fee lands.

7. **XTO Exhibit B-2** provides the FEU tract numbers, legal descriptions, acreage amounts, royalty owner information, unit commitment status, lessee of record information, overriding royalty and percentage information, and working interest owners and percentages for each tract. Exhibit B-4 was extracted from the Big Eddy Unit Federal Unit Agreement and, pursuant to the terms of the Unit Agreement, it has been maintained and periodically updated by XTO. Exhibit B-4 is updated, accurate, and representative of the current ownership breakdown within the FEU.

8. **XTO Exhibit B-3** contains Form C-102s for certain wells drilled within the FEU. The provided C-102’s demonstrate the large number of pool and formation codes currently present and identified by the Division within the interior boundaries of the FEU.

9. **XTO Exhibit B-4** is a comprehensive map depicting unit acreage and unit tracts in relation to the entire Big Eddy Federal Unit, as a whole. It also depicts potential, planned, or proposed drilling and spacing units which are intended to illustrate what a comprehensive development plan would most likely resemble for the FEU. Additionally, Exhibit B-3 identifies the nonconforming areas of the FEU boundary that do not follow, track, or align with normal section lines and thus, the standard spacing patterns prescribed by the rules of the Division. These nonconforming areas are those areas that will benefit the most from the spacing proposals provided herein.

10. **XTO Exhibit B-5** provides a map of the FEU and offset development. Exhibit B-5 depicts permitted and existing wells surrounding the FEU boundaries. This map demonstrates the high-density development occurring along the FEU boundaries, particularly near or around the northwest and southwest FEU boundaries. This level of development surrounding the FEU presents planning and spacing issues for XTO due to the nonconforming nature of the FEU boundaries in these areas.

11. **XTO Exhibit B-6** includes maps showing the acreage of the protesting party adjacent to the FEU.

12. XTO's request for comprehensive spacing within the FEU will allow it to utilize 40-acre building blocks that will provide for the most efficient well lateral placement and development in the nonconforming FEU boundary areas while also maintaining XTO's ability to utilize standard spacing configurations in the conforming areas of the FEU. This ability to strategically locate wellbore laterals within the nonconforming boundary areas of the FEU will allow for XTO to efficiently and effectively utilize its modern development and drilling designs throughout the FEU. XTO's request will also allow for 40-acre spacing near the interior FEU boundary, which will allow development on both sides of the FEU to occur without the need for FEU transboundary/straddle development, thereby preventing waste and protecting correlative rights of interest owners and operators on both sides of the FEU boundary. As a result, approval of the proposed spacing accommodations is necessary to prevent waste and protect correlative rights.

13. XTO is the unit operator of the Big Eddy federal exploratory unit.

14. In compiling the addresses for the various interest owners, I conducted a diligent search of the public records in Eddy and Lea Counties, New Mexico, where the FEU is located,

phone directories, and did computer searches to locate the contact information for parties entitled to notification. All interest owners were locatable and noticed. XTO caused notice to be published in the Carlsbad Current-Argus, a newspaper of general circulation in Eddy County, New Mexico, and the Hobbs-News Sun, a newspaper of general circulation in Lea County, New Mexico. I provided the law firm Beatty & Wozniak, P.C., with the names and addresses for these mineral owners and instructed that each owner be provided notice of the hearing in these matters.

15. **Exhibit B-1** through **Exhibit B-6** were either prepared by me or compiled from XTO's company business records under my direction and supervision.

16. I hereby swear that to the best of my knowledge and belief, all of the matters set forth herein and in the exhibits are true, correct, and accurate.

[Remainder of page left intentionally blank]

FURTHER AFFIANT SAYETH NOT.

Dated this 4th day of September, 2026.

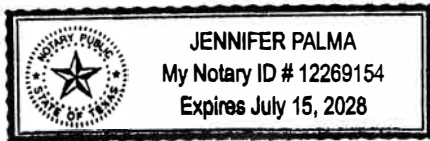

Matthew C. Fletcher
XTO Energy, Inc.

STATE OF TEXAS)
) ss.
COUNTY OF HARRIS)

The foregoing instrument was subscribed and sworn to before me this 4th day of September, 2026, by Matthew C. Fletcher, Commercial & Land Advisor for XTO Energy, Inc.

