Attention of Mr. W. B. Macey

- Re: A. Application for non-standard gas proration unit for the Famariss Petroleum Corporation Hill #1 well. The non-standard unit to be comprised of Lots 2, 7, and 10, of Section 4, T21S, R37E, N.M.P.M., Lea County, New Mexico.
- B. Application for recognition by the Commission of the above proposed non-standard unit as being a properly and legally communitized lease.

Gentlemen:

By this letter of application, the Famariss Petroleum Corporation wishes to state the following:

1. Reference is made to our application for nonstandard unit, dated October 13, 1954, which is on file with the Commission. The above application should be made a part hereto and a copy of such is attached.
2. Famariss Petroleum Corporation, et al, is the holder of the oil and gas lease covering Lot #10 on which lot the said Hill #1 well is located.
3. Effective December 13, 1954, the Monterey Oil Company assigned their 7/8 lease covering Lots 2, 7, to Famariss Petroleum Corporation, et al. A copy of this assignment is attached.

New Mexico Oil Conservation Commission

4. Prior to December 1, 1954, Lots 2 and 7 were held under lease by the Fullerton Oil Company of Pasadena, California. Effective December 1, 1954, Monterey Oil Company of Los Angeles, California purchased the lease covering Lots 2 and 7.
5. Since the time of the application; No. 1 above, it has come to our attention that the lease held by the Fullerton Oil Company (now Monterey Oil Company) did not have a "pooling clause" as to gas production and the production of fluid incidental to the production of gas.

As operator of this proposed gas unit, we have assumed the responsibility of obtaining approval from the various lease-hold interests to pool all of the acreage in the proposed gas unit for the purpose of producing gas and incidental fluids from the well located in Lot #10 of the application.

We have been successful in obtaining this agreement from the various interests with the following exceptions:

respectfully request the following:
- A. That the non-standard gas proration unit be approved.
 - B. That the Commission recognize the proposed unit as
being a properly and legally communitized lease.

action at the January, 1955 hearing.

unit for the Famariss Petroleum Corporation
Hill #1, Lea County, New Mexico

By this letter of application Famariss Petroleum Corporation wishes to state the following:

- (a) That the Famariss Petroleum Corporation, D. C. Hill #1 is located in Lot #10, of Section 4, Township 21 South, Range 37 East, 3300 F.N.L. and 1730 F.E.L. of the described section and was completed at a total depth of 6155' producing from perforations from 5630-5780; and 5800-5870.
- (b) That the location was moved 250 feet to the east from the center of the 40 acre unit of Lot #10, occasioned by topographical conditions and a pine line "right-of-way". That prior to the movement of the location from the standard gas well location requirements, Famariss Petroleum Corporation contacted the New Mexico Oil Conservation Commission and the Shell Oil Company and obtained from them permission to locate the well as above described.
- (c) Therefore, the Famariss Petroleum Corporation hereby agrees in accordance with Article No. 180 Rule 1, Sub-section 4 of the Constitution of a non-standard gas well location in the Hill #1 gas well to be completed in the 40 acre unit of Lot #10, of Section 4, Township 21 South, Range 37 East, 3300 F.N.L. and 1730 F.E.L. of the described section.

TRANSCRIPT OF PROCEEDINGS

MR. MACEY: The next case on the docket is Case 818.

MR. GIRAND: I would like to have Mr. Johnston sworn in 818.

PAUL S. JOHNSTON

having been called as a witness, having been first duly sworn,
testified as follows:

DIRECT EXAMINATION

By MR. GIRAND:

Q You are the same Paul Johnston that just testified in Case
Number 817?

A I am.

Q And as Vice President of the Famariss Petroleum Corporation?

A Yes, sir.

Q In Case Number 817, you have testified that the working in-
terest under the unit south in that case was held by the Famariss
Petroleum Corporation and others, your associates, is that correct?

A Yes, sir.

Q In connection with the creation of that unit, have you sought to obtain the consent of all of the royalty owners as well as the working interest owners to a unit agreement?

A I have.

Q For the unit's possession of the Lots 2, 7 and 10, in Section 4, Township 21 South, Range 37 East?

