

BEFORE THE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

ORDER NO. AG-N-1-B

SUPPLEMENTARY GAS PRORATION ORDER FOR THE MONTH
OF APRIL 1955

The Commission held public hearing at Santa Fe, New Mexico, on March 16, 1955, at 9 o'clock a.m., pursuant to legal notice, for the purpose of setting the allowable production of gas from the following five gas pools in San Juan and Rio Arriba Counties, New Mexico, for the month of April 1955:

Blanco Mesaverde, Aztec-Pictured Cliffs, Fulcher Kutz-Pictured Cliffs, South Blanco-Pictured Cliffs and West Kutz-Pictured Cliffs.

NOW, on this day the Commission, a quorum being present, having considered the supplementary nominations of purchasers, the capacity of producing wells, and being otherwise fully advised in the premises,

FINDS:

(1) The total nominations of purchasers of gas from the above-listed five gas pools for the month of April, 1955, is 11,190,870 MCF. The individual pool nominations, which total 11,190,870 MCF, are as follows:

Blanco Mesaverde	8,715,930 MCF
Aztec-Pictured Cliffs	358,140
Fulcher Kutz-Pictured Cliffs	478,470
South Blanco-Pictured Cliffs	1,023,910
West Kutz-Pictured Cliffs	614,420

(2) The potential producing capacity of all gas wells in the five gas pools listed above is in excess of the nominations of purchasers of gas, and in order to prevent waste and protect correlative rights, the production of gas from the above-listed five gas pools should be limited, allocated, and distributed during the month of April 1955.

(3) That all the producing gas wells, together with the expected completed or recompleted wells in the five gas pools listed above, can produce a total of 11,190,870 MCF without causing waste during the month of April, 1955, and an allocation based upon such production would be reasonable and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That for the month of April, 1955, the allowable production to be assigned the five allocated gas pools in San Juan and Rio Arriba Counties, New Mexico, be and the same hereby is as follows:

Blanco Mesaverde	8,715,930 MCF
Aztec-Pictured Cliffs	358,140

Fulcher Kutz-Pictured Cliffs	478,470
South Blanco-Pictured Cliffs	1,023,910
West Kutz-Pictured Cliffs	614,420

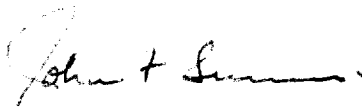

(2) That the allocation hereby set for the month of April, 1955, in the five allocated pools in San Juan and Rio Arriba Counties, New Mexico, shall be in accordance with the provisions of Orders R-128-C, R-565 and R-566, and the Commission's Rules and Regulations.

(3) A proration schedule, duly prepared by the Commission and thereafter adopted for the month of April, 1955, is hereto attached and made a part hereof; it distributes and allocates the allowable production among the gas wells in the five gas pools listed above for the period stated, in accordance with the Rules and Regulations and Orders R-128-C, R-565, and R-566.

The foregoing order shall remain effective until further order of the Commission.

DONE at Santa Fe, New Mexico, on this 27th day of March, 1955.

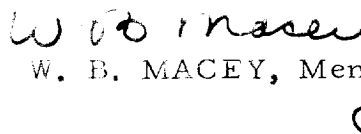

STATE OF NEW MEXICO
OIL CONSERVATION COMMISSION