Witness my hand and official seal.

My commission expires: 7/15/2028

NOTARY PUBLIC

Matthew Fletcher

Commercial & Land Advisor

Spring, TX | 346-502-0516 | matt.fletcher@exxonmobil.com

Professional Summary

Experienced Land Professional with over a decade in oil and gas, specializing in New Mexico operations. Proven expertise in title analysis. Demonstrated ability to collaborate with legal, geological, and engineering teams to support filings before the NMOCD. Recognized for leadership and technical accuracy in managing land responsibilities in both operated and non-operated asset environments.

Professional Experience**XTO Energy, Inc. – Commercial & Land Advisor**

Spring, TX | Feb 2024 – Present

- Prepared exhibits and supporting documentation for Compulsory Pooling Applications and Non-Standard Well Location Applications in accordance with NMOCD regulations.
- Drafted and submitted Communitization Agreements to the BLM and SLO, ensuring compliance with applicable lease terms and governing agency requirements.
- Collaborated with legal counsel and geologists to ensure technical and legal accuracy of regulatory filings.
- Reviewed and validated C-102 forms, confirming well location data and regulatory compliance.
- Drafted Exhibit A's for Exchange Agreements, ensuring accurate leasehold representation.
- Monitored drilling schedules and verified well locations to maintain lease and regulatory compliance.
- Negotiated Agreements for Operations and innovative Data Exchange Agreements to support technical evaluations.

XTO Energy, Inc. – Title Analyst

Spring, TX | Nov 2018 – Feb 2024

- Led New Mexico Delaware Basin Title Team, managing workflows and mentoring analysts.
- Developed and executed cross-functional projects to resolve ownership disputes and mitigate legal exposure.
- Created limited run sheets and performed title runs to update ownership records.
- Maintained and updated division of interest decks using title opinions, leases, assignments, and probate documents.

Lime Rock Resources – Division Order Analyst

Houston, TX | Jun 2017 – Nov 2018

- Managed ownership decks for assets in NM, OK, AR, and TX.
- Completed North Dakota APO interest reconciliation project across 150+ wells.
- Trained new analysts and led marketing deck corrections for 40+ wells.

Southwestern Energy – Division Order Analyst

Spring, TX | Jan 2014 – Jun 2017

- Calculated GWI and NRI interests from title opinions, leases, and JOAs.
- Conducted due diligence on estate and title documents for ownership verification.
- Completed BLM and divestiture project involving federal lease and communitization agreement research.
- Trained analysts and served on the 2017 Process Improvement Committee.

United States Navy – Hospital Corpsman Second Class (HM2)

Multiple Locations | Jun 2005 – Jun 2010

- Provided medical support during deployments to Iraq and Africa.
- Certified 240+ troops in Combat Life Saver training.
- Managed \$190K medical supply budget and supervised junior personnel.

Education

- Master of Legal Studies – Oil, Gas, and Energy Law, University of Oklahoma College of Law, 2020
- MBA – Management, Sam Houston State University, 2016
- BBA – Finance, Sam Houston State University, 2013

Certifications & Honors

- Petroleum Land Management Certificate – Oklahoma City University, 2015
- Seabee Combat Warfare Designation
- Navy & Marine Corps Achievement Medal (2008, 2010)
- Iraqi Campaign Medal – 2008

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or a voluntary pooling agreement or a compulsory pooling order of heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or information) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Note: No allowable will be assigned to this completion until all interest have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is a directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point and Last Take Point) that is closest to any outer boundary of the tract.

Surveyor shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interest have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is a directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point and Last Take Point) that is closest to any outer boundary of the tract.

Surveyor shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or a larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is the closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or a larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is the closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Note: No allowable will be assigned to this completion until all interests have been consolidated on a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Note: No allowable will be assigned to this completion until all interests have been consolidated on a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or a larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is the closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or a voluntary pooling agreement or a compulsory pooling order of heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or information) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

SURVEYOR CERTIFICATIONS

I hereby certify that the well location shown on this plat was plotted from field notes of actual surveys made by me or under my supervision, and that the same is true and correct to the best of my belief.

