Order Force-Pooling

Dear Sir:

I am enclosing two Applications for force-pooling

San Juan County, New Mexico.

I would appreciate it if hearings could be scheduled
for the same day on both applications, since they involve the

Thank you.

Mr. Kay Kimbell

Dear Mr. Kimbell:

Our client, Roy L. Cook, has been advised by the New Mexico Oil Conservation Commission that you have filed an Application for an order force-pooling a 320 acre gas production unit consisting of the E/2 of Section 22, Township 29 North, Range 11 West, San Juan County, New Mexico. This matter has been set for Examiner Hearing on Wednesday, April 5, 1961.

There has never been any reluctance on the part of Mr. Cook to communitize his leasehold interest in the above described unit and Mr. Cook has never declined to pay his proportionate share of the actual cost of drilling the well. Consequently, insofar as Mr. Cook's interest is concerned, the force pooling application was unnecessary and untimely.

Mr. Cook has never been furnished with an itemization of tangible and intangible costs, supported by invoices, as a basis for his consideration for contribution to cost of the drilling of this well. The only information Mr. Cook has received is a tabulation of various figures totaling \$96,912.65, which is, of course, considerably in excess of the average cost of wells drilled in this area. It is a matter of record that the drilling of a well to approximately the same

March 31, 1961

depth at an offset location was at a cost of slightly below \$65,000.00.

Mr. Cook should not be put in a position of having to pay the expense of attending a hearing before the Oil Conservation Commission until an effort has been made to furnish him with information as to well costs, supported by invoices, which he is certainly entitled to receive.

If an effort is made, as between the parties, to agree upon well costs, properly documented, it is quite possible that a saving of the time of the Oil Conservation Commission and its staff, as well as the time and money of the parties, will be effected.

I am sure that you, as a prudent operator, would not agree, without an opportunity to review supporting evidence, to contribute to the cost of a Dakota well in this area, when that cost assumes the proportion of just under \$97,000.00.

I am sending a copy of this letter to the Commission, together with request for continuance of the April 5, hearing for thirty days, thereby affording an opportunity for you and Mr. Cook to agree on the actual cost of the well as a basis for his contribution. I am also sending the Commission a copy of the itemization of costs prepared by your office.

Very truly yours,

Signed by James E. Sperling

An undivided one-half of the minerals under
Tract C: Lots 45, 46, 47 and 48 of Tract 3,
Bloomfield Mesa Orchard Tracts (The East One-Half

Oil and Gas Lease dated October 30, 1959 between Helen Putney and Ruth Jackson as Lessors and Roy L. Cook as Lessee.

3. That reasonable efforts have been made to secure communitization of the above-described oil and gas leases.

4. That the applicants mineral ownership in the area makes it completely impractical to form a standard Dakota gas unit using acreage outside the above-described 320 acre tract. ?

5. That the approval of the subject application will neither cause waste nor impair the correlative rights and denial of the application would tend to deprive the owners in said unit to recover their just and equitable share of the hydrocarbons under the 320 acre unit.
