IT IS THEREFORE ORDERED:

(1) That the Flora Vista-Mesaverde Gas Pool is hereby extended to include all of Sections 22, 23, 26, and 27, all in Township 30 North, Range 12 West, NMPM, San Juan County, New Mexico.

(2) That Special Rules and Regulations for the Flora Vista-Mesaverde Gas Pool are hereby promulgated as follows:

SPECIAL RULES AND REGULATIONS  
FOR THE FLORA VISTA-MESAVERDE GAS POOL

RULE 1: Each well completed or recompleted in the Mesaverde formation within one mile of the boundary of the Flora Vista-Mesaverde Gas Pool and not nearer to nor within the boundaries of another designated Mesaverde gas pool, shall be drilled, spaced, and produced in accordance with the special rules and regulations hereinafter set forth.

RULE 2(a): A standard gas proration unit in the Flora Vista-Mesaverde Gas Pool shall be 320-acres comprising any two contiguous quarter sections of a single governmental section, being a legal subdivision (half section) of the United States Public Lands Survey.

RULE 2(b): The Secretary-Director of the Commission shall have authority to grant an exception to Rule 2(a) without notice and hearing where an application has been filed in due form and where the unorthodox size or shape of the tract is due to a variation in the legal subdivision of the United States Public Land Survey, or where the following facts exist and the following provisions are complied with:

(1) The non-standard unit consists of contiguous quarter-quarter sections or lots.

(2) The non-standard unit lies wholly within a single governmental section.

(3) The entire non-standard unit may reasonably be presumed to be productive of gas from the Flora Vista-Mesaverde Gas Pool.

(4) The length or width of the non-standard unit does not exceed 5280 feet.

(6) In lieu of Paragraph 5 of this Rule, the applicant may furnish proof of the fact that all of the aforesaid operators were notified by registered mail of his intent to form such non-standard unit. RULE 3(a): Each well completed or recompleted in the Flora Vista-Mesaverde Gas Pool shall be located no nearer than 790 feet to the outer boundary of the unit and shall be located no nearer than 130 feet to a governmental quarter-quarter section line or subdivision inner boundary line. Further tolerance shall be allowed by the Commission only in cases of extremely rough terrain where compliance would necessarily cause an undue increase in drilling costs.