Signature and Seal of Professional Surveyor

23786

Certificate Number

07-08-2025

Date of Survey

DB

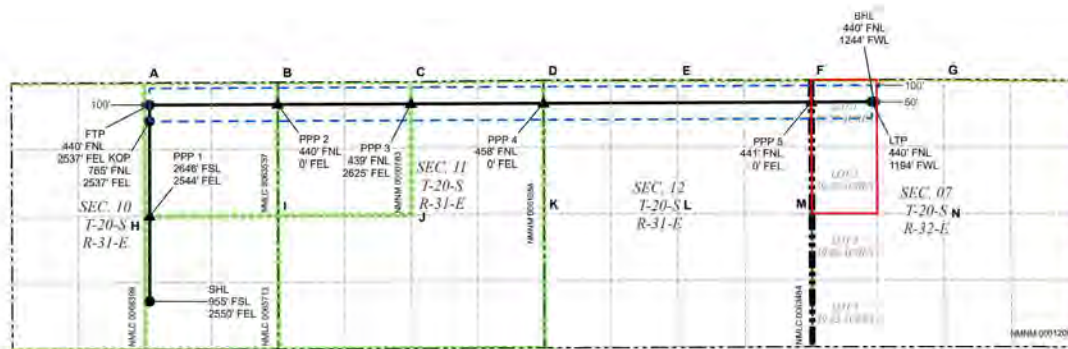

618.013004.11-01

Note: No allowable will be assigned to this completion until all interests have been consolidated on a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

OPERATOR CERTIFICATIONS

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.

If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

OPERATOR CERTIFICATIONS <i>I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief, and, if the well is a vertical or directional well, that this organization either owns a working interest or unleased mineral interest in the land including the proposed bottom hole location or has a right to drill this well at this location pursuant to a contract with an owner of a working interest or unleased mineral interest, or to a voluntary pooling agreement or a compulsory pooling order heretofore entered by the division.</i> <i>If this well is a horizontal well, I further certify that this organization has received the consent of at least one lessee or owner of a working interest or unleased mineral interest in each tract (in the target pool or formation) in which any part of the well's completed interval will be located or obtained a compulsory pooling order from the division.</i> SignatureDate Printed Name Email Address	SURVEYOR CERTIFICATIONS <i>I hereby certify that the well location shown on this plat was plotted from field notes of actual surveys made by me or under my supervision, and that the same is true and correct to the best of my belief.</i> PRELIMINARY, THIS DOCUMENT SHALL NOT BE RECORDED FOR ANY PURPOSE AND SHALL NOT BE USED OR VIEWED OR RELIED UPON AS A FINAL SURVEY DOCUMENT. Signature and Seal of Professional Surveyor 2378607-07-2026 Certificate NumberDate of Survey DB618.013004.29-09
--	--

Note: No allowable will be assigned to this completion until all interests have been consolidated or a non-standard unit has been approved by the division.

ACREAGE DEDICATION PLATS

This grid represents a standard section. You may superimpose a non-standard section, or larger area, over this grid. Operators must outline the dedicated acreage in a red box, clearly show the well surface location and bottom hole location, if it is directionally drilled, with the dimensions from the section lines in the cardinal directions. If this is a horizontal wellbore show on this plat the location of the First Take Point and Last Take Point, and the point within the Completed interval (other than the First Take Point or Last Take Point) that is closest to any outer boundary of the tract.

Surveyors shall use the latest United States government survey or dependent resurvey. Well locations will be in reference to the New Mexico Principal Meridian. If the land is not surveyed, contact the OCD Engineering Bureau. Independent subdivision surveys will not be acceptable.

Re: NM OCD Case No. 26248 – XTO Energy Inc. –
Waiver of Notice for a Spacing within the Big Eddy Federal Exploratory Unit,
Eddy and Lea Counties, NM

To Whom It May Concern:

On June 8, 2026, XTO Energy Inc. ("XTO") filed application case number 26248 ("Application") seeking order from the New Mexico Oil Conservation Division ("Division") to establish a spacing within the Big Eddy Federal Exploratory Unit ("BEU") an approximately 133,444.29-acre federal exploratory unit for the unitized lands described on Exhibit A ("Unit Lands") for an order approving certain spacing accommodations within the BEU, Serial Number NMNM105467880 (Legacy Serial No. NMNM068294X), located in Eddy and Lea Counties, New Mexico. The Application is attached for your review.