A I have.

Q In that attempt, were you able to obtain the consent of the majority of the royalty owners and the working interest owners?

A Yes. We are the holder of the working interest, and we have obtained a written consent from all of the royalty owners under Lots 2, 7 and 10, with the exception of these individuals who hold an interest in the royalty under Lots 2 and 7 only: M. F. Taylor and wife, Box 573, Amarillo, Texas. Their interest is one fourth of one eighth of eight eighths. R. B. Glenn and wife, 1220 Milam, Amarillo, Texas, their interest is one fourth of one eighth of eight eighths; L. H. Puckett and wife, 2700B West Haven Circle, Amarillo, Texas, one eighth of one eighth of eight eighths.

Q Now, did you, or someone at your instigation, contact each of those three parties?

A I contacted all of them myself.

Q And what reaction did you get from them, in regards to the communitization of the acreage? Were they agreeable, or did they refuse to execute the agreement?

A They refused to execute the agreement.

Q I hand you here an instrument marked Exhibit One, in Case Number 318, and ask you if that instrument purports to be one of

the many copies of the agreement entered into by royalty owners and working interest owners.

A It is.

Q Mr. Johnston, in your working interest, you have two partners, is that correct, or two associates?

A That is correct.

Q And what two are those?

A Morris R. Antweil Oil Operator, Hobbs, New Mexico, and Jennings Drilling Company, Hobbs, New Mexico.

Q Who is the operator of the properties?

A The Famariss Petroleum Corporation.

Q Now, I notice in your application that you referred to a failure to have the signature of one Mrs. Kyte.

A That is correct.

Q Have you obtained the signature of her husband?

A Yes, we have.

Q Where is Mrs. Kyte at the present time?

A In California.

Q What is her residence in New Mexico?

A Box One, Roswell, New Mexico.

Q Do you know why her absence from the State, and her inability to be contacted prior to this hearing?

A Only in that so far as she was visiting in California and was not available when I contacted Mr. Kyte.

Q Did you receive any assurance of any kind from Mr. Kyte as to her willingness to execute the agreement?

A I did. He asked me to send him copies of this agreement, that he would forward to her for her signature.

Q Now, if the Commission enters an order and unitizes this tract, will each of the royalty owners get their proportionate part, based on their acreage as to the total acreage?

A They will.

MR. GIRAND: We would like to offer this agreement. I believe that is all.

MR. MACEY: Mr. Girand, is this agreement substantially the same agreement that you filed with the application?

MR. GIRAND: Yes.

MR. MACEY: Is the agreement just merely a copy, without any signatures?

MR. GIRAND: Yes.

MR. MACEY: Wouldn't you prefer to have this executed and --

MR. JOHNSTON: If you will check the file, I believe the copy does have the signatures on it.

MR. MACEY: I thought it might expedite your handling of the thing, if you had one with the signatures on it. Is there objection to the introduction of Exhibit One in Case 818? If not, the exhibit will be received. Mr. Kitts?

MR. KITTS: You probably stated it, but I didn't hear it. What is the interest of Mr. and Mrs. Kyte?

A One eighth of one eighth of eight eighths, under lots 2 and 7.

MR. KITTS: Do you expect to receive her approval on that soon?

A Yes, I do.

MR. KITTS: That will be forwarded to the Commission?

A Yes, sir.

MR. MACEY: Are there any other questions of the witness?

MR. REEDY: I have one question, sir.

CROSS EXAMINATION

By MR. REEDY:

Q R. B. Glenn, and L. H. Puckett, their royalty interest is in which lots?

A I couldn't hear you.

Q Which lots are the royalty interests of Glenn and Puckett?

A Two and 7, as well as Mr. Taylor.

MR. MACEY: As I understand it, there are three people who have failed to execute the agreement.

A That is correct.

Q Mr. Taylor and his wife, R. B. Glenn and wife, and L. H. Puckett and wife?

A That is right.

Q And they own the royalty under Lots 2 and 7; the well is located on Lot 10, and you are communitizing Lots 2, 7 and 10, by virtue of the agreement?

