FOR EXPEDITED HEARING**

In response to petitioner's motion, having come before the Director of the New Mexico Oil Conservation Division under NMAC 19.15.4.23 and NMAC 19.15.4.16, the Director finds it is reasonable and appropriate to issue a temporary stay of the December 28, 2022, injection deadline contained in Order No. R-20913-D to prevent waste, protect human health and the environment, and undue impacts on affected parties while additional reviews and evaluations occur of the well covered by Order No. R-20913-D. The effective date of this stay is December 28, 2022 and it will run through the New Mexico Oil Conservation Commission's issuance of a final order on Salt Creek's Application to Amend Order No. R-20913-D.