Adjoining acreage for which Civitas DE Basin Resources, LLC c/o SM Energy Company ("Civitas") is an affected person: T21S-R30E-Section 24.

Civitas is an affected person with respect to adjoining acreage pursuant to 19.15.16.15(B)(5)(b)(ii) NMAC. XTO requests that Civitas acknowledge receipt of the Application and waive any defect in the timing or manner of notice of the Application and the September 16, 2026, hearing in this case. By signing below, Civitas acknowledges that it has received and had an opportunity to review the Application and associated materials; waives notice under 19.15.16.15(B)(5)(b)(ii) and (c) NMAC; waives any right to object to the Application based on notice; states that it has no objection to the relief requested in the Application; and does not request an additional or further hearing based on notice. This waiver does not alter the relief requested in the Application. Please return the executed waiver to me at matt.fletcher@exxonmobil.com at your earliest convenience. Please contact me by email or at (346) 502-0516 with any questions.

**APPLICATION OF XTO ENERGY, INC. FOR
SPACING WITHIN THE BIG EDDY
FEDERAL EXPLORATORY UNIT, EDDY
AND LEA COUNTIES, NEW MEXICO**

CASE NO. 26248

SELF-AFFIRMED STATEMENT OF NATHANIEL BALL

Nathaniel Ball, being first duly sworn upon oath, deposes and states as follows:

1. My name is Nathaniel Ball, and I am employed by XTO Energy, Inc. ("XTO") as Subsurface Manager – Delaware Basin North.
2. I have not testified before the New Mexico Oil Conservation Division ("Division"), and my qualifications as an expert in petroleum geology have not been accepted and made a matter of record. I have several years of experience in petroleum geological matters, and I have worked directly or in a supervisory role with the properties that are the subject of this matter. A copy of my resume is attached.
3. I am familiar with the application filed by XTO in this case and the geology involved.
4. I am submitting this affidavit in support of XTO's application in the above-referenced case, as required by the Pre-Hearing Order issued by the Division. I intend to present this case by affidavit pursuant to 19.15.4.12.(A)(1) NMAC. The Application Lands and FEU included in the initial application filed under Case No. 26248 are incorporated herein by reference.
5. **XTO Exhibit C-1** includes a base location map of the lands showing the FEU and the FEU boundaries.

6. **XTO Exhibits C-2** are subsea structure maps showing the top of the Bone Spring and Wolfcamp Formations across the entire FEU. The boundary of the FEU is indicated by dashed lines. The contour interval used in this exhibit is 100' for the Bone Spring Formation and 250' for the Wolfcamp Formation. Both structure maps show regional dips to the east. I do not observe any large, formation-scale faulting or other structural impediments to developing these target intervals.

7. **XTO Exhibits C-3** show the Gunbarrel Diagrams for various Sections, Townships, and Ranges within the FEU. Specifically, Gunbarrel Diagrams are provided for the Northeast, Central, Southwest, East, and West areas of the FEU. Each Gunbarrel diagram displays existing wells (if present) and planned development wells. Both formations are prospective for development across all of the FEU.

8. **XTO Exhibits C-4** are gross isopach maps for the Bone Spring and Wolfcamp Formations across the entire FEU. The boundary of the FEU is indicated by dashed lines. The contour interval used in this exhibit is 50' for the Bone Spring Formation and 200' for the Wolfcamp Formation. I do not observe any abrupt, formation-scale pinchouts or other depositional impediments to developing these target intervals.

9. **XTO Exhibit C-5** is a structural cross-section structural cross-section A to A' with accompanying locator map of the FEU. These wells penetrate the targeted intervals, are of good quality, and are representative of the geology in the area.

10. **XTO Exhibit C-6** is a list of factors that are significant for a comprehensive development plan, as opposed to ad hoc spacing.

