RE: Request for Extension – Permit Renewal Application and Corrective Actions

Permit / Application No.: NM 1-50

Dear Ms. Barr,

On behalf of Blanco Real Estate Holdings (BREH), I respectfully submit this letter to request an extension of time to respond to and complete the corrective actions for the deficiencies identified in the New Mexico Oil Conservation Division's (NMOCD) denial letter referenced above. Specifically, BREH is requesting a sixty (60) day extension of the current response deadline associated with the above-referenced permit renewal application.

BREH is actively working to address each of the deficiencies noted in the denial letter. Among the items required to fully cure the noted deficiencies, the engineering-stamped plats associated with this submittal must be re-examined, updated where necessary, and certified by a licensed New Mexico Professional Land Surveyor. This independent review and certification is essential to ensure that the plats accurately reflect existing field conditions, current ownership and lease boundaries, and the engineering data of record, and that the corrected submittal will fully comply with NMOCD's requirements upon resubmission.

The requested sixty (60) day extension will allow sufficient time for the surveyor and engineer of record to complete their review, verify the technical content, affix the appropriate professional seals and certifications, and return the corrected plats to BREH for incorporation into a complete and accurate response to NMOCD. Granting this extension will help ensure that the materials submitted in response to the denial letter are technically sound, fully compliant, and avoid the need for further supplemental submittals.

BREH is committed to working cooperatively with NMOCD and to resolving all noted deficiencies in a timely manner. We sincerely appreciate NMOCD's consideration of this request and thank you for your time and attention to this matter.

Respectfully submitted,

Vanessa Fields
