14 Q Mr. Gholson, for the record would you
15 please state your name, by whom you're employed, and in what
16 capacity?

17 A I am Charles Gholson with the Oil Conser-
18 vation Division. I'm a Field Representative, District 11.

19 Q Mr. Gholson, how long have you held this
20 position of Field Representative?

21 A Seven years.

22 Q Have you previously testified before the
23 Division and are your credentials a matter of record?

24 A I have not.

25 Q Mr. Gholson, would you briefly state your

1 work experience with the Division?

2 A I'm a Field Representative, working mostly
3 in the field. I do draw up many plugging programs plugging
4 operations.

5 Q Mr. Gholson, prior to working for the
6 Division did you have any other experience in the oil and gas
7 industry?

8 A Yes. I've about twenty-five years in
9 various capacities. I worked for Halliburton Oil Well
10 Cementing Company and Dowell as an oil field cementer for
11 approximately eight years.

12 Q Mr. Gholson, are you familiar with the
13 purpose of this case?

14 A Yes, sir.

15 MR. PADILLA: Mr. Examiner, is the wit-
16 ness qualified?

17 MR. STAMETS: Just a couple more questions.
18 Mr. Gholson, are you familiar with the aquifers and oil and
19 gas reservoirs in the area under study today?

20 A Yes, sir.

21 MR. STAMETS: Yes, the witness is consi-
22 dered qualified.

23 Q Mr. Gholson, would you please state the
24 purpose of Cases 6866 and 6867?

25 A The wells need to be plugged to prevent

1 waste of hydrocarbons and contamination of fresh water, and
2 these wells are located within the city limits of Bloomfield,
3 and they're all near dwellings and could be hazardous.

4 Q Mr. Gholson, have you reviewed all records
5 filed with the Commission concerning these wells?

6 A Yes, sir.

7 Q Where are these wells located?

8 A They are all within the city limits of
9 Bloomfield. One's in Section -- they're all in 29 North, 11
10 West; one's in the northeast of Section 23; one in the south-
11 west of Section 24; one in the southeast of Section 22; and
12 one in the southeast of Section 28.

13 Q Mr. Gholson, do you have the records
14 pertaining to these wells with you?

15 A I have a very scanty record on one well,
16 on the Hare well. The other three wells are unknown wells.

17 Q Have you prepared Exhibits concerning
18 these wells?

19 A Yes, sir.

20 Q Referring to what has been marked as Ex-
21 hibit One, would you please summarize what is on that exhibit
22 for the Examiner?

23 A Okay. This is the Hare and McCoy H. L.
24 Hare No. 2, located in the northeast of Section 23, and all
25 we have on this well is the spud date, July the 10th, 1932.

1 The well was completed October the 25th, '32; drilled to a
2 total depth of 802 feet. We have no casing or cementing
3 records. The initial potential was five barrels of oil and
4 five barrels of water per day. And that's what we have.

5 Q Do you have anything further on that
6 well?

7 A No, that's all I have.

8 Q Now, refer to what's been marked as Ex-
9 hibit Two, and would you summarize and explain to the Examiner
10 what that exhibit contains?

11 A This is an unknown well, located in the
12 southern -- south part of Bloomfield in Section 24, 29, 11.
13 This well is an unknown well. It flows water. The only
14 casing in it is the surface pack and it flows a fairly large
15 amount of slightly brackish water. It flows into the San
16 Juan River.

17 That's all I have on that.

18 Q Would there be any problem plugging this
19 particular well?

20 A There could be a great deal of difficulty.
21 It's been sitting there since the '30s. There could be a lot
22 of junk in the hole. It's an open hole and it's marshy.
23 We'd have to drain the area to get a rig in.

24 Q Do you have anything further on this well?

25 A No, sir.

1 Q Referring to what has been marked as Ex-
2 hibit Three, would you please summarize the contents of that
3 exhibit?

4 A This is a well -- well, this well is also
5 in a marshy area within the city limits of Bloomfield. It's
6 near a swamp. The well is sitting open, uncapped, flowing
7 nothing. I checked the area for gas and the well is not
8 making any gas or flowing any water. It's very near a home,
9 however, in their backyard, in fact, and I think it could be
10 a potential hazard.

11 And that's all I have on the well. It's
12 also an unknown well.

13 Q Now, referring to what has been marked
14 as Exhibit Four, would you please summarize that exhibit?

15 A This well is also located on the south
16 side of Bloomfield. In fact, it may be out of the city
17 limits. I'm not exactly sure where the city limits are. And
18 it's also in a backvard. It's also sitting cased open; makes
19 nothing. And I know the man -- the man whose father sup-
20 posedly drilled this well. He said it was drilled to 800
21 feet, but that's hearsay. I actually know nothing about it.

22 Q Mr. Gholson, do you know whether there
23 are any valid bonds, plugging bonds, for any of these wells?

24 A There are no bonds.

25 Q In your opinion, Mr. Gholson, could the

1 failure to plug any of these wells cause waste?

2 A Yes, very possibly could cause waste of
3 hydrocarbons. The sands could get charged up and in fact we
4 had a case of a -- a few years ago of a well in Bloomfield
5 that did blow out, and caught fire, and one of these same
6 type of wells.

7 Q Mr. Gholson, are you prepared to recom-
8 mend a plugging program at this time or would you prefer to
9 wait to the actual time of plugging before you --

10 A I would rather wait because we don't know
11 what we're going to get into when we get into these wells.

12 Q Mr. Gholson, did you prepare Exhibits
13 One, Two, Three, and Four?

14 A Yes, sir.

15 MR. PADILLA: Mr. Examiner, I offer Ex-
16 hibits One, Two, Three, and Four into evidence.

17 MR. STAMETS: These exhibits will be
18 admitted.

19 Are there any questions of the witness?

20 He may be excused.

21 Anything further in these cases?

22 They will be taken under advisement.

Re: Forced plugging of abandoned wells

Dear Ernie:

Please docket the following cases calling the operators to come forth and show cause why the following wells should not be properly plugged and abandoned:

OPERATOR	WELL	LOCATION
Hare and McCoy	H. L. Hare #2	B-23-29N-11W
Unknown	Unknown	SW/4-24-29N-11W
Unknown	Unknown	SE/4-22-29N-11W
Unknown	Unknown	SE/4-28-29N-11W

Since we don't know who drilled these last three wells and have no records on them, perhaps we could just let them for bids and plug them.

If you have any questions, please call.
