

**C-144 Modification request (CO PYTHON 10 15 FED COM 414 [fVV2213751422])**

Date: 5/14/2025

NMOCD,

Chevron MCBU kindly requests a modification from NMOCD to cancel the construction of the temporary reserve pit for the **CO PYTHON 10 15 FED COM 414 (414H, 415H) FACILITY ID [fVV2213751422]**, which was approved on 5/17/2022.

- Drilling with earthen reserve pits, aka open-loop drilling, requires a significant increase in fluid volume and surface disturbance compared to the alternative closed-loop (without earthen pits) drilling. In most areas there is evidence to suggest that the cost of sending drilled cuttings to a disposal facility outweighs the cost of ownership (construction, remediation, permitting, etc). There is reason to suggest that the cost of ownership in fact outweighs the cost of drilled cuttings and fluid disposal in New Mexico. While the Drilling Operations team continues to analyze this issue, I see benefit to continuing operations as we have been to benefit the rig team while protecting the environment the best we can.

Thank you for your time and support.

Best regards,

**Vera Zhongke Liu**

Form C-144  
Revised April 3, 2017

**For temporary pits, below-grade tanks, and multi-well fluid management pits**, submit to the appropriate NMOC District Office.  
**For permanent pits** submit to the Santa Fe Environmental Bureau office and provide a copy to the appropriate NMOC District Office.

Pit, Below-Grade Tank, or  
Proposed Alternative Method Permit or Closure Plan Application

Type of action: ☐ Below grade tank registration  
☐ Permit of a pit or proposed alternative method  
☐ Closure of a pit, below-grade tank, or proposed alternative method  
☒ Modification to an existing permit/or registration  
☐ Closure plan only submitted for an existing permitted or non-permitted pit, below-grade tank, or proposed alternative method

**Instructions: Please submit one application (Form C-144) per individual pit, below-grade tank or alternative request**

Please be advised that approval of this request does not relieve the operator of liability should operations result in pollution of surface water, ground water or the environment. Nor does approval relieve the operator of its responsibility to comply with any other applicable governmental authority's rules, regulations or ordinances.
