BEFORE THE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

ORDER NO. AG-N-2-A

SUPPLEMENTARY GAS PRORATION ORDER FOR THE MONTH
OF FEBRUARY, 1956

The Commission held public hearing at Santa Fe, New Mexico, on January 19, 1956, at 9 o'clock a. m. , pursuant to legal notice, for the purpose of setting the allowable production of gas from the following five gas pools in San Juan and Rio Arriba Counties, New Mexico, for the month of February, 1956.

Blanco Mesaverde, Aztec-Pictured Cliffs,
Fulcher Kutz-Pictured Cliffs, South Blanco-
Pictured Cliffs and West Kutz-Pictured Cliffs.

NOW, on this day the Commission, a quorum being present, having considered the supplementary nominations of purchasers, the capacity of producing wells, and being otherwise fully advised in the premises,

FINDS:

(1) The total nominations of purchasers of gas from the above-listed five gas pools for the month of February, 1956, is 12,103,400 MCF. The individual pool nominations, which total 12,103,400 MCF, are as follows:

Blanco Mesaverde	9,468,100 MCF
Aztec-Pictured Cliffs	565,000
Fulcher Kutz-Pictured Cliffs	617,400
South Blanco-Pictured Cliffs	898,900
West Kutz-Pictured Cliffs	554,000

(2) The potential producing capacity of all gas wells in the five gas pools listed above is in excess of the nominations of purchasers of gas, and in order to prevent waste and protect correlative rights, the production of gas from the above-listed five gas pools should be limited, allocated and distributed during the month of February, 1956.

(3) That all the producing gas wells, together with the expected completed or recompleted wells in the five gas pools listed above, can produce a total of 12,103,400 MCF without causing waste during the month of February, 1956, and an allocation based upon such production would be reasonable and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That for the month of February, 1956, the allowable production to be assigned the five allocated gas pools in San Juan and Rio Arriba Counties, New Mexico, be and the same hereby is as follows:

Blanco Mesaverde	9,468,100 MCF
Aztec-Pictured Cliffs	565,000
Fulcher Kutz-Pictured Cliffs	617,400
South Blanco-Pictured Cliffs	898,900
West Kutz-Pictured Cliffs	554,000

(2) That the allocation hereby set for the month of February, 1956, in the five allocated pools in San Juan and Rio Arriba Counties, New Mexico, shall be in accordance with the provisions of Orders R-128-D, R-565-C and R-566-D, and the Commission's Rules and Regulations.

(3) A proration schedule, duly prepared by the Commission and thereafter adopted for the month of February, 1956, is hereto attached and made a part hereof; it distributes and allocates the allowable production among the gas wells in the five gas pools listed above for the period stated, in accordance with the Rules and Regulations and Orders R-128-D, R-565-C, and R-566-D.

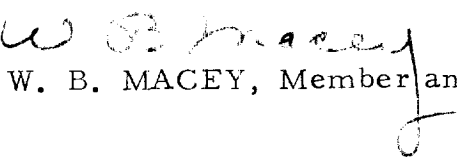

The foregoing order shall remain effective until further order of the Commission.

DONE at Santa Fe, New Mexico, on this 11 day of January, 1956.

STATE OF NEW MEXICO
OIL CONSERVATION COMMISSION
