Victoria Venegas New Mexico Oil Conservation Division

Re: Rosa Recycling Containment 3RF-57 fVV2308853527 Closure Request

Dear Ms. Venegas,

LOGOS Operating, LLC respectfully submits this memo to inform the NMOCD that the Rosa Recycling containment site, associated with permit number 3RF-57, was never utilized for its intended purpose. Specifically:

- The containment permitted under 3RF-57 was never used to store or manage any produced water or oil and gas waste.
- An 80,000-gallon above-ground storage tank (AST) was placed on-site; however, it has only ever been used to store fresh water.
- No produced water or other oilfield waste has been introduced to the containment or AST at any point.

Given that the containment was never utilized in accordance with 19.15.34 NMAC standards, LOGOS Operating will not be conducting confirmation sampling prior to closure. LOGOS is hereby requesting final closure of the permit 3RF-57 currently.

Should LOGOS decide to manage, or store produced water at this location in the future, a new application will be submitted to the NMOCD for review and approval, in full compliance with applicable regulations.

Thank you for your attention to this matter. Please do not hesitate to contact us with any questions or to request additional information.

Sincerely, Vanessa Fields

Vanessa Fields