11. Based on the attached exhibits, I hereby conclude as follows:

a. The target formations are present and continuous throughout the lands subject to the applications.

b. The horizontal spacing proposed for the FEU is justified from a geologic standpoint.

c. There are no structural impediments or large-scale faulting that will interfere with horizontal development.

d. Each quarter-quarter section in the FEU will contribute more or less equally to production, and I can confirm each quarter-quarter section along the lateral will also contribute more or less equally to production.

12. The proposed spacing accommodations within the FEU will afford XTO the flexibility to match the well spacing over time to both the FEU interior boundaries and the targeted reservoirs rather than matching the variable spacing units that differ in spacing and setback requirements solely as a result of the FEU boundary. Such accommodations will allow for more efficient and effective development since the internal setbacks required by standard spacing units will be eliminated.

13. **Exhibit C-1** through **Exhibit C-6** were prepared by me or compiled from XTO's company business records under my direct supervision.

14. The granting of this application is in the best interest of conservation, the prevention of waste, the protection of correlative rights, and will avoid the drilling of unnecessary wells.

15. I hereby swear that to the best of my knowledge and belief, all of the matters set forth herein and in the exhibits are true, correct, and accurate.

[Remainder of page left intentionally blank]

FURTHER AFFIANT SAYETH NOT.

Dated this 8 day of September, 2026.

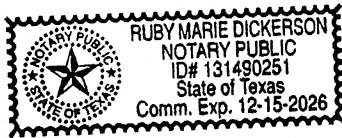

Nathaniel Ball
XTO Energy, Inc.

nathaniel.ball@exxonmobil.com

PROFESSIONAL PROFILE

- Petroleum geoscientist with 17 years of experience across conventional & unconventional E&P assets
- Expert in the integration of technical data into unified subsurface models across multiple scales
- Proven multi-disciplinary team leader with an emphasis on clear communication & strategic planning

SKILLS

- Regional petroleum systems characterization & generation of corporate-level strategies to balance exploration, portfolio maturation, & asset development activities
- Interpretation of geological, geophysical, petrophysical, & engineering data & creation of reservoir models for asset development
- Unconventional asset life cycle optimization including acquisition, prospect generation, appraisal design & execution, development program planning & implementation, P&A evaluation, & divestiture

RELEVANT WORK EXPERIENCE**ExxonMobil Corporation, Spring, TX****7/2024 – current**

- *Subsurface Manager, Delaware Basin North* – Responsible for strategy & execution on 160,000 acre operated position in the northern Delaware Basin (Big Eddy, James Ranch, Nash, & Remuda units). Led a multi-disciplinary team through subsurface characterization, development planning, & optimization of 70+ wells per year capital program with 100,000 bopd production.

Pioneer Natural Resources, Irving, TX**11/2011 – 7/2024**

- *Regional Geoscience Manager, Strategic Planning & Field Development* – Directed teams through subsurface & economic analyses across a variety of scales, geologic units, & basins. Notable accomplishments included L48 basin entry screening & A&D evaluations, greater Permian prospect generation & capture, Midland Basin appraisal programs (Barnett-Woodford, Clearfork, & Dean), management of Permian water disposal & seismicity risk, re-establishment of expertise in quantitative seismic interpretation, & integration of novel SCAL techniques with in-house petrophysical models.
- *Sr. Geoscience Coordinator, South Texas Asset Team* – Led final development & subsurface divestiture activities of Pioneer's South Texas assets that doubled daily production via 2 drilling campaigns. Managed daily operations, reporting functions, & JV partner relationships.
- *Staff Geologist, Corporate Geoscience* – Provided regional stratigraphic interpretations, volumetric estimations, & targeting recommendations for Midland Basin Wolfcamp D appraisal program.
- *Sr. Geologist, South Texas Asset Team* – Created a 3D reservoir model & proposed waterflood program for the Sinor Nest Field (≈9MMBO incremental field EUR). Planned & drilled Eagle Ford development wells in Live Oak, Karnes, & DeWitt counties. Completed performance analyses to provide new spacing, targeting, completion design, & dry gas acreage acquisition recommendations.
- *Geologist II, Corporate Engineering* – Generated 3D reservoir models of the Eagle Ford across 6 counties utilizing seismic, well logs, geosteering models, PVT, & well performance data. Calculated GIIP/RF & modeled hydraulic fracture stimulations to support appraisal & down-spacing programs.