A Yes, sir. They own only that proportionate part royalty under Lots 2 and 7.

MR. MACEY: Any other questions of the witness? If not the witness may be excused. Do you have anything further?

MR. GIRAND: That is all we have.

MR. MACEY: Mr. Girand, I believe that we would appreciate receiving a suggested form of order in this particular case. I think it would help us out.

MR. GIRAND: All right, sir.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 o'clock a.m. on January 13, 1955, before the Oil Conservation Commission, hereinafter referred to as the "Commission".

NOW, on this 9th day of February, 1955, the Commission, a quorum being present, having considered the records and testimony adduced, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter hereof.

(2) That applicant, Famariss Petroleum Corporation, Morris R. Antwell and Jennings Drilling Company, are the owners of the entire working interest under oil and gas leases covering Lots 2, 7 and 10 in Section 4, Township 21 South, Range 37 East, Lea County, New Mexico, containing 120 acres of land, more or less.

(3) That the Famariss Petroleum Corporation's Hill No. 1 is a gas well producing from the Blinebry zone and is located on Lot 10 in Section 4, Township 21 South, Range 37 East, the exact location of the well being 1730 feet from the east line and 3300 feet from the north line of said section. That the well location is an unorthodox location occasioned by topographical conditions and a pipeline right-of-way which prevented the drilling of the well on an orthodox location. That the Oil Conservation Commission granted its permission to drill the well at said location prior to the commencement thereof.

(4) That the Rules of the Commission established in the Blinbry Gas Pool a uniform size for a standard proration unit of 160 contiguous acres substantially in the form of a square, being a legal quarter section, and provided further that a non-standard proration unit of different size and shape may be approved and formed after notice and hearing.

(5) That all of Lots 2, 7 and 10 in Section 4, Township 21 South, Range 37 East, are capable of producing gas from the Blinbry formation.

(6) That all of the owners of the working interest, together with all of the royalty owners, have consented to the communitization of the above-described property with the exception of the following named royalty owners owning royalty under Lots 2 and 7 in Section 4, Township 21 South, Range 37 East, to-wit:

M. F. Taylor, Box 573, Amarillo, Texas - $1/4$ of $1/8$ of $8/8$ ths;
R. B. Glenn, 1220 Millam, Amarillo, Texas - $1/4$ of $1/8$ of $8/8$ ths;
L. H. Puckett, 2700 B. Westhaven Circle, Amarillo, Tex. - $1/8$ of $1/8$ of $8/8$ ths;

(7) That unless the application is granted, applicant will be deprived of its opportunity to recover its just and equitable share of the natural gas from the Blinbry Gas Pool.

(8) No person or persons affected by the compulsory communitization who have refused to pool their interests voluntarily, nor any representative of the same, did appear at this hearing.

IT IS THEREFORE ORDERED:

(1) That the application of Famariss Petroleum Corporation for compulsory communitization of Lots 2, 7 and 10 of Section 4, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico be, and the same hereby is approved, and the same is hereby recognized as a communitized or pooled tract at all times hereafter, and that such pooling or communitization be and it is in all things confirmed.

(2) That the operator of the unit area, Famariss Petroleum Corporation, shall furnish this Commission with an executed copy of the unit operating agreement, together with any other pertinent data which the Commission may, from time to time, deem necessary in order to determine that each owner of oil and gas leasehold interests or mineral rights receives his just and equitable share of the proceeds received from the sale of the natural gas and its allied products.

Re: Application for non-standard gas

Petroleum Corp. Hill #1, Lea
County, New Mexico.

Dear Paul:

Reference is made to your application of September 13th, 1954. Due to an oversight on our part we failed to recognize the fact that the provisions of Order R-520 do not apply to your well completed in the Blinebry Pool.

We anticipate that the Blinebry Pool rules, when finally adopted in Case 727, will contain provisions which will allow us to approve your application. We therefore will hold your application pending the final order on the Blinebry Pool rules. If those rules allow us to approve your non-standard unit administratively, we will do so and assign the allowable retroactive to the date of connection.

Very truly yours,
