Re: Case No. 3176, Examiner Hearing
Docket No. 33-64, December 15,
1964, Application of TEXACO Inc.
for Triple Completion, C.C. Fristoe
"b" (NCT-2) Well No. 9, Lea County,
New Mexico.

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

TEXACO Inc. respectfully requests dismissal of Case No. 3176, Examiner Hearing Docket No. 33-64, December 15, 1964. This request is being made because no production was obtained from the Langlie Mattix Pool, which pool required examiner hearing for obtaining authorization for multiple completion with the Justis Blinebry and North Justis Tubb-Drinkard Pools. Production was obtained from the Justis Blinebry and North Justis Tubb-Drinkard Pools.

Administrative Order No. MC-1543 authorized the triple tubingless completion of C.C. Fristoe "b" (NCT-2) Well No. 9 in such a manner as to produce gas from an undesignated Paddock Pool, oil from the Blinebry formation adjacent to the Justis-Blinebry Pool and oil from the Tubb-Drinkard formation adjacent to the North Justis Tubb-Drinkard Pool through parallel strings of 2-7/8 inch casing cemented in a common well bore. Both the Paddock and Langlie Mattix Pools were non-productive and both zones have been abandoned in the same casing string. Each of the Blinebry and Tubb-Drinkard zones has been completed in separate and respective casing strings.

Yours very truly,

C. L. Whigham
Division Proration Engineer
