Hearing

Case 661

JAN 14 1954

New Mexico Oil Conservation Commission
Santa Fe, New Mexico

Re: Request for Hearing for
Exception to Rule 7 (a)
of Commission Order No. R-370-A

Gentlemen:

Please accept this as a request for a hearing for an exception to Rule 7 (a) of the Commission's Order No. R-370-A, Eumont Gas Pool, Lea County, New Mexico.

Our N. B. Bordages Lease (Federal Lease No. Las Cruces 055715) contains 160 acres, 120 acres in NW/4 of Section 33, Township 19S, Range 37E (all of NW/4 except SW/4 of NW/4) and 40 acres in Section 28, Township 19S, Range 37E (SE/4 of NW/4). The lease has 1 gas well, the Bordages No. 1 in the NW/4 of NW/4 of Section 33. SW/4

The well, 330' from the north and west lines of Section 33, was originally completed as an oil well and was re-completed as a gas well in November, 1952 with Southern Union Gas Company taking the gas.

The well production is in the upper 25% for wells in the pool and there are no other gas wells in the NW/4 of Section 33 as noticed from the attached plat which shows all gas wells on adjoining tracts.

An attempt to unitize the SW/4 of the NW/4 of Section 33 with our 120 acres in the NW/4 of Section 33 was unsuccessful. We would appreciate it very much if this application is approved and a hearing for an unorthodox gas proration unit set for the regular hearing on February 17, 1954.

Yours very truly,

GREAT WESTERN PRODUCERS, INC.

SANTA FE, NEW MEXICO

January 4, 1954

Mr. O. H. Crows
Great Western Producers, Inc.
Fidelity Union Building
507 North Louisiana
Midland, Texas

Dear Mr. Crows:

We have studied your problem as set forth in your letter of December 11 regarding your attempts to form a unit for your Bordages No. 1 Well, NW/4 NW/4 Section 33, Township 19 South, Range 37 East, Lea County (in the Eumont Gas Pool).

It will be necessary for you to apply for hearing before the Commission as far as approval of the unorthodox gas proration unit is concerned. Your application (asking for exception to Rule 7(a) of Order No. R-370-A) should be submitted in triplicate to this office, and the case will thereupon be advertised for the regular hearing on February 17, 1954.

With regard to the other aspect of the situation, however - the unorthodox location of the well - it is possible for you to comply with requirements as set forth in Rule 4 of Order R-370-A, and if no objections are received from offset operators, approval may be granted without hearing. I enclose a marked copy of the order for your attention.

Very truly yours,

R. R. Spurrier
Secretary-Director

December 11, 1953

Mr. Dick Spurrier
OIL & GAS Commission
State Capitol
Santa Fe, New Mexico

Dear Sir:

On September 12, 1952 we requested permission on Form 9-311 A to test a gas zone (Queens) in our Bordages #1 Well, located in the NW/4 of the NW/4 Section 33, Township 19S, Range 37E, Lea County, New Mexico (Eumont Field).

This was an old well depleted as an oil producer in the Grayburg formation.

The above lease is a Federal lease, surrounded by Fee land. We were requested by the Federal Land Commissioner and the U. S. G. S. that a gas well was due this lease as an off-set to the Southern Union Gas Company well in the NE/4 of Section 33, Township 19S, Range 37E. We obtained permission to re-complete the Bordages #1 as an off-set to the above stated well. Formal application and acceptance was made, the work completed and a back pressure test sent you on the Bordages #1 December 3, 1952.

Since that time this well has been flowing into the Southern Union Gas Company lines under a pressure of 800#. The average monthly sales range from 24 to 25 MMCF.

Under the Commission orders adopted by the Oil Conservation Commission of New Mexico and that will go into effect January 1, 1954, we are enclosing a map showing the Federal unit (which does not conform to Rule 7-A in that one 40 acre parcel lies within Section 28; the other three 40 acre tracts all being contiguous in Section 33.)

We tried unsuccessfully to unitize the 40 acres in Section 28 on a trade-out with Gulf so that it would be possible to include their 40 acres, which is the SW/4 of the NW/4 of Section

Mr. Dick Spurrier - 2 -

December 11, 1953

33, Township 19S, Range 37E. However, due to the fact that this particular 40 acres was Fee Land and had a producing oil well within its boundary made unitization a very impractical solution at the time.

I made a trip to Santa Fe in January, 1953 and talked to you personally about the situation and it was my understanding that since it was a Federal lease that we had met the requirements of the U. S. G. S. and that the State Proration Commission would accept the 160 acre Federal Government lease as a proration unit.

Under the new rules, we would seem to have two inconsistencies: (1) the 160 acres do not lie within a legal quarter section; (2) and that this old well was drilled 330' from the lease line. However, the off-set to this well is in the quarter section to the east.

Would you please advise me as to what steps we should take to be able to obtain a full 160 acre proration unit.

Yours very truly,

GREAT WESTERN PRODUCERS, INC.