Nexen Petroleum USA, Plano, TX**5/2009 - 11/2011**

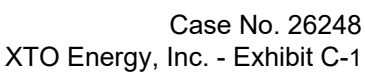

- *Early-Career Geoscientist (rotational)* – Matured MC 886 exploration prospect that resulted in winning bid & WI farm-out. Performed petrophysical analyses on GoM shelf assets & identified 5 re-completion candidates. Constructed a reservoir model for the EI 257/258 Field & proposed 3 infill producers.

Jones Energy, Austin, TX**5/2007 - 8/2007**

- *Geology Intern* – Mapped Granite Wash reservoir intervals at Buffalo Wallow Field, Hemphill County, TX.

EDUCATION**B.S. & M.S., Geology – Baylor University, Waco, TX****8/2006, 5/2009**

Significant Factors for Comprehensive Development Plan

- Surface Considerations
 - Federal lease NSOs, stipulations, and timing restrictions
 - Fee/State restrictions
 - Potash mines and activity
 - Topography
 - Archaeological sites
 - Wildlife habitats
- Regulatory Issues
 - BLM Permitting
 - OCD Permitting
 - SLO Permitting
 - Protested NSP timelines
 - Commingling delays from NSP process
- Industry Issues
 - Drilling rig and completion crew availability
 - Supply chain logistics
 - Weather
 - Integrated schedule management across greater Permian Basin
- Lease and Unit Issues
 - Primary term lease expirations (SLO/BLM/Fee)
 - Assigned acreage drilling commitments
 - Existing horizontal and vertical wellbores
 - Maximum development of the Unit, including boundaries

Re: Application of XTO Energy Inc., for Approval of Comprehensive Spacing within the Big Eddy Federal Exploratory Unit, Eddy and Lea Counties, New Mexico (Case No. 26248).

Dear Interest Owners:

This letter is to advise you that XTO Energy, Inc. ("XTO") has filed the enclosed application, Case No. 26248, with the New Mexico Oil Conservation Division for Approval of Comprehensive Spacing within the Big Eddy Federal Exploratory Unit, Eddy and Lea Counties, New Mexico.

In Case No. 26248, XTO seeks an Order from the Division approving certain spacing accommodations within the Big Eddy Federal Exploratory Unit, Serial Number NMNM105467880 (Legacy Serial No. NMNM068294X), located in Eddy and Lea Counties, New Mexico, more particularly described on **Exhibit A-1**, including the pools identified on **Exhibit A-2** and depicted on **Exhibit B** and **Exhibit C** contained within the enclosed Application.

A hearing has been requested before a Division Examiner on August 6, 2026, and the status of the hearing can be monitored through the Division's website. Division hearings will commence at 8:30 a.m. Mountain Standard Time, and will be conducted in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Chino Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87505 and via the Microsoft Teams virtual meeting platform. To view the hearing docket and to determine how to participate in the electronic hearing, visit the Division's website at: <https://www.emnrd.nm.gov/ocd/hearing-info/> or call (505) 476-3441.

You are being notified as an interest owner and are not required to attend this hearing, but as an owner of an interest that may be affected by this application, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from contesting the matter at a later date.

Parties appearing in cases who intend to present evidence are required by Division Rule 19.15.4.13.B NMAC to file a Prehearing Statement at least four business days in advance of a

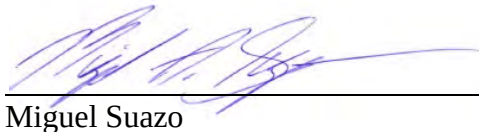

BEATTY & WOZNIAK, P.C.

July 15, 2026
Case No. 26248

scheduled hearing, but in no event later than 5 p.m. mountain time on the Thursday preceding the scheduled hearing date. This statement must be submitted through the OCD E-Permitting system (<https://wwwapps.emnrd.nm.gov/oed/oedpermitting/>) or via e-mail to oed.hearings@emnrd.nm.gov should include: the names of the parties and their attorneys; a concise statement of the case; the names of all witnesses the party will call to testify at the hearing; the approximate time the party will need to present its case; and identification of any procedural matters that are to be resolved prior to the hearing. The statement must also be provided to the attorney for the applicant, Miguel Suazo at msuazo@bwenergylaw.com.

