**3RF-30 - SEU 2206 - 20M FACILITY ID [fVF1828850052] Application ID: 179349**

Good afternoon Ms. White,

NMOCD has received the recommencement of operations notice for 3RF-30 - SEU 2206 - 20M FACILITY ID [fVF1828850052] Application ID: 179349. [372286] ENDURING RESOURCES, LLC should proceed the recommencement of recycling operations according to the Conditions of Approval of 09/27/2022.

- [372286] ENDURING RESOURCES, LLC must submit copies of the detailed containment inspection records for the prior three months and a report detailing the incremental fluid level test process and results through the [OCD Online](#) system using a C-147 (long form) with the "Other" box checked. "Recommencement of Operations - Incremental Fluid Level Test" should be written as the explanation of "Other." Form C-147 must be completed and include information in sections 1 General Information, 2 Recycling Facility, 3 Recycling Containment, 4 Bonding, and 10 Operator Application Certification. Section 9 Recycling Facility and/or Containment Checklist may also need to be partially completed. Operators should verify that the resumption of operations notification does not result in any changes to the recycling containment operating and maintenance plan or the closure plan. If the recommencement of operations will affect the operating and maintenance plan or closure plan, operators should check those boxes in section 9 and provide updated plans or plan addendums as attachments to the C-147.
- [372286] ENDURING RESOURCES, LLC will continue to operate, maintain, and close 3RF-30 - SEU 2206 - 20M FACILITY ID [fVF1828850052] in compliance with 19.15.34 NMAC, to include but not limited detailed inspection records, removal of trash/oil from containment, and monthly C-148 reporting (even if there is zero activity).
- A minimum of 3-feet freeboard must always be maintained in the recycling containment during operations.

Please let me know if you have any questions or concerns.

Regards,
