June 22, 1955

Dear Bill:

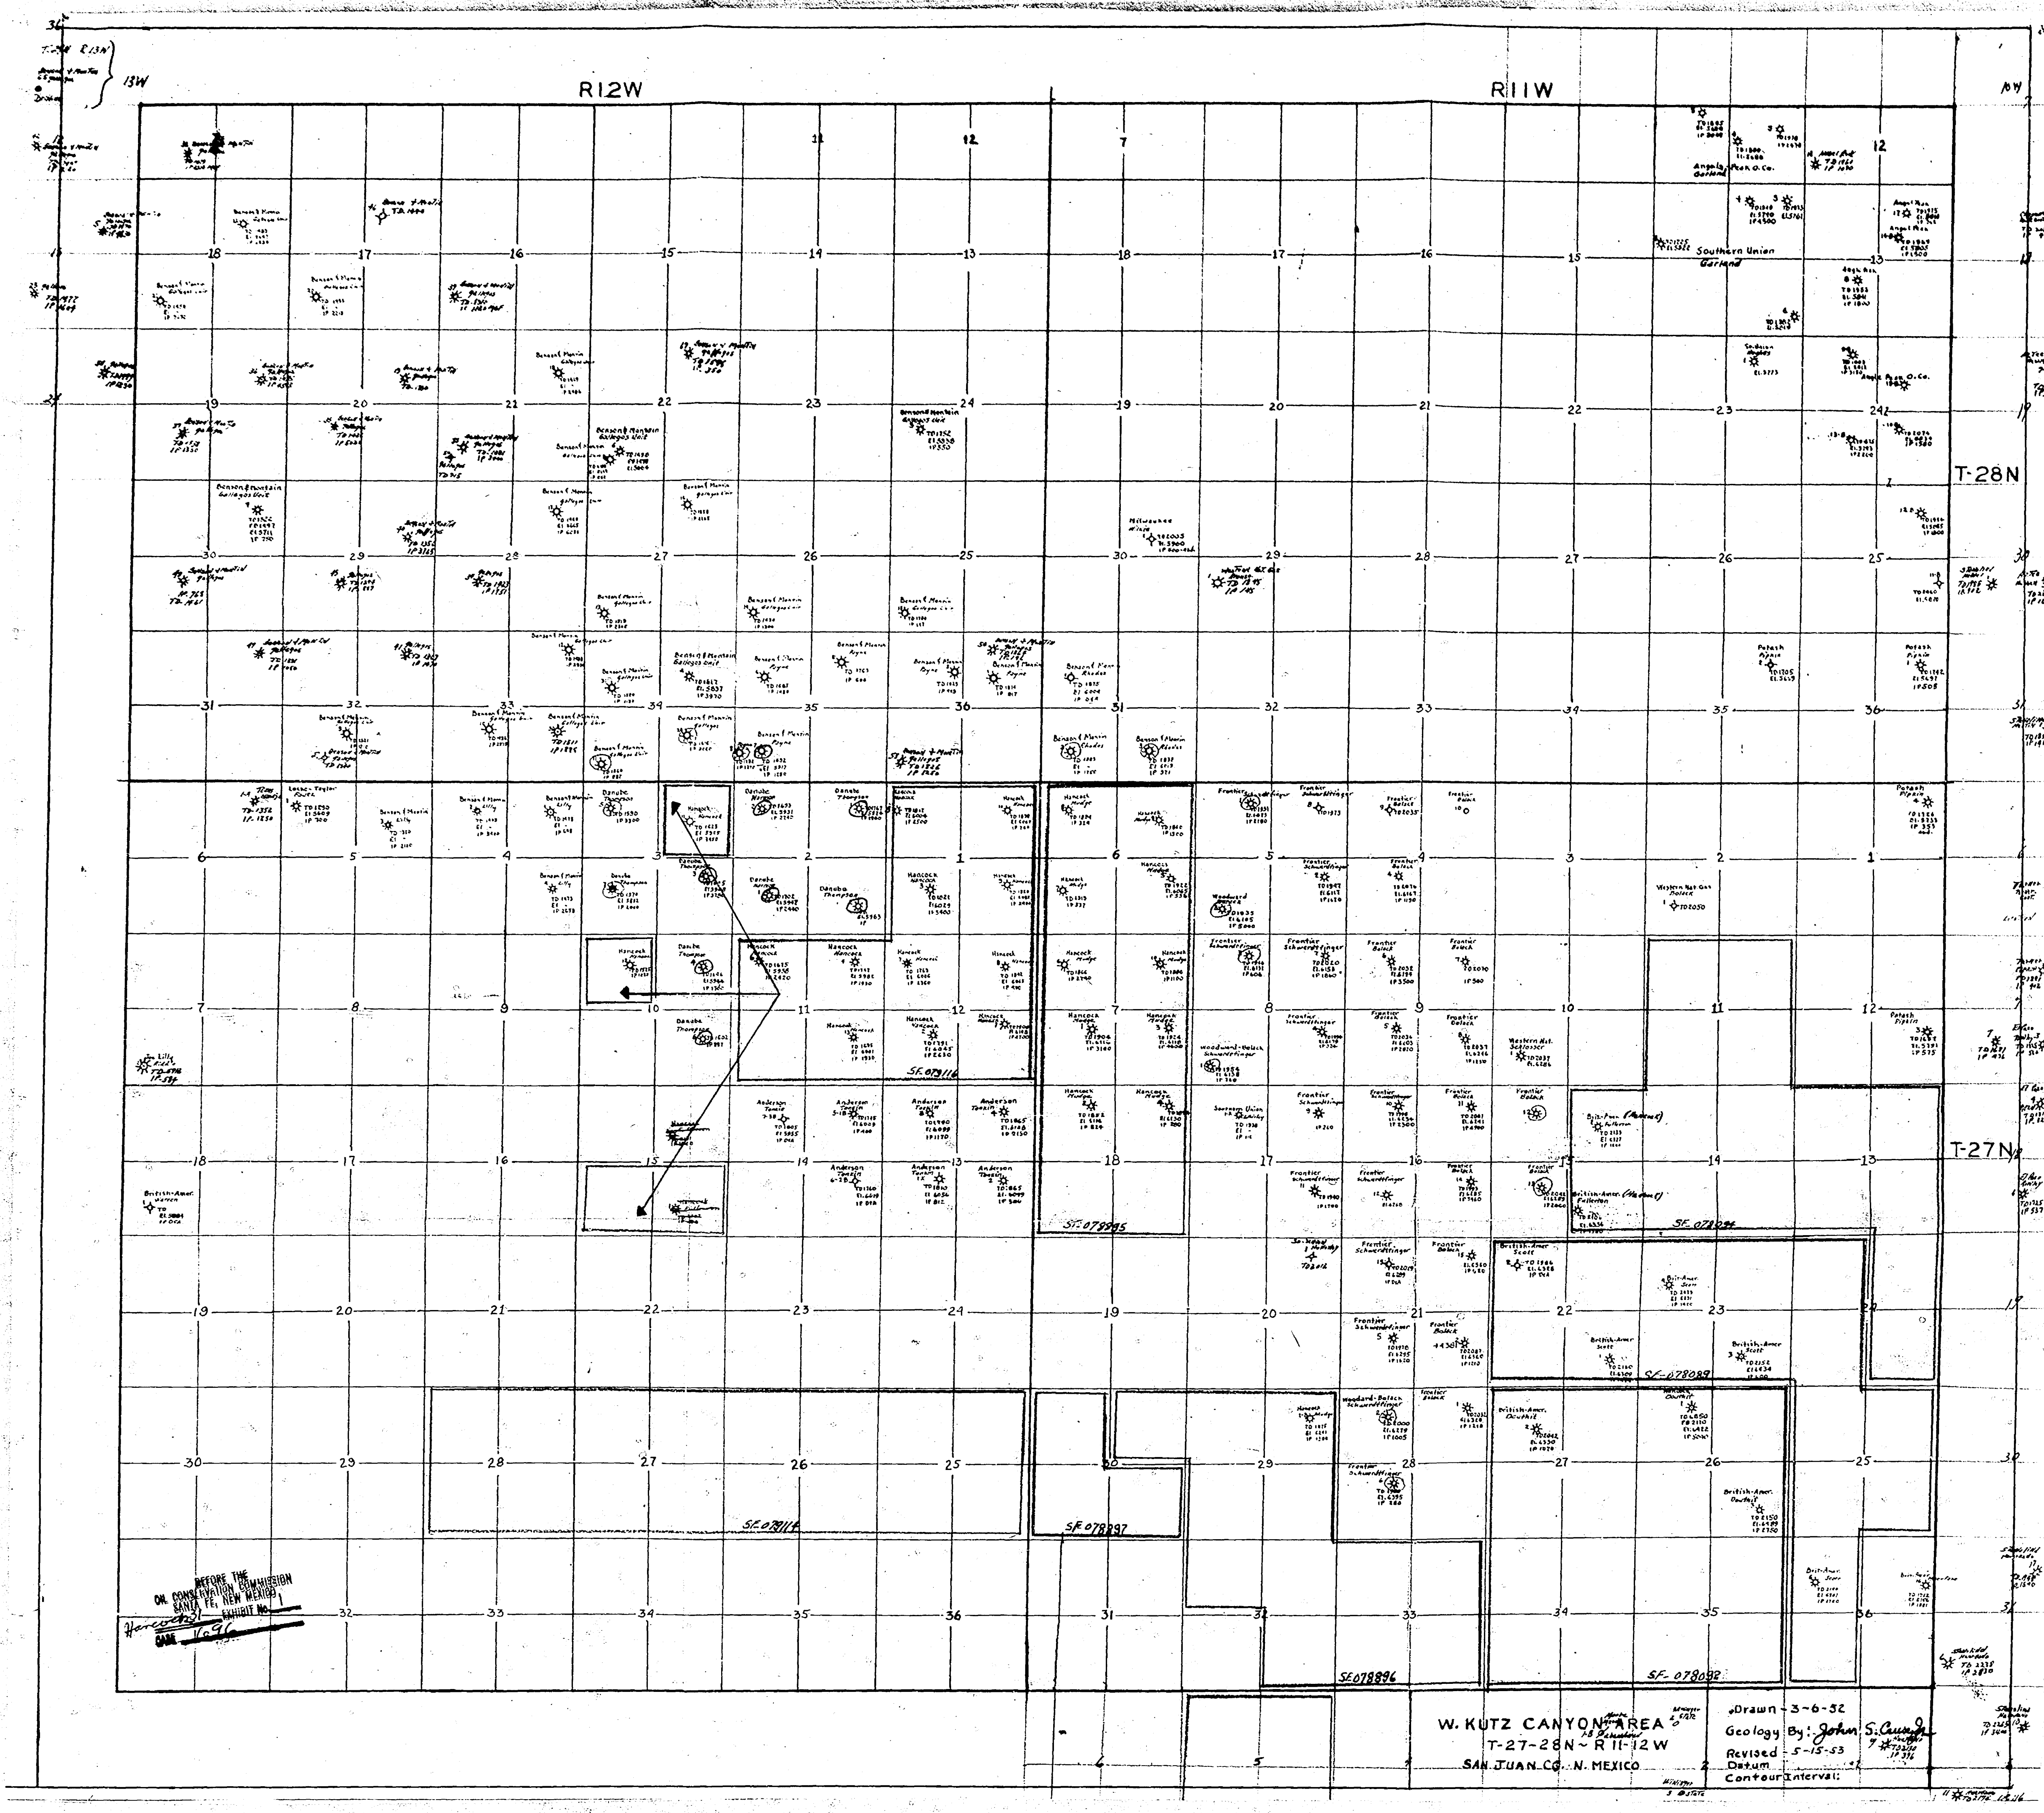

I hope you won't be too upset with me, but the transcript in Case 684 will have to be completely retyped. I don't know what happened to my typist on this one, but it was rather a difficult hearing. However, she has mispelled through. Also in checking the quotations from the previous hearing in Case 684, they weren't too well read into the record and I have checked them all which has caused the retyping of all of Mr. Smith's legal argument.

I am sure sorry, but I know you wouldn't want that transcript in your files any more than I do. It sure has been a dog all the way through, taking, typing and reading - but that is what can happen in anything as contentious as that.

See you Tuesday on sending the transcripts of the last hearing tomorrow and will bring 696 with me unless you call and want me to push it out yet this week.

Sincerely,

Ada Dearney