If you have any questions about this matter, please contact Aaron Norwood at aaron.norwood@exxonmobil.com.

Sincerely,

Miguel Suazo

Attorney for XTO Permian Operating, LLC

Copy of Publication:**LEGAL NOTICE
JULY 15, 2026****STATE OF NEW MEXICO ENERGY, MINERALS, AND
NATURAL RESOURCES DEPARTMENT OIL CONSERVA-
TION DIVISION, SANTA FE, NEW MEXICO**

The State of New Mexico, Energy, Minerals, and Natural Resources Department, Oil Conservation Division (hereinafter "Division") hereby gives notice that the Division will hold public hearings to set a leasing schedule on the following map:

The hearing will be conducted on Thursday, August 6, 2026, beginning at 9:00 A.M. MST in a hybrid fashion, both in-person at the Energy, Minerals, Natural Resources Department, Wendell Carter Building, Pecos Hall, 1220 South St. Francis Drive, 1st Floor, Santa Fe, NM 87503 and via the Microsoft Teams meeting platform. To view the hearing docket and to determine how to participate in the electronic hearing, visit the Division website at <https://www.enr.state.nm.gov/hearing-info/> or contact Frayra Pacheco at Frayra.Pacheco@state.nm.gov. Documents filed in the case may also be viewed at <https://eod.casefiles.com/cases/16294>. If you are an individual with a disability who needs a reader, amplifier, qualified sign language interpreter, or other form of auxiliary aid or service to attend or participate in the hearing, contact Frayra Pacheco or the New Mexico Relay Network at 1-800-433-1779, no later than July 30, 2026.

STATE OF NEW MEXICO, TO:
All interest parties and persons
Having any right, title, interest

CASE NO. 26248: Application of XTO Energy Inc., for Approval of Comprehensive Spacing within the Big Eddy Federal Exploratory Unit, Eddy and Lea Counties, New Mexico. Applicant in the above-styled cause seeks an order from the Division approving certain spacing accommodations within the Big Eddy Federal Exploratory Unit, Serial Number NMNM105467880, Legacy Serial No. NMNM068294X, located in Eddy and Lea Counties, New Mexico. The Big Eddy Federal Exploratory Unit, containing approximately 133,444.29 acres, more or less, is comprised of the following lands: the S/2 of Section 27, E/2 of Section 33, and all of Sections 34-35, Township 19 South, Range 31 East, N.M.P.M.; all of Sections 25-27 and 34-36, Township 20 South, Range 30 East, N.M.P.M.; all of Sections 2-36, Township 20 South, Range 31 East, N.M.P.M.; all of Section 7, W/2W/2 of Section 8, all of Sections 17-21, S/2S/2 of Section 27, and all of Sections 28-34, Township 20 South, Range 32 East, N.M.P.M.; all of Sections 3-36, Township 21 South, Range 28 East, N.M.P.M.; all of Sections 1-3 and 7-36, Township 21 South, Range 29 East, N.M.P.M.; all of Sections 1-12, 14-23, and 28-30, and the N/2 of Section 27, Township 21 South, Range 30 East, N.M.P.M.; Lots 1-16 of Section 3, and all of Sections 4-9, Township 21 South, Range 31 East, N.M.P.M.; all of Sections 1-5, the N/2, SE/4 of Section 6, the E/2, E/2W/2 of Section 8, all of Sections 9-14, the N/2N/2 of Section 17, the E/2NE/4 of Section 22, and all of Sections 23-25, Township 22 South, Range 28 East, N.M.P.M.; all of Sections 2-10, 15-22, 27-30, and 32-34, the E/2 of Sections 31, and the W/2, W/2SE/4 of Section 35, Township 22 South, Range 29 East, N.M.P.M.; and all of Section 2, the N/2, N/2S/2, SE/4SW/4, S/2SE/4 of Section 3, and the N/2, N/2SE/4 of Section 4, Township 23 South, Range 29 East, N.M.P.M. The application concerns the Bone Spring and Wolfcamp formations underlying the Big Eddy Federal Exploratory Unit, and the associated pools contained therein. Applicant seeks an order from the Division: (1) allowing horizontal spacing units within the Big Eddy Federal Exploratory Unit to be composed of one or more contiguous tracts consisting of governmental quarter-quarter-quarter sections or equivalents that align with the irregular boundaries of the Big Eddy Federal Exploratory Unit, without the need for separate non-standard horizontal spacing unit applications; and (2) authorizing the completed intervals of horizontal wells within the Big Eddy Federal Exploratory Unit to be located without separate unorthodox well location approval, provided that no portion of any completed interval is closer to the applicable boundary than allowed by any governing special pool rule, Division order, or 1915.16.15 NMAC. The lands are in Eddy and Lea Counties, New Mexico, located approximately 5.5 miles east of Carlsbad and 36 miles southwest of Hobbs.

