ORDER NO. AG-N-1-K

SUPPLEMENTARY GAS PRORATION ORDER FOR THE MONTH
OF JANUARY, 1956

The Commission held public hearing at Santa Fe, New Mexico, on December 14, 1955, at 9 o'clock a.m., pursuant to legal notice, for the purpose of setting the allowable production of gas from the following five gas pools in San Juan and Rio Arriba Counties, New Mexico, for the month of January, 1956.

Blanco Mesaverde, Aztec-Pictured Cliffs,
Fulcher Kutz-Pictured Cliffs, South Blanco-
Pictured Cliffs and West Kutz-Pictured Cliffs.

NOW, on this day the Commission, a quorum being present, having considered the supplementary nominations of purchasers, the capacity of producing wells, and being otherwise fully advised in the premises,

FINDS:

(1) The total nominations of purchasers of gas from the above-listed five gas pools for the month of January, 1956, is 14,185,000 MCF. The individual pool nominations, which total 14,185,000 MCF, are as follows:

Blanco Mesaverde	11,085,100 MCF
Aztec-Pictured Cliffs	686,000
Fulcher Kutz-Pictured Cliffs	766,900
South Blanco-Pictured Cliffs	1,017,000
West Kutz-Pictured Cliffs	630,000

(2) The potential producing capacity of all gas wells in the five gas pools listed above is in excess of the nominations of purchasers of gas, and in order to prevent waste and protect correlative rights, the production of gas from the above-listed five gas pools should be limited, allocated and distributed during the month of January, 1956.

(3) That all the producing gas wells, together with the expected completed or recompleted wells in the five gas pools listed above, can produce a total of 14,185,000 MCF without causing waste during the month of January, 1956, and an allocation based upon such production would be reasonable and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That for the month of January, 1956, the allowable production to be assigned the five allocated gas pools in San Juan and Rio Arriba Counties, New Mexico, be and the same hereby is as follows:

Blanco Mesaverde	11,085,100 MCF
Aztec-Pictured Cliffs	686,000
Fulcher Kutz-Pictured Cliffs	766,900
South Blanco-Pictured Cliffs	1,017,000
West Kutz-Pictured Cliffs	630,000

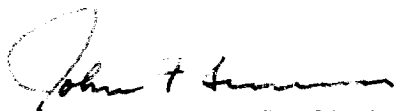

(2) That the allocation hereby set for the month of January, 1956, in the five allocated pools in San Juan and Rio Arriba Counties, New Mexico, shall be in accordance with the provisions of Orders R-128-D, R-565-C and R-566-D, and the Commission's Rules and Regulations.

(3) A proration schedule, duly prepared by the Commission and thereafter adopted for the month of January, 1956, is hereto attached and made a part hereof; it distributes and allocates the allowable production among the gas wells in the five gas pools listed above for the period stated, in accordance with the Rules and Regulations and Orders R-128-D, R-565-C, and R-566-D.

The foregoing order shall remain effective until further order of the Commission

DONE at Santa Fe, New Mexico, on this 16th day of December, 1955.