CASE NO. 26248: Application of XTO Energy Inc., for Approval of Comprehensive Spacing within the Big Eddy Federal Exploratory Unit, Eddy and Lea Counties, New Mexico. Applicant in the above-styled cause seeks an order from the Division approving certain spacing accommodations within the Big Eddy Federal Exploratory Unit, Serial Number NMNM105467880, Legacy Serial No. NMNM068294X, located in Eddy and Lea Counties, New Mexico. The Big Eddy Federal Exploratory Unit, containing approximately 133,444.29 acres, more or less, is comprised of the following lands: the S/2 of Section 27, E/2 of Section 33, and all of Sections 34-35, Township 19 South, Range 31 East, N.M.P.M.; all of Sections 25-27 and 34-36, Township 20 South, Range 30 East, N.M.P.M.; all of Sections 2-36, Township 20 South, Range 31 East, N.M.P.M.; all of Section 7, W/2W/2 of Section 8, all of Sections 17-21, S/2S/2 of Section 27, and all of Sections 28-34, Township 20 South, Range 32 East, N.M.P.M.; all of Sections 3-36, Township 21 South, Range 28 East, N.M.P.M.; all of Sections 1-3 and 7-36, Township 21 South, Range 29 East, N.M.P.M.; all of Sections 1-12, 14-23, and 28-30, and the N/2 of Section 27, Township 21 South, Range 30 East, N.M.P.M.; Lots 1-16 of Section 3, and all of Sections 4-9, Township 21 South, Range 31 East, N.M.P.M.; all of Sections 1-5, the N/2, SE/4 of Section 6, the E/2, E/2W/2 of Section 8, all of Sections 9-14, the N/2N/2 of Section 17, the E/2NE/4 of Section 22, and all of Sections 23-25, Township 22 South, Range 28 East, N.M.P.M.; all of Sections 2-10, 15-22, 27-30, and 32-34, the E/2 of Sections 31, and the W/2, W/2SE/4 of Section 35, Township 22 South, Range 29 East, N.M.P.M.; and all of Section 2, the N/2, N/2S/2, SE/4SW/4, S/2SE/4 of Section 3, and the N/2, N/2SE/4 of Section 4, Township 23 South, Range 29 East, N.M.P.M. The application concerns the Bone Spring and Wolfcamp formations underlying the Big Eddy Federal Exploratory Unit, and the associated pools contained therein. Applicant seeks an order from the Division: (1) allowing horizontal spacing units within the Big Eddy Federal Exploratory Unit to be composed of one or more contiguous tracts consisting of governmental quarter-quarter-quarter sections or equivalents that align with the irregular boundaries of the Big Eddy Federal Exploratory Unit, without the need for separate non-standard horizontal spacing unit applications; and (2) authorizing the completed intervals of horizontal wells within the Big Eddy Federal Exploratory Unit to be located without separate unorthodox well location approval, provided that no portion of any completed interval is closer to the applicable boundary than allowed by any governing special pool rule, Division order, or 19.15.16.15 NMAC. The lands are in Eddy and Lea Counties, New Mexico, located approximately 5.5 miles east of Carlsbad and 36 miles southwest of Hobbs.
